"Consider that language a moment. 'Purposefully and materially supported hostilities against the United States' is in the eye of the beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections,

the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

That's the problem and the major stumbling block to field unification. For Dr. Einstein held out that a physical based field theory should be sought out and not left to quantum uncertainty of how the universe primly base works. Man made coordinate systems are fine without knowing from where or what is the base essence of what the space as deduced field is composed of, but not totally satisfactory. Anomalies keep space cropping up and scientists have to keep adjusting for these unexpected events. It's like a blind man that has memorized his physical surroundings to a point he feels very comfortable until that one new or unexpected event pops up and he's lost and fumbling." -- nightbat, in one of his more lucid moments.

1060. Please help us report Mark's spews to Google

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Choose almost any thread, and then pick out one of Mark's "zzz..." or other messages. You should see something similar to what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too. We managed to get Teranews to block him, and now let's work on Google.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

"Consider that language a moment. 'Purposefully and materially supported hostilities against the United States' is in the eye of the beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections, the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

Is there an Open Season on teenagers in the Upper Peninsula?
What is the age limit? Must they be male or can Mark shoot at females, too?
How many teenagers can one "bag" during the season?
Shotguns or rifles or muzzle loaders?
Must they have horns? A Driver's license? A Learner's Permit? Is there a weight limit?
Are Yiddish kids exempt?

Apparently it is Open Season at Mark's Fantasy Land in Chassell, Michigan.

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Choose almost any thread, and then pick out one of Mark's "zzz..." or other messages. You should see something similar to what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

If you can get a licence issued under the gangrenous degeneration
that is the M6 / M3 / CB Fools' Licence Scheme without knowing
the difference between a conductor and an insulator, or a licence
under the Idiots' Licence Scheme without knowing anything about
AC circuits, just who was the Dork-First-Class responsible
for setting the syllabi?

If nothing else, such ridiculous lack of knowledge indicates that
licensees under either scheme could not be considered to be
Radio Hams by any stretch of the imagination and that those of
us who are should immediately boycott them completely.

Even if the syllabus changes, how will we be able to differentiate
between an M6 / CBer who does know the difference between
a conductor and an insulator and one who does not know the
difference?

The answer is that we won't be able to disambiguate them and that
despite the changes of syllabi that we should continue with our boycott.

Only when it becomes apparent when those with such CB type licences
cannot get any _REAL_ Radio Hams to QSO with them will the schemes
start to die.

This from the champion of thread jacking...and newsgroup abuser.

1. Thread Jacking is acceptable when I, Mark Morgan do so.
2. Thread Jacking is unacceptable when YOU do it.
3. Top posting is acceptable when I, Mark Morgan do it.
4. Top posting is unacceptable when YOU do it.
5. It is acceptable for me to be a hypocrite.
6. It is NOT acceptable for you to be a hypocrite.

30th CLIPPERTON DX CLUB HAMVENTION. This year's event will be in the Poitou-Charente area and more particularly the town of Chasseneuil du Poitou. The meeting will be held on September 19t-20th at the Campanile Poitiers-Futuroscope Hotel. For more information about forum activities

including dinners, please visit: http://www.cdxc.org/index-f.htm
ADDED NOTE: Look for the CDXC's special event station TM8CDX to be activated this year from September 6-20th. If possible, a station will be installed Saturday within the hotel. QSL Manager is Rafik, F5CQ.

4L, GEORGIA. Terje, LA3OHA, is expected to be active as 4L7OA until September. He reports that he is working in Georgia and plans to take tours in the Caucasus mountains but will operate on the HF bands during his time there. He welcomes any QSOs with either English, Norwegian or Scandinavian radio amateurs. QSL direct to 4L7OA: Terje Hovde, P.O. Box 58, 0102 Tbilisi Republic of Georgia.

4W, TIMOR-LESTE. Mike, PA5M, is now active from here as 4W6AAB for about 5 weeks. Activity will be limited to his spare time. Using only a 100 watts and a vertical, he was heard on 20 meters around 14047 kHz between 0530-0615z this past Sunday. His QSL Manager is PA7FM.

8Q, MALDIVES. Hideki, JA2IVK will be active as 8Q7SH between July 18-20th. Activity will be on 80-10 meters CW/SSB using an FT-897 (w/100 watts) into an HF7V. Suggested frequencies are:
CW - 3505, 7004, 10104, 14024, 18074, 21024, 24894 and 28024 kHz
SSB - 3795, 7065, 14195, 18145, 21295, 24945 and 28495 kHz
QSL via JA2IVK, by the bureau or direct to his QRZ.com address.

9G, GHANA. Stefan, DL5XX, will be on a business trip in Ghana and plans to be active during his free time as 9G5MM between July 15th and August 10th. Activity will be on all bands CW. QSL via DL5XX. More info is available at: http://www.rrdxa.eu/9g5mm

9A, CROATIA. Zik, VE3ZIK/DO7ZZ, will once again be active from here with the callsign 9A/VE3ZIK between July 23rd and August 23rd. Activity will be on the HF bands only, CW, SSB, RTTY, PSK31, PSK63 and 10m FM if there are some CONDX. There is a chance to be active for one day from Bosnia-Herzegovina with the callsign E7/VE3ZIK (July 27th or 28th). QSL via DO7ZZ, bureau prefered. QSL request at: zik@tiscali.de
All logs will be uploaded into: http://www.qslnet.de/ve3zik

AN8, CANARY ISLANDS. A group of Spanish and German operators will be active as AN8L from Lobos Island (AF-004) during the RSGB IOTA Contest (July 26-27th) as a Multi-Op/High-Power/DXpedition entry. Operators mentioned are: EA8AUW, EA8BGO, EC8AMI, EC8ADW, DH1TW, DL5RMH, EC4DX, EC4JD, EA4DRV, EA4TD, EA4ATA, EA5FX, EA5KM and EA5AER at the moments. Their Web site is at: http://www.islotedelobos.com
QSL via EC8AMI, by the Bureau or direct.

ATTENTION JCC COLLECTORS. Individuals who are interested in collecting Japanese cities for the JCC award (Japan Cities-Century Award) will be very interested and happy to hear that the very rare JCC 4614 will be on the air August 9-11th. OPDX was informed that Koh, JH3LBD, will be active from Nishinoomote City during this time. This is also IOTA AS-032. Koh is expected to be on 7021 kHz at 1100z each day. For more details on the JCC, see the following Web pages:

http://ua0sn.irk.ru/en/jcclist.html
http://www.jarl.or.jp/English/4_Library/A-4-2_Awards/Award_Main.htm

C6, BAHAMAS (IOTA Ops). Operators Pete/W2GJ, Ed/K3IXD and Dallas/W3PP will be active as C6APR from Crooked Island (NA-113), Bahamas, as a Multi-Operation/DXpediton entry in the RSGB IOTA contest (July 26-27th). Before and after the contest C6APR (between July 25-28th) will be on 80-10 meters including the 30/17/12m, on CW and SSB. Also before and after the IOTA Contest the callsign C6AXD will be used on 6m and HF RTTY. Both callsigns are good for Bird Rock Lighthouse (ARLHS BAH-005, TWLHD WLHC6-002, WLOTA LH-0118, Admiralty J4792) as well as IOTA NA-113 and Grid Locater FL22tt. All QSLs go to K3IXD, direct with SASE or SAE with 1 USD or 1 new IRC; or via bureau.

C9, MOZAMBIQUE (Update/Reminder). Just a reminder that Frosty's, K5LBU, team will be active this week from Mozambique. They should be on the air starting the night of July 16th through the 30th. They will have 2 complete stations; one for CW and one for SSB. The updated C9 team now consists of the following operators:
Charles F. Frost (Frosty) K5LBU - C91CF, QSL via home callsign.
Tom Kramer NQ7R - C91TK, QSL via home callsign.
Jay Sewell W5SL - C91SL, QSL via home callsign.
John Plenderleith 9M6XRO - C91XO*, QSL via M3SDE.
Bill Dzurilla NZ5N - C91BD, QSL via WA4WTG.
Hal Lund ZS6WB - pending*, QSL via M3SDE only
Bob Novak K0OK - C91OK*, QSL via home callsign.
Ben Pyfer DJ0YI - C91YI*, QSL via home callsign.
* Callsign pending
Activity will be on all bands from 160-6 this trip. They will have a log search on the Web some time after their operations start at:
http://www.tdxs.net/C9.html

CU1, AZORES. Operators Arlindo/CT1EGW, Luis/CT1EEQ, Herm/CT3FN (HB9CRV), Tony/CU2HJA, Antonio/CU8AS, Lutz/DL9DAN and Rudi/HB9CQL will be active as CU1F from the Goncalo Velho Lighthouse (DFP FAZ-013, ARLHS AZO-009, WLOTA LH-2978, Admiralty D2632) on Santa Maria Island (EU-003, DIP AZ-001) between July 21st and August 1st. Activity will be on 80-6 meters using CW, SSB, RTTY and PSK31. They will also be on 6 meters using the callsign CU1B. Look for a beacon on 50.113 MHz. In case of openings, SMS reports can be sent to a cellular telephone. Number will be communicated after arrival on Santa Maria. The group will also participate in the RSGB IOTA Contest (July 26-27th) as CU1T, as a Multi-Single/24hr entry. QSL CU1F and CU1T via CT1GFK, direct or by the bureau. More information is available at:
http://www.to-mk.com/azores/presentation/index.php

CY0, SABLE ISLAND (Update). The 6 meter DXpedition to Sable Island did not go QRT as expected on July 7th due to fog which prevented their airplane from landing. This actually made many DXers happy which gave them four more days of working them on 6 meters. Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP did not leave the island until July 12th. Their Web site reports that almost 4,000 QSOs in 60 DXCC entities are

in the log for 6 meters. QSL via VE3IKV (please include two green stamps). For details/updates, visit their Web page at: http://www.cy0x.com

E51, SOUTH COOK ISLANDS. Bill, N7OU, informs OPDX that he will again be operating from Rarotonga as E51NOU between September 15th and October 11th. Activity will be on 40-10 meters using low power and CW only. Bill states, "For most of my stay I'll be operating around a work schedule, but I'll make a special effort to be on at grayline times to Europe." QSL via N7OU.

EP, IRAN. Yuki, JH1NBN, is currently active as EP3BN. The length of his stay is unknown. He was heard on 20 meters SSB this past week between 1330-1600z. QSL via his home callsign.

FH, MAYOTTE. Remember that Alain, F6BFH, will be active as FH/F6BFH from now until August 9th. Activity will be on all bands, CW and SSB, but he will pay particular attention to the lower bands.

FRENCH SUB-ANTARCTIC ISLANDS (Attention DXpeditioners). According to Mehdi, F5PFP (FT5ZH), you may be able to activate FT5X, FT5W and FT5Z. He states (edited), "... it is possible to accompany the French staff members to Crozet (FT5W), Kerguelen (FT5X) and Amsterdam (FT5Z) Islands, 4 times per year. The oceanographic and supply ship 'Marion Dufresne' (110 meters long, 110 passengers + 35 crew members) is used to take 10-20 tourists. Each archipelago is supplied and visited (3 to 8 days per island). An amateur radio license can be issued by TAAF administration to any citizen belonging to one of the CEPT countries. They are allowed to operate under FT5X, FT5W, FT5Z /(own callsign) without submiting any request. That trip costs 6500 Euros, of course it is expensive but it's a trip to paradise....flying over Amsterdam and Kerguelen by helicopter is unforgetable, beleive me..... Next rotations, from Reunion Island, then returning back to Reunion Island are: November 3th to December 1st (2008) and December 3th to December 31th (2008). The 2009 calendar will be soon available."

GI, NORTHERN IRELAND (IOTA/Lighthouse Op). A group of Irish operators will be active as GI0MPG from Rathlin Island (EU-122) in the upcoming IOTA Contest (July 26-27th). Operations will be from the Rathlin East Lighthouse (ARLHS NTI-011). Operators mentioned are: Declan/EI9HQ, Joe/EI7GY/GI0MPG, Sean/EI4GK, Pete/EI4GZB and Peter/GI4VIV. QSL direct or by the Bureau to GI0MPG.

Scotia, July 24-30th. Grid Square FN73dk. Activity will be on
80-6 meters during non-contest operation. The group plans to
be in the RSGB IOTA Contest (July 26-27th) as a DXpedition
entry. QSL via VE1RGB, For direct QSLs, please enclose TWO
"green stamps". All others will go via the bureau.

NA-168. Members of the Delta DX Association and the Texas DX Society
will put Grand Isle, Louisiana, on the air as N5I from July
25-27th. The operation will include the RSGB IOTA Contest
(July 26-27th). Activity will be on the usual IOTA frequencies
on 40-10 meters using CW, SSB and possibly Digital. They will
have two Yaesu rigs and a Steppir 2 element beam and a Big
Steppir IR Vertical. Operators mentioned are: N5UR, W5KFX,
K5PP, N5ET and W5ZPA. QSLs for N5I go via N5UR, CBA with SASE,
IRC, or via the bureau. For more details and updates, check
the Web page at: http://www.deltadx.net/N5I.htm

Buzz, N5UR, states, "Hurricanes not welcome."

OC-143. Adhi (Bimbo), YB3MM, will be active as YB3MM/5 from Sumatra Island, Indonesia, during the RSGB IOTA Contest (July 26-27th) as a Single-Op/Single-Band (15m)/Mixed-Mode entry. QSL via the LoTW. QSLs are also "OK" via IZ8CCW, by the Bureau or direct.

J49, CRETE. Members of the Cretan Amateur DX Team are planing to participate in RSGB IOTA CONTEST (July 26-27th) from the Eastern Part of Crete Island (Grid Loc. KM35DH - "cape SIDERO" - IOTA EU-015) using the special callsign J49A. QSL via SV9GPV.

J49, CRETE. An Italian team will be active as J49W from here between November 26th and December 1st. Look for activity before and during the CQ WW CW Contest on 160-10 meters, mainly CW.

JW, SVALBARD. Stefan, ON6TI, will be active as JW/ON6TI between July 15-20th. Activity will be limited to part-time, mostly evening. His bands/modes of operations were not provided. QSL via ON6TI.

KG6/KI6, UNITED STATES. Operators John/KG6QJJ and Kevin/KI6OCK will be active from several locations on Mt. Lassen in California, August 1-7th. Climbing the mountain, the duo plan to be active on 80-10 meters SSB. The equipment that is expected to be used are: ICOM Portable HF Radios, Cushcraft R7 Vertical (40-10m), Buddistick Antennas (40-10m Vertical), MFJ Tuners, Trap Dipole (80-40m) and a Dipole Antenna (20m). For details, visit their blog Web page at: http://dxpara.blogspot.com

LIGHTHOUSE/LIGHTSHIP ACTIVITY (ILLW - August 16-17th).....
Members of the Kungalv Radio Club (SK6NL) will once again activate 7S6LHT from Vinga Island (EU-043, ILLW SE0028, WLOTA LH-1517) during the International Lighthouse Weekend (ILLW), August 16-17th.

Look for the following Danish lighthouses to be activate during the International Lighthouse Weekend (ILLW), August 16-17th:
5P0MF/LH - From Nordborg, Isle of Als (Not IOTA). The grid locator is: JO45UC. Lighthouse reference numbers: JY-001, DK0006 and DEN-029. QSL via DH1LAO, direct (see QRZ.com) or by the DARC Bureau.
5Q3R/LH - From Romsoe Old, Romsoe Island (EU-172). The grid locator is: JO55JM. Lighthouse reference number: DK0008. QSL via OZ Bureau.

OZ0MF - From Nordborg, Isle of Als (Not IOTA), The grid locator is: JO45UC. Lighthouse reference number: DEN-029 and JY-001. QSL via DH1LAO, direct (see QRZ.com) or by the DARC Bureau.

Members of the Kerry Amateur Radio Group will be active as EI1KARG from the Cromwell Point Lighthouse (ARLHS IRE-077, ILLW IE0001, WLOTA

LH-2484), Ireland (EU-115), for the International Lighthouse/Lightship Weekend (ILLW) (August 16-17th). QSL via EI9FVB, direct or by the bureau.

Peter, MM5PSL, will be active as GB2ELH from the Eshaness Lighthouse on Shetland Islands (EU-012, ARLHS SCO-075, ILLW UK0058, TWLHD WLH GM-026, WLOTA LH-0867, Admiralty A3838) during the International Lighthouse Weekend (ILLW), August 16-17th. QSL via MM5PSL.

Operators Loet/PJ2LS, Andre/PD1DRE and Mark/PJ2GT will activate PJ2LS/LH from "Light Punt Kanon" (ARLHS NEA-009, WLOTA LH-0942, WW Loc. FK52PB) on the Island of Curacao (SA-006) during the International Lighthouse Weekend (ILLW), August 16-17th. The grid locator is: FK52PB. The light-house is solar powered, no electricity is available in the area; there-fore it will be a fully "self supporting" activation by using generator power. A special lighthouse event QSL card will be available by sending your QSL to PD1DRE. For Bureau QSLs, please write "PD1DRE QSL Region Number R23" on the backside of the card. This will allow an easier sorting of the cards by the Dutch QSL Bureau.

MAGIC BAND COMING ALIVE! John, N4MM, announced on one of the DX mailing lists that (edited) "On the evening of July 10th, I noticed stations in the midwest working JAs on 6m but could not hear the JAs. At 2247z, I heard JA7QVI come out of the noise and after several tries, I worked him. The first JA on 6m in 19 years. Hearing and working JAs from this far east and north is very difficult at best. The JA7 was the only station I heard. Hope there is more of this to come on 6m this year."

N3, UNITED STATES. Look for special event stations N3G and N3G/AM to be on the air October 18th. Activity is to commemorate the 69th anniversary of USCG Auxiliary. Suggested frequencies are: 7.0035, 14.055, 50.135 and 146.520 MHz. Look for N3G/AM to be on 6 meters between 1300-2200z on 50.135 MHz. Equipment is an IC-706MKIIG and wire antenna. QSL via N3CJM: Robin M. Begley, 3 Pancoast Ave, Aston, PA 19014-2109.

ON1708, BELGIUM. Members of the Oudenaardse Amateur Club (ON4OB), a section from the U.B.A, will use the special callsign ON1708M between July 11th and until end of the year. Activity is to commemorate the battle held in their region on July 11, 1708. This conflict is known as the War of the Spanish Succession which lasted from 1701 until 1714. QSL via ON5TN. For more details, see: http://www.qrz.com/callsign/ON1708M

PJ2, NETHERLANDS ANTILLES. Hans, PB2T, will be active as PJ2/PB2T from Curacao (SA-006) during the RSGB IOTA Contest (July 26-27th) as a Single-Op entry. QSL via PB2T.

QSL EF8U via EA4URE. This was a URE HQ station in the IARU Contest this past weekend. Operators mentioed were: EA8AH, EA8ZS, EA8BVX, EA8CMX, EA8KK, EA8CAC, EA2EA, EA5BM and possibly others.

QSL PH6Q via PA3CAL. The special callsign PH6Q was issued to PI4HQ, the HQ station off the VERON Traffic Bureau. Using this special PH6Q callsign, The Netherlands' National Society VERON was represented in this year IARU HF Championship Contest as a Multi-Multi Headquarter entry. Apart from the competition, it was an unique team effort by major contest stations from The Netherlands who normally compete with each other. In total 12 stations were on the air during the entire contest, CW and SSB simultaniously on each band. The 2008 PH6Q signals came from the following stations of PI4CC, PI4ZI, PA0IJM, PA3GCV, PI4D and PI4COM. A special PH6Q Award is available for stations working PH6Q on six (6) bands, 10/15/20/40/80/160 meter, on any mode you want. More info is available at: http://ph6q.veron.nl

LOTW NETS. Neil, W3ZQI, reports, "The first weekly 'Logbook of the World Net' (LOTW-Nets) is now in operation. Meeting each Monday evening at 2359z (i.e. Monday evening 7:59pm. EDT), this net meets on 14.270 MHz (increment +5 as required if QRM). Additional frequencies and dates are proposed. The LOTW DX and WAS nets are to help awards chasers find needed DX and WAS stations that are willing to QSL via the ARRL's 'Logbook of The World' system. This net and E-mail group are open to all amateur radio operators that are willing to QSL via LoTW. Netlogger is used (optional)." The whole purpose of the nets are: "Work those needed band/entities and have confirmations usable toward ARRL awards in hours, not months or years." Reference Web pages are:

QSLS VIA LOTW: 9X0R and JX/G7VJR

QSLS RECEIVED VIA MAIL: 9A2AJ, FO/KHOPR, OA4BHY/3, T88CQ, TC2T, UE6MAC/1, VP6PR YC7IPZ, YC8RSW/P and ZK2CC

QSLS RECEIVED VIA THE BUREAU: NONE REPORTED THIS WEEK!

SV9, CRETE (EU-015). Tomas, OK2PTZ, will be active as SV9/OK6Y during the RSGB IOTA Contest (July 26-27th). QSL via OK2PTZ.

TK, CORSICA. Nicolas, F5TGR, will be active as TK/F5TGR from Porto Vecchio, August 9-23rd. Activity will be on 40-10 meters CW/SSB. Also, look for some possible activity from some coastal islands. QSL direct or by the bureau.

V2, ANTIGUA (NA-100). A team of operators will once again activate the V26B super station at Gunthroppes, during the CQ WW DX SSB Contest (October 25-26th) as a Multi-? entry. QSL via LoTW, or direct to KA2AEV.

VK0, ANTARCTICA. Bob, VK2MRP, announced this past week that he will be active at the Antarctica Davis station during the 2008-2009 summer. He states, "I do not have my VK0 callsign yet but am hoping to have it organised in the next couple of weeks as well as a new home call (I just upgraded my licence)."

VK9C, COCOS (KEELING) ISLANDS (OC-003). The "425 DX News" is reporting that Giovanni, I5JHW, will be active as VK9CJW from here between August 22-29tht. His operation will be holiday style but with activity on 40/20/17/15/12/10 meters using SSB and RTTY. He will be using an amplifier and a multi-band vertical antenna. QSL via home callsign, direct or by the bureau.

VK9D, WILLIS ISLAND (DXpedition Update). There is a new press release (#4) dated July 10th, on the new VK9DWX Web site at: http://www.vk9dwx.de It is fairly long, but in short it states that the team plans to install 2 camps on the island with 2 stations each. There might be an additional 5th station for spare and for Pactor connection to upload the online log, pictures and news to their Web site. By the end of July, they will be sending their first pile of equipment via sea cargo. The team has decided to take 6 meters. They state, "As we don't have enough people to man a separate station on 6m, we plan to install CW Skimmer on a separate radio which is always on stand-by. If there will be any signal on the band, we will get notice of it via our network and can easily man the 6m station." They have also mentioned that they have decided to charter a second boat which will deliver some more fuel to the island, necessary for continous operation during their planned extended timeframe. The only purpose of this second boat until now is to bring fuel, fresh food, drinks and maybe needed equipment to Willis Island. As there is a place for 16 people on this boat they thought: "Why not offer a a four day trip to visit VK9DWX?" Yep, you can have a chance to see the guys operate during their October VK9DWX DXpedition. Complete details are available on the above Web page.

VK9X, CHRISTMAS ISLAND (OC-002). By the time you read this, the "DXciting Group" should be active from here until July 21st. Operators and their callsigns are as follows: Marq/CT1BWW (VK9XWW), John/EA3GHZ (VK9XHZ), Henry/EA5EOR (VK9XOR) and Dina/EC5BME (VK9XME). The group plans to have 3 stations operational (1 high-power and 2 barefoot at 100w) on 160-6 meters using CW, SSB, RTTY, PSK31 and SSTV. They plan to be on 6 meters using CW, SSB and FM. Listen to 50.115 MHz. Pilot stations for the following regions are:
Africa - ZS1AU Oceania - ZL2AL and VK2CZ
Asia - JA8BMK, North America - K4SV
Europe - EA4TD
QSL via EA4URE, direct or by the bureau. The official VK9X Web site is at: http://www.dxciting.com/vk9x

ZF2BI/ZF2ZD 6 METER DXPEDITION WRAP-UP REPORT. Mario, K2ZD (ZF2ZD), informs OPDX readers: "Summary totals from our 6M DXpedition from Grand

Cayman Island before dupes, 750 QSOs with 29 DXCC. First ZF 6M EME
contacts with W7GJ (2), W1JJ and VK4ABW. Heard JR6EXN, G4IGO and K6MYC
via 6M EME but did not complete the QSO. First ZF JT6M QSO with W5UWB
and First ZF FSK441 QSO with N5SIX. Longest Sporadic E QSO was with
Hungary at 5700 miles. Hope we gave a new one on 6 meters to many stations,
thanks for all the fun. 73, Mario ZF2ZD (K2ZD)"

ZF, CAYMAN ISLANDS. Operators Don/W4YCH (ZF2DF) and Jim/W4JO (ZF2JO)
will once again participate in the CQ WW RTTY DX Contest (September
27-28th) as ZF2DF from the ZF1A club station on Grand Cayman (NA-016).
Look for activity outside of the contest. They will be using their
own callsign. QSL all contacts via W4YCH.

ZK2, NIUE (OC-040). David, N1EMC, will be active as ZK2DF from October
24-31st. Activity will be on 40 meters, 20-6 meters. He plans to be in
the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry.
QSL via N1EMC.

ZS8, MARION ISLANDS (New Update!). There is still no activity reported.
However, Rhynhardt, ZS6DXB, ZS8T Press Officer, reports (edited), "We are
all patiently awaiting Petrus to activate ZS8T. We are not in the position
to promise any dates currently and are crossing fingers that we will be
able to bring a full report soon. For the time being, guys, please be
patient as we all await the activation of ZS8T. 73" For updates
and the first offical announcement of ZS8T being on the air, please
visit the official ZS8T Web site at: http://zs8t.net

N9OGL@HOTMAIL.COM IS A FAKE!!! This person has stolen my Identity and is using it to spam the Usenet. This same person is an amateur radio operator who runs a website called http://www.ve7kfm.com and http://nimbusters.com these site promote abusive behavior toward people they do not like, including but not limited to abusing and harassing people, setting up websites for the sole purpose of abusive behavior, having the individuals they don't like kicked off the INTERNET, reporting them to local and the federal government, including the FCC, the local police NSA and the FBI, sending letters to the local paper with frivolous information, DOS attacking them and or blocking their access through different means including Computer Virus. Have their websites removed by using the sites own flagging system against them. Meanwhile the Federal government and even their local ISP will no do anything about these individuals, instead they are allowed to do it, and is even got the government and their ISP blessing to continue to do it. SO-CALLED civil liberties groups like the ACLU and the EFF don't give a shit that these individuals along with the US GOVERNMENT AND THEIR ISP'S ARE SUPPRESSING FREE SPEECH.

Oli taas h�rski ved�tys ydinalaltamme. Eli ei antanut Kalli julkisuuteen edes sit� laajasti tunnettua faktaa, ett� h�nen mm. 60v juhlat j�rjesti, kas kummaa TVO! Olisi toimittajilta kyll� ollut minimi vaatia edes n�in r�ike�� faktaa esille.

Mutta kuten olemme saaneet tottua ydinhallinnon tekemiin r�t�s/lahjusjuttuep�ilyihin ei maassamme tietysti kukaan yksinkertaisesti uskalla kajota. Ei vaikka kyseess� oli siis juttu, joka on laajasti jo nyt paikkakunnilla tiedossa.

No toki Lipposen kaltaiset massarahavirrat ydinalalta on klassikkoja ja niin maare perusteellisen hiljaa ollaan mm. Lipposen nykyrahoittajan ydinalan lonkeroista my�s n�iss�. Sopii kysy�, ett� halutaanko totuutta ydinkorruptiomme tasoista oikeasti edes etsi�?(

A post like this is "keyclown flypaper". It attracts keyclowns and only
keyclowns. We keep you all penned up in rec.radio groups all together so
we can keep an eye on you. It is sort of like Al Quaeda and Iraq,
you know; "we fight them there so we don't have to fight them here".

If you are interested in the radio hobby I suggest you give homosexuality,
anal sex, buggery, etc. a try.

Don't knock it until you try it, it works for me.

1160. Fight Back: Report Mark's spews to Google

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Choose almost any thread, and then pick out one of Mark's "zzz..." or other messages. You should see something similar to what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

I know there Jackass on the web that said that I'm into Kiddy porn,
WHICH I NOT!! and unfortunately they apparently can't READ!!

SO READ AND LEARN

Child Pornography is defined as
TITLE 18 USC 2256

(For the purposes of this chapter, the term—
(1) “minor” means any person under the age of eighteen years;
(2)
(A) Except as provided in subparagraph (B), “sexually explicit
conduct” means actual or simulated—
(i) sexual intercourse, including genital-genital, oral-genital, anal-
genital, or oral-anal, whether between persons of the same or opposite
sex;
(ii) bestiality;
(iii) masturbation;
(iv) sadistic or masochistic abuse; or
(v) lascivious exhibition of the genitals or pubic area of any
person;
(B) For purposes of subsection 8(B) [1] of this section, “sexually
explicit conduct” means—
(i) graphic sexual intercourse, including genital-genital, oral-
genital, anal-genital, or oral-anal, whether between persons of the
same or opposite sex, or lascivious simulated sexual intercourse where
the genitals, breast, or pubic area of any person is exhibited;
(ii) graphic or lascivious simulated;
(I) bestiality;
(II) masturbation; or
(III) sadistic or masochistic abuse; or
(iii) graphic or simulated lascivious exhibition of the genitals or
pubic area of any person;
(3) “producing” means producing, directing, manufacturing, issuing,
publishing, or advertising;
(4) “organization” means a person other than an individual;
(5) “visual depiction” includes undeveloped film and videotape, and
data stored on computer disk or by electronic means which is capable
of conversion into a visual image;
(6) “computer” has the meaning given that term in section 1030 of this
title;
(7) “custody or control” includes temporary supervision over or
responsibility for a minor whether legally or illegally obtained;
(8) “child pornography” means any visual depiction, including any

photograph, film, video, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, where—
(A) the production of such visual depiction involves the use of a minor engaging in sexually explicit conduct;
(B) such visual depiction is a digital image, computer image, or computer-generated image that is, or is indistinguishable from, that of a minor engaging in sexually explicit conduct; or
(C) such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct.
(9) “identifiable minor”—
(A) means a person—
(i)
(I) who was a minor at the time the visual depiction was created, adapted, or modified; or
(II) whose image as a minor was used in creating, adapting, or modifying the visual depiction; and
(ii) who is recognizable as an actual person by the person’s face, likeness, or other distinguishing characteristic, such as a unique birthmark or other recognizable feature; and
(B) shall not be construed to require proof of the actual identity of the identifiable minor.
(10) “graphic”, when used with respect to a depiction of sexually explicit conduct, means that a viewer can observe any part of the genitals or pubic area of any depicted person or animal during any part of the time that the sexually explicit conduct is being depicted; and
(11) the term “indistinguishable” used with respect to a depiction, means virtually indistinguishable, in that the depiction is such that an ordinary person viewing the depiction would conclude that the depiction is of an actual minor engaged in sexually explicit conduct. This definition does not apply to depictions that are drawings, cartoons, sculptures, or paintings depicting minors or adults.

[1] So in original. Probably should be “(8)(B)”.

Does not matter what the fucking law says, the mental health
professional community says that anyone who enjoys photos or other
artwork that depicts a child or children in sexually oriented acts
suffers from pedophillia. Now shut the fuck up you sick bastard.

Accually yeah it does DUMB FUCK, we live in a country of law and the
law says it legal and PROECTED BY THE FIRST AMENDMENT....again shit
for brains if you feel the way you do, why don't you complain to the
US government?? As for the MHPC thinks, they don't know shit...so YOU
SIR, YOU SHUT THE FUCK UP, UNLESS YOU HAVE SOMETHING OF REAL
INTELLIGENCE TO SAY.

Can anyone explain how this newsgroup got into the sad state it is in?
Instead of discussing miscellaneous amateur radio topics, it is a place
for pointless timewasters.
Why would anyone act like this for such an extended length of time?
Maybe posting "fake" or "zzzz" is funny for a week, but this?

I am wondering the same. Where are those with a brain? Where have they
gone to? If you find out let me know; the gays, whackos, sickos, brain
dead and subhumans are the only ones I see active here ...

The law does not define pedophillia, the health professionals do,
nitwit. It is obviously that Toadie sets home and gets all sexed up
at the thought of sex and kids, and that makes him qualify for a
diagnosis of pedophila.

I don't need to complain to anyone. Just the fact that I make you
whine like a little bitch is enough. Just like Fatty, we are slowly
destroying you in court of public opinion. The more you post, the
more the information is out there that you are a sick kook who gets
all sexed up at cartoons of children getting raped, molested, and
mutilated. You are sicker than Fatty. We give you kooks enough rope
and you prove that you will hang yourselves. Ask Fatty, we have
played him a few times which resulted in him being banned from two web
sites, both of which I predicted. BTW how are your sicko blogs
doing? Not so good the last time I checked. LOL

Actually YOUR WRONG read title 18 of the USC it defines what is and isn't child porn. YOU can read right???

But seriously, if you hell bent on stopping me post the anime on sites, why aren't you attacking the other anime sites that have the same material?? You and your little friends have yet to tell me why?? BTW those who are tuning in, this ASSHOLE is basically saying that Japanese Anime is Child Porn and people who look at certain types of anime is PEDOPHILLIA...yet, I transgress, the Anime community probably doesn't have the BALLS to give their say in this matter.

Nobody is talking about whether what you apparently enjoy is or is not
porn under the laws of the U.S. What I am talking about is animated
images of children in sexual exploits and the result that such images
apparently have on your psychie (arousal). The fact that you seem to
enjoy such images whether real or not, speaks to the point that you
enjoy seeing children being sexually traumatize, raped, and tortured.
A very sick perversion.

Anmie like you do.

I have never identified it as either porn or not porn, that is not the issue. Nor does whether some country such as Japan accepts this vileness is not at issue either.

But I do agree that "people who look at certain types of anime is PEDOPHILLIA"

The individuals who like to look at images of children particpating in sex, and are getting aroused by such, are in my opinion, suffering from a form of pedophillia.

Am I saying that you or others are child molesters, No. Am I saying that you have raped or physically done anything to kids, No. But I am saying that if you enjoy looking at children, whether real or not, engaging in sex acts or other brutaliities, do have a severe mental disorder.

Not true, there is no evidence that those images "arouse" people nor is any evidence that those pictures turn people into child molesters or pedophilia, as a matter fact the Supreme Court stated that Child molesters and Pedophilia, would rather have the real stuff and not the fake stuff. For if the need of the fake was so great by Child molesters or pedophilia, then the market for the real stuff would dry up. The Justice Department was asked by the Supreme Court to prove the linkage between "virtual Child Porn" (which covers anime) and the abuse of real children, the Justice Department could not show ANY linkage. Like I said many times before if such linkage to real child abuse existed (which it doesn't) then all the anime sites would be shut down, EA GAMES would be able to sale SIMS or SIMS 2 or even SIMS 3 (which is not out YET) So your innuendo's are based on no real facts, and until you can come up with real facts...well there's nothing more to say.

No but what DON'T see and fail to grasp, is that ANIME is not just in JAPAN, you can go to anime or video stores here in the United States and buy movies that would fall under the catagory of Lolicon. Japanese Anime is NOT just in Japan, it a MULTI-BILLION industry with MILLION and MILLIONS of fans who also look and collect that type of material and vast majority of those fans are HERE in the United States

I never LOOK at real children, Well actually I did pull out a photo of me one time as a toddler taking a bath (taken in 1969) , But I don't look at real Child porn and you have yet prove it, simply because YOU CAN'T. I am a memeber of a number of Japanese Anime websites including Hongfire, Not4chan, HentaiHQ (well I was member) Little Angel Hentai BBS, Hentai BBS and a few otehr places, all have Lolicon art, NONE has real child porn. again show me the evidence that I download real child porn...you don't have any, BECAUSE I DON"T DOWNLOAD OR LOOK AT REAL CHILD PORN.

I think there is certain anime which should be looked at by the
government under child pornography laws.

The anime community at large doesn't really have the balls or the
willingness to give their say or really do much about anything that
isn't to their own benefit. Which see the piracy stuff going on...

I definitely believe there is some anime that needs to be kept off the
market as child porn, yes. I think that a lot of authorities have
conveniently looked the other way on a lot of things going on in the
anime industry (probably largely because of the money that some of the
larger convention events bring into communities, for one part).

The law doesn't have to define "pedophilia", per se -- now, as we all
know, there's a significant discussion oas to what pornography is --
but one of the few crimes that most people take very seriously is
child porn.

If you truly believe he qualifies under the law and have evidence to
present to that effect, do not hesitate to contact your local police
department or your local FBI office. If you believe the entire anime
industry to be harborers of child porn, then you might want to be a
bit more concerted of evidentiary work before so contacting.

> > > > so take your relihous vendetta elsewhere

It's not a religious dilemma. But the facts are that if you believe
this person to be engaging in child porn, then call the cops or shut
up.

As I said in the other post, there is some anime which darn well
should be taken off the market by the authorities. In fact, I'm
somewhat surprised that there hasn't been more scrutiny of what is
shown at anime events by the local cops.

Again, if you've got actual evidence on this guy, stop flaming him on
USENET, find out where his ISP is or where he lives, and contact his
local law enforcement.

> > But seriously, if you hell bent on stopping me post the anime on

Now, that IS a good question. If he's guilty, then all the sites
which have the same material are similarly guilty and should be
similarly investigated -- I cannot think that there isn't *some truth*
to the fact that that is one of the reasons that USENET is being cut
off (though I think some of it has to do with the violent nature of
some political speech on USENET) on some ISPs.

> Because the other Anmie sites do not correlate Amateur radio with
> Anmie like you do.

So you're specifically targetting him in a Bernie Ward-like situation?

Again, if you're targetting him to get him off of r.r.a.p and
r.r.a.m., find out where he lives and contact his local law
enforcement -- otherwise, you'll be going round and round on this for
years and should just STFU.

Ummm, hang on here -- now this was just brought over to r.a.a.m., so
I'm probably not up to speed with this flamewar. But if you're going
to view this as "vileness", then it would seem that you have
identified certain portions of the genre as child porn. That would
seem to make sense by your characterization.

> But I do agree that "people who look at certain types of

I think you mean they'd be pedophiliacs. The content itself would be considered pedophilia.

Yes. But here's the thing: If you have evidence to that effect, then you need to contact his local law enforcement and get him locked up. Period.

Even if they watch it themselves -- a bone of much contention in the anime community. There's at least one anime recently mentioned on r.a.a.m. which almost certainly would qualify as some form of child exploitation under some countries' laws.

Maybe he believes that his presence on am. radio and his "perversion" (I'm not going to say it is or isn't -- I haven't been in this flamewar long and don't know which anime he watches that you would consider child porn.) are coming from the same free speech principles.

Mike (He'd be wrong under United States law. Child porn has clearly and unequivocably declared NOT free speech.)

Thank you!!!

and you are right, these individuals need to either put up or shut up about me being into child porn. I have NEVER looked at REAL child porn, I'm into anime and been into anime a LOOOOONNNGG time (since the early 70's) BTW the FBI did visit my site when it was up and running, and according to them....IT'S LEGAL! According to them, they have no desire going after anime fans, the ones they want to go after are the ones that have the real stuff. the problem is jackass like him, who really don't care what the law says, So instead of going to police to complain, he and his friends complain to my ISP or to google/blogspot claiming the material is child porn and they shut my site down or shut me off, because my ISP doesn't know what the LAW is and apparently neither does Google. So they will continue to attack me on every website they can (not just on the USENET) claiming I into child porn and a sick monster, yet don't have the Balls to prove it. BTW these are also the same type of people who think renissance paintings with naked children in them is Kiddy Porn.

again thank you!

From: "FCCInfo@fcc.gov" <FCCInfo@fcc.gov>
To: toddaug555@yahoo.com

You are receiving this email in response to your inquiry to the FCC.

The FCC does not regulate the Internet or Internet Service Providers (ISPs). Contact your state consumer protection office or if there is possible fraud involved, contact the Federal Trade Commission or the Department of Justice's Internet Fraud Complaint Center.

There are currently no Federal or state laws regulating the use of or content contained on the Internet

The Department of Justice has a web site for reporting Internet-related crimes. Go to: http://www.ic3.gov

For other consumer issues: Go to the FTC website: https://rn.ftc.gov/pls/dod/wsolcq$.startup

The FCC does not assign Internet domain names, nor does the agency otherwise regulate the Internet or Internet Service Providers. Internet domain name registration is a service provided by private sector entities. Try a general Internet search using Google, Yahoo, etc., and the expression "domain names."

Modem Speeds: FCC Rules do not specify minimum requirements for baud rates and/or modem speeds over ordinary, voice grade phone lines. This means that the telephone company is not committing a violation when, for example, a customer has a 56 kbps (kilo bits per second) modem but is not able to transmit/receive data over the telephone network at the modem's full capability.

City, county and state consumer protection offices provide consumers with important services. They mediate complaints, conduct investigations, prosecute offenders of consumer laws, license and regulate a variety of professionals, promote strong consumer protection legislation, provide educational materials and advocacy in the consumer interest.

It's not kiddy porn and you have yet to prove it, so either put up or
shut up.

My orginal letter was sent after a group of individuals claimed they were going to complain to the FCC about my comment on the web. These individuals of course are HAM Radio operators. This may also prove to be a problem with the FCC case against Bill Crowell.

So it is legal to use any name you want on the net, including letters
and numbers that resembles a call sign.

Using, say a amateur call on the net is legal according to the FCC,
after all they should know, they issue them. But of course the real
world already knows that call signs have no meaning on the net.

Now grow up and stop with the name calling.

Todd if you are so *starved for attention* why not just go to HF ham radio and make a fine mess there instead of here in cyberspace? 14.275 MhZ during the daytime and a couple of freqs on 75 Meters at night should do the trick and you'll have every ham radio toilet tick flocking to hear 'The N9OGL Live Comedy Hour" like Herbie and Mike did on 14.313 almost 15 Years ago.

Hey Todd! I am merely suggesting an alternate course of action for you. One which will make you possibly as famous as KV4FZ was in the 80's and 90's. Ham radio needs a new celebrety Todd, and now since Mr. Hollingsworth has retired and calls to the FCC ham radio help desk are one again going into a black-hole like they did while J.J. was running things at the Private Radio Bureau, the timing presents YOU with a unique opportunity. Oh well, I was attempting to HELP you Todd but you obviously can't see that forrest for the trees. What a shame. If you were to just get on 14.275 for a couple of weekends for 4 to 6 hours a day you would have as many people listening to you and hanging onto your every word as tthere are people watching The New Gong Show on FOX or Spike TV wherever it's at. Oh well, can't say I didn't try to help you become the next "Herbie Baby #1". Cheers!

I'm planning to get back on the radio hopefully soon, I need to do a
little work on my radio. I've been too busy with work that I really
don't have time to do anything on the radio. I'm also right now in the
process of getting my pilots license, that I'm focusing my attention
on that.

Prove where have I used Todd's name, or your call, or your wifes call, or anybody else's call for that matter, or commited any conspriacy, as I have had no contact with anyone else about you or the news group. Don't you find it amazing that so many who don't know each other, have no contact with each other, and have never met or spoken to each other, that based on your behavior, we have all formed the same conclusion, that your are a kooked out ASSHOLE!

That is not a conspriacy, that is just common sense showing itself you freaking mental patient.

I just suggested that based upon the response that Todd received from the FCC, it is not a crime to use such numbers or letters as an on-line ID, as I have seen many folks using my call for years as a on line ID, because it relates to another on-line group. Hell there are web sites that use my call as a web page address. Perhaps if you were to stop accusing folks of things that they have not done, they would not think that you were such a sniviling ASSHOLE!

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR-LESTE. Jose, CT1ERC, was heard this past weekend signing 4W6UTL on 20 meters SSB (14195 kHz around 0329z and 0800z). He is expected to be there until early August. QSL via CT1ERC.

5Z, KENYA (IOTA Op). Antonio, IK8VRH, will be active as 5Z4/IK8VRH from Malindi, time permitted, in August. Operations will be from the Coast Province North Group (AF-040) between August 15-17th and the Coast Province South Group (AF-067) between August 20-22nd. Enrico, 5Z4ES, will be with him. Activity will be on 40/20/17 meters using CW/SSB/RTTY. Equipment will be a FT450AT with a Sommerkamp 300watt PA, Bubbledipole, Zx Mini Beam,-USB II MicroHAM and MiXW.

A3, TONGA. Paul, A35RK, informs OPDX that he just received a SignaLink USB interface and software package for digital modes (RTTY, PSK, etc), courtesy of Mike, K6BR. He hopes to be active on some of the digital modes sometime this week. Paul states, "I haven't been on the digital modes for years, so please be patient with me while I attempt to teach an old dog some new tricks.... HI" BREAKING NEWS: A35RK is now QRV on the digital modes as of 2200z, July 19th. He worked many stations on PSK31 and a couple on RTTY (he stayed away from RTTY, because there was a contest on). Look for him to be active on 20m and 17m digital, as time permits.

AM8/AN8/EH8, CANARY ISLANDS (Update/IOTA Op). Operators from the RSGB IOTA Contest 2005 (3V8SM Djerba Island) and 2006 (ED7SPI Sancti Petri Island) operations will use the following callsigns and activate Lobos Island (AF-004) and lighthouses in the Canary Islands between July 22-29th:
AN8L - From Lobos Island (AF-004) during the RSGB IOTA Contest (July 26-27th).Reference numbers are: IOTA AF-004, DIE S-008, ARLHS CAI-005, WLOTA 0155, FEA D2786 and DME 35014.
AM8IL - From Lobos Island and Punta Martino Lighthouse (possibly the first time activated). Reference numbers are: IOTA AF-004, DIE S-008, ARLHS CAI-005, WLOTA 0155, FEA D2786 and DME 35014.
EH8RDB - On July 25th; Islote de Barrieto (Barreto Rock). Reference numbers are: DIE: S-117, IOTA: AF-004 and DME: 35014.
EH8VCL - On July 24th and 27th; Vertice Geodesico (Caldera de Lobos). Reference numbers are: Spanish Bench Mark Award DVGE: VGGC-035, DME: 35014, IOTA: AF-004 and DIE: S-008.
The Lobos Island is located in the Atlantic Ocean, north of Fuerteventura Island and is uninhabited. Operators mentioned are: EA8AUW, EA8BGO, EC8ADW, EC8AMI, DH1TW, DL5RMH, EA4DRV, EA4TD, EA5AER, EA5FX, EA5KM and EC4DX. They state it took several months of hard work to get the right permits, but they thank the Canary Islands authorities. Activity will be on 160-6 meters including 30/17/12 meters using CW, SSB and RTTY. They plan to have at least 3 or 4 stations active at the same time in two different camps, as well as a portable station for EH8RDB and EH8VCL. QSL via EC8AMI, by the Bureau or direct. Their Web site is at: http://www.islotedelobos.com

BX5, TAIWAN (AS-020 - RARE CONTEST IOTA). Jimmy, BX5AA, will be active during the RSGB IOTA Contest (July 26-27th) as a Single-Op/All-Band/High-Power entry. QSL via BX5AA.

C5, THE GAMBIA. Niels, OZ8KR, will once again be active from here in 2009. He mentions that his license is good one year and he will be active as C56KR between January 9-14th and again (after his trip to Senegal) between January 23rd and February 4th. Activity will be on 40-10 meters SSB using a FT-857 and wire antennas. His QTH will be Bakuto on the

Atlantic Ocean. Niels states that his travel plans are booked with a Hotel/apt. The transceiver is already in The Gambia. QSL via his home callsign OZ8KR.

C9, MOZAMBIQUE (Update). Frosty's, K5LBU, team was very active this past week from Mozambique. They should be on the air until July 30th. Frosty reported that Hal, ZS6WB, had an accident with his car and has no transportation to C9, so regretfully there will be no EME or 6 meters this trip. The C9 team now consists of the following operators:
Charles F. Frost (Frosty) K5LBU - C91CF, QSL via home callsign.
Tom Kramer NQ7R - C91TK, QSL via home callsign.
Jay Sewell W5SL - C91SL, QSL via home callsign.
John Plenderleith 9M6XRO - C91XO*, QSL via M3SDE.
Bill Dzurilla NZ5N - C91BD, QSL via WA4WTG.
Bob Novak K0OK - C91OK*, QSL via home callsign.
Ben Pyfer DJ0YI - C91YI*, QSL via home callsign.
* Callsign pending
Activity will be on all bands from 160-6 this trip. They have a log search on the Web at: http://www.tdxs.net/C9.html

C9, MOZAMBIQUE. Operators ON4AEO, ON7BK, ON4CJK, ZS6GC, ZS5AYC, ZR6APT, ZS6IMO, VK4AHT, VK4EMH and possible others will be active as C91FC next year in April 2009 (possibly between 8-17th). QSL via ON4CJK. More details will be forthcoming and a Web page will be online in January 2009 at: http://www.c91fc.be

CN, MOROCCO (IPA Op). Gab, HA3JB (SU8BHI), reports that he now has a new license from Morocco. Look for him to be active as CN2IPA between September 21st and October 5th. Activity will be good for the International Police Association Award (IPA). He plans to be on CW, RTTY, PSK, SSTV and some SSB, as well as an entry in the 2008 CQ DX RTTY Contest. QSL via HA3JB: Gabor Kutasi, H-8601 Siofok, P.O.Box 243, HUNGARY, EUROPE.

CU2, AZORES. Operators Toni/OH2UA and Martti/OH2BH will be here doing some antenna work and will occasionally appear on the bands between July 21-28th. In the RSGB IOTA Contest (July 26-27th), they will activate CU2A. QSL via OH2BH.

DXCC NEWS (2007 DXCC Honor Roll List). Bill Moore, NC1L, Awards Branch Manager, reports: "Upon receiving the August issue of QST it was discovered that some Honor Roll members were incorrectly listed, mostly from numbers from their previous submission, while a couple were not listed at all. We apologize for this and as soon as we have a handle on those who were not properly listed, a correction will be published in QST later in the year. (Issue to be determined once we have all the information).
If you notice an incorrect listing, please send an E-mail to dxcc@arrl.org to be placed on the list for the corrected listing. Remember that the period for this listing is from January 1 through December 31, 2007 only, the prior period of April 1 through March 31 has been changed."

EA6, BALEARIC ISLANDS. Andre, LX1FX, is expected to be active from Minorka Island (EU-004) between July 22nd and August 15th (possibly one week longer). Activity will be on the HF bands and 6 meters as well as 70, 144 and 432 MHz. Modes will be CW, SSB, as well JT6 via MS. Andre's equipment is an ICOM 7000, OZ xvrtr/4m - dipole antenna for VHF and a "Fieber-glaasstab" on the HF bands. He will be on stand-by with an Marine-TRX ICM-710M on 14.333 MHz and 10.133 MHz (0900z).

FJ, ST. BARTHELEMY. Sam, FG5ED (ex-FG7AS, FK0AT, YJ0KMS), will be active from the St. Barthelemy Radio Club station FJ5KH between July 21-31st. Activity will be mainly CW. QSL only direct to: Sam Sahai, Ch. GODEAU, 13 Avenue Buckeburg, F-72300 Sable, FRANCE.

GJ, JERSEY (EU-013). Members of the Bristol Contest Group (G6YB) will be active as GJ6YB during the RSGB IOTA Contest (July 26-27th). QSL via G3SWH.

HD2, ECUADOR. The HD2A Contest team will be joined by some JA operators in this year's CQWW DX SSB Contest (October 25-26th) as a Multi-Single or Multi-? entry. QSL route TBD.

INVALID OPERATION LIST. Tony, EA5BY, informs OPDX that some members of Lynx DX Group have created a list of "invalid operations" for the different amateur radio awards; especially DXCC. They are looking for some help to keep the list complete and updated. Any information is highly welcomed and can be sent to: info-dxcc@lynxdxg.com
They would also like to scan every QSL of every callsign that is listed and help with this is also welcome. The Web site is fully operational at: http://www.lynxdxg.com/novalidas/novalidas.htm

IOTA NEWS.....
AF-019. Operators Sal/IT9HUV and Joe/IT9RBW (and family) will be vacationing on Lampedusa Island (IIA AG-001) between August 1-7th. They will be active as IG9/homecall on 40/20/15/10 meters using RTTY and CW. They will use an Icom IC756ProIII into a Multi-band dipole and MP1 antennas. QSL via IT9DQM.

EU-008. A group of operators from the West of Scotland ARS will be active from the Isle of Colonsay during RSGB IOTA Contest, July 26-27th. Two contest callsigns will be used - GM2Z (CW) and GM4A (SSB). A separate station will be working PSK outside of the contest; the callsign is MS0EPC (www.eu.srars.org). At the moment their team consists of MM0DFV, GM0WRR, MM0GDL, GM4TOQ, GM7WED and MM3LKV. A couple of other operators may join them. QSL cards for both contest stations and MS0EPC should be sent to MM0DFV.

EU-008. Members of the Cockenzie and Port Seton Amateur Radio Club (CPSARC) will once again operate from the Isle of Tiree (IOSA NH04, WAB NM04), the most westernly part of Scotland's Inner Hebridean Islands, during the RSGB IOTA (Islands on the Air) Contest which runs from 1200z, July 26th to 1200z, July 27th, using the club's special contest callsign GM2T.

Pre-contest activity members will be signing as MM0CPS/P.
CPSARC heavily supports newcomers to their wonderful hobby
and has a large number of newly licensed members who are
actively encouraged to participate in their contest effort,
whether experienced or not. This way not only does their
hobby benefit from new operators, but contesting benefits as
they invariably become bitten by the contest bug. This
year's team consists of: Cambell/MM0DXC, Bob/GM4UYZ, John/
MM0JXI, Brian/M0RNR, Gary/MM0FZV, Moe/MM0MRM, Geoff/MM5AHO,
Ellis/GM4GZW, Bob/GM4IKT, Jim/G3VOU, Jonno/M5FUN and Duncan/
MM0GZZ. QSL GM2T via the Bureau, or their QSL Manager GM4UYZ,
by the Bureau or direct. Details are available at:
http://www.qrz.com/gm2t
For details about CPSARC, visit their revamped Web site at:
http://www.cpsarc.com
ADDED NOTE: This is the club's 10th anniversary on the island,
and the team would like to express their gratitude to all the
islanders who have looked after them over the years, but in
particular to Elaine Hutchinson of Elephants End Restaurant
(www.elephantsend.com) for her unrivalled support and
hospitality over the last 10 years.

EU-008. Members of Sands Contest Group and Workington Amateur Radio
Society are combining to activate the Isle of Jura, from
September 22-29th. They are hoping to be active on all modes
and bands as conditions allow. The Sands Contest Group has
previously activated Mull in 2006 and Workington Amateur Radio
Society has had several activations, the last of which was
Barra Island in 2007. More information as it happens can be
found on the Sands Contest Group blog at:
http://m0scg.blogspot.com
This blog will have daily updates during the activation. They
hope to work as many stations as possible. There should also
be some SOTA activation during the week.

EU-178. Peter, YL2PN, will be active as ES0/YL2PN from Ruhnu Island (WLOTA LH-4244), July 23-27th. Activity will include the RSGB IOTA Contest (July 26-27th). QSL via his home callsign, direct or by the bureau.

NA-031. Mark, KO1U, will be active as KO1U/m from Conanicut Island (USI RI-007S, WLOTA LH-1422, Newport County, Rhode Island), during the RSGB IOTA Contest (July 26-27th). Activity will be sporatic on 7040, 14040 and 14260 kHz and 6 meters (50093.3). QSL via his home callsign (QRZ.com).

NA-067. Operators Nate/N4YDU, Keith/W4KAZ and Barry/K4CZ will be active again as N4A from Cape Lookout National Seashore (Core Banks) between July 25-28th. Activity will include the RSGB IOTA Contest (July 26-27th), with operations on 80-10 meters (except WARC), low power, SSB and CW. References: Grid Square FM14tt and Carteret County, North Carolina. QSL via N4YDU direct. SASE preferred for USA. In the 2007 RSGB IOTA Contest, N4A was the #1 North American Low-Power Expedition and #24 Worldwide. More details at: http://www.w4kaz.com/n4a/

NA-067. Members of the Tennessee Valley DX Association (TVDXA) will activate Hatteras Island using the callsign W4PL. This island is part of the North Carolina State East Group. W4PL plans on being active about 1900z on Saturday, September 27th, and will go QRT Saturday, October 4th. The group will use 100 watt transceivers and plan to be active on 80-10 meters HF (SSB, CW with some PSK and RTTY), and 6 meters SSB and CW. Operators include: Barbarra/WA4RMC, Kathy/W4KRY, Lynn/K0MAI, Tom/K4VCM, Greg/WA4NFO, Tommie/K4KWK, Kenny/AB4GG, Charlie/AD4F, Paul/ WA4AA, Peter/KB3PGU, Larry/WA4IVO and Virginia/KI4MPK. Non-licensed team members include Nancy, XYL of WA4AA and Halyna, XYL of KB3PGU. Please QSL via K4KWK direct (SASE) or by the bureau. Additional information will be added to their Web site during and following the activation at: http://www.tvdxa.com ADDED NOTE: TVDXA states, "We are calling this a 'Mini DX-pedition' since we are not going to some far away exotic place. However, we are very serious about this trip and hope to make many contacts (and have loads of fun along the way). This is the fifth consecutive island we have activated in as many years. Antennas will include a multi-band vertical, tri-band beam, end fed wire and 6 meter beam along with other backup antennas. Please visit our Web site and watch for further updates."

NA-110. Dan, KF8Z, will be active as KF8Z/p from Hunting Island (USI SC-003S, WLOTA LH-2265, Beaufort County, South Carolina), July 26-30th. Activity will be limited because he is there with his XYL on vacation. Look for casual operations, slow CW and SSB on 40-10 meters. QSL via his home callsign, direct or by the bureau.

NA-234. (Update/IOTA NEW ONE!) Breaking News: The KL7DX IOTA-expedition to Chuginadak Island (Aleutians Islands, Alaska) is under feasibility review by team members - Yuri Sushkin/N3QQ, Sergey Morozov/RA3NAN and Yuri Zaruba/UA9OBA. The Okmok Volcano, located 75 miles away from their destination, continues to erupt. The volcano is currently at aviation color code RED and alert

level WARNING. All areas immediately around the volcano are considered hazardous. Airborne ash and gas continue to drift with the wind and pose a hazard to aviation in the area. Satellite data continues to show a long (~250km) plume moving east, the height of the plume is approximately 9,100m (30,000 ft) above sea level. Cleveland Volcano on Chuginadak Island has current aviation color code YELLOW and volcano alert level ADVISORY. Please see http://www.avo.alaska.edu/activity/Okmok.php for more information. The team from Russian Robinson Club is planning to land on the island by boat and start operation between July 19th and July 21st with participation in IOTA Contest July 26-27th weather and seismic conditions permitting. QSL via AC7DX. Please look for them on the usual IOTA frequencies and on-line tracking of KL7DX's position via GPS/SPOT Messenger is available on: http://www.NA-234.com
MORE BREAKING NEWS: RZ3EM passes the latest news from KL7DX as of 0300z, July 19th -- "Smoke and ash continue in the area of the volcano, but the team has decided to continue on to Chuginadak Island. They have made arrangements to proceed on a larger boat, the Lady Gudny. They leave Dutch Harbor on 19 July."

JW, SVALBARD. Niels, OZ8KR, will once again be active from Spitsbergen (EU-026) for the 3rd time in August. He has rented the club station in Longyearbyen for 4 days and plans to be active as much as possible as JW/OZ8KR between August 12-17th. Activity will be on 20 meters SSB. He likes the frequncies 14220 and 14260 kHz. QSL via his home callsign.

JW, SVALBARD. Haugseth, LA7WCA, will once again be active from Spitsbergen for the second time as LA7WCA between September 19-26th. Activity will be on 160-10 meters, mainly SSB with some CW. QSL via LA7WCA (QRZ.com). Also, he will be joined by two friends for their time on Svalbard: Finsveen/LA8BCA (JW8BCA) and Tom/LB9UE (JW/LB9UE).

KH2, GUAM. Operators Hiroshi/JJ1CCE, Shima/JH3AAZ, Koji/JK7TKE and Hiroshi/K6IAA will be active from here between August 2-3rd. Look for operators to sign as KH2/homecall with the exception of K6IAA/KH2. Activity will be holiday style operations. QSL via each operator's home callsign, by the Bureau or direct (See QRZ.com).

KL7, ALASKA (W1AW/KL7 to Operate from Arctic Circle). The ARRL Letter reports: "Just 300 miles south of the Alaskan Arctic Ocean -- where the Arctic Circle crosses the Dalton Highway (66 degrees, 33 minutes north) -- W1AW/KL7 will be on the air (grid square BP56) July 26-August 10 on all bands from 160-6 meters. This ARRL 2008 Alaska State Convention Special Event Station plans to run two HF stations operating CW, SSB and digital, one satellite station and one station devoted to 146.52 MHz. The Alaskan summer skies are ablaze with gray line-enhanced propagation effects, providing six to eight hour spurts of activity to most of the ham radio world. W1AW/KL7 plans to be active from 0600 UTC-1400 UTC to maximize gray line propagation. From Alaska, signals will take off in both directions at the same time: Europe to the east on one side, with

Asia to the west on the other side. For an illustration of how Arctic gray line propagation works, see page 21 in the August 2008 issue of QST. The 2008 Alaska ARRL Convention will run from August 1-4, 2008 in Anchorage. For more information, please see the W1AW/KL7 Web site at: http://www.akhamfest.com/arcticcirclespecial.php

LIGHTHOUSE/LIGHTSHIP ACTIVITIES (ILLW - August 16-17th).....
INTERNATIONAL LIGHTHOUSE/LIGHTSHIP WEEKEND. Kevin, VK2CE, ILLW Webmaster and Coordinator, reports (edited): "This highly popular annual amateur radio event (not a contest) will be held over the weekend of August 16-17th, 2008. There were 380 lights on the air from 48 countries last year. All you need to know about the event is contained on the official Web site at: http://illw.net
Originating in 1999, the event is organized and managed by the Ayr Amateur Radio Group in Scotland since the passing of the founder of the weekend, Mike Dalrymple, GM4SUC, in December 2005.
To register for the event go to the web site at http://illw.net and complete the online entry form so you can be listed on the entrants page." Any questions about the event can be sent to Kevin, VK2CE, via the Web site E-mail facility. Publishing this notice in your club bulletin or sharing it with your club members would be most appreciated.

BBDXG LIGHTHOUSE ACTIVITES. Members of the Bahia Blanca DX Group (BBDXG) will transmit again, this time, from seven different lighthouses at the same time during the International Lighthouse/Lightship Weekend (ILLW) which will be held on the third weekend of August (August 16-17th). Look for them from the following lighthouses:
MORRO NUEVO Lighthouse (ARLHS ARG-048, ILLW AR-0031) -- Will be activated for the "FIRST TIME". Lat. 42' 52" S/Long. 64' 08" W. Grid Locator = FE77wd. Located at the south end corner of Valdez Peninsula. It indicates the entrance to the "Nuevo" Gulf. 750 Km. South from Bahia Blanca. Operators and callsigns used: LU9ESD/W, LU4ETN/W and LW9EAG/W.

All Bands and modes will be worked, including digimodes (RTTY, PSK31, SSTV...) and CW. PLEASE NOTE:
SAN GREGORIO, CABO ARISTIZABAL and MORRO NUEVO Lighthouses will use each operator's callsigns plus "W" because they are located in the province of Chubut.

PUERTO ROSALES LH will use the official BBDXG callsign LU3DXG for this first time activity.

Contacts with PUERTO ROSALES, BALIZA CHICA, BALIZA PUNTA ATALAYA and CLAROMECO Lighthouses will be valid for the "PROVINCE OF BUENOS AIRES LIGHTHOUSES" Award organized by Bahia Blanca DX Group. Also, the above lighthouses are valid for the "Argentine Atlantic Coast Lighthouses 2008" award. For more info on these awards, please contact Manu, LU9ESD, at: lu9esd@yahoo.com
The QSL and Award Manager is LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. Please send one envelope with all your QSLs. Up to 2 QSLs = 1 IRCs. Up to 4 QSLs = 2 IRCs. Up to 6 QSLs = 3 IRCs. Up to 8 QSLs = 4 IRCs. For 9 QSL without award, please send 5 IRCs. If you want the award, send QSLs for each light-house and 8 IRCs.

PACIFIC TOUR (Update). Willi, DJ7RJ, is expected to join Ulli, DL2AH, in traveling around in the Pacific areas between September and early November. A report from Willi, DJ7RJ, indicates that he has already booked his flights for August 26th and October 27th, via LAX to Samoa (5W) and his return. He mentions that Ulli, DL2AH, and he are planning to visit the Tokelau Islands (ZK3) together (specific dates are in the planning stages). After that, they will return back to Samoa, before going on to the next island (possibly, Marquesas Island (FO/m), Wallis & Futuna Island (FW) or American Samoa (KH8). Willi states, "With our journey to 5W everything is running well. We are in touch with the shipping company in Apia. Two ships are leaving Apia a couple of days

after we arriving on Samoa. We have a good chance to get a reservation for one of these ships. Maybe we will arrive on Tokelau on September 2nd or September 5th. We have to stay at least three weeks on Nukunonu (OC-048) before we travel back to Apia. So it means we will be back in Apia at the end of September! Afterwards, I will decide what will be the next island to visit. I am not sure yet. My flight back to LAX will be October 21st. QSL via CBA."

9X0R QSL STATUS. We received a report that Antonio, EA5RM, is stating direct QSLs requests should be coming out very soon.

QSL AP2DKH via W2FB (for stateside). Steve, W2FB, informs OPDX that Dr. Khalid, AP2DKH, visited the NJ/NY area in June. Steve had the privilege to meet him. In addition to their eyeball QSO, they also exchanged QSL cards. Steve told Dr. Khalid that getting QSLs out of Pakistan is very difficult especially for U.S. stations. Dr. Khalid left Steve some cards to issue QSLs for stateside stations. He now has his log and can issue direct cards for the deserving DXers still waiting for their first AP confirmation. Please use a large envelope as the AP2DKH card is larger than the usual stateside QSL. Use a EU style envelope or No. 10 envelope for reply, with a SASE, GS, or IRC.

Wayne, W5KDJ, reports that the logs for 3DA0KDJ, A25KDJ, C91KDJ and YN2KDJ are now available at: http://dx.qsl.net/logs/

TOP 5 QSL MANAGER SURVEY. John, K1XN, Editor of the GoList, reports"
"With the bands in such sorry shape, I am sure everyone has been busy catching up on your QSL chores. You know, that job you put off for reasons unknown by normal folks.
This might be a very good time to take a Top 5 QSL Manager or QSL card hander survey. It has been several years now since I last conducted the last survey and it will be interesting to see results during this 'down' period. There will be no plaques nor money, but there will be a lot of bragging rights to the most vote getters for Top 5.
The rules are simple. Send me the callsign of that QSL Manager or card handler that impressed you most this year in sending you a con-firmation card.
Don't base it on past years or popularity, but on the actual per-formance by that person. Send your vote to me via E-mail at: golist@gmail.com
In the subject line please put TOP 5 QSL MANAGERS, this will help me sort the mail. The survey will run until the 20th of August, and I will report the results on this reflector (GoList Mailing List). This survey is open to all amateurs around the world. I hope to hear from many of

you soon..... John K1XN @ The Golist (golist@gmail.com)"

TX7LX QSL BUREAU REQUEST. Georg, DK7LX/TX7LX, informs OPDX that he now offers the option to request Bureau-QSLs via E-mail for his recent Mayotte Island (TX7LX) operation. His E-mail address is published on both, QRZ.com as well as his TX7LX Web page. Georg states, "People are welcome to send me a list of their QSOs, and I'll take care of it as soon as I receive QSLs from the printer." Further details can be found under the sources mentioned above. LAST MINUTE UPDATE: Georg informed OPDX on July 20th: TX7LX has been APPROVED for DXCC per Bill, Moore/NC1L.

V73 QSL BUREAU CLOSED. Neil, V73NS, informs OPDX: "It is with the deepest regret we announce that the V73 Bureau is CLOSED. We are unable to accept cards due to circumstances beyond our control. Cards should be sent only to address of the home call of the V73 operator." See QSL info site: http://www.qsl.net/v73ax/qsl.html

SV5, DODECANESE. Leo, S50R, will be active as SV5/S50R between now and July 24th. Activity will be on 40/30/17/12 meters using CW/SSB/RTTY. He will just use wire antennas. QSL via S50R, direct or LoTW.

SV5, DODECANESE. Operators SV5AZP, SV5AZK, SV5DDP, SV5DKL, SV5DZR, SV5FRD, SV5KJC, SV5FRP, SV5CJK and SV5CJQ will be active as SX5P from Rhodes Island (EU-001) during the RSGB IOTA Contest (July 26-27th) as a Multi-Multi entry. QSL via SV5FRD.

SV9, CRETE (EU-015). Dimistris, SV1JB will be active as SV9/SV1JB from Kokini Hani (MIA MGC-005, WLOTA LH-1400), between July 21st and August 7th. Activity will be on 80-10 meters using CW, SSB and PSK31. QSL via his home callsign, direct or by the bureau.

V3, BELIZE. Operators John/WC0W, George/K5PI and Alan/NS0B will be active as V31TP during the ARRL DX CW Contest (February 21-22nd, 2009) as a Multi-Single entry. QSL via WC0W. This team took the "World Class" entry in 2008 as a Multi/Single with a field day setup. They hope to do it again.

VK9X, CHRISTMAS ISLAND (OC-002). By the time you read this, the "DXciting Group" should be getting ready to go QRT. As this was being typed, operators Marq/CT1BWW (VK9XWW), John/EA3GHZ (VK9XHZ), Henry/EA5EOR (VK9XOR) and Dina/EC5BME (VK9XME), have made 6,438 QSOs (2917/CW and 3521/SSB) as of 0255z, July 20th. QSL via EA4URE, direct or by the bureau. The official VK9X Web site is at: http://www.dxciting.com/vk9x

ZD8, ASCENSION ISLAND. Bob, VP8LP, will be active as ZD8LP between August 15-16th and September 14th. Bob will only be using a vertical antenna, so don't expect to hear big signals, but he intends to be very active on 40-10 meters as propagation permits. QSL direct to his home callsign VP8LP only.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

does not matter there is no need to prove that you are in contact
merely that you are taking part in "acts in furtjerance of the same
criminal enterprise"

you are a felon boy

if our LE were to do ther job then you would be in prison and
receiving attention from bubba as you put it

There is no criminal enterprise,(apparently you failed law school)
stop climbing trees, because obviously you fell and hit every branch
with your head.

No, never been convicted of any crime, but you don't care about
telling more lies.

LE does do their job, including sorting out truth from facts, and apparently LE has concluded that you are full of lies. BTW I don't and never have used the term "bubba", like I said, you should stop with the false accusations.

Now fuck off, kook.

I've never stalked anyone, if you think that responding to your drivel
is stalking, I suggest that you stop posting and seek professional
help from you local mental health facility.

I have not been told the truth, at least not by you. Only lies and
fairy tales come from your keyboard.

If and when that day ever comes, that will be up to a jury to decide,
NOT YOU. So until that day, you are just spouting another one of your
lies. There is a long road between spouting you baseless lies on
usenet and getting a conviction, good luck on your quest, idiot.

I've never harrassed anyone or posted any lies or fantasies, that is
your MO, most everyone now posts to the moded group to escape your
nonsense. Just because you disagree with my opinion of Todd's anmie or
your stupdity, it is not harrasment. You don't get to pick and choose
at what responses you get based on the crap that you post. If you
don't like the response then don't post. BTW Todd is big boy he can
post on his own, like he has said, he does not need you to defend him.

ALL OF THE CRAP you bloody idiots post here is OFF TOPIC.

When is this going to end?

People that think they are a victim of libel or false accusations, please stop reacting to them. Nothing keeps the pranks happier than constant reactions to their activity.

Just don't look in the newsgroup anymore, folks. The problem will go away by itself. Posting "fake" is not adding any value.

I have no issues unlike you who makes up shit in their head trying to
justify their kooky behavior.

But like most the users of this NG and LE, we have all come to the
same conclusion...you are wacked out of your mind, freak.

No action from you, no action from LE. Seek help mental midget.

1338. Fight Back 2: Report Mark's spews to Google

Just as we were able to get Google to remove N9OGL's blog by clicking on an icon, it is possible that we can use a similar tactic to get Mark's Google Groups account(s) restricted or canceled. To help us out, you will need go to Google Groups first by using a link like

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en

Choose almost any thread, and then pick out one of Mark's "zzz..." or other messages. You should see something similar to what is pictured at the link below:

http://tinyurl.com/6x3cyc

Click on the "Report this message" link, fill out the simple form, and submit it to Google (You do NOT have to be signed up with Google in order to make a report). If enough of us do so, Google should take notice and eventually take action to curtail Mark's spew.

I like to use the following text in the report form, which I modify slightly as required:

==(begin quote)==

This person (Mark Morgan) has been posting disruptive, identical messages through Google for over two years. When he reaches his posting limit on one account, he turns to another to continue his flooding. Regular members have been forced to start a moderated news group (rec.radio.amateur.moderated) to escape his abuse. On July 4th, he made 57 posts containing only "zzzzz ..." or "44444 ..." as a subject line.

==(end quote)==

Remember: It requires persistence; not a large number of complaints per day. Several of us are submitting one or two reports per day via the Google Groups form, and we intend to continue to submit such reports until we see some progress or hear from Google. The more people who complain, the better our chances are of being taken seriously by Google.

If Mark trots out new Google accounts, fine. We'll report them too.

If you can take the time out to make one nonsense post with respect to Mark, you can easily take the time out to file one daily complaint.

Thanks in advance for your help,
DeLorean

Delorean your a DICKHEAD and YOU need to be removed from the web. It seems to me you have nothing better to do with your time then harass people. Tell me, what are you doing on the HAM Discussion groups anyway?? are you a ham and if so what is your call sign?? How many post have you posted on here that is ham realated?? if not my suggestion is if you have nothing that is ham realated or dealing with ham radio then perhaps you should leave, for your encouraging this spamming, faking post and other stuff.

A few things to remember:

* Some people wear Superman pajamas. Superman wears DeLorean pajamas.

* DeLorean can slam a revolving door.

* DeLorean can touch MC Hammer.

* DeLorean has counted to infinity - twice.

* When taking the SAT, write "DeLorean" for every answer. You will
score over 8000

* DeLorean can lead a horse to water AND make it drink.

* There is no such thing as global warming. DeLorean was cold, so he
turned up the sun.

* If at first you don't succeed, you're not DeLorean.

* When Bruce Banner gets mad, he turns into the Hulk. When the Hulk gets
mad, he turns into DeLorean.

QSL INFO AND NEWS.....
PJ2X (2008) QSL ROUTE. George, W8UVZ, informs OPDX that he has been receiving QSL cards for the recent PJ2X 2008 IARU Contest. He is NOT the QSL Manager for this operation. Operator for this operation was Marko, N5ZO, and the QSLs are to go to OH0XX (in Panama): Olli Rissanen, Apartado 0860-00432, Villa Lucre, Panama, Republic of Panama. ADDED NOTE. George, W8UVZ, did use the callsign PJ2X in the 2003 CQ 160 Contest. Also, Charlotte, KQ1F, used the PJ2X callsign during the CQWW CW Contests in 1987 and 1988, plus it was reissued in 2004.

Look for TC17GS QSL cards/Awards to be sent direct via mail or by the bureau starting at the end of August. More details are available at: http://www.ta0u.com/detay.asp?id=3D4268

QSLS VIA LOTW: NONE REPORTED THIS WEEK!

QSLS RECEIVED VIA MAIL: A45WD, H7/K9NW, HP8/JA6REX , JD1BMM, OY9JD, R1FJM, TX5C and VP6DX

QSLS RECEIVED VIA THE BUREAU: 3XM6JR, 4X0V, 9A8DST, AB1A, AO3K, DL40RRDXA, EA5/ON4LO, EE5KB, EX3A, F/ON6MG, HB0/PA0ABM, J79XBI, LZ26A, ON4LO, PD1DX, RA1AGL, RD3DT, RN3OA, RP62X, T70A, UA1AAE/2, UY0ZG, VO1HE, W3LL and WY3P

R15, EUROPEAN RUSSIA (Special Event). Look for special event station R15RRC to be active during the RSGB IOTA Contest (July 26-27th). Activity is to celebrate the 15th anniversary of Russian Robinson Club foundation. QSL cards will be sent to all stations in the log automatically (please, provide your logs to contest committee!) ADDED NOTE: A special award - "15 Years to RRC" - will be available to everyone who made 13 QSOs (with stations involved in the Russian Robinson Club Awards programs [please see http://www.hamradio.ru/rrc]: RRA, RLHA, RMA, RFFA (WFF), including KL7DX and other special RRC expeditions) during 2008 year + 2 (confirmed) QSOs with the R15RRC station (different modes/bands/QTHs are possible). Totally - 15 QSOs. Application form with 3 IRCs should be sent to Eugene, RZ3EC.

SMITHSONIAN STATION GOING QRT. "The Daily DX" reports: "The Smithsonian Institution's National Museum of American History Amateur Radio station NN3SI will be going QRT on July 31st. The club has been trying for several months to come up with a solution to keep this icon on the air. Annually the museum has three million visitors, many getting a first time exposure to Amateur Radio. NN3SI has been QRV for the last 32 years. Starting today through the end of the month the station will be active before finally shutting down. Starting around 1315z, activity will begin on 40 meters. Watch the following frequencies for possible activity: 3840, 7240, 14240, 21340 and 28440 kHz (+/-). They may also be on PSK." QSL info and more details are available at: http://www.qrz.com/NN3SI

TA, TURKEY. Urcun, TA0U, informs OPDX that he will be active in the European HF Championship on August 2nd, between 1200-2359z, as a SSB/ Low Power Category. For more information, and the rules for the Champion-ship, visit the following link: http://www.ta0u.com/detay.asp?id=3D4273

TS28, TUNISIA (Special Event). Look for TS28ASJ to be active until August 3rd. Activity is from the 28th Arab Scout Jamboree in Tunisia. Operations are expected to be on the HF bands using CW, SSB, RRTY, PSK and SSTV. QSNs show this station was very active on 20 meters this past week. QSL via the Tunisian Bureau. PLEASE NOTE: Sending green stamps or any other legal currencies via the mail to Tunisia is strictly forbidden. IRCs are preferred and acceptable.

VP9, BERMUDA. Angelio, IK2RZP, will be active as VP9/IK2RZP from August 5-24th. Activity will be mainly SSB and the digital modes on the 17/12 meters. However, he will have a multi-band vertical and will only use 100 watts. QSL via his home callsign, direct or by the bureau.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

I'm not worthy of standing in DeLorean's shadow. Why, only last month
he visited the Virgin Islands. Now they're simply called "The Islands."

What did YOU do last month?

I can't think of a good AUK award specifically tailored to what you guys on rec.radio.amateur.* are doing, although I can think of a few that fit the general idea, but I do know one on alt.fan.art-bell that rewards exactly what you're up to--The Tinfoil Star. Of course, that means that I'd actually have to run those awards. Probably at the end of August.

http://appinterviews.wordpress.com

Anonymous Press Pioneer (APP) interviews Barbara Schwarz

APP: Why do people write about you?

Barbara Schwarz: Guess they have not enough to do - so they make me into one of their hobbies. I never did anything to encourage it.

APP: Some people say that you're famous and a Public Person, and you say you're not?

Barbara Schwarz: I never asked for any public attention. I just asked the government for some records in which I am truly interested. Actually, I am a very private person. I never called the press, and I just posted to Usenet after anti-religious extremists continued to maliciously defame me there and elsewhere on the net. Here is the thing: a Public Person has the means to encounter falsehoods, libel, slander, and defamation about herself in the media. For example, if somebody lies about a presidential candidate, they can talk to the press at any time and inform the media that what's written or said about them is not true, and the media will print their part of the story. But I don't have this opportunity, which makes me in a non-public person. That means that the Salt Lake Tribune and any other paper can lie all about me and I don't reach the same people to explain otherwise. Same applies if such defamation is on established websites. In order to reach the readers of established websites that show up on the top of the search engine, you need access to websites that reach the same readers. My websites are usually very quickly net-lifted.

APP: What is net-lifted?

Barbara Schwarz:
Despite that I don't write falsehoods about others, anti-religious extremists bombard the ISP of my websites or Blog providers so long with false complaints about me until the ISPs or Blog providers remove the website or the blogs. End of my right of free speech. End of that readers hear how my story really is.

APP: You don't like to be famous?

Barbara Schwarz: My experience is that "fame" hurts. People defame, harass, impostor and forge famous people. They want to be like the famous persons and steal their identities. It is creepy, anybody knows where you live, how you look like, and they may come to your home, uninvited…

I can do without that. That many people know you, does not make your life better. It is not that they help you in any way. Ask famous people… Many famous people are very alone. I can do without noise and unwanted attention in my life. As far as people are concerned, I just look for true friends. If they can't be true friends, they should stay away from me.

APP: Who are these people who publish web pages on you?

Barbara Schwarz: I call them obsessed and creepy idiots, and I believe that they are hired, organized and run by the German secret service to destroy my reputation and life. They destroy my reputation to prevent that people believe in what I am saying about the German secret service, its government and its psychiatrists. So, they hire their primitive attack dogs and spread lies about me in the Media, on the Internet, on Usenet, in governmental office, courts, and elsewhere. They did and still do the same to L. Ron Hubbard, his religion and his legacy. Black propaganda is an old German secret service tool.

APP: What is Wikipiggy?

Barbara Schwarz (laughs): I am no fan of Wikipedia, I have very bad experiences with it.

APP: I read somewhere that you contributed to that article. Is that true?

Barbara Schwarz: There are different versions of Wikipedia articles on me. I contributed to none of them. The Wikipiggy gang banned my IP numbers. Jim Wales participated in this. They did not allow that I provide factual information about my own person and life. I don't wish that on anybody. Ex-inmates, children, and anti-religious extremists discuss my life in all public on Wikipiggy, with the purpose to misinform readers and to make me into an outcast of society. This is the purpose of the entire smear in the media and on the Internet. They want people to hate me and to I should suffer worst consequences resulting from that hatred.

These Wikipiggy articles were mainly written by anti-religious extremists who hate Scientology, just as the German government wants it. It is as if the KKK would write about Blacks or Nazis about Jews or Al-Qaeda about America. These extremists don't want to write how I am really are and what I really did. They hate me, because they are insane and intolerant, and that is reflected in their writings about me. I never did anything to them, except defending myself, L. Ron Hubbard, and my religion. This is my big "crime".

APP: I searched Wikipedia for information about you but did not find a Wikipedia article on you. On the other hand, Wikipedia articles on you are on non-Wikipedia websites…

Barbara Schwarz: Around X-mas 2007, some Wikipedia administrators finally removed the Wikipedia article because of statement that Wikipedia administrator Fred Bauder made in March 2007. He asked to

delete the article on me with following words: [This article is an] "embarrassment to Wikipedia. It has proved impossible to maintain the article appropriately. Whatever her supposed notability, Barbara Schwarz is not a public figure. Her privacy should be respected". This statement was posted constantly on Usenet (not by Fred Bauder) but it caught the eye of other Wikipedia administrators. His statement gives you an idea how fanatical the people are who smear about me, as he wrote that it was "impossible" to maintain the article on me appropriately.

APP: Who exactly wrote the Wikipedia article on you?

Barbara Schwarz:
This is the problem. Usually, reporters are held responsible for what they write about others. But because Wikipedia allows harassers and defamers to remain anonymously, it is really hard for the victims of the Wikipiggy defamation campaign to remedy this. However, I know some of the driving forces behind it. It is mainly German Tilman Hausherr, Korey Jerome Kruse as "Vivaldi" who seems to be also "Anynobody". Another suspect is Canadian Kady O'Malley as "Orsini" and some other defamers. Kruse forged me and others on websites and Hausherr backed him up. They are anti-religions extremists. Hausherr and O'Malley are portrayed on the www.religiousfreedomwatch.org.

As far as Kruse is concerned, he cyber stalked, sexually harassed and defamed me on Usenet (with posting ID Simkatu and other aliases) and on Wikipedia. Kruse defames my state of the mind, despite a judge sent HIM to therapy. I made some research on him and discovered numerous criminal records on him. As defense action, I documented the criminal activities and the defamation activities of Kruse and also Hausherr's rotten activities on webpages and posting only facts. But these guys bombard ISPs so long with false complaints till the ISPs/Blogspot providers give in and remove the webpages or Blogspots, despite of facts. They don't even ask you to respond to allegations. They just cut your right of freedom of speech short by deleting your defense. I never would lie about others - even if they are my enemies. This here is not my website but provides some information on Kruse: http://stalkerkoreykruse.wordpress.com/

APP: Tilman Hausherr is the owner of the Snafu-Website?

Barbara Schwarz: Yes, that is him. He lives in Berlin and works as computer guy for Siemens. He wrote much of the trash about me on Wikipiggy, and when a majority of the administrators/editors decided to remove this article he and Kruse whined and objected, tried to raise hell to keep it there to "shame" me with their version about my life. After they lost that battle and the Wikipedia article was removed, Hausherr webbed his and Kruse's own smear about me on his Hausherr's Snafu website. Hausherr is obsessed with Scientology celebrities. He is "profiling" them with the words: "We know who you are and what you are doing." If you ask me, he cyberstalks them by trying to intimidate them for being Scientologists. He was one of the

smear scribblers who wrote the Wikipiggy article on me and now webs it under the header "Weird stuff dept.". In other words, he wrote the weird stuff himself, he is the weird one.

APP: I found no record of you being born in Deggendorf, Germany…

Barbara Schwarz: They have no records because I am not born there, and my defamers are lying by saying that I am born in this town.

APP: Hausherr is a German secret service agent?

Barbara Schwarz: He denies it but his actions say otherwise. He tries to conceal his ID and just webs a picture of himself as small child on his defamatory website. This alone indicates that he is afraid of the spotlight himself but smears just about anybody else whose religion he hates. The German secret service Bundesverfassungschutz (OPC) is going actively after Scientology. They even say so on their official German website. I read a report on the Internet in which Hausherr's wife Ilse supposedly stated that Hausherr travels "in secret mission" to the USA. He also posted that he finds it a great idea to hurt the American tourism. After the law, he should not be allowed to enter the United States for secret German missions. Anyway, it is 100 % documented that Hausherr and German government employee Ursula Caberta y Diaz work very closely together.

APP: Who is Ursula Caberta y Diaz?

Barbara Schwarz: You find information about her on the www.religiousfreedomwatch.org and on http://www.alarmgermany.org/newpage12.htm. AlarmGermany is a website that published that Caberta told to the LA Times that she is glad to be called the new Goebbels. It was published that as a German official, she accepted USD 75.000 from a private anti-religious extremist to go after the religion Scientology. Yes, it blows your socks off…

APP: Does Korey Jerome Kruse work for the German government?

Barbara Schwarz: What I know for sure is that he has a very cozy relationship with Hausherr. He was born in the USA. An American judge called Kruse an habitual offender, and a Google search reveals quite some of his run ins with the law. He also wrote bad checks. However, there are also postings about him on the Internet, which are so over the top that nobody would believe them, e.g. claiming that he is a convicted Nazi spy who worked several years in aerospace, etc. I am convinced that he posts these over the top postings himself (like an secret service agent) to distract from his real criminal record and past. The idea behind it is to pose as victim of a defamation campaign and to make people dismiss his real criminal record by coming across these over the top information about him. Once people read that Kruse is a convicted Nazi spy, they of course don't believe it and dismiss also the factual statement of an American judge who ruled that Kruse is a habitual offender.

APP: What about the AHBL? What do they want from you?

Barbara Schwarz [laughs]: Don't get me started on the AHBL. The AHBL is an anti-free speech movement and tries to control the Internet. It belongs to abusive transsexual BRIAN J. BRUNS aka BURNS aka "Bri", "Brielle" or "Brielle-Jillian", born on 06/24/81 who is a registered sex slave. Bruns is the owner/webmaster of the abusive AHBL ("Abusive Host Blocking List") website and the SOSDG ("Summit open source development group"). He is a CONVICTED FELON. - Felon Indictment # I-1577-02,S-2423-02 and SAPD. - Police Report # 05071019 – INMATE: BRUNS, BRIAN # 445064. The AHBL SOSDG is allegedly "non-profit" but stops free speech, blackmails ISPs and defames people. Bruns lies that the ABHL is non-profit. He hosted the sex pages of his master "Lady-Arielle" who offers one hour of his/her perversion for over $300,-- profit on the SOSDG server! Arielle and Bruns had sexually perverted videos on YouTube. Bruns actually HACKED the computers of his former employer Access Highway (http://accesshighway.com). Bruns was many months incarcerated and has a FBI file.
Here are links with more information on him:
http://criminal-brian-j-bruns.blogspot.com/2007/12/brian-j-bruns-criminal-court-history.html
http://groups.google.com/group/rattle-users/browse_thread/thread/920c521a661d867a
COMMACK MAN INDICTED FOR HACKING
http://www.co.suffolk.ny.us/da/press/2002/06_26_02.htm
Bruns attacks and defames me because he is above the law.

APP: ABHL (Bruns) wrote that you "terrorized" Usenet newsgroup NANAE. I goggled your name but did not find many postings of you done to this group. I found numerous postings in which Bruns and his friends attacked you. So, what is his problem?

Barbara Schwarz: The "terror" is just in his twisted head. On the registered sex slave website, he posted as "Brielle" that he is cutting himself. Brian Bruns is a convicted felon, a defamer, a liar and he hates that people have a right of free speech. His problem is that he is a criminal who wants to control the Internet. He does what he accuses others of. Since years, he and his friends try to ruin the business of Rick Scoville (Freespeechstore) and defamed and forged his now diseased 80 years old father who never had anything to do with them. Bruns friend Andrew Kirch posted a mafia threat against me on Usenet. As far as I know, these two are the entire "board" of the ABHL. The AHBL goes also after upstream Internet providers if the ISP does not obey their demands to cut the free speech of what they perceive as their personal enemies.

APP: Who is behind the Holysmoke and the Skeptic Tank websites?

Barbara Schwarz: David aka Shydavid and Frederic Rice are very abusive twin brothers who are consumed by hatred against Scientology. You can learn more by reading what the www.religiousfreedomwatch.org wrote about them. The RFW published a PDF document in their Section that belongs to Dave Touretzky. It says that Dave Rice suggested to kill members of the FBI. I don't think the RFW made it up. They wrote that

Dave Rice actively sought the means of terrorism.

Frederic Rice had or still has a plan, the layout of a "deprogramming station" on his website, which had a room that was designed to rape people who should be stripped from their religion. These guys are really dangerous scum. No wonder that they defame me on their websites and on Usenet with all kinds of sock puppets. I have not one classy enemy – not one of them.

APP: What about Anonymous?

Barbara Schwarz: You are anonymous.

APP: I mean, what do you think about the masked Anonymous who picket the Scientology organizations?

Barbara Schwarz:
They create a lot of noise and tension. In Germany people threw in windows of the Church of Scientology. Decades earlier, they did this to the Jews, and it led to the Kristallnacht. Anonymous are a bunch of religion hating people who are clueless about who L. Ron Hubbard really was and what Scientology really is, and they are too cowardly to show their faces. They just base their information on lies of apostates and former infiltrators and anti-religious extremists. I believe that the German government put these allegedly loosely controlled group up to go after Scientology and Scientologists after the Germans realized that they can't outlaw a religion under their present constitution.

APP: Did you ever go to these picket events?
Barbara Schwarz: Never. [Laughs] I know better things to do with my life but hate marches. What would you say if I tell you that there is a secret code in languages? But don't tell me that I got that from the Matrix, because I have never seen those movies. If you speak the word "picket" out loud, you get a different significance. Picket sounds very much like "Pig is at it." Why would I want to stand in the streets with pigs? I happen to know that much what they claim on their pickets is not true. I saw some of them putting a photo of the L. Ron Hubbard impostor on their pickets and falsely claiming that it would be L. Ron Hubbard. I want to bet that Anonymous is nothing but an anti-religious German secret service movement. I am not on their side.

APP: Does Anonymous target you?

Barbara Schwarz: They don't picket yet in front of my door but numerous people of this anonymous cult write nasty and defamatory stuff about me on the net and lie about me. They sort of merged with the anti-religious extremists. Some of them doctored a photo of mine, some of them defame my state of mind and misinform about my life and actions.

APP: Why does Dave Touretzky claim that you are obsessed with him?

Barbara Schwarz: He claims that I am obsessed with him because I am not obsessed with him. I didn't know who he was when I got one day a USPS letter by an unknown sender. I opened it and saw inside an invoice of a porn shop. It says that Dave Touretzky ordered a porn catalog and porn merchandise. Copies of the porn catalog were attached to the invoice. It was a really offensive and sexually harassing letter. I am proud of my clean mind. I don't want to have dirt and porn in my mind. I am a very passionate and romantic person but perversions are not a part of my personality. In other words, it made me really angry that somebody has the guts to mail me that perverted dirt. The invoice was addressed to the Dave Touretzky, a professor at the CMU, and the phone number under which the porn stuff was ordered turned out to be his office number at this university. I did some research and found that Touretzky is an anti-religious extremist. According to this invoice, Dave Touretzky was indeed sent the porn catalog, the invoice and the porn merchandise. That thing played out on Usenet, and the sex shop owner posted too. He did not deny that Touretzky was one of his customers. A person who made threatened me and defamed me for years, Garry Scarff posted in defense of Touretzky. He wrote that he called the store clerk Adrian and that Adrian told him that they have no customer with the name Touretzky. The store owner posted that they have no clerk with name Adrian…
I never made a statement of fact that Touretzky personally sent me that porn letter - but I kept the letter as evidence. Perhaps the sexual harasser was careless and left his fingerprints on it and his DNA in and on the letter

The RFW has lots of information on Dave Touretzky. What worries me a lot is that he promotes bomb instructions on the net. There is also this a YouTube video by some CMU students:

www.religiousfreedomwatch.org
http://www.youtube.com/watch?v=uPxKLOjAccE
http://www.youtube.com/watch?v=TR_DoZu2ke4

APP: Some people may say that he might order sex toys from this store but that this letter was not sent by Dave Touretzky to you as it would be self-discriminatory.

Barbara Schwarz: The RFW webbed chat records in which Dave Touretzky said that he visits porn sites on the net. Some people should be ashamed of being so low but they are not ashamed of it. It is also possible that this letter was sent to me in an attempt to blame Scientologists of having it sent. Years earlier, I saw indeed porn pictures on the CMU website of Dave Touretzky. He webbed these there.

Touretzky webbed that misleading Salt Lake Tribune article on his website to harass me once more. I don't know what he babbles about a Razor article on his website. It has nothing to do with me. But he also links (recommends) the book of my legally convicted kidnapper Cyril Vosper. I am also personally offended about what Dave Touretzky wrote about L. Ron Hubbard.

APP: What makes you sure that the Church of Scientology did not find that invoice and catalog and mailed it to you?

Barbara Schwarz: How should they find that invoice and the catalog? It was addressed to Touretzky. He does not allow any Scientologist close to him, and it also makes no sense. I am a Scientologist. Why would Scientologists harass another one with porn? It is against our religion. Moreover, I don't have huge access to the media like the celebrities of Scientology. If the Church of Scientology would work with these kind of low methods and would have targeted Touretzky and instigated a campaign against Dave Touretzky, don't you think they would have rather mailed this harassing porn letter to Kristie Alley, Priscilla Presley, Lisa-Marie Presley, Kelly Preston, Anne Archer, Catherine Bell, Nancy Cartright, Jenna Elfman, Juliette Lewis, Sofia Milos, Leah Remini or any other of the many Scientology celebrities? I don't think that they like to be sexually harassed either, and one statement by one of them to the media would have resulted in a large media event. It would have taken this matter out of Usenet, and Dave Touretzky activities within the CMU would have been scrutinized by the media.

APP: What do you think about the Xenu website?

Barbara Schwarz: It is a biased anti-religious website who spreads hate. This is the website of Andreas Heldal-Lund. Just as Dave Touretzky, he recommends the book of my legally convicted kidnapper Cyril Vosper on his website. Lund violated the copyright of Mark Rathbun and another person and used their images on T-Shirts and sold them. I know that Lund is an associate of legally convicted terrorist Lars Gule and lectures with him. I am maliciously defamed and forged by hate mongers on Lund's message board Clambake. Lund blocks people who don't hate Scientology. The www.religiousfreedomwatch.org provides more information about Heldal-Lund.

Heldal-Lund website misinforms about Scientology. It claims that Scientologists believe that they were clams in past lives. I am a Scientologist, and I don't believe that I was a clam in my past life and none of the thousands of Scientologists that I met ever told me that they believe that they were clams in their past lives. Andreas Heldal-Lund thinks he knows it all by knowing nothing.

APP: What happened in the Salt Lake City library?

Barbara Schwarz: Anti-religious extremists bombarded the Salt Lake City library with false complaints about me. There was even one guy who sent forged messages under my name to the library to spam them in order to make them deny access to me to library computers.

APP: Isn’t unconstitutional to deny people access to public computers? Don't they have to treat all patrons equally?

Barbara Schwarz: I was once told by the deputy library director Chip Ward that the library is like the post office. They don't care what message somebody sends, they just forward the mail. Later on, Chip

Ward and library director Nancy Tessman simply changed the rules. They gave me three different versions why they denied access to the library computers to me. First was, because I filed FOIA requests or records request from the library, and they didn't like this. The other version was because I posted on Usenet from the library computer, and they don't like this. Then they changed it again and claimed it was not because of my postings to Usenet but because I filed FOIA/requests or records request from the library computer. It all boils down to that they just searched for a justification to deny my rights to me.

APP: FOIA or records request are a part of American system. I never heard that somebody is not allowed to use public library equipment for this kind of purpose.

Barbara Schwarz: The Salt Lake City library denied my constitutional and other rights. They are above the laws. Also, I filed most of my FOIA requests from at home and not from the library. I had not filed a FOIA request for years when they denied access to the computers to me. It makes no sense. It is arbitrariness and lawlessness. They were bombarded with false complaints about me at the phone and in e-mails, but the library should have informed the authorities to stop the false complaint makers instead of kicking the victim of this campaign off the computers and denying her right to access computers. The Salt Lake City library claims that they are open to anybody and don't censor free speech. It is a lie.

APP: But they don't denied you access to the library as such? You still can go there and check books out and research?

Barbara Schwarz:
Yes, I still can spend all day in the library and research and check books out. They just don’t let me near a computer without causing a scene. It is awful to even enter the library under such a condition. How can you research under such conditions knowing that they treat you like a slave without rights? As they poisoned this atmosphere, I rather don't visit this library any longer.

APP: Posting to Usenet is covered under the constitutional right of free speech. Was there a general non-posting rule that you violated?

Barbara Schwarz: Absolutely not. Other Salt Lake City library patrons could and can post all they want to Usenet. Convicted Bruns was still under probation when he sent over 50 false complaints about me to the library ISP UEN and the library to blackmail them into denying my access to the library computers. Nevertheless, they did not call the authorities to get Bruns probation revoked but rather denied my right of free speech. They knew about his criminal records and obeyed nevertheless. A registered sex-slave, a transsexual with a felony record rules the Internet world. It is a shame.

APP: You are kidding me?

Barbara Schwarz: I wish it would be just a joke but unfortunately, it is the reality.

APP: What on Earth are you writing and posting that results in such a censorship?

Barbara Schwarz: I am writing and posting the truth and my memories. And that is what crooks don't like. Again, my intuition tells me it is all organized by the German secret service.

APP: You admit having filed thousands of FOIA requests?

Barbara Schwarz: I filed FOIA requests from mid/end of the 90s to 2001. Please order the FOIA logs from all federal agencies and count the number of FOIA requests which are recorded in their FOIA logs. My count of FOIA requests in these logs of all federal agencies are in the low hundreds.

APP: Who came up with the "thousands of FOIA requests"

Barbara Schwarz: Some officials within the U.S. government. They made the number up to find an excuse to deny my right for records. Fact is, reporters filed a lot more FOIA requests than I did. But I got all the "fame".

APP: What kind of records did you request from the feds?

Barbara Schwarz: For example, records on Mark Rathbun, his attorney, his family, L. Ron Hubbard, Scientology, myself..

APP: Some people claim that you asked records that did not exist.

Barbara Schwarz: They are lying.

APP: Some of these people wrote that you did not pay your FOIA fees.

Barbara Schwarz: This is a load of bull, because the first 2 hours search time and the first 100 pages of records are free for any FOIA requester. If an agency has more records, they have to stop the search after two hours and 100 pages free records and have to ask you for permission to go ahead with more search and have to ask you if you are willing to pay. I never authorized any agency to incur any fees for me.

APP: But the U.S. government claims that you didn't pay FOIA fees to the U.S. Department of Veterans Affairs.

Barbara Schwarz: The VA incurred these fees without my permission and the U.S. Dept. of Justice knows about it and covers it up. It is criminal to incur costs for a person. It is like having to pay for gas that you did not pump and did not ask to be pumped.

APP: Why did they do it?

Barbara Schwarz:
Well, they HAVE the records or at least some of the records that I

requested. In order to deny them to me, they figured out a lawless method to stop me getting them. They want me to pay the fees that I did not occur. Moreover, these VA fees are not actual FOIA fees or records or search fees. They are "fees" for one of their students having looked in my file. It says nowhere within the FOIA law that somebody has to pay these kind of "fees". You just have to pay for search time and for records. If a student wants to satisfy his curiosity, no FOIA requester has to pay for that.

APP: When did this happen?

Barbara Schwarz
In fall of 2001.

APP:
And you filed no FOIA requests anymore to the feds since that time?

Barbara Schwarz
That's right. They denied the right to me by figuring out an illegal way to stop my requests.

APP: How much do they claim that you owe?

Barbara Schwarz:
USD 303.30

APP [laughs]: Only 303.30 Dollars? Why didn't you just come up with the money and continue to ask for records that you were looking for?

Barbara Schwarz: Because I would have paid for fees that I did not incur; I would have paid fraudulently fabricated fees. Also, as soon as I would have paid these, they would have incurred other fees. It happened before. The FBI field office in Salt Lake City were the first agency who applied this criminal trick. They incurred fees without my consent by mailing me duplicate records that I did not request, and those records that I needed, they did not mail me. The fee was around USD 17. I paid this amount to the FBI. After I had paid the money, I asked the FBI field office in Salt Lake City to mail the correct files to me but not to incur again any fees without my consent. Then, the FBI field office, together with the Office of Information and Privacy (and just about all other federal agency) conspired again against me and used the fabricated VA fees, a much higher amount against me. They said that I have to pay this amount first before they process my request. Nevertheless, some agencies denied processing of my FOIA requests based on the FBI fees that I paid! In other words, even if there would be no cent that I owe, they would not process my requests by wrongfully claiming that I would owe money.

APP: You're saying that you never will get records from the feds because as soon as you pay one fabricated fee that they would issue another fabricated fee to stop your requests?

Barbara Schwarz: You got it.

APP: Why did you sue the federal government? AHBL (Bruns) wrote that you sued the government after you filed bogus record requests and that the government did not have these records.

Barbara Schwarz:
Bruns was an inmate for many months in federal prison, and he is liar and anti-free speech activist. I filed FOIA requests for records in which I am truly interested. I am sure that the feds had at least some of the records that I requested. So, I sent my FOIA requests to them and from their responses, I was able to conclude that some agencies did not search at all, some agencies searched in the wrong records files, some searched in insufficient records files, some searched to wrongfully spelled names, some searched in a wrong time period, some searched only to a few of my subjects. In short: there was not one answer by any agency that indicated that any agency conducted an adequate search. And then I did something, the feds never forgave me.

APP: Now I'm really curious…

Barbara Schwarz: Federal workers have to keep a paper trail of what they do. I filed a FOIA request to any federal agency that allegedly conducted a first search for records that I had requested. In that request, I asked for the search records that they generated during the alleged first search, because I wanted to reconstruct what they did or did not do during their alleged searches. I wanted proof that they processed my requests per the Freedom of Information statutes and that operated within the laws.

APP: And that is unforgivable?

Barbara Schwarz: Apparently. Even the Salt Lake Tribune once wrote in another article that was not about me that officials consider requests for records as "incoming torpedo". These officials are afraid that the public catches them in unlawful acts. The purpose of FOIA is to enable the public to check what the government is up to. As I said, I always operated within the FOIA law and its purpose. So, I asked them for their internal search records and also for records of any inquiry by an attorney of Mark Rathbun or another attorney or an independent counsel who asked for my records. I asked them to provide me with an affidavit that they do not withhold records and in which they explain in what time period and records systems and to what names and spellings they searched.

APP: And they hated this?

Barbara Schwarz: You can bet the farm on it. Because they have a bad conscience. They knew that they denied my rights and conducted no lawful searches and concealed records.

APP: Some Internet people claim that you received no records at all.

Barbara Schwarz: They know better because I posted about this hundreds of times on Usenet. I got some records.

APP: You received records? But if you received the records, why did you sue them?

Barbara Schwarz: Don't try to get ahead of me. I received records but not all that I needed and none of any attorney inquiry, none related to Mark or Marty Rathbun. I received records on Scientology and L. Ron Hubbard and numerous internal search records. These records proved indeed that the agencies did not conduct adequate searches in all records systems but that they searched to wrongful spellings of the names and searched wrong time periods. Some sent their replies to a wrong address or wrong or misspelled name or their letter did not contain a date. It was corrupt.

APP: You're kidding me.

Barbara Schwarz: If I would want to kid you, I would tell you that the agencies conducted lawful searches. I also requested some other records in October 2000 for records on Bin Laden as I sensed that he was up to atrocities. The U.S. agencies did not search his files. And now, this summer, I sense that more atrocities against the USA are in the making. Instead of denying my rights, the US government should use my spiritual abilities to figure things out in time.

APP: Did you get the affidavits that they conducted adequate searches?

Barbara Schwarz: Now I am the one who asks: are you kidding me? They did not mail me the affidavits, because they made no lawful searches and were withholding records to which I was entitled.

APP: And then you sued them?

Barbara Schwarz: No. I filed administrative appeals and explained in much detail to their administrative appeal authorities that the agencies did not conduct lawful searches and did not provide me with an affidavit to give me peace of mind that they don’t illegally withhold records.

APP: And then you sued them?

Barbara Schwarz (laughs):

What is the matter with you? Why are you so eager to sue? I waited patiently for the appeal authorities to study my appeals and to make a decision on them. However, they conspired with the FOIA offices against me and denied adequate searches and affidavits to me. They advised me that if I would be not satisfied, I could sue them in a court of law. In other words: they provoked the legal cases.

APP: And then you sued them.

Barbara Schwarz:

And then I sued them. I asked the courts to compel the agencies to conduct adequate searches and to withhold no records before me.

APP: How many law suits did you file?

Barbara Schwarz: I did not count them, I don't count anything. I just estimate: 100 cases but those include the appeals. But several cases had not just one defendant but numerous agencies as defendants. While some law suits were pending, I obtained approx. hundred different affidavits and none of them - except one - was an adequate affidavit. They contained contradictory information, confusion, even falsehoods and proved again that no adequate searches were conducted.

APP: The Salt Lake Tribune wrote that you rarely appear in court.

Barbara Schwarz: The Tribune is just good to clean your windows with. I acted as my own attorney all the time in court and went to any hearing that any judge ordered.

APP: I'll ask you some questions about that paper later. Right now, I want to know what happened next.

Barbara Schwarz: The courts denied my cases by conspiring with the agencies. I appealed to the Circuit Courts, and they conspired with the agencies and the lower courts and denied unlawfully my legal cases. You should see the stupid and unprofessional rulings that the judges signed. I assume that some idiotic law clerks write these judgments, and the judges just sign without reading what these clerks put on their table. These judges would probably even sign a ruling for their own execution on the electrical chair if a clerk puts it on their tables.

APP: You disagree with the court decisions?

Barbara Schwarz: Of course I do. They ignored the FOIA laws and the case laws, which I cited in support of my cases. In at least two final rulings by the U.S. District Court of Columbia, they called the U.S. Departments, U.S. Depots. Can you imagine how dumb and corrupt these clerks are who actually decide these federal cases? And how stupid and corrupt the judges are who sign these rulings? I never sued any Depot… I cited the U.S. Departments and agencies with their correct names in my complaints, briefs, pleadings and appeals.

APP: And then you addressed the U.S. Supreme Court:

Barbara Schwarz:
No. I filed for rehearing to the Circuit Courts. I pointed the "errors" (the corruption) out and asked for a rehearing/ reconsideration.

APP: They did not correct their wrongful spellings in these judgments?

Barbara Schwarz:
That's right. And neither unlawful rulings. These courts are a disgrace to the United States. And this includes also the U.S. Supreme Court. They ignored my Writs of Certiorari until the day they plotted against me very much in the conspirative style of the FBI and the VA and the other agencies and courts. All except one U.S. Supreme Court justice ruled that I should file fees if I want to continue filing

Writs of Certiorari to their court, knowing that I could not afford it. Also, if I could afford it, what is the sense in filing long Writs of Certiorari to the Supreme Court justices if they are biased like the lower judges and don't want to grant your rights?

APP: Are you saying that people's rights are not granted in the USA?

Barbara Schwarz: Many people's rights are not granted. I am not the only one claiming so. The organization A Matter of Justice tries since many years to make victims of legal abuse to join together and demand congressional hearing on the legal abuse in the USA.
They claim that the facts of the case do not matter to the court but a well-connected lawyer does. They say that judges are manipulative and that judges must be stripped off their immunity and held accountable for their corrupt actions. They are right – but the next problem lies within the Congress. Once these complaints are brought before corrupt representatives and senators, nothing is cleaned up and effectively changed by them. The corruption, the lawlessness and violation of rights continues...

However, as far as I am concerned, I'll get no justice anywhere. It doesn't matter in which country I go. I am followed around by the fanatical and insane German secret service, which controls just about anything and anybody.

APP: Why don't you hate the USA?

Barbara Schwarz: I don't hate Uncle Sam. To me, Uncle Sam is a closer relative than just an Uncle. German controlled "Americans" are not America. I am America. I am good. I don't hate myself.

APP: Did you try to sue the US government for money?

Barbara Schwarz:

No. I just wanted the records and evidence that they don’t withhold them. Through the records, I also wanted to be sure that Mark Rathbun is not framed and not held wrongfully incarcerated on fabricated charges and that he is not wrongfully convicted by what the Germans set up against him. Because if so, I could exonerate him.

APP: You stated that the U.S. government is infiltrated by the German government…

Barbara Schwarz:

Yes, I did. And I am sticking to it. I say that many officials in the U.S. government have no true American intentions. They might be born in the USA like "American" Taliban kid, or those who disgrace the reputation of the USA in Abu Ghraib or like other traitors, but they act against the interest of the United States. After all that happens to me, after all my bad experiences with the so-called U.S. government, I am saying that it is a secret German colony.

APP: A secret German colony? The Euro goes up, the Dollar goes down… Would Germany do that to its own secret colony?

Barbara Schwarz:
Germans even shot Germans who tried to cross the Berlin wall. I never said that Germany would be good to its secret American colony. Any American would have it better, if the Germans would get out of the USA and take their criminal and perverted influence and rotten ways and methods with them. Google "SEGNPMSS" and learn what they are doing in the USA and any other country on Earth.

APP: Did you ask state agencies for records on Scientology, L. Ron Hubbard, Mark Rathbun, his attorney and his family and yourself too?

Barbara Schwarz: Yes. After September 2001, I filed record requests, as permitted by state laws to all states, any agency that might have responsive records. I even filed requests for records to all major universities.

APP: How did this work out?

Barbara Schwarz: State governmental workers are even worse than the federal workers. Most of them don't care what their records law says. They hate records requests, they hate mailing copies of their records to the requester - even if the requesters are entitled to them under the law.

APP: What makes you think that some attorney or the attorney of Mark or Marty Rathbun tried to find you by addressing agencies?

Barbara Schwarz: It is complicated. It is my intuition, and I added many small incidents together.

APP: Salt Lake Tribune, Christopher Smith wrote a few years ago an article about you, and you wrote in a webbed affidavit that he tricked you in meeting him.

Barbara Schwarz: That is right. He came to my door while I was not home and attached a note saying that he came all the way from Washington D.C. to Salt Lake City just to talk to me because of the way the Department of Justice would treat me as this could have significant ramifications against members of the free press. He wrote that he wants to write an article about this and that he needs my help and that I should contact him in the Marriott Hotel.

APP: You meet him to help the press?

Barbara Schwarz: Yes. If I would have known that he came all the way from D.C. to smear my private life, I never would have met him.

APP: He never wrote that article to help other reporters?

Barbara Schwarz: Christopher Smith knew very well that the federal employees denied my rights and that the rights of reporters and others are at a risk too. He knew that federal workers plotted against me and

may do that also to reporters and other citizens. Writing a confused and incoherent sensational article about what he thinks my private life is was more important to him than helping other reporters who need FOIA records frequently. After we met in a Café, we corresponded for a couple of weeks privately - as friends -before he suddenly turned on me and wrote that nasty article. The Salt Lake Tribune printed the defamation of my character on Mother's day on the front page. Speak about evil….

APP: You don't recognize your own life in this article?

Barbara Schwarz: Of course not! How can I? It is a confused article. That is not my life, and I did not overburden the federal government. He did not check the FOIA logs that would give him an idea how many FOIA requests I really filed. He did not call the Dept. of VA to investigate these alleged fees, but he knew that the feds has records that I requested and that they did not want to give them to me. The headline and the overall tenor of the article is very wrong and so are details.

APP: What about your will to live?

Barbara Schwarz [laughs]:
I am not suicidal. But if I would, how come the Tribune was not able to figure out that such an article, such a hostile defamatory trash article could push a person over the edge? They gave a damn if I would kill myself when they published that hostile article that should make me to an outcast of the society. This article was used hundreds of times or more to harass me on Usenet and still is on websites for anybody in the world to read for no other purpose than to harass me and misinform about me.

APP: Why don't you call Mr. Rathbun? Isn't he a reporter in Texas, Corpus Christi area, running a campaign for Barrack Obama?

Barbara Schwarz:
That is not the person, I am looking for.

APP: Is that the person the Mark or Marty Rathbun you are looking for?
http://images.google.com/images

Barbara Schwarz:
Yes, that is the right one. That's my prince.

APP: What makes you so sure that the Texas Mark Rathbun is not the right one?

Barbara Schwarz:
They are different people and have a different charisma. Also, if the real Marty would be a free man and not wrongfully incarcerated for crimes he never committed, he would contact me.

APP: What if the one in Corpus Christi contacts you? Is he then the real Marty?

Barbara Schwarz:
Nonsense. Only the real Marty is the real Marty. No Doppelganger can fool me. I can recognize the diamond from the glass stone, the Blue Mauritius from the 17 cents stamp and the human from a God. The real Marty knows that I will recognize him. If he would be the person in Corpus Texas or if he would be elsewhere free, he would contact me. He just has to call for my attention on Usenet until I see it, and then I would make sure that he can reach me.

APP: Wikipedia published an article about that gentleman. Are you saying that the Wikipedia combined two identities up in one article?

Barbara Schwarz:
Yes, this is what I am thinking. Just as L. Ron Hubbard was confused with others.

APP: The original Marty does not look like a prisoner in that photo. He wears a fine suit, looks good and clean…

Barbara Schwarz: I agree. But even prisoners sometimes wear a suit. This photos is no guarantee that he is indeed not wrongfully incarcerated.

APP: People who claim that you a former Scientologist are lying?

Barbara Schwarz:
Yes. I am no former Scientologist, I never resigned from my religion. I am a Scientologist, always was, always will be. I am no cultist, I no Freezone-Scientologist, I am a strong-willed, independent, and individual Scientologist in L. Ron Hubbard's sense.

APP:
You are educated, you speak two languages fluently, you are computer literate, you rocked the feds and all state governments, the Salt Lake Tribune attorney says that you presented and handled your legal cases better than many attorneys, and you can explain anything that relates to Scientology. Why are you not employed by the Church of Scientology?

Barbara Schwarz:
Because the German government, their secret service sent and sends German and international infiltrators in the branches of the Church of Scientology to overtake them, to alter the writings of L. Ron Hubbard and to cause situations, which result in a bad reputation of L. Ron Hubbard and Scientology. I don't get along with infiltrators. I am not at home in infiltrated Scientology orgs. I can't just sit there, say nothing and watch infiltrators destroy L. Ron Hubbard's work. This happened before. Non-Scientologists in the Scientology orgs ganged up on me and denied me access to the Scientology organizations and my religion because I am in their way.

APP: Are you excommunicated by the Church of Scientology?

Barbara Schwarz [laughs]: No. I am not SP-declared and never was. Don't take drugs, are no freeloader, don’t need expensive medical

care, have no PTS situation, have no debts. I would be the ideal candidate for a high position within the Church of Scientology, if it would be not infiltrated on orders of the German government and its secret services.

APP: What do you think of people who say that they are afraid of Scientology?

Barbara Schwarz: Any kind of crimes and violence are not any part of L. Ron Hubbard's Scientology.

APP: Will you never return to the Church of Scientology?

Barbara Schwarz: I will be back one day but not as little employee that can be ordered around by people in the Scientology orgs that are not even Scientologists. This is my ultimate nightmare, having a superior in Scientology who is a German controlled infiltrator and who wants to give me orders. Under these circumstances, I rather stay private.

APP: Do you believe that L. Ron Hubbard was murdered?

Barbara Schwarz:
Yes, I am convinced of this. But not by Scientologists but by the German secret service doctors who followed him in the USA.

APP: What about the report of the San Obispo County Coroner?

Barbara Schwarz:
I am convinced that the person who died there was an impostor. It was not L. Ron Hubbard.

APP: The FBI called and said that the fingerprints match those of L. Ron Hubbard.

Barbara Schwarz:
I am convinced that they don't have L. Ron Hubbard's fingerprints but those of the impostor in their files.

APP: Why is the Church of Scientology not investigating this?

Barbara Schwarz: They should.

APP: Thank you for this interview.

Barbara Schwarz: You are welcome.

2008 APDXC. Mac, JA3USA, sends the following (edited):
"Dear Fellow DX-ers and Contesters,
You are cordially invited to the Asia Pacific DX Convention on November 7 through 9, 2008.

Please take a look at the website to see some photos and presentation videos from the first APDXC which was held in 2005. The many DX-ers from all over the world who attended enjoyed it very much.

In addition to the usual presentations of recent DX-peditions, technical sessions, etc., this convention offers something special. Since it's being held in the country from which most of the modern amateur radio equipment comes from, you'll have the opportunity to tour the Icom factory, participate in a Q&A session with Icom engineers, tour the electronics district, and more.

We would appreciate your introducing this convention to your DX/contest club members. Please see our website for more details at: http://www.apdxc.org/

For convention updates, please visit the website and send an e-mail to subscribe to the APDXC newsletter. We look forward to welcoming you at the APDXC in Osaka, Japan..... APDXC Committee / JA3USA"

3X, GUINEA. "The Daily DX" reports that John, VE2EQL, will be active as 3XY0D from KanKan, between now and August 9th. Activity will mostly be on 20/17/15 meters, with some activity on 40 meters. He plans to be on the air around 1000-1100z and after 2300z. QSL via his home callsign.

5R, MADAGASCAR. Some reports indicate that Jean-Marc, F1HDI, will be part of a DXpedition team planning to activate Sainte Marie Island (AF-090), from September 20-25th. Activity seems to be focused on 144 MHz EME, but HF is mentioned. More details are forthcoming.

6V, SENEGAL. Laurent, F8ATM, will be active as 6V7L between August 8-22nd. Activity will be on all HF bands using SSB and RTTY. QSL via his home callsign, direct or by the bureau.

6V, SENEGAL (Special Event). The Senegalese SNRASEC ARC (6W7PCT) will activate the special callsign 6V7SPACE during the Space Week between October 4-10th. A rendezvous is scheduled on October 4th for an air meeting between a class at the Grandcour school (Switzerland, Fribourg Canton) and the Scientific Club of the College IV of Mbour (Senegal). Radio and SSTV exchanges are planned. More information is available on the SNRASEC Web page at: http://www.senrasec.org

8J, JAPAN (Special Event Stations).....
8J1A - Will be activated between August 1-24th to celebrate the 2008 Amateur Radio Festival. QSL via the JARL Bureau.

8J5IKUJU - Will be activated between August 1st and October 26th to celebrate the 32nd National Ikuju (or Cultivating Trees) Festival. Activity will be on all bands and modes. QSL via the JARL Bureau.

8J750MCS - Will be activated between August 1st and October 31st to commemorate the 50th anniversary of the Japan Cancer Society and Miyagi(Pref.) Cancer Society. Look for activity on all bands and modes. QSL via the JARL Bureau.

8Q, MALDIVES. Andrew, G7COD, will once again be active for the fifth time from the Island of Embudu in the Kaafu Atoll, Maldives (AS-013), using the callsign 8Q7AK between 0800z, October 12th and 0800z, October 25th. Activity will be on 40-12 meters using CW and SSB. He plans to be operational every day from approximately 0730-0830z, 0900-1030z, 1300-1500z and 1730-1745z. Suggested frequencies are (+/- QRM):
SSB - 7063, 14147, 18133, 21253 and 24953 kHz
CW - 7003, 10103, 14003, 18073, 21003 and 24893 kHz
For comprehensive details of operating times, spot frequencies, QSL information, etc, please check 8Q7AK on QRZ.com. IMPORTANT NOTE FROM Andrew/G7COD (edited): "I am completely up-to-date with the return of QSLs for those received direct and/or eQSLs from previous activations. If you have not received yours, please send your QSL again. If you have not received a return QSL for cards sent via the bureau this is because of the slow process rate. I will return cards via the bureau as soon as possible, as and when I receive them from the bureau. All QSLs should be sent via the bureau or direct to G7COD. Please note: 8Q7AK is approved for DXCC credits."

9Q, DEM. REP. OF CONGO (But Moving To A6). Philippe, 9Q1TB (F5LTB), has announced this past week that after 5 years he is leaving the Democratic Republic of Congo (DRC) and is expected to move to the United Arab Emirates (A6) in September. He has already applied for an A6 licence. However, Philippe continues to be active from DRC, mainly speaking French, on 40-6 meters. He prefers 20 meters SSB (lower portion) between 0700-0800z and 15 meters (21188 kHz) between 1500-1600z using only 100 watts. He reports that he has removed his 160/80 meters antennas. QSL via SM5DJZ.

AT25, INDIA (Special Event). Jose, VU2JOS, from the National Institute of Amateur Radio (NAIR), announced the celebration of the 25th anniversary of NIAR, the premier Amateur Radio organziation in India. The following two special callsigns will be activated:
AT25MY - From NIAR in Hyderabad. Operators will be VU2MY (S.Suri), VU2MYH (S.Ram Mohan), VU2BL (Ms.M.Bhanumathy), VU2JOS (Jose Jacob), VU2YAM (Ms.S.Yamini), VU2LFA (Sushil Kumar Dhingra), VU2JMA (Ms.B.Jayamma), VU2UWZ (S.Madhu Mohan) and VU3LMS (Ms.Lissy Jose).
AT25RG - From New Delhi. Operator VU2RBI (YL Bharathi).
QSL via VU2NRO.

CARIBBEAN TOUR TO START THIS WEEK. Operators Freddy/F5IRO and David/F8CRS will be making visits to the Islands of Martinique and Guadeloupe between August 4-21st. Their schedule and stops are as follows:
August 4-17th - Active as TO8S from Les Saintes Island (NA-114); with 2 HF stations, mainly CW on 80-10 meters (some SSB and RTTY too). During the same period, they will try to be active as FG/homecall from Guadeloupe (NA-102) for 3-4 days with one station, and FM/homecall from the Island Martinique (NA-107) for 3-4 days. It is recommend to watch the clusters!

August 18-21st - They will end their stay and be active as FM/homecall from the Martinique (NA-107) with 1 station.

Operations will be holiday style during their spare time. QSL via F8CRS, by the Bureau or direct (w/SAE+postage).

C6, BAHAMAS (IOTA/Lighthouse Op). Look for C6APR to be activated again from Crooked Island Lodge, Pittstown Point, Crooked Island (NA-113) between October 23-26th. Activity will include the 2008 CQWW SSB Contest. Before and after the contest, C6APR will be on the HF bands including 30/17/12 meters using CW and SSB. Also before and after the contest, the callsign C6AXD will be used on HF RTTY. Both calls are good for Bird Rock Lighthouse (ARLHS BAH-005, TWLHD WLHC6-002, WLOTA LH-0118, Admiralty J4792) as well as IOTA NA-113 and Grid FL22tt. All QSLs go to K3IXD.

D4, CAPE VERDE. Luca, IK2NCJ, will once again be active from the D4C Contest station on Sao Vicente (AF-086, WLOTA LH-1976, WW Loc. HK76MV), Cape Verde Islands, August 6-18th. This time he will have Girts, YL2KL, with him for the Worked All Europe CW Contest (August 9-10th) as a Multi-Single entry. Luca is also expected to be in the SARTG World Wide RTTY Contest (August 16-17th). He will be watching 6 meters while there. The 6 meter beacon runs 40 watts and the beacon will be on 50.034 MHz with a vertical antenna. QSL via IZ4DPV.

DXCC NEWS.....
* Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:
5X4X - Uganda; Current operation effective 2007
If you had cards rejected for this operation, send an E-mail to dxcc@arrl.org to be placed on the list for an update.

* Buzz, NI5DX, reports, "I have heard from NC1L about the acceptance of YI9WV's operation for DXCC credit. I am pleased to state that Kitch's activities have been approved for DXCC credit."

* During the ARRL Board of Directors Second Meeting of 2008, held on July 18-19th in Windsor, Connecticut, the Board acted on the "Programs and Services Committee" report voting to eliminate Rule 5 from Section III of the DXCC Rules. The Committee realized that while publishing log data can have a detrimental effect on operating awards, it was not possible to control such actions and the rule cannot be enforced. As part of an effort to maintain the integrity of operating awards programs, the Board called on staff to create resources and guidelines for QSLing and for QSL managers. These guidelines will help people who QSL to understand the "best practices" and help to support the work of the QSL manager so that access to log data won't degrade Amateur Radio's long tradition of the "honor system."

* 2007 DXCC HONOR ROLL LIST (Update). Bill Moore, NC1L, ARRL Awards Branch Manager, reports: "Upon further review it was determined that the 2007 Honor Roll list that was published in August 2008 QST was produced from a corrupted report feature in the DXCC software. Because there is so much data produced from the raw list (almost 8,000 lines)

it was not possible to do a complete review.
Since the report is too large for a line-by-line review, random samplings were checked and many were found to be OK. It was not until the complete report was published that we found the report had more errors than originally thought.
Publishing a simple correction in an upcoming issue of QST is not possible. Since the 2007 DXCC yearbook was just getting ready to go to the printer we placed it on hold. We will be expanding this issue even more to accommodate a complete reprint of the 2007 Honor Roll list (something many of you have suggested in previous years.) The 2007 Honor Roll list will also be published on the DXCC web site and this list will be separate from the current "live" online Honor Roll list.
We regret any inconvenience caused by this and we appreciate your patience and understanding.
Note: DXCC numbers as shown on the website are not affected by this problem. The report generator is a separate module that takes information from the DXCC database. The errors that were shown in the list were taken from a previous submission only.
We extend our congratulations to all who have achieved the DXCC Honor Roll and thank you for your support! 73 es DX!"

H40, TEMOTU PROVINCE (Rare IOTA). "The Daily DX" reports that Mike/KM9D and his girlfriend Jan/KF4TUG will once again begin sailing soon and plan to make their first stop to Temotu Province (H40). They hope to activate Vanikolo Island, a rare IOTA in the OC-163 group.

OQP DATE WRONG CQ MAGAZINE. Jim, K8MR, reports that the "Calendar of Events" listed in the August 2008 CQ Magazine (page 96) has erroneously

listed the Ohio QSO Party (OQP) as being on August 30-31st. It is actually on Saturday, August 23rd, or 1600z August 23rd to 0400z, August 24th. Jim states, "There are no contests listed for the weekend of August 23-24th. I suspect there are wrong dates for several of the others listed for August 30-31. I hope to see you all in the OQP on SATURDAY, AUGUST 23RD!" Full details about the OQP are available at: http://www.oqp.us

PACIFIC TOUR. Operators Hide/JM1LJS and Junichi/JA3RAF are expected to be in the Pacific area between August 7-20th. Their schedule is as follows:

The 8J9HGR Hegura Island (AS-117) logs are now available online at: http://hegura.hp.infoseek.co.jp/search.htm

Paul, A35RK, informs OPDX that he has uploaded his July 2008 log to the LoTW. He states, ".... I discovered something interesting. I uploaded 397 Q's, all but 4 of which were either RTTY or PSK31 contacts. Immediately, LoTW reported that I already had 100 confirmations on record for the month of July, ALL 100 of which were for digital contacts...none for CW or SSB. That's better than a 25% 'return' rate! Compare that to an average 'request for QSL via W7TSQ' of about 10-12%. It would appear that LoTW is gaining in popularity, especially amongst the 'digital crowd'."

NEW QSL ROUTE. The new address for the QSL Manager for GM7V and GZ7V as of August 1st, 2008, is: Linda Taylor (M0CMK), 18 Wyness Avenue, Little Brickhill, Bucks. MK17 9NG, UK.

J200MM/J20RR BUREAU QSLS. Silvano, I2YSB, QSL Manager of J20MM and J20RR, informs OPDX readers of the following (edited): "First of all let me clarify that I (I2YSB) am a good standing member of A.R.I. Said that I was surprised when I have received several envelopes from foreign radio amateurs containing their QSLs sent to me via the bureau (since I am the QSL Manager) for J20MM and J20RR DXpedition and their QSLs were rejected by the Italian QSL Bureau (Managed by A.R.I.) with the wording: 'A.R.I ITALY - QSL BUREAU - NOT MEMBER' I wanted to confirm to all those that requested QSL cards of J20MM and J20RR via E-mail (in excess of 1000) that I have sent the cards to everybody through the Italian Bureau. I have also answered the 3565 QSLs received through the Italian Bureau (2806 via the office in Albino and 759 via the one in Broni). I have made a very limited sample survey (130 E-mails sent to OM of 28 nations to whom I have answered via the Italian bureau) asking if they had received their QSL, and I have received 7 positive answers and 80 negative answers. I have sent a letter to the person responsible for the Italian QSL Bureau explaining what happened, but so far I have not received any answer.
For the next DXpedition, the Manager for the Bureau service will be G6MBY, and for next year please be advised that I2YSB will no longer member of A.R.I.....
73 Silvano I2YSB manager of J20MM and J20RR"

KL7DX QSL REMINDER. The KL7DX (NA-234) operation is now completed and the team is safely off the erupting volcano. A reminder from QSL Manager Ron, AC7DX: "PLEASE DO NOT send your requests to the Alaskan address for KL7DX. SEND only to:
* AC7DX
* PO Box 25426
* Eugene
* Oregon 97402
Cards will go out in order received with Bureau cards to be sent after all direct replies have been answered. There will be no LoTW. QSL cards will be designed and printed after team returns so please allow ample time for cards to be sent. Thanks to everyone. Very 73, Ron AC7DX"

TC17GS QSL UPDATE. Urcun, TA0U, reports that TC17GS was active between June 1-15th (2008) and recently announced that all QSL cards will be sent by the end of August 2008: http://www.ta0u.com/detay.asp?id=3D4268 But... For all the countries which are listed in the next link, all the QSL cards were sent "via the Bureau" to the announced mail address... on July 26th. The rest will be sent by the end of August 2008. See: http://www.ta0u.com/detay.asp?id=3D4274

W1AW/KL7 QSLS. All QSLs will be routed through W1AW national HQ. Members of the ARRL 2008 Alaska State Convention Special Event Station will give the League their log and will confirm contacts and send out cards. Look for W1AW/KL7 to be active until August 10th. Activity will be on 160-6 meters. For complete details, see the info at: http://www.arrl.org/?artid=8327

QSLS VIA LOTW: 5U1A, 5U2K, 5U4R, 5U9C, HP1/WN6K, N1YC/VK9X and N3KS/KP5

QSLS RECEIVED VIA MAIL: 9M6/N1UR, 9X0R, 9Z4CT, D4C, IV3EFE, KO1U/M, PZ5RA, R1ANR, SU9HP, TX5C, VP2MRM, VP6DX, W8CAA/VP5, Y24GE and ZF2GU

T8, PALAU. Hidenori, JI2TXU, will once again be active as T88TX from the West Plaza Hotel By The Sea, Koror, Palau (OC-009), from August 15-20th. Activity will be on 40/20/15/12/10/6 meters SSB. QSL via JI2TXU.

TO4, SAINT MARTIN. Paul, K1XM, is planning to be operating from French St. Martin for both CQ WW DX Contests this year. The callsign for both contests will probably be TO4X. For the CQ WW DX SSB Contest (October 25-26th) he will be a Single-Op/All-Band (possibly an assisted) entry (depending on an Internet connection). For the CQ WW DX CW Contest (November 29-30th) he will be a Multi-2 or maybe Multi-Single entry with WA1S and KQ1F. KQ1F will be the QSL Manager for both operations.

TOKYO DX BANQUET (Update). All DXers are invited to attended the "2008 DXers Banquet in Tokyo" that will be held on the evening of August 23rd, in conjunction with the 2008 Ham Fair in Tokyo. The location of the banquet is the Tokyo Fashion Town (TFT) building, East-Wing 9th floor. The place is about a 7 minute walk from the Big Site Ham Fair location. For complete details, visit the NDXA Web site at: http://www.ndxa.net/e.html

TRIPLE PLAY AWARD (A new WAS award!). During the ARRL Board of Directors Second Meeting of 2008, held on July 18-19th in Windsor, Connecticut, the Board voted to create a "Triple Play Award". This new award, set to be implemented by January 2009, will be given to those amateurs who achieve "Worked All States" (WAS) on voice, CW and digital modes. All 150 QSLs must be exclusively via "Logbook of The World" (LoTW). Only those contacts made after the award's start date will be eligible.

VP8, FALKLAND ISLANDS (SA-002). It was announced last week that a group of YL operators will be active from here between January 17-31st. OK, I got an old linear that I acquired from my late FIL about 20 yrs ago. It's been in cool clean storage ever since and I'd like to get rid of it. I tried to sell on ebay till I got mucho alerts to the effect ebay no liking CB linear listings. I pulled it. I don't know much about radio, but I'm sure it was a CB linear cuz he never had a ham license. I was advised by one helpful fellow that I should list it as a ham linear and make no mention of CB. That makes sense, but I pride myself on being very accurate and honest about what I sell and so would like some help identifying this particular piece of hardware, it at all possible.

It has no brand name on it, so I suspect it's a homebrew. It's a very nice job if it is. It has a 2" high chassis box with one vacuum tube and a pretty good size transformer mounted on top. A 4" high full cover over that is machine perferated on 3 sides for cooling.

Transformer: GRAND 11-2206A GT-6974 7578049
vacuum tube: 6805/EL84

On lower front lower chassis, it has an ON/OFF and STDBY switch and one red light. The meter is a Sonar brand:

S units --> DB
Output 0-30+

Rear lower chassis has IN and OUT antenna jacks and a ground wire terminal and of course, an AC plug. Overall dimensions with cover on are 6"H X 7"W X 5"D. Weight approx 6-8lbs.

I don't know if anything can be determined by the above info, but any help would be appreciated. I can open her up all the way, if that will help. I'm not real savvy on radio, but do know basic electronics and can identify different components. Thank you.

The plate dissapation of the tube you described is only about 10 or 20
watts. This is not anything any ham would want.

And that is at audio frequencies, IIRC. Lots of guitar amps use that tube in push-pull, or AB1 single tube config. I'm reaching way back and my memory is having problems, but I think I'm in the ballpark.

Yes, very common in guitar amps.

Sounds like he's better off. From all I've heard about you lot, and from you, as well, you're outer-filthing stalker-kooks, cowards, blackmailers, and forgers. Mark's kookiness is limited to, well, trying to mute your harassment of him. Basically, you hate that he's a dyslexic who doesn't know Morse, and an out bisexual (which you perceive as a synonym for homosexuality, highlighting your cluelessness and bigotry (here's a clue: Bi people like both men and women, but not necessarily transpeople)), meaning you can't blackmail him to force him off the airwaves, usenet, or the internet, or pressure him in pretty much any way at all, except the kookiest way.

Of course, you could see your way to, I dunno, maybe *adequately defending yourselves*, but if you're the kooks I believe you to be, you'll step up the campaign of harassment instead (or whine about my persecution of you), which would have the one bright spot of making you better candidates for kook awards.

On the subject of adequate self-defence, revealing the names of Mark's fanbois (the ones doing the frogging and forging -- I only have a short list, at the moment, but that will change) would be a great start, since I'm currently assuming all regulars in rec.radio.*, who are not kookologists, are in his fan club. No, that doesn't do much for your reputations, does it? With Kookpedia up and running, it'll become quite easy to Google your names and get FAQs about your treatment of Mark Morgan, one day. If I were you, I'd want to be excluded from that. Lie

down with cowards, get up with sleaze.

As of this time last evening, August 5th, 2008, the membership of the CCRAA Amateur Radio Club voted to remove Mark C. Morgan, KB9RQZ, as their club president. They impeached him.
Mark's wife, Gav, KD8CTL, depending upon who you believe, was either asked to leave or resigned her position as club Secretary, too.
Mark was up all night last evening as he fabricated excuse after escuse after excuse, each one different than the last, as to why he was ousted. In all of his twisted tales Mark continues to carry a common thread. That he is a victim. His impeachment was someone else's fault, not his.

Mark refuses to admit that his own kookiness was in any way responsible for his fellow club members voting to give him the boot.

12 watts plate dissapation in class A1. They are useful upto 30 MHz or
so. They were also used as RF output stage for some older tube CB
radios in the 60's. You can get about 3.5 watts carrier out in a class
C plate modulated stage. Sufficient for meeting the requirements for
CB. They were definitely more common in audio applications.

that and allowing someone to producde ad distribute a fake warning
alegedly from RH to kb9rqz

those are the stated reason of the motion

somehow I suspect something else was involved but....

Oh look, it is an anonymous hypocrite coward from the Kook board
whining because we are not going to put up with Mark's flooding
bullshit. How hypocritical of you to first target Mark for one of
your little childish Kooky awards, and then show up here like the
sniviling little anymouse coward you are, defending the same person
you targeted for your version of harrassment.

My what a hypocritical piece of shit you are, oh powerless one, but
you have my permission to continue your whine.

Not. Merely because you can't be bothered to look shit up doesn't mean I'm
"anonymous". Anyway, you post your rants through Google, so your
cluelessness is obvious. There are free newsservers out there, as well as
for-pay ones, so you're far from condemned to use Google.

> hypocrite coward from the Kook board whining
> because we are not going to put up with Mark's flooding bullshit.

What, he should put up with your forging, frogging, and homophobic
bullshit? Yes, "your". Even now, you're using a frog of one of Mark's
email accounts to post, so you're just another member of his fan club,
which makes you a member of mine as well. There's no difference between
you and Punceorama, except the latter uses a newsreader.

> How hypocritical of you to first target Mark for one of your little childish
> Kooky awards,

First, "I" didn't target Mark -- someone else made the nomination, two
years ago. Second, he was a valid winner, but only of that single award.

> and then show up here like the sniviling little anymouse coward you
> are, defending the same person you targeted for your version of
> harrassment.

I "showed up" nowhere. You have chosen to appear in AUK "as if by magic",
quite consistently for years, trying to harass Mark off the air, off the
internet, and off usenet, and alternatively get him nominated for a
"little childish kooky award" (the primary purpose in posting to AUK, for
most of usenet).

> My what a hypocritical<BITCHSLAP>

You'll address your Supreme High Overlord with RESPECT, frogging,
homophobic coward.

> "Canadian's why did we involve them in the war...they are worse than the

No, Canadians involved you in the war, until you decided to get into it
for real, in 1941.

MINUTES OF THE JULY 1, 2008 CCRAA MEETING
(No minutes were available at the July meeting)
MINUTES OF THE AUGUST 5, 2008 MEETING
The meeting opened at 7:02 pm EDT with the Secretary (KD8CTL) reading
the minutes

of the July 1, meeting. (Not reported during the July meeting) They included a report from the Property committee showing that the clubhouse is in good shape, and all systems were working. No other committee reports were available. Since there was a health issue with the present Secretary, Gavrielah Hojnacki (KD8CTL) George, W8FWG offered his services to fill in the remainder of her term as “Acting Secretary.” This offer was accepted by the existing Secretary, and approved by the President, with an amendment to serve up to the time of the next election in March of 2009. This was agreed to by George, W8FWG. Self introductions followed, with the following radio amateurs present at the meeting: KD8CTL, KB9RQZ, N8ZBJ, WA8JSF, W8ERB, W9VLM, W8ILS, W4KAR, WB8ZYL, WA8QNF, K6IPC, W8DAO, KB8XI and W8FWG. Our President voiced concern of the ongoing uncertainly of the operation of our 146.670 MHz repeater in Herman. George, W8FWG reported for Chuck, WB8FCY, that this property may have already been sold by the DNR, to a radio or TV broadcasting company but that we had no assurance that that had taken place. George offered to contact the DNR (a ham in the DNR, whom he knows) to get the latest information on that site, and to report back to the President of the club, ASAP. Treasurer’s Report: By Paul, W9VLM, indicated we have received a request from the State of Michigan regarding our charter and status as a non-profit organization. This means a charge of $20 annually, and the Treasurer was instructed to pay it. At 7:36 pm Gavrielah had to leave suddenly (no reason given) and the roster of those present was turned over to George, W8FWG. Glenn, WA8QNF asked this question of the President. “Mark, in the interest of the CCRAA would you be willing to step down as President of the organization.?” The answer given by Mark was “No!” In view of the “turbulence” that occurred, the Property Chairman’s report (W8FWG’s report) did not get read, but it is included here as follows: All utilities within the building are operational, and the weekly routines are being kept up, the monthly check of the emergency engine was completed, an additional

operating chart was made up and a new antenna tuning guide was added. The lawn was
not mowed, per the President’s request, because of his allergy to newly mown grass. The
water leak at the roof has been corrected and one problem with a door switch remains and
that should be taken care before the next meeting. Cataloging of the small parts cabinet
continues, and now that we have a new computer this should be completed by year’s
end..
A motion made by Glenn, WA8QNF and seconded by Roy, WB8ZYL to “Remove Mark,
KB9RQZ from the office of President of the CCRAA” was introduced, and a discussion
followed. When it came to a vote, there was one ABSTENTION, one NO vote, 11 YES
votes, and the motion carried. George, W8FWG, being appointed Acting Secretary took
ending notes. The next meeting of the CCRAA is scheduled to be held at the Osceola
Clubhouse on September 2, 2008 at 7:00pm EDT. Since there was no longer a quorum
(without a President or Vice President present), a motion to adjourn was entertained by
Roland, KB8XI and seconded by Glenn, WA8QNF, and the meeting adjourned at
8:45pm EDT

You've been a disgrace from the the day you were drug out from under a
rock. I am amazed it took the club so long to finally wise up to who/
what you really are and threw you out, but I am glad they finally came
to their senses and did the right thing.

I reported an obvious CB amp a few weeks back. It was even
stated in the writeup that it was intended for CB use. Four
reports, and eBay never pulled the auction. Their enforcement
is haphazzard at best.

So, in short, there are folks out there who rat out a person posting a CB
linear. Interesting.

yes there are several folks that spends their days and night watching
ebay to 'rat out" such sales
while I might laud sucha dedicattion to the rule it does seem rather a

Mr Black Goat..... I would suggust a visit to http://www.arrl.org
. If you would take the time to read about the wonderful hobby called
amateur radio you may have a more positive attitude

But we're more than a hobby.....We're a trained group of radio
operators ready to serve our fellow citizens by example and by public
service. By the way, after you read about our service, I hope you will
consider joining the ARRL. They have everything needed to begin your
course of study to obtain your very own amateur radio license!

I know you think this thread is funny some how. You'll understand more
after your studies.Good luck and welcome ro RRAP. 73.

P.S..........Post your shiney new call as soon as you know it!

That is right, I can't be bothered, you are neither worth the time,
nor do I care who the fuck you are, but the fact remains that to the
casual user of Usenet, you are posting behind a nym. You are just
another Auky Kook whose whole life centers around usenet, first
attacking someone then defending them...WTF is wrong with you are you
bi-polar? Or is just your usual MO, changing sides at will.

Yeah, amazing isn't it? I worked hard for my commercial
and amateur licenses. And, I intend to protect what I've
earned. Any scoff-law who'd run an illegal amplifier wouldn't
give two hoots about freebanding on the ham bands.

FNVW = Friendly Neighborhood Vote Wrangler. You are using a frog of one of Mark's emails to post through Google, meaning you actually went to the trouble of creating the account, just as you or one of your fellow fan club members chose to create <cardinal.snarky@gmail.com> in my honour, and you have also chosen the nym of a past FNVW, now known as the "Bob"father, as your own.

So STFU, then. You're whinging about being mistreated, whining about my "cowardice", and frogging/forging Mark's name, etc., but you can't be bothered to take the minute or two that might be necessary to run a search on my nyms. Fuck you, and fuck your groups. You are my bitchboys, so long as you continue to frog & forge whilst sobbing about persecution. If you don't like Mark, but can't be arsed to get a fucking newsreader with a killfile, that is just too damned bad for you, isn't it?

If I'm reading this right (and I'm quite sure that I am), you guys elected to remove Mark because he's allergic to newly-mown grass. That is, if the reason for the original request was based on anything mentioned during the meeting. Otherwise, I should say it was because he's bisexual, pagan and dyslexic, meaning you lot are real-life bigoted prats.

So which is it: Are you so pathetic as to remove someone for his allergy, or are you bigots? Note that I'm betting on the latter.

Hi nb, I went to www.cbtricks.com and the only Sonar linear they list is the BR-21. They say it's a 30 watter made for their ham tranmitter. It can also be used for CB if the correct capacitor is in and the correct inductor. See the schematic they have. Hope I've been some help. Rollie

According to docs. on www.cbtricks.com it looks like you have a Sonar BR-21
which is either ham or cb linear. Rollie

in all fairness a killfiule does not serve their proposes their
propose /concern is with prevent my word from reaching OTHER people
that was the purpose of the original balckmail the asorted laming and
now the frggery and frogery

during what might call the code wars here on RRAP I was acclaimed as
quite an effective advocate for my side.ig is desired to prevent me
from ever taking part in any effective again

I wouldn't expect to get more than ten watts out of it running CB AM. In fact, that would be pushing it pretty hard.

On the other hand, it should produce over 20 watts PEP running single sideband.

Yeah, you're really strengthening the case for Mark's fan club not being made up of a bunch of twisted, repressed gays, you are. Are there at least a few hams left in rec.radio.* who aren't inclined to defend the fanbois on account of Mark being so annoying, or are you all pretty much in the club now?

So you're telling us that a Black guy broke the law on illegal
substance use?

Ever hear of Prohibition? Lots of White folks broke a federal law by
manufacturing and consuming
alcoholic beverages in the 10 years(1920-1930) they were banned by
Federal Law.
The law was called the Volstead Act.

Ever hear of Prohibition and the Volstead Act? Lots of white folks
broke the law by drinking and making
alcoholic beverages in the period 1919-1930. Gangsters took advantage
of the situation and violence and corruption
were endemic in the USA.

Activity will be on 40/20 meters using CW, SSB and PSK. QSL via W1GLO: Cape Ann Amateur Radio Association, 6 Stanwood Street, Gloucester, MA 01930 USA (w/SASE). eQSL are available for all contacts.

* The Old Barney ARC will operate special event station W2T from the Tucker's Island Lighthouse (USA-911) located in the Tuckerton Seaport (http://www.tuckertonseaport.org) on August 16th from 1300-2030z. Operation will be primarily on 40 and 20 meters SSB and local 2 meter FM. QSL via N2OO.

OH0, ALAND ISLAND. Juha, OH9MM, will be active as OH0I during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single-Band (10m) entry. QSL via OH3BHL.

PJ2, NETHERLANDS ANTILLES. Joeke, PA0VDV, will be active as PJ2/PA0VDV from Curacao (SA-006), October 2-19th. Activity will be CW only. QSL via his home callsign, by the Bureau or direct.

QSL INFO AND NEWS.....
7X5VRK INFO NEEDED. As you may know Mac, W3HC, has retired as QSL Manager and Bob, N2OO, is now distributing most of the QSL cards for callsigns that Mac managed. However, Steve, N3SL, informs OPDX that one of the very active stations his daughter, Kim, has picked up after the retirement of Mac, W3HC, is 7X5VRK. He states, "We now have blank cards in hand, but there were no logs of any kind to be found. Published E-mail

addresses, to include the most recent address Mac had, has not lead to any response in over 3 weeks. If anyone has a good E-mail route to 7X5VRK, we would certainly appreciate having it. And to all who have sent requests already, QRX. We certainly hope we can obtain logs." Steve's E-mail address is: N3SL@aol.com

TJ1GA QSL HELP NEEDED. David, K1LD, informs OPDX, "In January 2004, I worked TJ1GA. I have had no luck with the listed manager (IK2AQZ) after many attempts. Any ideas where to go from here?" His E-mail address is: cwdxer@comcast.net

YU8S56M. Dan, S50U, informs OPDX that an on-line logsearch for the recent YU8/S56M Kosovo (DXCC=Serbia) operation can be found at: http://s50clx.infrax.si

OLD QSL ROUTES. Patrice, F6GCP, provides QSL routes that go back to 1987 on his Web page at: http://f6gcp.free.fr/qslinfos.htm

QSLS VIA LOTW: CS9T, V63WWA, YL5T and ZD8LII

QSLS RECEIVED VIA MAIL: 4M5IR, 9M6/N1UR, DL3VFN/J3, ET3JA, FO/KH0PR, HC5WW, LU8XW, PE7T/VK9X, R1FJT, S79JE, SD2O, T32Z, TX5C, VP6DX, VP6PR and XR7W

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SI9, SWEDEN. Operators Jozef/ON4ACA and Marcel/ON6UQ will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via SI9AM. The operators will be active before and after the contest between October 23-27th. Look for them to be on all bands mainly on CW. Also, look at the special award available for working SI8AM at: http://www.si9am.se

SILENT KEY. OPDX was informed that Rodrique "Rod" Gagnon, VE2NN, well-known operator in Zone 2 for many years, became a Silent Key due to stomach cancer on July 14th. OPDX and its readers would like to pass on our deepeest sympathy to the family and friends of VE2NN.

TA0, TURKEY. By the time you read this Karl, WA2KBZ, should be active as TA0/WA2KBZ from Buyukada Island, in the Sea of Marmara, until September 1st. Expected activity will be on 40/30/20/17 meters, mostly CW, with a possibility of some 15 meters (if open). He will be semi-QRP with 60 watts to dipole up about 200 feet above the sea hanging from balcony. Karl will start on 30 meters around EDT/CDT supper time. QSL via WA2KBZ.

TC3, TURKEY. Operators Elif/TA3YE (YL) and Can/TA3GO will be active as TC3EC during the CQWW DX SSB Contest (October 25-26th) as a Multi-Op/ All-Band entry. QSL via TA3GO.

TC4, TURKEY (Asian Turkey QRV until August 12th). You still have a few more days to work the special callsign TC4X. However, if you miss it, TC4X will be activated on several occasions during 2008. The new alliance between Turkish and Finnish hams which include OH2BH, OH2PM, OH8NC, TA1HZ

and others, are operating from the beautiful seafront city of Mahmutlar
in the Antalya Province in Southern Turkey (Asia). More detailed info
will be available on: http://www.qrz.com -or- http://tcswat.tripod.com
The first activity was between August 5-12th (2008) which included the
"Work All European CW Contest (WAEDC). QSL via OH2BH.

VK9C, COCOS (KEELING) ISLANDS (Update). Giovanni, I5JHW, will be active
as VK9CJW from here between August 22-29th. His operation will be holiday
style but with activity on 40/20/17/15/12/10 meters using SSB and RTTY.
He will be using an amplifier and a multi-band vertical antenna. QSL
via home callsign, direct or by the bureau. He now has an online Web page
at: http://www.ik5run.it/vk9cjw.htm

VK9, WILLIS ISLAND (VISIT VK9DWX!). Chris, DL1MGB, wants to remind everyone
that a DXpedition to Willis Island (VK9DWX) will take place in October this
year. He states, "For our support we had to charter a second boat which will
come in the middle of the DXpedition to Willis Island to support us with
fuel, fresh food / drinks, ... As there are some seats unused on this boat,
we had the idea of offering a four day trip for 'tourists' to visit our
DXpedition. There are still some places left....."
****
VISIT VK9DWX - Have you always had the dream not only to work a
DXpedition from your home but also to visit the crazy guys on their
lonely island? Now your dream comes true!

* 4 day trip with the Rum Runner
* Start: October 15th, 2008, in Cairns, Queensland, Australia
* Finish: October 19th, 2008, in Cairns, Queensland, Australia
* Accomodation onboard the Rum Runner
* Including meals and soft drinks (alcoholic drinks on own account)
* See the VK9DWX operators live at working Pile-Ups (guest operation
possible)
* Flight to Cairns is NOT included
* Every guest has to ensure that he is on the Rum Runner in time as
we depend on the supplies for our operation
* Costs: EUR 1000,- per person

If you are interested in this exciting trip please contact us via the

VP8, ANTARCTICA. Ian, VP8DLJ (G0VZM and VP8ROT), will be camping near a
mountain called Trident on Adelaide Island this week. He has built an
Elecraft K1 tranceiver (QRP CW rig) and states that he has "attempted
to learn morse code. I will try most nights to use 40m (7010 kHz) at
aproximatly 2200 UTC. If you are near a radio, you might want to listern
out for the slow broken morse of VP8DLJ. Note, from my base at Rothera
I have had very little luck hearing or transmitting in the last month
and therefore; I am not expecting great results. However, it would be
fantastic to at least receive a call to my callsign."

ZF, CAYMAN ISLANDS (Corrected). Randy, K5SL, will be active as ZF2SI
(not ZS2SI) from Grand Cayman until August 16th. Activity will be mostly
CW/SSB on 17 meters on 18150 and 18077 kHz. Also, look for him around
0400z on 40 meters CW around 7033 kHz. QSL via his home callsign K5SL.

ZS8, MARION ISLANDS. There is still no activity reported. For updates
and the first offical announcement of ZS8T being on the air, please
visit the official ZS8T Web site at: http://zs8t.net

Check again. You may have noticed a lot of versions of my nyms with the
word "homosexual" added to them (you and your buddies apparently don't
grasp that "bisexuals" don't necessarily believe in you, either, since you
have considerably less depth of character than the average puddle), just
in the past several weeks, none of which would be mine. That is a sign of
my ownership of your empty heads, without my needing to be present in your
group outside of x-poasts.

> Shame, more delusions from the paper tiger crowd over on AUK....LOL

Nice projection, but no. You guys started the frogging/forging, the x-poasting to AUK, the campaign to get your hated enemy nominated for kook awards, and you show lots of solidarity -- no outing each other to AUK as Mark's froggers/forgers, only outing him. The result to date has been one single award for Mr. Morgan, in years of x-poasting. You'd have won something yourselves, by now, but the profusion of extremely frothy and obsessed k00ks on usenet has so far protected you.

You accidentally misstated "fake IQ test" above by substituting an
expletive for the word "fake." Do I have your permission to quote the
corrected statement in my next novelette? It will read:

"So shit for brains get this through your fucking head, I'm very

You never answered my question about quoting you, so since you didn't

Check Honest John out on Kookpedia -- he has quite a few awards. He won't
be winning anymore, as he has been declared net.dead (unless there's
another Month of the Living Net.Dead, or he does something extremely
kooky, above and beyond his previous efforts), though.

The blog at http://n9oglvoice.blogspot.com is infested with links to multiple script servers. There is no way to be sure what they are loading onto your box, so be sure to be running the Firefox / Seamonkey addons "NoScript" and "Adblock Plus" before you visit Todd's infested blog. If you are using IE, make n9oglvoice.blogspot.com a domain in your untrusted zone. You want to make sure that the following external sites are blocked:

extreme-dm.com, widgetbox.com, mindistortion.tv, widgetserver.com, bravenet.com, and gmodules.com

If you don't want to take any chances that Todd's sites will load malware onto your computer, don't visit them at all.

no I simply choose to play straight man I am allowed to do that if I
like

you avoid the point you were asking the same question you have already
asked a number of times and have been answered

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, The ARRL Letter, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5XK, K8YSE, W0MM, DX-IS News Site, Pete's-DX-Newsdesk, 9A6AA, DK2WV, DK8JB, DL7MAE & The DX News Letter, EC7DND, F5NQL & UFT, F5OGL, I1JQJ/IK1ADH & 425 DX News, I1HYW, JI6KVR & IOTA-JA News, LA5YJ, RASE Dx, RSGB IOTA Web Site, TA3YJ, VA3RJ & ICPO and YO2DFA for the following DX information.

*** SPECIAL NOTES FROM EDITOR (by Tedd/KB8NW): Major failure to my BARF80 Linux system happend this past week and items for the bulletin were lost. If you had an announcement that did not make it to print, PLEASE resend it. Current status of BARF80 is DEAD. However, thanks to my ISP (hamnet.org) I am still able to retrieve my mail and send the bulletin out (until a new Linux system can be found or put together). Hopefully, things will get back to normal soon.
Lastly, OPDX's Chief Proof-Reader, Linda my wife, will be going under the knife Monday to have her gall bladder removed. Please say a small prayer for her and hope for no complications during her procedure. I do not know what I would do without her. Get well messages can be sent after Monday at: lmsm54@hotmail.com

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5Z, KENYA. Valery, RW1AU, is now active as 5Z4/RW1AU from the 5Z4RS club station in Nairobi for the next several months. He is there on work assignment so his activity will be limited to his spare time. Activity this past week has been on 20 meters SSB. He is expected to operate CW once he finds a keyer. QSL via K5XK: Ron Evans, 2 Pembroke Drive, Bella Vista, AR 72715-8823.

9L, SIERRA LEONE. Dr. Karl-Heinz Ilg, DK2WV, will once again be active from here this time with a team of operators. Karl informs OPDX that in June this year, during his stay in Sierra Leone, he not only operated as 9L0W, but had the honor of speaking to the President of the University of Freetown. He was asked if he (and others) could conduct a course in Amateur Radio. In October and November this year Karl and his team will volunteer to help in the planning of the technical promotion and conduct training courses for those who are interested in Amateur Radio. Furthermore, Karl will also present the university with materials and radio equipment. All training and activity is plannned to take place in the time frame of October 21st to November 11th, 2008. They expect to operate during this time under the same callsign, 9L0W. The German participants mentioned are Roland/DJ4LK, Franz/DJ9ZB, Karl/DK2WV, Hans/DL1YFF and one 9L1 national. All participants have a solid background of several successful DXpeditions. Activity will be on 160-6 meters. They are planning to operate with up to 3 stations, with amplifiers and different antennas. The antennas are Spiderbeams and for the low-bands phased arrays, K9AY loops and/or beverages are planned as low-band receiving antennas. QSL via DK2WV, direct (SASE w/sufficient funds to cover the postage) or by the bureau. E-mail requests will be sent via bureau, including those arrived without adequate funds. The 9L0W team is looking for sponsors to help cover the high costs of nearly 14,000 USDs for this operation in addition to the air fares of the participants. They are depending on donations from DX organizations. If you have any questions, please send them via E-mail to: k.ilg@arcor.de

BT1, CHINA (Special Event Stations Still Active!). The five special event stations continue to be active during the 2008 Beijing Olympics through September 17th. Each of the five different callsigns represent one of the 5 Olympic Games ring symbols: BT1OB for Beibei (blue), BT1OJ for Jingjing (black), BT1OH for Huanhuan (red), BT1OY for Yingying (yellow) and BT1ON for Nini (green). Activity will be on 160-10 meters using SSB, CW, and RTTY. The contacts can be used to apply for a "Beijing Olympics Award". Also look for operations on SSTV, PSK, the satellites, EME, and possibly other modes. Contacts using these modes will not be valid for the award. The QSL Manager for these special event stations is BA4EG, by the Bureau or

direct. QSL cards will be sent out starting October 2008. A Web site is now active with news updates, station setup, logs, award info and QSL status, at http://www.bj2008ses.com.cn

DXCC NEWS (DXCC YEARBOOK). The ARRL Letter reports: "DXCC Yearbook Includes Corrected DXCC Honor Roll: According to DXCC Manager Bill Moore, NC1L, the 2007 Honor Roll list published in the August 2008 issue of QST was inadvertently produced from a 'corrupted report feature' in the DXCC software. 'Since the DXCC Honor Roll report is too large for a line-by-line review, random samplings [of the list] were checked and many [listings] were found to be okay,' Moore said. 'It was not until the complete report was published that we found the report had more errors than originally thought. Publishing a simple correction in an upcoming issue of QST is not possible. We have expanded the 2007 DXCC Yearbook to accommodate a complete reprint of the 2007 Honor Roll list. This is something many of you have suggested in previous years. The 2007 Honor Roll list will also be published on the DXCC Web site and this list will be separate from the current 'live' online Honor Roll list. We regret any inconvenience caused by this and we appreciate your patience and understanding.' The 2007 DXCC Yearbook is the largest ever, with an additional 16 pages, and features articles about the year's DXing activities, the Clinton B. DeSoto Cup and DXCC Challenge standings. The DXCC Yearbook is mailed free to all ARRL members who have submitted a DXCC application between January 1 and December 31 of the prior year or are current on the DXCC Honor Roll. Copies are also available for 5 USDs plus postage. To get your issue, please send an E-mail to the ARRL DXCC desk <dxcc@arrl.org>."

ED7, SPAIN (IARU VHF Contest Op). Members of the Group Amateur Radio RASE Dx will be participating in the IARU VHF Contest (REG1) as ED7URD from September 6-7th. They will be transmitting from the Sierra Filabres (2.168m, Locator IM87), Almeria, Spain. In addition to their activity in the IARU VHF Contest, they will have two stations to put into the air on 50 MHz, as well as various tests on 1200 MHz using the callsign EA7URD/P. The team will consist of Jesus/EB7BMV, Jose/EB7COL, Manolo/ EA7IHV and Jose/EC7DND. QSL via EA7URD, by the bureau or direct. Photos, log and details of the operation will be on the Web at: http://www.rasedx.com

HC5, ECUADOR (Update/Change). Operators Hiro/JA6WFM, Nobuo/JA6GCE, Morita/JA6SOV and Naomi/JM6EBU will be active as HC5WW (not HD2A as previously announced) during the CQWW DX SSB Contest (October 25-26th), as a Multi-Single entry. QSL direct only to JA6VU.

IOTA NEWS.....
AS-083. Vasily, RA9LI/9, is now active from meteorological station in the Arctic Ocean on Belyy Island (RRA RR-06-04, RDA YN-14) for an unknown length of time. He was heard on 14166 kHz this past week between 1530-1830z. This is valid for the Arctic Challenge Award. QSL via UA9LP.

EU-016. Tom, 9A2AA, is now active as 9A73AA/p from Korcula Island for about the next two weeks. Activity has been on 20 meters SSB

and 40 meters CW. He is also expected to activate other nearby islands as 9A2AA/p. QSL via his home callsign, direct or by the bureau.

EU-017. Marco, IZ3GNG, will be active as ID9/IZ3GNG from Lipari Island (IIA ME-001, MIA MI-053, WLOTA LH-1144), August 20-22nd. QSL via his home callsign, direct or by the bureau.

EU-088. Bernd, DL8AAV, will be active as OZ/DL8AAV/p from Laeso Island (NK-003 for the Danish Islands Award), September 16-27th. QSL via his home callsign, direct or by the bureau.

EU-090. Operators Simon/IZ7ATN and Alessio/IZ0CKJ are now active as 9A/homecall/p from the Vela Palagruza on Palagruza Islands between now and August 23rd. Activity will be from the light-house there. Operations over the past weekend were on 20 meters SSB. They are expected to activate nearby islands (such as Galijula and Mala Palagruza). QSL via their home callsigns.

EU-127. Operators Karl/DJ5KK, Thorsten/DG7TG and Wolf/DK3KD will be active as DA0HEL from Helgoland Island (N-14 for the German Islands Award, WLOTA LH-0518), September 6-8th. They will be taking part in the IARU VHF Contest on 2 meters CW/SSB. Look for them outside of the contest on the HF bands. QSL via the DARC Bureau.

EU-170. Lada, OK1LO (aka 9A5LO), will be active as 9A5LO from the following Croatian islands (all count as EU-170) between August 18-27th: Pasman (IOCA CI-085), Ugljan (CI-134), Galovac (CI-604) and Osljak (CI-081). Activity will be on 160-10 meters using CW, SSB, PSK31 and RTTY. Equipment: Rigs: IC-706MKIIG (100w), FT-817ND (5w); Tuners: AT-180, AH-4, MFJ 941E; ANTs: dipole 2x 15m (160-10m); FD-4 (80-10m); GP-3 WiMo (10-15-20m) and LW 38m.

NA-234. Gianni, I1HYW, reports that a 10 minute video on the Web on the recent Chuginadak Island DXpedition by the Russian Robinson Club is available on YouTube at: http://it.youtube.com/watch?v=026fW4rYcwg&eurl=http://www.na-234.com/

KP2, U.S. VIRGIN ISLANDS (NA-106). Jaime, WP3A, will be active as KP2B from St. Croix, after August 20th. Activity will be on 40/20/15/10 meters CW, with some SSB on 15/10 meters. Look for him on 40 meters after 0400z and after 1100z on the other bands. He also plans to be active in both the CQWW DX SSB Contest (October 25-26th) and CQWW DX SSB Contest (November 29-30th) as a Single-Op/All-Band entry. QSL direct to EA7FTR.

KP5, DESECHEO (In Case You Missed It!). Over the past few weeks there has been speculation of an upcoming operation to Descheo Island (KP5) to take place in November. This bulletin is to provide the DX community with the actual facts on what has been going on and what will possibly happen.

Several DX publications were notified about two months ago that the United States Fish and Wildlife Service (USFWS) had decided to allow certain amateur radio operators who have made an inquiry about operating from Desecheo in the recent past an opportunity to submit a proposal (approximately 20 individuals). OPDX and others were told to NOT publish anything in fear of jeopardizing the process. As of this time, "NO ONE" has been selected to operate from KP5. The following information was provided by an "informed source" to bring everyone up-to-date and explain what events took place:
"There is a tentative agreement to facilitate access to the Desecheo Island National Wildlife Refuge by Amateur Radio operators in conjunction with future USFWS management activities in the refuge. The plan would allow Amateur Radio activation of Desecheo for up to 14 days under strict guidelines and close USFWS supervision.
USFWS expects to grant a Special Use Permit (SUP) for amateur radio operations to one group selected from among large number of prior applicants. These applicants have recently been contacted by the agency and provided a number of stringent requirements that must be met. They were told that if they are still interested in operating from Desecheo they had 45 days to submit a proposal. The letter was dated June 30, 2008, with an August 14th deadline. The final selection will be made based upon which proposal best satisfies USFWS requirements. The timing of this operation is still uncertain but is likely to be in the September through December 2008 time frame. The actual dates of the operation are dependent on a number of variables, but the team and Dxers should have a minimum of 30 days notice.
We are not sure, but we believe as many as a dozen proposals have been submitted. Apparently, the final selection will be made by a three person panel. Continue to remain patient as the selection process proceeds. Apparently, Dxers worldwide can look forward to the first USFWS-authorized activation of Desecheo Island in many years."

ADDED NOTE: Last good operation took place in December 2005, which was a short DXpedition by Kam Sirageldin/N3KS and Dave Collingham/K3LP as KP5/N3KS and KP5/K3LP.

M, ENGLAND (EU-005). Nilay Mine/TA3YJ and Berkin/TA3J will be active as M/TA3YJ and M/TA3J from London between September 10-17th. QSL via TA3YJ QSL Service (http://www.aydogmus.gen.tr/ta3yj).

P2, PAPUA-NEW GUINEA (Three IOTAs to be Activated!). Operators Al/AD6E, Derek/G3KHZ. Hugh/K6HFA, Luis/CT1AGF and Skip/W5GAI plan to activate three IOTAs between October 17th and November 5th. Their tentative plans are: OC-181 - Garove Island; October 20-26th; callsign P29VLR; QSL via SM6CVX.
OC-041 - Hermit Island; October 28th-November 3rd; callsign P29NI; QSL via G3KHZ.
OC-025 - Manus Island; November 4th; callsign to be determined; QSL via K6HFA.
PLEASE NOTE: Hugh, K6HFA, will stay longer on Manus between November 4-9th. For more details, log search and pictures, please see the following Web

page at: http://www.425dxn.org/dxped/p29_2008/

QSL INFO AND NEWS.....
NOT THE QSL MANAGER. Nilay, TA3YJ, reports that she is NOT the QSL Manager for 6W1SJ, TB0DX and TG9NX.

QSL STATUS FOR S21XF, 9N7YJ, MI0YJR, ST2YJ, JW5YJ, XU7ACW. Hugo, LA5YJ, informs OPDX readers of the following: "The cards for the S21XF operation is on its way, should arrive within a day or two, and will be dealt with accordingly. The log is available on: http://www.eqsl.net
Cards for ST2YJ still go to LA4YW, all others to LA5YJ. I have just finished all bureau cards for 9N7YJ and XU7ACW, unfortunately late, because of my work in different countries, among that a year in Pakistan. Things have a tendency to pileup on you, and the fact that it's all paper logs didn't make it any better. Important! Please note that I will close the logs for 9N7YJ as per 31st of December 2008. If you need a card from this operation I kindly ask you to send this directly to me. Remember, SAE and one IRC or equivalent. If you have sent a card via the bureau please do not send any cards again; they have all been replied to. Thank you all for your cooperation.....
Kind regards, LA5YJ Hugo B. Ark, (Rute 509, N-1766 HALDEN, Norway)"

QSLS VIA LOTW: FH1LE and TF/DL3PS

QSLS RECEIVED VIA MAIL: C91OK

QSLS RECEIVED VIA THE BUREAU: None reported this week!

TN, CONGO. Nicolas, F8FQX, will be in Brazzaville for the next 3-4 years starting on August 20th. His activity will probably not start until late October or early November. Nicolas has applied for a callsign and is hoping to receive TN5SN. Activity will be on 160-6 meters using CW, SSB, RTTY and PSK31. QSL via IZ1BZV. Look for updates and a log search on: http://www.f8fqx.fr

TO4G, GLORIOSOS. Didier, F5OGL, Gloriosos 2008 team leader, announced on August 13th, that he wanted to stop the spreading of "numerous rumors" by non authorized hams about the dates of the next Gloriosos 2008 DXpedition. He states, that on the island, the anti-cyclonics shelters building are nearly finished and the French Army sovereignty personels and the return of the building workers will take place at the end of this month. At the beginning of September, after the last checkings on the installations, especially the electrical work, all the heavy building gear will be evacuated from the island. Didier states that he is "in very close contact with the military authorities of the French Forces for the South zone" in the Indian Ocean. He has also met the new HQ Chief Warrant Officer before he started his new 3 year assignment in the zone. He assured Didier of "support and help for this expedition". The only problem they have is local logistic, especially the dates for the use of military planes flights and boat departures. He assures that all the necessary authorizations are in hand. Didier states, "Believe us about our will to do a most perfect as possible DXpedition to the Glorioso. For that,

safety first is our goal." All operators are personels of the French Military Defense, and they all have professional assignments which has priority over all, including the DXpedition. No civilian operators are allowed in the crew. Currently there are NO fixed dates for this operation, but Didier is doing his best to lead a DXpedition to Gloriosos before the end of this year. He also states, "It must be said that without all combined elements gathered, I prefer postponing the operations as often as it will be necessary. I continue to work hard to put the Gloriosos on the air and know that's not very easy..... 73's de Didier, F5OGL"

V4, ST. KITTS (NA-104). Dave, AH6HY, will be active as V4/AH6HY between September 26th to October 3rd. Activity is planned for 40-10 meters SSB only. QSL via his home callsign.

VK9, WILLIS ISLAND (Update). Excerpts from the VK9DWX Web site state that the DX team has been busy last week testing all antennas and getting nearly everything ready to ship. Dale, VK4DMC, got all their tents and also tested them. So they are ready to be built on Willis Island City. All the heavy items and Peli Cases were brought together in Goch at the location of DR1A where a workshop was set up. On a 5-day-weekend, Markus/DJ7EO, Jorg/DL8WPX, Dieter/DL8OH and Chris/DL1MGB put all the material into boxes, cases and tubes, labeled them and prepared the shipping documents. The week after the material was transported to the harbor of Hamburg where it is now waiting for being shipped to Australia. In total they packed 29 cases, boxes and tubes with a total weight of over 1,300kg. This included the following main items: 5 ACOM1000 amplifiers
Over 1000m of coax cable
Nearly 300m of power cable
All antennas
Power distributions
Tools
Most parts of the station equipment...
Transceivers, notebooks and MK2s will be carried on the flight baggage as they have to be tested in advance in Germany for proper interaction. The VK9DWX team now offers a "Newsletter" via E-mail. It will inform you about the latest news available about their DXpedition. The only thing you have to do is subscribe via their Web page (in the News section) at: http://vk9dwx.de/news/index.php

YO DX HF CONTEST. Ovidiu, YO2DFA, informs that the Romanian Amateur Radio Federation (FRR) is inviting all radio amateurs all over the world to participate in the annual YO DX HF Contest, August 30-31st (from 1200-1200z). Rules can be found on the following Web page at:
http://www.hamradio.ro/media%5Cfiles%5Creg%5CYODX_HF_2008.htm
Results of 2007 edition could be found at:
http://radioamator.ro/contest/us/yodxhf2007/
All the participants who will fulfill the necessary requirements during the contest (worked 10 members) will receive free a WORKED YO DX CLUB MEMBERS Award. The complete list of YO DX CLUB members can be found at:
http://www.radioamator.ro/yodxclub/membri.php

ZD9, TRISTAN DA CUNHA ISLAND (Update/Possible Change Of Plans!). The QSL Manager W0MM reports that Tom's, ZD7X (KC0W), last day on St. Helena was August 11th. Since September 2007, Tom made over 45,000 QSOs on the HF bands. Tom was expected to go to Tristan da Cunha after St. Helena (see OPDX.854), however, it seems "there is a 90% chance of no Tristan right now". Reasons were not given, but reportedly there is "bunch of reasons!". If ZD9 does not happen, Tom is planning to go to Qatar (A7) and will apply for a licence there. If A7 does not work out, he will then head to Asia. Stay tuned!

ZP, PARAGUAY. Operators Jan/DL7UFN and Rolf/DL7VEE will be active as ZP6/homecall from Tom's ZP5AZL/ZP0R station, September 4-14th. Activity will be on 160-10 meters using CW, SSB, RTTY and some PSK. QSL via his home callsign.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Todd's mother walked down to the basement and found Todd tapping furiously at his computer keyboard.

"What are you writing?", she asked.

"I'm writing a dime novel.", Todd answered.

"Oh? What is it about?" she said.

"I don't know," Todd replied. "I can't read."

first offfuck you, I can read very well thank you, secondly you
fucking CB fucking radio operator. I don't do much with Kaizoku Dime
Novels anymore, I'm going through these people instead:

Yeah right.

As of this time last evening, August 5th, 2008, the membership of the
CCRAA
Amateur Radio Club voted to remove Mark C. Morgan, KB9RQZ, as their
club
president. They impeached him.
Mark's wife, Gav, KD8CTL, depending upon who you believe, was either
asked
to leave or resigned her position as club Secretary, too.
Mark was up all night last evening as he fabricated excuse after
escuse
after excuse, each one different than the last, as to why he was
ousted. In
all of his twisted tales Mark continues to carry a common thread. That
he is
a victim. His impeachment was someone else's fault, not his.

Mark refuses to admit that his own kookiness was in any way
responsible for
his fellow club members voting to give him the boot.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Patrice, F5RBB, will be active as 3A/F5RBB between August 31st and September 10th. Activity will be on 40/20/15/10 meters. QSL via his home callsign.

4O, MONTENEGRO. Operators Jorg/DL3NER, Walter/DG5NGJ, Thomas/DG5NGI, Ivo/DL9MB, Heiko/DG8NGI and Hubert/DK9NCX will be active as 4O/homecall between September 25th and October 4th. Activity is planned for 160-2 meters using CW, SSB, RTTY and PSK31. QSL via their home callsigns. For more details, see: http://www.qrz.com/callsign/DK9NCX
PLEASE NOTE: The team states, "We do this DXpedition for the children who are ill with cancer (http://www.stationregenbogen.de/). So let's try to make them smile. We send out the QSL cards after our return from Montenegro. Further info on donating can be found at QRZ.com"

7Q, MALAWI. Ely, IN3VZE, will once again be active "Holiday Style" from the southwest shore of Lake Malawi between August 29th and September 11th. His callsign will be 7Q7CE, and he will be on all bands using SSB and the Digital modes. QSL card is "OK" via the bureau or direct to his home callsign IN3VZE: Ely Camin, Corso 3 Novembre 136/2, 38100 Trento, Italy.

8Q, MALDIVES. Werner/DL1BKK and Gitte (Brigitte)/DL1BKI will be active as 8Q7KK from Kuramathi Island, Rasdu Atoll, Maldive Islands (AS-013, WW Loc. MJ64LG) between August 29th and September 17th. Activity will be holiday style (they are celebrating 40 years of marriage) using an IC-7000 with 100w into wire antennas and Quad Loop for 6m (if propagation permits). QSL via DL1BKK, direct or by the bureau. PLEASE NOTE: NO eQSL please! No upload to LoTW!

C6, BAHAMAS. Frank, K3TRM, will be active as C6ARM from Treasure Cay (NA-080 - Little Bahama Bank IOTA Group) between now and August 27th. Activity will be on 80-10 meters using CW, SSB and RTTY. The villa where he is renting has two verticals, one for 20-6m and another for the lower bands. He was heard this past weekend on RTTY on 30/20 meters as early as 1500z and between 2130-0200z. Also, watch 80 meters SSB after 0130z. QSL via K3TRM, direct (w/SASE) or by the Bureau.

DXCC NEWS (DXCC Rule Removal). Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 18th) the following from the July 2008 ARRL Board of Directors Meeting: "The Board also acted on the Programs and Services Committee report, voting to eliminate Rule 5 from Section III of the DXCC Rules. The Committee realized that while publishing log data can have a detrimental effect on operating awards, it was not possible to control such actions and the rule cannot be enforced. As part of an effort to maintain the integrity of operating awards programs, the Board called on staff to create resources and guidelines for QSLing and for QSL managers. These guidelines will help people who QSL to understand the 'best practices' and help to support the work of the QSL manager so that access to log data won't degrade Amateur Radio's long tradition of the 'honor system'."
The rule reads:
5. The presentation in any public forum of logs or other representations of station operation showing details of station activity or other information from which all essential QSO elements (time, date, band, mode and callsign) for individual contacts can be derived creates a question as to the integrity of the claimed QSOs with that station during the period encompassed by the log. Presentation of such information in any public forum by the station operator, operators or associated parties is not allowed and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made. Persistent violation of this provision may result in disqualification from the DXCC program.

"This rule cannot be enforced. In its place staff will create resources and guidelines for QSLing and for QSL managers in order to maintain the integrity of operating awards programs."

EA8, CANARY ISLANDS. George, GM0IIO, will be active as EA8/GM0IIO from Playa Blanca, Island of Lanzarote (S-007 for the Spanish Islands Award, WLOTA LH-0099), August 23-31st. Activity will be holiday style, mainly on 20 meters CW and SSB. He will be using a FT-857 and fishing pole vertical antenna. QSL via his home callsign.

EY, TAJIKISTAN. Nodir, EY8MM, from Dushanbe, plans to be active during this year's CQWW DX SSB Contest (October 25-26th) and CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band (80m) entry. QSL via K1BV. PLEASE NOTE: Nodir will pay special attention for NA (he needs LA, ND, NE and WY). Also, visit Nodir's Web page at: http://www.ey8mm.com

H7/YN, NICARAGUA. Ralph, K9ZO, will be active from the QTH of YN2N between November 24-30th. He plans to be active during the CQ World Wide CW DX Contest (November 29-30th), tentatively as H7/K9ZO or possibly as YN2ZO.

HB0, LIECHTENSTEIN. Operators Rainer/DL1ZBO, Tilman/DJ5BX, Thomas/DK9FEC Peter/DL1FX and Ekki/DF4OR will be active as HB0/DK9FEC during the CQWW DX RTTY Contest (September 27-28th) as Multi-Op entry. QSL via DK9FEC.

IOTA NEWS.....
AF-018. Martin, OL5Y, will be active as IH9N from the African Italy Island of Pantelleria during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via OK1MG.

AS-027. There is a good possibility that Vrangel Island (Wrangel) will show up on the bands by the end of August. A team of operators will try to activate this IOTA during their trip aboard the "Akademik Fedorov's" expedition heading towards the drifting polar base SP36. Their expected callsigns will be UE0MAC/0, UA6LP/0 and RZ6MZ/0. Exact dates of the operation depend on the Arctic weather.

AS-045. A team of 8 Korean operators will be active from Tok Island using a specially issued callsign D9D between September 13-18th. However, some operators may sign as homecall/5 (ex. DS2GOO/5) sometimes for individual purposes. Operators mentioned are: Kim/HL2CFY, Han/DS2GOO, Kweon/DS2GXU, Lim/DS2HRE, Jeong/6K2ABX, Song/6K2BWA, Cho/6K2FNN and Seok/6K2GDT. Activity will be on 80-10 meters (including 30/17/12m) using CW/SSB/FSK/PSK31. They plan to use 4 HF Transceivers with two 600 watts linears with various vertical and wire antenna systems. QSLs for D9D go via 6K2BWA. All others via their home callsigns.

EU-007. A four man team will activate Ireland's most difficult IOTA, The Great Blasket Islands, between September 10-14th. EU-007 is quite rare and ranks amongst some of the most needed IOTAs throughout Europe. Activity will be on 80-10 meters using both CW and SSB. The team states that the landing on EU-007 "can be (and often is) difficult, and quite often, there can be no sailings for days. Please excuse if there should be any delay but this would be beyond our control." Operators mentioned are: Jeremy/EI5GM, Mark/G4AXX, Dave/EI9FBB and Dave/EI4BZ. QSL via EI9FBB, by the bureau or direct to: David Deane, 7 Spriggs Road, Gurranabraher, Cork City, IRELAND. A special double folding card will be available to commerate this activation. QSOs will be uploaded to LoTW and eQSL in due course. For more details, please visit: http://blasketisland2008.blogspot.com

EU-010. Rob, DK1ROB, will be active as MM/DK1ROB from the Isle of Barra (IOSA OH-11, SCOTIA HI-02, WW Loc. IO66GX) between September 28th and October 3rd. Activity will be on 40-2 meters and 70cm using SSB, RTTY and possiblye PSK63. His antennas are: Inverted Vee for 40m, 5-band Spiderbeam for 20-10m at 15m AG, 3-element beam for 6m at 5m AG, and a vertical for 2m/70cm. QSL via his home callsign, direct or by the bureau.

EU-032. Gerd, DK8NT, from Oleron Island (DIFM AT-025, also counts for WLOTA LH-1369) between now and September 5th. Callsigns and bands/modes of activity were not provided. QSL via his home callsign, direct or by the bureau. Note: no eQSL please.

EU-049. Gabi, HA1YA, will be active as J48YA from Limnos Island (MIA MG-065, WLOTA LH-1740, Grid KM29), Greece, August 25-31st. Activity will be on HF, 6 and 2 meters. HF equipment is an IC-746 using a SQ vertical for HF, a simple wire delta loop for 6m, and ME1500-V and DL6WU portable antenna for 2m. He plans to be active during the evenings and mornings. QSL via his home callsign.

EU-099. Operators Charles/M0OXO and Nigel/M0NJW have been invited back to operate from Maitresse Island, Les Minquiers Islands. Next year between July 22-30th (2009), they will use the callsign GB8LMI. QSL via M3ZYZ: Charles Wilmott, 60 Church Hill Royston, Barnsley, South Yorkshire S71 4NG England. For updates and more information, visit their web site at: http://www.gb8lmi.co.uk

EU-111. Four members of the Cambridge University Wireless Society are planning to be active as GM6UW/p from the Monach Islands from mid-afternoon on August 27th until mid-morning on the 28th. The operation depends on wind and sea conditions. Operators mentioned are: G3ZAY, M0ERY, M0FFX and M0SCH.

EU-123. Members of the newly formed Middlesex DX Group will be active from Arran Island (IOSA CL01, SCOTIA CS14, Grid IO75KM), October 4-10th. The team of operators will use two callsigns:
MS0MDG/P - Will be used for SOTA and HF portable activity.
GB0MFG - For the base operations.
Activity will be on 160 meters through 23cms. Operators that were mentioned are John/G0KLX, Kevin/G1KAW, Simon/2E0VAG, Chris/2E0CMG, Carl/2E1IDC, Michael/G3WOE, Lee/2E0JDC and Jason/M1PRO. QSL Manager is 2E0VAG (direct or by the Bureau).

EU-174. Laci, HA0HW, will be active as J48HW and SV8/homecall from Thassos Island, Greece (MIA: MG-124, GIOTA: NAS-037, WLOTA: 4186, Grid KN20hs) between August 30th and September 10th. Activity will be on the HF bands (mainly on 40/30/20/17 meters and mainly on CW, with some SSB, RTTY and PSK31 as well), and 6 meters. QSL via his home callsign, by the HA Bureau or direct.

EU-176. Operators Jorgen/SM3CXS and Sten/SM3NXS will once again be active from Grimskar Island as SG3U and SD3N, respectively between August 29-31st. Activity will be on 80-10 meters CW/SSB. QSL via their home callsigns, by the bureau or direct.

NA-029. George, K3GV, will be active as K3GV/VY2 from Prince Edward Island (CISA PE-001), between September 1-22nd. Activity will be on 20 and 15 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

NA-067. Mike, KC2SDG, will be operating beachside as homecall/p from Hatteras [aka Pea] Island (USI NC-005S, WLOTA LH-3913, Dare County, North Carolina), between now and August 30th. He will use a Kenwood TS-480SAT w/100w into a rotatable dipole capable of communication on 80/40/20/2/1.25 meters and 70cm. QSL via LoTW only.

SA-057. Members of the Sacramento Radio Club (CX2FAA) will be active as CX1F from San Gabriel Island (SA-057), Uruguay, November 15-16th. Operators mentioned are: Ricardo/CX5FT, Viterbo/CX9FD, Italo/CX3FG, Marber/CX9ACK and Walter/CX6FF. Activity will be on or around the usual island and IOTA frequencies. QSL via CX2FAA: Fernando Carballo S/N, C.A. El General, CP 70.000, CC 39073 Colonia del Sacramento, Colonia City, URUGUAY. More information is available on their Web site at: http://cx2faa.iespana.es

NA8, UNITED STATES (Special Event). Members of the NASA Glenn Amateur Radio Club (NA8SA) in Cleveland, OH, will be active daily (2200-0500z) between October 1-6th. Activity is to celebrate the 50th anniversary of the beginning of NASA operations. Suggested frequencies are: 14280, 7280, 3880 and 1880 kHz. QSL via: NASA Glenn Amateur Radio Club Lewis Field, 21000 Brookpark Rd, MS 8-1, Cleveland, OH 44135-3191. Their Web page is at: http://www.grc.nasa.gov/WWW/Clubs/NA8SA

PZ5, SURINAME. Members of the Czech and Slovak OM0C Contest Crew is pleased to announce a DXpedition to Suriname and is expected to be active from here between October 21-30th. Activity will be on all HF bands (160-10m) and VHF (6 and 2 meters), with a focus on the lower bands, especially 160m and EME on 2m. It will be a very first time in Suriname for EME 2m operations. Operators mentioned are Rich/OM2TW, Joe/OM5AW, Steve/OM5AA, David/OK1RK, Vlada/OK1NY and possibly others. Operators will also be active as PZ5Z in the CQ World Wide SSB DX Contest (October 25-26th) as a Multi-Op or Multi-? entry. QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P. O. Box 6, 82008 Bratislava 28, SLOVAKIA. Visit their Suriname 2008 PZ5Z Web site at: http://www.om0c.com/suriname

QSL INFO AND NEWS.....
John, 9M6XRO (ISWL 9M6-6982), reports: "My QSL Manager Tim, M3SDE, has successfully upgraded his license and his new call is M0URX. Some QSL Manager lists have already been amended and this appears to be causing some confusion among DX-ers who have started asking if my QSL route is via M3SDE or via M0URX. If they make a quick check on QRZ.com they will see that M3SDE and M0URX are one and the same person with the same mailing address. This morning I changed all my calls on QRZ.com to show "QSL via M0URX". Tim has also retained the call M3SDE and has made arrangements with the RSGB QSL Bureau to receive all cards which arrive for M3SDE. I want to re-assure everyone who has sent a card via M3SDE that these QSL cards will still reach Tim and he will reply to all incoming cards as usual. M0URX is now listed as QSL Manager for my calls, as follows: 3DA0OK, 9M6/G3OOK, 9M6XRO, 9M6XRO/P, A25OOK, C91XO, G3OOK, GM3OOK, V8FRO, XU7XRO and ZS6/GM3OOK"

RARE GRIDS (SD, ND, MT) TO BE ACTIVATED (Satellites). Joe, KK0SD, will
be going on a trip that will pass through some rare grids. This is not
a grid expedition and the main purpose is work related travel. The person
Joe is traveling with has agreed to a few "rest stops" for him, and using
a hand-held and arrow antenna, he will try to activate the following grids
possibly August 29 or 30th: EN-15, EN-05, DN-95, DN-85, DN-86, DN-76,
DN-66, DN-65, DN-55. Please listen for him on AO-51, SO-50, and AO-27.
Joe states, "I cannot guarantee exactly when I will be in which grid.... I
don't expect to make every pass, but I hope to get quite a few of them."
He adds, "If you really need EN-15 or EN-05 they are not that far from
my home and I would be willing to do a sked." His E-mail address is:

S2, BANGLADESH. The ARRL is spreading the news that there will be new
amateur radio exams and licences in Bangladesh soon. The last licences
were issued in 2004. But thanks to the efforts of the Bangladesh Amateur
Radio League (BARL), the country's IARU Member-Society, the Bangladeshi
government will once again issue ham licenses; exams will also be given
on a monthly basis beginning August 13th, 2008. For more details, please
read the info on the ARRL's Web at:
http://www.arrl.org/news/stories/2008/08/15/10263

S2, BANGLADESH (IOTA DXpedition). Tutul, S21RC and possibly 3 other S2
operators are preparing a DXpedition in December to St. Martin's Island
(AS-127) located in Chittagong Region Group. Dates are not confirmed yet,
but they plan to stay 6 days on the island. A special callsign is pending
and will be announced later. St. Martin's Island is a small island in the
northeast part of the Bay of Bengal, about 9 km south of the tip of the
Cox's Bazar-Teknaf peninsula, and forming the southernmost part of
Bangladesh. It is the only coral island in Bangladesh. It is about 8 km
west of the northwest coast of Myanmar at the mouth of the Naf River. The
local name of the island is "Narical Gingira", also spelled "Narikel
Janjina/Jinjera", translated from Bangla, meaning "Coconut Island". They
currently can only set up one station and are looking for help and funds
for this DXpedition. For more details and information on how to help,
please visit: http://eb7dx.com

SV9, CRETE (EU-015). Ben, DL6FBL, will be active as SV9CVY during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All-Band/ High-Power entry. QSL via SV9CVY.

TA0, TURKEY. Urcun, TA0U, informs OPDX that he will be active through the end of September in the following contests: YO DX HF Contest (August 30-31st), All Asia DX SSB Contest (September 6-7th) and Worked All Europe DX SSB Contest (September 13-14th). PLEASE NOTE: Urcun was active using the special callsign TC1EU on SSB during the European HF Championship (August 2nd). He informs that the log is now available at: http://www.ta0u.com/detay.asp?id=4278

XU, CAMBODIA. Yu, 7K3BKY, will be active as XU7YYY from Sihanoukville between September 3-8th. Activity will be mainly CW. He will also try to be in the All Asia DX SSB Contest (September 6-7th). QSL via 7K3BKY.

XW, LAOS. Bruce, XW1B, has been fairly active on 40/30/20 meters this past week. Activity has been mainly CW and RTTY. Operations have been as early as 1130z for a few hours and again later between 1500-1700z or after 2330z. NO set pattern on mode or frequency. Look for him to be very active until August 27th before he heads to the U.S. for a holiday. Bruce is not expected to return to XW until the end of September. QSL via E21EIC.

YO DX HF CONTEST (Correction). Last week we mentioned that the annual YO DX HF Contest will take place August 30-31st (from 1200-1200z). Rules can be found on the following Web page at: http://www.hamradio.ro/media%5Cfiles%5Creg%5CYODX_HF_2008.htm However, please correct the following: "All the participants who will fulfill the necessary requirements during the contest will receive a free "YO AD AWARD" (1st Class), not the "WORKED YO DX CLUB MEMBERS Award" as mentioned.

ZD8, ASCENSION ISLAND (AF-003). Steve, G3ZVW, will be active again as ZD8N from August 27th to September 11th. Activity will be on the HF bands using only 100 watts to dipoles. He will be mainly active during his evenings and the weekends using CW, SSB and RTTY. QSL via G3ZVW, direct or by the bureau.

ZM2, NEW ZEALND. Operators Lee/ZL2AL, Stan/ZL2ST, Peter/ZL2LF, John/ZL2QM, Mike/ZL2CC, Chris/ZL2DX, Mike/ZL2FAR, Gary/ZL2IFB and Wayne/ZL2WG will be active as ZM2M from Napier, New Zealand (OC-036, also counts for WLOTA LH-0069) for the CQWW DX SSB Contest (October 25-26th), as a Multi-2R entry. QSL via ZL2AL, direct or by the bureau.

ZS, REPUBLIC OF SOUTH AFRICA. Franz, DL3PS/HB9EHQ, will be active as ZS6/DL3PS in Johannesburg between August 25th and September 12th. His activity will be limited to his spare time because he is there on a business trip. However, look for him to be on 80-10 meters using CW, SSB and the Digital modes. QSL direct or via the bureau to HB9EHQ.

ZS8, MARION ISLANDS. There is still no activity reported. However, Rhynhardt, ZS6DXB, ZS8T Press Officer, reported the following this past week (dated August 21st - edited): "In April, Petrus, ZS6GCM, arrived on

Marion Island to begin a year of work. Sometime in May he erected the
SteppIR vertical he took along and ran into a few difficulties. He did
make one contact during the month but efforts to resolve these difficulties
were unsuccessful and Petrus' work commitments impeded our efforts to
communicate via other methods with Petrus.
It has been over two months since we have heard from Petrus and are
as much in the dark as the DX Community as to his plans.
At this point we are at a loss why Petrus has not been able to find
time to put ZS8T on the air, he certainly made the efforts to obtain
permissions and training before leaving for the Island. We must assume
his job as administrator to the scientific community was much more than
he contemplated. Petrus is on Marion Island for 7 more months.
If and when Petrus surfaces we will inform the DX Community. We are
as disappointed as you..... 73, Rhynhardt Louw, ZS6DXB"
For updates and the first offical announcement of ZS8T being on the
air, please visit the official ZS8T Web site at: http://zs8t.net

Mark. You make major grammatical errors that are typical of functional illiterates. If you weren't such a Sloth you'd get and use a spell check program.

And stop rewriting your firing from CCRAA. They didn't give you the boot because of your sexuality and we ALL know that. They showed you the door because of your abnormal activities, your oddball activities, and because you simply are not a nice person. You were a detriment to their club and they plucked a cancer from their midst and discarded the lump of defective tissue before it caused more harm.

ALL of the 14.275 FRUITCAKES and USENET KOOKS have been going at ti
HOT AND HEAVY for the past 3 hours on the NIMbusters Ham Board.

Folks it's almost as good as the old 'Mike and Judy Show' from 14.313
of years gone by...

Check it out. These fuckers are truly pathetic and funny. They remind
me of cult members at airports handing out gospel tracts and kooky
political fringe newspapers.

First, you need three warning letters like I got. Then you have to be
retested, like I did.

They don't call me "Two-Test" for nothing....

Hi, Toad! How's the Jap cartoon kiddie porn business you run out of
your parents' basement? I guess part time Wal-Mart cart pushers need
to supplement their income, don't they?

>

Roger didn't get "three warning letters," Lardass Lloyd, N0VFP...
One warning letter, one cautionary letter to him and Gopher face
coward Tunder, and the retest letter. That's the only letters he's
received. And the last one was in 2000. You however, send fake
messages on 20 meters illegally.

> Then you have to be retested, like I did.

He still passed it, and UPGRADED. You after over 10 years, can't get
past the training wheel ham ticket.

> They don't call me "Two-Test" for nothing....

No, because you can't pass the General the FIRST TIME.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5R, MADAGASCAR (Updated IOTA Op!). As mentioned fours weeks ago, a team of French operators will be active from Sainte Marie Island (AF-090, in the northeast part of Madagascar) between September 18-27th. Operators mentioned are: Jack/F1BCS, Jim/F1HDI, Gil/F5JBE, Remy/F6ABJ, Michel/F6COW, Oliver/F6EIE and Dan/F6EPD. Activity will be on all HF bands (160-6m) and modes (CW, SSB, SSTV, PSK31, RTTY and JT65). Look for them on the IOTA frequencies for SSB contacts, and dedicated frequenices for the other modes. Look for the following callsigns on the following modes: 5R8GM (SSB), 5R8JM (CW) and 5R8IM (Digital) and 5R8EM (2m EME JT65 - 144.114 MHz, calling first, all random, 4x8 elements w/500w). QSL via F1BCS.

5X, UGANDA. Nick, G3RWF, will once again be active as 5X1NH in November. Activity will probably be from Fort Portal in western Uganda. He is expected to be in the CQ WW DX CW Contest (November 29-30th). QSL via G3RWF.

8Q, MALDIVES (AS-013). Igor, UA9KDF, is expected to be active as 8Q7FD until September 11th. Activity will be mainly PSK and RTTY.

A3, TONGA (OC-049). A group of JA operators will be active from here between September 12-17th. Operators mentioned are: Nob/JA2AAU (A35AU), Yoshi/JA2AIC (A35IC), Iwao/JA2LSS (A35SS), Iku/JA2ATE (A35TE) and Mori/JA2ZS (A35ZS). Activity will be on all bands and modes. QSL via the information on QRZ.com for each callsign.

ANTENNA PUBLICATION AVAILABLE ONLINE. Jeff, KE9V, informs OPDX that Scott Anderson, NE1RD, has published another amateur radio manual and has made it available online. He (Jeff) reports that the publication "Antennas for 100 Pound DXpeditions (Volume 1)" -- "is a 238 page exhaustive treatise on the subject of portable lightweight antennas that are ideally suited to grab and go on a DXpedition." This publication can be viewed (in PDF format) at: http://ke9v.net/2008/08/antennas-for-100-pound-dxpeditions

C5, THE GAMBIA. Members of the Spanish "DX4DX TEAM" will be active (possibly as C56EA) between October 14-24th. Operators mentioned are: Paco/EA4BT (Team Leader), Ramon/EA4NA, Emilio/EA7AAW, Julio/EA7JB, Salvador/EA7SB and Jose/EA7LS. Activity will be on the HF bands and 6 meters using CW, SSB and RTTY modes. For more details and updates, visit their Web page at: http://www.dx4dx.com

CE, CHILE. A group of Chilean operators will activate CE1W from the white sandy beaches of the Bahia Inglesa resort in northern Chile during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Multi entry. The operators mentioned are: Alex/CA2UDI, Juan/CA4UJU, Sergio/CE1TT, Daniel/CE2EYN, Marco/CE6TBN, Nicolas/XQ1IDM, Patricio/XQ1KY, Danilo/XQ4CW and possibly one more. QSL via HA1AG. For more info, please visit the Web page at: http://www.qsl.net/ce6tbn/ce1w/ce1w.htm

CT3/CT9, MADEIRA ISLANDS. A group of German operators from the Rhein Ruhr DX Association (RRDXA) Contest Team will be active from here between November 25th and December 3rd. They will sign CT9L during the CQWW DX CW Contest (November 29-30th) as a Multi-? entry. QSL via DJ6QT. Outside

the contest, operators will sign CT3/homecall. QSL via their home callsigns. Operators mentioned are: DJ7JC, DF1AL, DK3QZ, DL1XW, DL2OBF, DL3HAH, D3LQQ, DL5XX and PA0R.

DX MAGAZINE'S MOST WANTED SURVEY. It is that time again to participate in DX Magazine's annual "Most Wanted Survey". The survey is now being taken through October 15th. Carl, N4AA, editor of "QRZ DX" and "The DX Magazine" reports that the survey forms are available at:
http://www.dxpub.com/dx_survey2008.html
Carl states, "In response to a number of comments in recent years, you will find around 300 entities to choose from this year. The ones NOT included are the ones we felt were not justified to be included, such as W/K, VE, G, DL, F, I, etc. If anyone should want those included in their response, there is space for you to do a 'write-in' at the end of the survey form. In addition to the increase in the number of entities, you will also find a new column this year, '160-30', for those who want to express a need for contacts on the bands 160, 80, 40 and 30. Again, this is in response to suggestions from YOU in recent years." Carl also stresses, "IF AT ALL POSSIBLE USE THE WEB FORM - PLEASE !! As in past years you will be asked to provide your CONTINENT. If you are in North America, you are asked to provide the TIME ZONE in North America . PLEASE... PLEASE...PLEASE be careful when selecting your CONTINENT. Many responses arrive with obviously the wrong one selected. Those responses must be removed so they do not 'skew' the results. Make your response count by marking the CORRECT continent. Printed forms may be mailed in and I will enter those myself, but I must receive those no later than October 15th. As usual the continental results will be published in the January/February, and the Mode Results will be published in the March/April, issues of The DX Magazine. The overall top 100 will be posted on the web site around January 15th."

DXCC NEWS.....
Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 29th): "The 2007 DXCC yearbooks have arrived from the printer. The ARRL mail room will prepare them for shipping and they should start going out the middle of next week. You will receive the free copy if:
* A submission was received during the 2007 calendar year.
* If you did not make a submission during the calendar year, but you were 'current' on the DXCC Honor Roll for this period. ARRL Membership is also required for the free edition
Copies are available for purchase as follows:
USA - 7.00 USDs --or-- Non-USA - 8.00 USDs
Price includes postage."

Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 27th): "DXCC is pleased to announce the issuance of award number 1 on 70cm EME (432 MHz) to Jan Bruinier, DL9KR! First licensed in 1951 and a career in civil aviation, Jan retired from the cockpit 1991, then worked as a consulting engineer until 2003.
His 70cm station consists of 16 long yagis (24el, 8,5 wl booms) of his own design with open wire feeder, a preamp ATF58143 cavity into

23dBm mixer into TS870, TX 1500w.
With the guidance of his elmer, Charlie O'Brien W2EQS, Jan achieved 160 Meter DXCC in 1985 endorsing it to 152 entities. Jan was also helpful to Stewart Perrry, W1BB, who as you may remember achieved 160 meter DXCC number one in 1976! Congratulations to Jan, and, who will be next?"

NEW QSL MANAGER. Buzz, NI5DX, has become the QSL Manager for Steve, KL7SB, in Anchorage, Alaska. Buzz will be able to confirm all contacts with Steve for his Alaskan operation. However, Steve's TF and HB0 operations should still be sent to his home address.

VU2PAI QSLS. Pai, VU2PAI, sends OPDX the following message (edited): "After almost 3 hectic years, I am free and back on the air again. I was very busy with business and office work and doing a lot of travel in India and to DX lands. I was at Dayton Hamfest this year and it was a lot of fun! I will surely be there next year also. I will try and visit Fredrichshafen next year. The reason for my mail is regarding my QSLs. I am clearing all my old backlog of QSL cards, and if anybody needs a QSL card from me for all my activities, they may please send me the QSO details to: vu2pai@gmail.com --or-- ananthpai@hotmail.com
QSL cards for Expeditions to IOTA AS-096 (St. Marys Island, May 2001) and AS-161 (Sacrifice Rock, January 2002) can be sent to me. I still have cards left from my activities as VU2PAI/50, AT0PAI, AT2PAI and VU2PAI/C, so if anyone needs a card for those contacts, I will be happy to QSL.
Please note mail is tampered in the post office. Avoid sending green stamps to India while sending QSL cards. IRCs are fine. If sending green stamps registered air mail letter is better.
I would be happy to recieve any postage stamps instead of IRCs or green stamps, so if you have any spare stamps or envelopes with stamps from your country or DX contacts, I will be happy to get them. I have been collecting postage stamps since I was in school, and I donate my extra stamps to our local stamp club to school children.
All QSL cards for contact with VU7LD/VU2PAI go to W3HNK who is the QSL Manager for the VU7LD expedition. QSL cards for only AT0AI (IOTA AS-169 Arnala Island) is via VU2SWS.
See you on the air soon, and I apologize for the delay in some QSL cards. I will soon be active on digital and low bands also. I hope you publish this information in your next DX news bulletin.....
73, Pai, VU2PAI (also VU7LD/VU2PAI)"
Ananth G.Pai, Post Box-730, Bharath Beedi Works Ltd, Kadri Road, Mangalore - 575 003 India.

S7, SEYCHELLES. Tom, DJ6TF, will be on holiday on La Digue Island between September 2-14th. If he can obtain a licence, look for him to be on 30 meters and RTTY.

SILENT KEYS.....
* W4XAA/SK -- Richard Moseson (W2VU), Editorial Director for CQ Communications, informs OPDX that Radio monitoring icon Tom Kneitel, W4XAA (ex-K2AES), passed away in Florida on August 22nd at age 75. He had been in poor health for the past several years. Tom was senior editor and founding editor of Popular Communications magazine, a CQ publication. For more details, please visit the following Web pages at: http://www.popular-communications.com/Tommy.html http://www.arrl.org/news/stories/2008/08/25/10283/?nc=1

* S53AW/SK -- Jan, DJ8NK, informs OPDX that Goj, S53AW, one of the most vivid and enthusiastic Slovenian DXers, passed away August 25th at the age of 82. Goj was high up on the DXCC list with 332/347 but had not been active for about one year due to his long lasting illness, so he missed some new ones. Although he was a keen DXer and one of the very first foreigners to operate from BY1PK, he had for many years a regular Sunday sked with some W and VE friends. Jan states, "We will miss him."

OPDX and its read would like to send out our deepest sympathy to the family and friends of the above mentioned.

SPECIAL EVENT (Highway to a DX Party!). The Citrus Belt Amateur Radio Club of San Bernardino, California, will host (probably one of the most fun special event activities) the 9th annual "Route 66 On The Air" special event between September 13-21st. The purpose of this event is to offer amateur radio operators a fun way to "Relive the Ride" of their own memories of Route 66, and to celebrate the highway's 82nd anniversary. The U.S. Highway 66 established in 1926, was the first major improved highway to link the west coast with the nations heartland. Through stories, songs, and TV shows, the highway came to symbolize the spirit of the freedom of the open road, inspiring many to see America. Look for the following 19 stations (two are rovers) operating in or around the major cities along the old "Route 66" from Santa Monica, California, to Chicago, Illinois:

Stations	City	Club
W6A	Santa Monica, CA	Westside Amateur Radio Club
W6B	Los Angeles, CA	Westside Amateur Radio Club
W6C	San Bernardino, CA	Citrus Belt Amateur Radio Club
W6D	Victorville, CA	Victor Valley Amateur Radio Club
W6E	Barstow, CA	Barstow Amateur Radio Club
W6F	Kingman, AZ	Hualapai Amateur Radio Club
W6G	Flagstaff, AZ	Northern Arizona DX Association
W6H	Albuquerque, NM	New Mexico Amateur Radio Alliance

W6M Riverton, KS Wichita Amateur Radio Club
W6N Joplin, MO Joplin Amateur Radio Club
W6O Lebanon, MO Lebanon Amateur Radio Club
W6P St. Louis, MO St. Louis Amateur Radio Club
W6Q Chicago, IL Six Meter Club of Chicago

ROVER STATIONS

W6R Goleta, CA Santa Barbara Amateur Radio Club
W6S Santa Barbara, CA No Club Affiliation

Special event stations are expected to be found in the vicinity of the
following frequencies. (Look for digital modes in the standard band segments
for such mode) All frequencies +/- QRM:
CW - 3533, 7033, 10110, 14033, 18080, 21033, 24900, 28033 and 50033 kHz
SSB - 3866, 7266, 14266, 18164, 21366, 24966, 28466 and 50166 kHz
R66 MOBILE Operations - Any amateurs operating while actually driving
along Route 66 during the special event period are encouraged to
take part in "Route 66 On The Air", by using the designation
"mobile 66" for SSB or "/m66" for CW after their callsigns. All
other amateur radio operators are welcome to contact these mobile
operators.
REPEATERS - Some of the participating clubs will also be operating this
event from their local VHF/UHF repeaters. Check the ARRL repeater
guide for possible repeater frequencies, if your in the local area.

Each participating club will issue their own QSL card commemorating
this event. QSL information is available on the Web at:
http://www.w6jbt.org/Route_ota/General_Pages/QSLRoute.htm
For more details about the event and the certificate that is available,
please visit the "Route 66 OTA Site" at:

PRESS RELEASE: From the Desk of Martti Laine, OH2BH
For immediate release
September 1, 2008

UPDATE ON THE REPUBLIC OF KOSOVO

Many have been wondering what the status with regard to the Republic of Kosovo is as of today, both in general and in amateur radio terms specifically. Substantial progress has been made, and a new approach to get Kosovo totally
on its own feet is well on its way. The United Nations (UNMIK) has scaled down its administrative role while the European Union (EULEX) has initiated its supporting role to help integrate the "interim administration" functions into the local institutions.

The United Nations Frequency Management Office (FMO) is one of those local institutions. This Office was responsible for authorizing Amateur Radio operations before and after the Kosovar declaration of independence, but as of today the FMO does not exist nor are licenses issued. You may still hear some stations operating as YU8 since those licenses issued in the past have not been specifically terminated.

Undoubtedly, Kosovo as a "country" has all required country requirements; (A) a defined territory, (B) a permanent population and (C) a government and (D) is capable of interacting with other countries with whom it has established diplomatic relations. As of today, the Republic of Kosovo is recognized by 46 countries representing many leading states and all geographical continents.

From an Amateur Radio and DXCC perspective, a great deal of confusing discussion has taken place; one side argues that the DXCC criteria needs to be honored at all times. Others see the criteria as not being engraved on a

tablet of stone but that the rules facilitate "entities" dynamically in the context of an ever-changing world. Both views have some merit and should be appreciated.

Western Sahara (SO), another disputed DXCC country, is currently recognized by 48 countries and even today it is not a member of the United Nations nor does it have a dedicated ITU prefix. At the time Amateur Radio entered this desert country, no one had argued that it belonged to DXCC. When Swains Island was up for DXCC discussion it was decided that the DXCC criteria had to be changed
and so Swains entered the scene. Swains was added not decades ago - but just recently.

Before Swains Island, DXCC used three "measuring sticks"; UN membership, ITU prefix or IARU society. In facilitating Swains, the ARRL Board of Directors decided to keep the UN and ITU parts but changed the IARU rule to recording of an event by the US Department of State, which again opened up another gate for more DXCC entities.

Now Kosovo meets the highest US Department of State criteria - Kosovo is an independent state recognized by the United States and easily passes the US State Department gate, if that gate is honored in the right spirit. With DXCC rules in place as they existed before Swains, Kosovo would enter through the IARU gate because of its permanent amateur radio population and its national society, SHRAK.

The above is just an illustration of the dynamics of the DXCC at any given time, following the dynamics of the world.

The world outside Kosovo abounds with many other examples that offer a slightly different perspective in the international arena. Another oft-mentioned entity - Northern Cyprus - is recognized only by Turkey, and the situation regarding Cyprus remains deadlocked. Two new cases - South Ossetia and Abkhazia - are recognized by the Russian Federation and probably soon by Belarus (EW) and Venezuela (YV). If they ever achieve wider recognition apart from the countries subject to the current conflict, they will become another set of DXCC candidates.

An immediate UN membership gate is pointed more in the direction of those that get themselves established with no gun fire. The UN's potential for resolving conflicts to its own satisfaction is seriously hampered by the Security Council veto structure that plays a major role in eliminating new countries at that gate.

So, the ARRL is left to define a workable recognition based country criteria - be it qualitative and/or quantitative. Kosovo with its almost 50 recognitions is the first one at the gate. Delaying action on the Republic of Kosovo so that it does not qualify for anything is not an option for the ARRL. Kosovo is a country with a permanent amateur radio population and therefore Kosovar amateurs should be welcomed to our community.

Back to the practical world; YU8/OH2R QSLs for the first amateur radio operation from the Republic of Kosovo were printed last week by Gennady,

UX5UO and they will be in the mails in a few days. We thank Gennady for his efforts and support in making these full-color cards meet the spirit of the Kosovo case as they represent a special moment for those involved with the Kosovo project and those who follow world events as well as the development of the DXCC program.

You can view these cards at http://www.dailydx.com/Kosovo.htm

You may read more about YU8/OH2R and Kosovo at www.n4gn.com/yu8/

PJ2, NETHERLANDS ANTILLES (Last Minute Announcement). NODXA member Goose, W8AV, will be on the Island of Curacao (SA-006, WLOTA LH-0942) from the PJ2T Signal Point station signing PJ2/W8AV, September 3-10th. He plans to be on CW and RTTY (he will try to emphasize RTTY on this trip). This is an antenna maintenance trip, so he will only be on the air as time permits and his operating times may be somewhat limited.

Yes, that's exactly what the DXCC program has been missing: the ability to expand to 600+ entities depending on the situation on the frontlines. Blatant acts of occupation like the Neocon YI (soon to come EP) adventure and the Russian retro-Stalinist theft of other people's land must not go unrewarded. How much blood for a QSL should be sufficient?

Hell, why don't we just institute an open door policy and declare a DXCC entity for whoever comes up with the flag design for his outhouse. Mine is a giant middle finger on a taupe background. I bet I can get at least ten countries to recognize me for a few bucks (I'm looking at you, Kim Jong Il - call me, a'ight?). I want my DXCC. Long live the Republic of Retardistan!

If you are in a hurry you can send it direct including SAE and return postage to: AMATEUR RADIO CLUB, VIENNA INTERNATIONAL CENTRE, P.O.BOX 500, A-1400 VIENNA, AUSTRIA.

7X, ALGERIA. Mirek 9V1XE/VK2DXI/SP5IXI, is once again active as 7X0DX until September 11t. Activity will be limited to his spare time because this is a business trip. This time Mirek has difficult conditions to build effective antennas but will try to be active if only possible. QSNs show Mirek has been on 40/30/20 meters CW at various times. QSL via DL4DBR. For updates, please watch the following Web page at: http://www.7x0.dxing.pl/
The online log available on the above Web page includes data from his previous operations. QSO data from the current activity will be uploaded after this activity is over. Mirek has no chance to send his QSO data on a daily basis at this time as his internet access in 7X is very limited.

A3, TONGA. Paul, A35RK, informs OPDX that he will try to be active as much as possible until he takes his antennas down around October 20th before heading to stateside at the end of that month. He will return to Tonga during the first week of December. However, he states that he will probably not be back on the air until Christmas, weather permitting. He also mentions that Tonga is having some very unusual weather events lately, and these events are effecting a broad area of the South Pacific. Tonga is also enduring gale force winds at the moment, all due to an enormous (1040mb) high pressure system NE of New Zealand. Paul states, "The Kiwi weatherfolks say that they have never seen such an intense high in this region, and the immediate forecast is for more 'dirty' weather. High winds...cyclones...are expected in our region from late November until March or April. But this is unusual. At the moment, I can't turn my beam where I want to because I have to point it in whatever direction reduces the windload on the antenna/mast. Consequently, I'm as much at the mercy of the wind as of the propagation conditions....and I haven't been able to work hardly anyone in the last few days.... I have received many requests for digital skeds lately...especially from Europe... but I'm afraid that I can't accomodate them. We'll just have to wait and see what the bands and weather conditions will allow." QSL via W7TSQ. ADDED NOTE: Paul is currently thinking about being active from a few different islands on his return back from the states. Travel arrangements are not finalized at this time, but stay tuned.

CN, MOROCCO. Operators IK2QEI, IK1SPR, IK1RQT, IK1HXN, IV3ZXQ and CN8WW will be active as CN3A during the CQ WW DX RTTY Contest (September 27-28th) as a Multi-Single entry. QSL via LoTW or via I2WIJ.

CQ MAGAZINE PRESS RELEASE. Richard Moseson (W2VU), CQ Editor, reports on September 3rd: "Brittany Decker, KB1OGL, has been named Youth Editor of CQ Amateur Radio magazine, Editor Rich Moseson, W2VU, announced today. Decker, of Hudson, New Hampshire, is 14 years old, has a General Class license, and already holds an amateur radio leadership position as Assistant Section Manager for Youth in the ARRL New Hampshire Section. She wrote the article, 'Saving the Hobby for KG7HF,' about her introduction to amateur radio, that appeared in the April 2008, issue of CQ. Another article, 'A Rookie's Guide to Contesting,' will be published in the October issue.

'CQ's ongoing participation in the Newsline Young Ham of the Year award program has shown me that there are many young hams out there doing all sorts of wonderful things,' explained Moseson, 'and I realized that we need to showcase some of their achievements on a regular basis. But we want this new column to be for young hams as well as about young hams, and we want to keep it in their own voices as much as possible.'

Decker commented on her plans for the column: 'Writing the column is a great way to get young radio operators pumped about getting their licenses and staying in the hobby. For me, it has been such a rewarding hobby, and has allowed me to explore many of my interests that could lead to possible careers. Over the past three years, I've had so much fun with amateur radio, and I would love to get other youth to experience the hobby that has given so much to me. I want kids like me to know that if they get their licenses and stay active, they won't regret it.'

CQ's youth column will appear quarterly and is scheduled to debut in the December 2008 issue. Stories by and/or about young hams should be e-mailed to Brittany at or mailed c/o CQ magazine, 25 Newbridge Rd., Hicksville, NY 11801."

NOTE: Photos of Brittany (one by herself, one with CQ Editor W2VU, at the Boxboro Hamfest) are available on request. Please contact W2VU via e-mail.

D2, ANGOLA. Father Gabriele, D2EB, is back in Angola after five years. Activity will be on the HF bands and 6 meters using CW and SSB. He was active this past week on 20 meters (14052 and 14222 kHz) after 2030z. QSL via IZ3ETU direct only or LoTW.

DXCC NEWS. Bill Moore, NC1L, ARRL Awards Branch Manager, reports on September 3rd: "DXCC Annual List Clarification -- Since the DXCC Annual List has not been published in print for many years a point of clarification may be needed to help explain how the list works...

As was the case when it was published there were certain requirements that needed to be met in order to make the list. Including:

* Anyone 'Current' on the DXCC Honor Roll for the period are automatically listed. (On the Honor Roll modes achieved, only)

* A submission must have been made during the period.

* During the period your number on an active award must have increased by, at least, one point.

eg: If in 2006 you had 225 on 160 Meters and in a 2007 submission you did not increase this number by, at least, one point, the 160 Meter

Award will not appear in the yearbook. However, if your 160 Meter Award went from 225 in 2006 to 229 in 2007, your callsign will appear.

The DXCC Annual List reflects 'Activity'"

EA6, BALEARIC ISLANDS (EU-004). Adrian, AA5UK, will be active as EA6/AA5UK from Ibiza (JM09tb), October 15-29th. Activity is to commemorate the 7th anniversary of the attacks that occurred on the Pentagon, the World Trade Center and over Pennsylvania in 2001. Activity will be on 80/40/20/15/10 meters using CW and SSB. This will be a 12 hour operation between 1200-2400z. A special QSL card will be available for stations that work K4AF. QSL via PARC, P.O. Box 2322, Arlington, VA 22202. Visit the PARC Web page at: http://www.k4af.org

KP2, U.S. VIRGIN ISLANDS. John "Doc", K3MD, will be active as KP2/K3MD from St.John's, February 19-24th. His activity will include the ARRL DX CW Contest (February 21-22nd) as Single-Op/All-Band/High-Power entry. (He placed 9th in the world in 2008.) Doc informs OPDX that the cabin he rents (overlooks east and west at 1000 feet) is a straight shot to U.S. He will be using an IC-7000 (w/ALS-500M/PS-75) into an all band 80-10m trap dipole up 50 feet and a 160 meter inverted L. Outside of contest he will operate casually, usually working Europe on 20 and 40 meters. QSL via K3MD.

KH6, HAWAII. Scott, NE1RD, informs OPDX that he will be on Kauai operating as KH6/NE1RD for CW WW DX CW Contest (November 29-30th) as a "100 Pound DXpedition". He will be a Single-Op/All-Band/Low-Power entry. Expect pre-contest operations on CW and SSB from both Kauai Island (OC-019, USI HI-003S, WLOTA LH-1761, Kauai County) and Oahu Island (OC-019, USI HI-008S, WLOTA LH-1227, Honolulu County) in the 10 days prior to the contest. QSL via his home callsign. Visit his Web page at: http://www.bsandersen.com

KP4, PUERTO RICO. Joachim, KP4EE, is planning to be active during the CQ World Wide CW DX Contest (November 29-30th) as Single-Op/All-Band entry.

NO SUNSPOTS FOR AUGUST (First Time in 100 Years). The sun has reached a milestone not seen for nearly 100 years: an entire month has passed without a single visible sunspot being noted. Read the entire article at: http://www.dailytech.com/Sun+Makes+History+First+Spotless+Month+in+a+Century/article12823.htm

NOT A PIRATE (Update). Mamuka, 4L2M, updates OPDX that the station active as 4L6X (Bob) does have operating Georgian permission.

OD, LEBANON. Syl, F5TLN, will be active as OD5/F5TLN from southern part of Lebanon between October and February 2009. Activity will be on all HF bands, using SSB and sometimes CW. QSL via his home callsign, by the Bureau or direct to: Sylvain Bertrand, 14 Rue du Champ Saint Pierre, 55100 Verdun, FRANCE. Visit Syl's Web site at: http://f5tln.site.voila.fr

PJ2, NETHERLANDS ANTILLES. You just have a few more days to work NODXA member Goose, W8AV, who is on the Island of Curacao (SA-006, WLOTA LH-0942) from the PJ2T Signal Point station signing PJ2/W8AV. He is expected to go QRT September 10th. This is an antenna maintenance trip, so he will only be on the air as time permits, and his operating times may be somewhat limited. Activity will be on CW and RTTY (he will try to emphasize RTTY on this trip). Most of his activity has been on 40/30/20 meters, usually in the morning starting around 1100z for about an hour and then again after 1800z, as late as 0145z. LAST MINUTE UPDATE: Goose informs OPDX: "I have been encountering some problems getting the RTTY stuff to work down here which is why I have not been active on that mode. With all the antenna work to do it has become a lower priority to get it working. I will do what I can between now and Tuesday to try to get things fixed. If I do not succeed, I will continue to operate on CW."

PZ, SURINAME. Yuri, VE3DZ, will be active as PZ5TT between November 25th and December 1st. His activity includes the CQ WW CW DX Contest (November 29-30th) as a Single-Op/All-Band/(possibly) High-Power entry. Outside of the contest Yuri will be on all bands using CW, SSB and RTTY. QSL via VE3DZ.

QSL INFO AND NEWS.....
FH1LE QSL STATUS. Alan, F6BFH, reports that all direct requests for

the FH1LE activity have been sent out.

Ralph, K2PF, informs that new one letter suffix callsigns can be used in Bosnia-Herzegovina as of September 1st. He will be handling cards for the following:

1683. Why KB9RQZ obsessively and endlessly posts "zzzz..."

Newsgroup: rec.radio.amateur.misc

Mark has a goal he wants to reach by means of his "zzzz ..." posts. He wants to obliterate all topics displayed by Google Groups, and replace them with only "zzzz...". He thinks that he will be "hiding" RRAP posts that way.

More than likely, Mark is looking at a Google Groups topics display, such as the one at the following link:

http://groups.google.com/group/rec.radio.amateur.policy/topics?hl=en&gvc=2

If you go there, you can see Mark's clear effort to mask the subject lines.

There are many obvious problems with this approach, but Mark appears to be oblivious to all of them. First, people not using Google will not have any topics masked. Secondly, even Google Groups users have many other choices of how RRAP is displayed, and if one of those is chosen, the topics will not be masked. Chances are, Mark only sees the display that looks that way because his Google preferences are set to it.

So Mark's goal isn't really reachable, but he still obsessively attempts to reach it by changing almost all topics to "zzzz...".

It is very OCD behavior indeed.

If you want to get under Mark's skin, change the subject line back to its original content when you follow up to one of his posts. Even better, change the subject of one of his (rare) original posts to "zzzz..." so that he can't find it among all of the other threads he's watching. When you do that, it makes Mark vewy, vewy angwy, and he calls YOU the thread hijacker.

But there's no chance of getting Mark to stop this antisocial behavior on his own, as the past three years should have demonstrated to even the densest among us. Mark must be removed from RRAP to restore it, just as he had to be removed from the CCRAA to assure its viability. There is no middle ground available when dealing with a madman - none at all.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5H, TANZANIA (IOTA Op). Arno, DL1CW, is now active as 5H3AP. Length of stay is unknown. He has been very active on 30 and 17 meters, usually operating CW and RTTY. Reports indicate he will activate Mafia Island (AF-054) between September 22nd and October 1st. QSL via his home callsign, the DARC Bureau is preferred.

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that Harry, 7Q7HB (G0JMU), at last has his brand new radio shack completed. He has a new telescopic tilt-over, free standing lattice mast installed, and a new A4S antenna at the top. However, Allan states, "It's been MONTHS of hard work....now only to find that the rotator is broken beyond repair. So he has fastened the A4 beaming north for the time being." Harry is expected to stay here until November 1st and then return to England. He will take another rotator down to the southwest shore of Lake Malawi, at "Club Makokola", on his next visit. Remember, the QSL route for 7Q7HB is as always "DIRECT ONLY" to G0IAS (NO BUREAU... Allan is not a member of the RSGB, so he is NOT allowed to use the BUREAU in the UK and there is NO Bureau in Malawi). If anyone has any questions for Allan, his E-mail is good on QRZ.com and is: allan.g0ias@btinternet.com
Allan will answer any E-mails within a couple of hours.

9H, MALTA. Naoyuki, JK1FNL, will be active possibly as 9H3F or 9H3FF between September 19-24th. Activity will be on 40/30/20 meters using CW, SSB and RTTY. QSL via his home callsign.

A3, TONGA (OC-049). A group of JA operators are expected to be active from here between now and September 17th. No QSNs have been reported as this was being typed. Operators mentioned are: Nob/JA2AAU (A35AU), Yoshi/JA2AIC (A35IC), Iwao/JA2LSS (A35SS), Iku/JA2ATE (A35TE) and Mori/JA2ZS (A35ZS). Activity will be on all bands and modes. QSL via the information on QRZ.com for each callsign.

C6, BAHAMAS (Update). Ed, K3IXD, informs OPDX that C6APR will be active from the Crooked Island Lodge, Pittstown Point, Crooked Island, Bahamas, in the CQ WWW SSB Contest (October 25-26th) as a Multi-2 entry. He also states, "The lodge manager has confirmed that the lodge survived both Hanna and Ike hurricanes." The operators will be: W2GJ (Pete), K3IXD (Ed), W3PP (Dallas), and W8ZA (Bob). Look for activity before and after the contest (between October 23-27th) by C6APR to be on 160-10 meters including the 30/17/12 meter bands using CW and SSB. Also, look for C6AXD to be on before and after the contest (between October 23-27th) on 160-10 meters including the 30/17/12 meter bands, mostly RTTY and some SSB. Both callsigns are good for Bird Rock Lighthouse (ARLHS BAH-005) as well as IOTA NA-113 and Grid FL22tt. All QSLs go to K3IXD.

E51, SOUTH COOK ISLANDS. Just a reminder that Bill, N7OU, will again be operating from Rarotonga as E51NOU between September 15th and October 11th. Activity will be on 40-10 meters using low power and CW only. Bill states, "For most of my stay I'll be operating around a work schedule, but I'll make a special effort to be on at grayline times to Europe." QSL via N7OU.

ER0, MOLDOVA. Serge, UR5FEO, will be active as ER0FEO during the CQWW DX RTTY Contest (September 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via UU0JM.

FM, MARTINIQUE. Freddy, F5IRO, will once again be here. He has received a new work assignment in Martinique (IOTA NA-107, DIFO FM-001, WLOTA 1041) where he is expected to be here starting September 21st through the end of February 2009. His callsign is not yet known, but possibly FM/F5IRO. Activity will be limited because of his work, usually during his spare time in the evenings starting around 2200z, and during the weekends. Using a FT-857D into a V40 and G5RV (HM) antenna, look for him on 40/30/20 meters operating CW, the Digital modes and a little SSB. Sked are possible by request at : f5iro63@gmail.com
Freddy and Philippe/FM5LD plan to enter the next CQWW DX CW Contest at the end of November. Callsign and operating class will be announced later. QSL via F5IRO, direct or by the bureaus after his return home at the beginning of March 2009.

H40, TEMOTU ISLANDS (IOTA Op). A report from DL2GAC indicates that Mike/KM9D and Jan/KF4TUG, who were stuck on Ndende Island (OC-100), have arrived at Vanikolo Island (OC-163) and are presently anchored off Lavaka village. The first activation of OC-163 took place in 1992 from this village. Mike is expected to be active as H40MY from Vanikolo. QSL via OM2SA. As this was being prepared, no QSNs were reported.

HI3, DOMINICAN REPUBLIC. Edwin, HI3K, will be active during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (?) entry. QSL via KB2MS.

IOTA NEWS.....
AS-008. Giken, JF4CAD, will be active as JF4CAD/1 from To Island, JA1 North Isu Group, from September 14-15th. Activity will be on the HF bands and 6 meters SSB. "To Island" also qualifies for the JIIA Award (http://www3.ocn.ne.jp/~iota/newpage61.htm) as JIIA AS-008-013. QSL via his home callsign, by the Bureau or direct.

AS-026. Han/DS2GOO and his XYL will be taing a trip to Cheju Island (LH0686), October 3-5th. Look for Han to sign DS2GOO/4 and be active on 80-10 meters using CW, SSB and the Digitals modes during his local evening hours. QSL via his home callsign.

AS-045. (UPDATE) A team of 8 Korean operators are now active from Tok Island (Aka Dok Island or Liancourt Rocks, LH-0016) using a specially issued callsign, D9D, until September 18th. Operator Han/DS2GOO was substituted by Kim/6K2GEN due to his work schedule. The team now is: Kim/HL2CFY, Kim/6K2GEN, Kweon/DS2GXU, Lim/DS2HRE, Jeong/6K2ABX, Song/6K2BWA, Cho/6K2FNN and Seok/ 6K2GDT. Activity will be on 80-10 meters (including 30/17/12m) using CW/SSB/FSK/PSK31. They plan to use 4 HF Transceivers with two 600 watts linears with various vertical and wire antenna systems. Some operators may sign as homecall/5 (ex. DS2GOO/5) sometimes for individual purposes. QSLs for D9D go

via 6K2BWA. All others via their home callsigns. This operation has a log search which will be updated daily through mobile InterNet. The URL address is: http://dt0hf.com/search/search.html

AS-117. Operator Kenji, JA4GXS, will be active as JA4GXS/4 from Otsu Island, JA4 Yamaguchi Pref, between September 14-15th. Activity will be on the HF bands on CW. This activity is also good for the JIIA Award, reference number JIIA AS-117-110. QSL via his home callsign, by the Bureau or direct to: Kenji Sasaki, 2-15 Ishikannon-cyo, Yamaguchi-City, 753-0038 JAPAN.

EU-028. (UPDATE) Members of A.R.I. Torino and Wave Master Team will be active as IA5IG from Giglio Island (IIA GR-002), September 24-28th. Activity will be on 160-2 meters using CW, SSB and the Digital modes. They will have 2 or 3 stations on the air. Operation will take place on the following frequencies depending on propagation and QRM:
CW - 1835, 3530, 7030, 10115, 14040, 18095, 21040, 24920, 28040 and 50098 kHz
SSB - 1842, 3755, 7065, 18128, 14260, 21260, 24950, 28460, 50160 and 144310 kHz
RTTY (fsk) - 7039, 10141, 14085, 18102 and 21085 kHz
PSK31 (Band Plan Region 1).

They will be active from 3 locations: Giglio Castello (elev. 405m), Campese (at sea level) and a mobile station for activation of 5 Giglio Island castles (DCI references GR054, GR055, GR056, GR057 and GR058). The IA5IG team will send all QSLs via the ARI bureau. Your QSL card is not necessary. If you want a direct QSL, send SASE+postage to IZ1DSH: Gherardo Pannoli, Strada Tetti Gramaglia N.22, 10133 - Torino, ITALY.

R1FJA - 21-23/03 1994 - F.J.L
RA0BY - 1994 - DICKSON ISL. (AS-005)
RA0BY/A - 03/04 -1996, 03/05 -1997 - SREDNY ISL. (AS-042)

Nilay, TA3YJ, reports that if you sent QSL cards to the TA3YJ QSL Service, you can check the status of your cards at:
http://www.aydogmus.gen.tr/ta3yj/qslservice.htm

TOP 5 QSL MANAGER SURVEY (Results are in!) John, K1XN, from the GoList, announced: "The votes are in and you have chosen the TOP 5 QSL MANAGERS

for this period. The majority of the voters were from Europe with just a few DXers from the USA expressing their choices. Here are the TOP 5 ranked by voter choice.
1. W3HNK 4. IZ8CCW
2. G3SWH 5. NI5DX
3. IT9DAA
There were over 200 managers entered by DXers around the world. All QSL Managers are winners and their services are very important to all of us that want to claim a card for a contact. Thank you to QSL Managers and card handlers around the world, we really do /*APPRECIATE*/ you....
John K1XN"

QSL TX5C via OH2BH. The Finnish-Turkish Friendship Consortium station was active again this past weekend during the "Worked All Europe DX SSB Contest." Also, the following press release from Jarmo, OH2BN, (dated Sept 12th) was sent out: "ASIAN TURKEY WITH A HAPPY WEDDING ANNIVERSARY AND ROUND NUMBERS: Leena, OH2BE, and Martti, OH2BH, left Finland for an unknown address in Asian Turkey on their wedding anniversary and Leena's round-number birthday. Today is the wedding anniversary and Mom was on the ropes at an antenna party in the soaring temperature of 36C. They got the job done, and TC4X should be on the air now plus in the European DX Contest this weekend.
Outside of the contest TC4X will be operated by Tefvik, TA1HZ. The upcoming magic day will be topped with a candlelight dinner and lacebed-sheet at a place overlooking the romantic Marmara Sea at sunset.
Gosh, the actual birthday coincides with the contest but mixing and maxing will hopefully provide the best results on both fronts. Who said life is an easy journey when you marry a beady-eyed contest type?"

QSLS VIA LOTW: 5X1NH

QSLS RECEIVED VIA MAIL: 3DA0OK, 5X1NH, 6Y1LZ, 7Q7HB, 7X2GX, 9X0R, C91XO, FG/OH7KD/P, GB8LMI, HC8N, HQ8R, MD0CCE, TA3J, TA3YJ, TX5C and VP6DX

Product Description
The sleek Nokia N800 Internet Tablet combines a truly personal
Internet experience with easy wireless connections, high resolution
display and support for a wide variety of Internet applications. Built
to be constantly in use, you easily stay in touch with business
associates, friends, and family thanks to its Internet calling,
instant messaging and email connectivity. And with stereo audio,
multimedia support and a new ergonomic design, the Nokia N800 morphs
into a portable Internet entertainment device, enabling playback of
streamed and downloaded content wherever you roam.

Stay connected to your world via the Web, streaming Internet radio, and the latest RSS news feeds.
The main form of connectivity is Wi-Fi (802.11b/g), and hooking up to a network is as simple as connecting with a laptop. You can also use the integrated Bluetooth wireless connectivity to hook up with a cell phone that is compatible with online data services. When connected to either a WLAN network or to a cell phone, you can make calls using the built-in Internet telephony application as well as conduct video conferencing with the built-in Web cam.

The N800 provides 256 MB of onboard flash memory and 128 MB of RAM. It also offers two expansion slots that are compatible with Secure Digital (SD), MultiMedia, miniSD, and microSD memory cards with a size limit of 2 GB. (Adapter required for miniSD and microSD.) You can also connect the N800 to a PC using the included USB cable to update software and transfer files from the PC to the a memory card. For multimedia playback, the N800 is compatible with MP3 and WMA digital audio files (as well as AAC, M3U, and WAV), Real Audio streams, and video files encoded as AVI or MPEG4. Additionally, with the UPnP media server functionality, you can share your music, video, and photos with others on the same Wi-Fi network. The N800 has two integrated speakers as well as a headphone jack for personal listening.

Access the web using the N800's Opera web browser, which provides Flash 7 multimedia support. Other applications include an RSS feed reader (for accessing all your favorite news sources), a PDF reader, image viewer, Internet radio player, and instant messenger with voice and video conferencing capabilities (using the Jabber and Google Talk services).

Chat with friends and business associates using built-in chat programs and easy-to-use onscreen keyboard.
The 4.1-inch touchscreen has an 800 x 400-pixel resolution with up to 65,536 colors. You can access controls with your fingers or use the included stylus, and the N800 provides intuitive handwriting recognition and a full-screen finger keyboard. The rechargable battery provides up to 10 days of standby time and up to 3 hours of continuous Web browsing or media playback. Other features include:

Integrated desk stand for on-table use
Zooming, full-screen and panning display functionality
Auto connection to saved Wi-Fi hotspots or through Bluetooth compatible phones
More applications: Clock, Sketch, Notes, Backup
Dimensions: 5.7 x 2.95 x 0.5 inches (WxHxD)
Weight: 7.27 ounces
What's in the Box
Nokia N800 Internet Tablet, stylus, battery (BP-5L), 128 MB miniSD memory card (with adapter), earphones, carrying case, travel charger, USB cable, Quick Start guide.

Hi everyone!

Anyone know of a nice club or hangout in the Toledo area that caters to cross dressing radio operators? I'm a guy from Toledo who enjoys showing a submissive man a good time in every way. I have so many interests that there probably is some broad common ground between myself and about anyone. I love to talk about BDSM issues and interests, and have been generally regarded as a funny guy to hang out with who has a good head on his shoulders. Send me a message for anything else you'd like to know!

I've attatched a link to my picture below, I consider myself a BBW trapped in a mans body and will be dominant to the right gentleman. (ham radio operators move to the front of the line)

Have a new FT-60R HT and despite repeated readings of the manual, I am stumped
on a few issues.
First, Programmable (Band Limit) Memory Scan. On page 40, item 2 in the manual it talks about storing the upper and lower limit freqs of the scan you want
to program. It says using the methods learned earlier (?) store the lower freq in L01 and the upper in U01 memory slots. I cannot figure out how to get to L01 and
U01 to store these limits.

Can anyone help?

Thanks and 73

2008 FALL CLASSIC DX EVENT (Sponsored by the CountryuncleDX Group). Ron, K4SX, reports the following on September 17th: "It is my pleasure and privilege to announce today the first annual Fall Classic DX Event sponsored by www.countryuncledx.com. This DX Event has been founded for the primary purpose of generating enthusiasm for DXing, Amateur Radio, and to provide an inclusive way for Hams who do not like to 'contest' but would enjoy a way to compete over a longer period of time than a weekend without calling 'CQ Contest'. So the 2008 Fall Classic DX Event has been developed and launched for Amateurs to participate and enjoy DXing.
The Event begins on October 1, 2008, and ends December 31, 2008. All event information can be found at www.countryuncledx.com or you can E-mail K4SX or N4DA for information and details.
I should also mention that this event is not intended to compete with or preclude any other DX competition or contests. It is worth also noting that all DX contacts made in contests during the event period may and will be counted.
I hope you decide to post this to your website and newsletters and that you plan on joining in and having some DX fun! If you have any question, please contact N4DA@bellsouth.net ..."

3B7, ST. BRANDON ISLAND. Rachid, 3B8FQ, is planning to activate St. Brandon Island as 3B7FQ, in October. The dates of the operation have not been determined. As in April, when Rachid operated 3B6FQ from Agalega Is., this will be a working trip, with on-air activities shared with meteorological maintenance duties. Rachid's 3B6FQ operation netted almost 500 QSOs from Agalega.
More specific details will be disseminated closer to the departure date.
QSL all of Rachid's operations via K5XK. Ron reports that he has moved to a new QTH, delaying some QSL replies for 3B8FQ and 3B6FQ. Cards for both operations are printed and replies to all direct requests will be mailed within the next week. Bureau requests that have been received will go out in October.
K5XK is also the QSL manager for the current 5Z4/RW1AU operation. See www.qrz.com/k5xk for detailed QSL information.

3V, TUNISIA. Dmitry, RW4WM, will be active as 3V8SS from Sousse between September 29th and October 8th. Look for activity on CW and SSB, with some RTTY. QSLs for this operation go via RW4WM, direct or by the Bureau.

5Z, KENYA. Valery, 5Z4/RW1AU, continues to be quite active from Nairobi and is currently, only on 20 meters SSB, but a keyer is enroute, and if it arrives safely, Val will be very active on CW in the near future. The keyer will remain at the 5Z4RS club station for others to use after his departure. Since Val is on a temporary work assignment, it is not known how long how long he will be in Kenya. Look for Val on weekends, and periodically on weeknights after work (after 1500z). Val will reply to eQSL requests and should have his LoTW documentation completed soon.
QSL via RW1AU's instructions on QRZ.com; Val's QSL Manager, K5XK, has a new address, which is also "OK" on QRZ.com. Printed color QSLs are being printed and will be mailed out within the next 2-3 weeks.

8Q7, MALDIVES. Mark/M0DXR, and his XYL Gemma/2E0WPX, (who were just married this past weekend) will be here on their honeymoon between September 22nd and October 5th. Both are expected to be active as 8Q7XR and will be operating on CW and SSB on 40-10 meters using an IC-7000 and a G5RV dipole. QSL via M0DXR, direct or by the bureau.

A2, BOTSWANA. Just a reminder that Sigi/DL7DF and a team of operators will be active as A25/DL7DF this week from Botswana between September 23rd and October 6th. They plan to have several stations on the air on 160-10 meters using CW and SSB. One station will be exclusively dedicated to RTTY, PSK31 and SSTV. Operators mentioned are: Manfred/DK1BT, Wolfgang/ DL4WK, Andy/DL5CW, Sigi/DL7DF, Frank/DL7UFR and Leszek/SP3DOI. QSL via DL7DF, direct or by the DARC Bureau. Pilots for this DXpedition are Bernd/DF3CB and Floyd/N5FG. For more details, please visit: http://www.dl7df.com/a25/index.html

A4, OMAN. Members of the Lufthansa Amateur Radio Club (LARC) and the Norden District of the DARC (DOK I09), will be guests of the Royal Omani ARS (ROARS) and operate under the following two callsigns between October 30th and November 11th: A43DLH - from the ROARS HQ
A43DLH/P - from the Omani Scout camp
Activity will be around the clock on 160 meters and up on as many bands as possible. Modes will be: CW, SSB and the Digital modes (included SSTV). QSL Manager is Rudi, DK7PE.

A6, UNITED ARAB EMIRATES. Don, N1DG, is leaving shortly for A6, A7 and A9. However, Don states that he only intends to operate from A61AD around September 27-30th. He expects to be in the CQWW RTTY Contest (September 27-28th) for a few hours. Don adds that if anyone is desperate for an A6 contact on 20-10m inclusive, to send him an E-mail and he will be happy to try to oblige (CW SSB and RTTY only please). Don's E-mail address is: don@aurumtel.com

CANADIAN SPECIAL EVENT. All radio amateurs in Canada are encouraged to participate in the upcoming "Special Event Prefixes" between October 1st and November 30th. The special event prefixes commemorate the founding of the Crown Colony of British Columbia in 1858. Look for radio amateurs in Canada to use the following prefixes:
VE --> CK VO --> CY
VA --> CJ VY --> CZ
(ex. VE7DAO would become CK7DAO and VA7DAO would become CJ7DAO)
For more details, visit the following Web site at: http://www.hambc150.info

CENTRAL PACIFIC TOUR (T30 and T31, possibly C21 and T33). Toshi, JA8BMK, is expected to depart Sapporo on September 30th to Fiji (3D2) and fly from there to Western Kiribati (T30). His expected arrival is on October 2nd. Ships travel to Central Kiribati (T31) run about every 30-45 days, so while waiting to traveling to T31, Toshi will activate T30 for an unknown period of time. Equipment has already been shipped and waiting in T30. His equipment includes: Yaesu VLA-1000, TL933, 3 Generators, Yagi Antenna, Vertical antenna, Tent and Toyota van. He is also carrying additional equipment including an IC-7000, FT-897D and a HL-1.2KFX (Tokyo High Power). Toshi operates on CW, SSB, RTTY, PSK31 and SSTV. He will concentrate on

EU and USA openings on the lower bands and the 30/17/12 meter bands. If possible, he will try to go Nauru (C21) and Banaba Island (T33). Because of long intervals between the boats to T31, he may be on the Island (Canton Island mentioned) for 2-3 months. Donations to assist in this long DXpedtion are appreciated. QSL via JA8UWT.

E7, BOSNIA-HERZEGOVINA. Look for E73M to be active during the CQWW DX RTTY Contest (September 27-28th) as a Multi-Single entry. Operators mentioned are Danny/E73M, Boris/E73Y, Edin/E74A and Kula/E74KC. QSL via E73Y or K2PF.

ER600, MOLDOVA (Special Event). Look for ER600B to be active until October 8th. Activity is to celebrate the 600th anniversary of the founding of the city of Bendery. QSL direct via RW6HS. A "Bendery - 600" award is available by working ER600B and 4 other contacts with stations located in the town of Bendery. Details are available at: http://www.dxawards.com/REALSHORT.htm#Bendery

EW, BELARUS. Andrei, NP3D, will be active as EW1AR during his vacation in Minsk between September 22-29th. Look for him to be in the CQWW DX RTTY Contest (September 27-28th). Before the contest he will be active on all HF bands and modes, but mostly RTTY. He states that his operation is in memory of EU1MM. QSL via W3HNK, LoTW or direct to NP3D.

FY, FRENCH GUIANA. Operators F1HAR, F5HRY, F6FGZ, F6FVY and FY5FY will be active as FY5KE during the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via FY5KE.

H40, TEMOTU ISLANDS (Update - IOTA Op). Mike/KM9D and Jan/KF4TUG, are on Vanikolo Island (OC-163). Mike came on the air around 1945z, Saturday as H40MY. As this was being typed, he was active on 20 meters CW. As of press time length of stay is unknown. QSL via OM2SA. LAST MINUTE UPDATE: Paul, A35RK, talked to Mike and Jan at 0330Z, Sunday, and here's their story: The weather is still a problem for them...high winds and rough seas are making it difficult. Transporting equipment ashore is a bit hazardous, so Mike has only been able to erect dipoles for 20 and 17M. The BigIR set-up will have to wait for 2-3 days when the winds are forecast to abate. But the good news is that they are established on shore, and Mike has been active on CW. They will be there for awhile, so the IOTA crowd should be happy with that."

IOTA NEWS.....
AS-117. Look for JA1YUC/1 to be active from Uki Island, JA1 Chiba Pref, starting September 23rd. Activity will be on the HF bands, CW and SSB. QSL via the home callsign, by the Bureau or direct to:

TOKYO DENTAL COLLEGE A.R.C, 1-2-2 Masago, Mihamaku, Chiba-City
261-8502 JAPAN. This also counts for the JIIA Award: AS-117-010.
Details for the JIIA Award are available at:
http://www3.ocn.ne.jp/~iota/newpage61.htm

AS-127. Time to vote! DXers and IOTA chasers now have a chance to vote
for which band you need St. Martin's Island, Bangladesh, in
the upcoming December DXpedition. Voting is limited to only
"one band". Cast your vote at: http://s2iota.eb7dx.com

NA-233. (New One!)The same group that activated Chuginadak Island
(NA-234) is now planning to activate Gareloi Island (NA-233)
in the Delarof Islands Group next year. They will use the
callsign KL7RRC between July 20-30th, 2009. Look for details
on: http://www.na-234.com/contact_chuginadak_expedition.html

OC-035. Andrew, VK4HAM, will be active as YJ0AAC from Efate Island ,
Vanuatu, between March 25th and April 1st of 2009. Activity
will be on 80-10 meters. He also plans to be in the 2009 CQ
WPX SSB Contest. QSL via VK4HAM.

J4, CRETE. Uli, DJ9XB, will be active as J49XB between now and October
4th. He will probably be in the CQWW RTTY Contest (September 27-28th)
because he likes RTTY. Also watch 160 meters. QSL via his home callsigns.

JX, JAN MAYEN. Al, LA9SN, will once again be active as JX9SN for only a
few hours on October 8th. Watch for him on CW on 30 and 20 meters. QSL
direct to LA9SN.

KH8, AMERICAN SAMOA. Paul, A35RK, informs OPDX that he will be active as
KH8/KK6H, from Larry's (AH8LG) house, December 5-9th. Activity will be
CW and SSB. Paul states, "This will be a 'casual' operation, but I will
listen for Europe at local sunset (UTC+12), on 20m....that should be about
0600-0700Z, and should be a pretty good grayline path. The Americas should
be a piece of cake just about anytime during local daylight hours, on 20 or
17m." QSL via W7TSQ or LoTW.

KP4, PUERTO RICO. Joachim, KP4EE, will be active as KP4KE during the CQ
WW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry.

LONGER PACIFIC TOUR (Update). Hugh, K6HFA, is now making a longer trip/stay
in the Pacific before he joins up with the team who will be activating three
IOTAs in Papua-New Guinea (see OPDX.871). Look for him to be active this
week from Tonga between September 23rd and October 11th. He will then go
to one of the Papua New Guinea islands in the Bismarck Archipelago (OC-008)
group before joining the team between October 12-18th. For more details
and updates, visit: http://www.425dxn.org/dxped/p29_2008/

MOTOROLA SPECIAL EVENT. The various facilities of Motorola's Amateur
Radio Clubs will host a special event on October 4-5th, to celebrate
the 80th anniversary of the incorporation of Motorola. Expect CW and
SSB activity from K9MOT (Illinois), KM0TO (Illinois), W4MOT (Florida)
and WA4MOT (Florida), as well as from JQ1YVR/1 (Tokyo, Japan). QSL via

operators' instructions. Further information can be found at:
http://www.qsl.net/k9mot/activities/80.html

OJ0, MARKET REEF (OH2BH Press Release): FOUR BRAVE MEN CHALLENGE THE ROCKY GULF OF FINLAND -- OJ0B QRV FROM SEPTEMBER 18-29TH: "Yes, you got it right, for eleven days temperatures in this Far North region will have dropped to some 6C. Spending almost a fortnight in a damp and cold lighthouse takes some determination, with no shower and no reasonable sanitary facilities available.
Operators Pertti/OH2PM, Ilmo/OH2BO, Henry/OH3JR and Lars/OH0RJ will attempt a landing this early Friday morning. They will run two Yaesu FT-1000MPs and Alpha 91B amplifiers. They have built a special array for 160M hoping for some early propagation into the United States. Also, they will run a SteppIR beam, a Butternut HF-2V and an assortment of wires.
During this coming weekend, Pertti, OH2PM, will be running the Scandinavian Activity Contest (CW single-op all-band), and the following weekend the same thing on SSB http://www.sk3bg.se/contest/sacnsc.htm
It will be the 50th Anniversary Scandinavian Activity Contest with a special offering of diplomas by the Swedish organizers. A special SAC 50th Anniversary Home Page is launched at: http://www.qrq.se/sac/
During the two contest periods, the other station will be exclusively on 160M as well as on the WARC bands.
If you observe some interesting openings outside of the contest and wish to inform the operators on Market Reef, just drop an email to oh2bh at sral.fi
QSL via OH2BH."

P40, ARUBA. Ken, K6TA, will be active from here as P40TA during the ARRL 160 Meter Contest (December 5-6th) as a Single-Op/High-Power entry. QSL via LoTW, or to WM6A, direct or by the Bureau.

LOGS RESCUED! Glenn, K3SWZ, was able to retrieve the logs from the trash for Dr. Timothy Peter Hulick, W9QQ's (SK), operations as KG4QQ, V47QQ and PJ9Q. Glenn informs OPDX, "I have blank QSL cards, just in case someone may need a card.... SASE to K3SWZ."

NOT THE QSL MANAGER. Oreste, IZ8EDJ, reports that he is receiving some QSLs for V51SWK, but he is NOT the QSL Manager. All the QSLs will be sent back. He is the QSL Manager for V51KC, V55O [2005], V55SRT, YI3SRA and IQ8OM.

OOOPPPSS! Your editor must of had Clipperton Island on his mind last week, because we reported to QSL TX5C via OH2BH. This is incorrect and it should have said "QSL TC4X via OH2BH". TC4X was the Finnish-Turkish Friendship Consortium station that was active during the "Worked All

Europe DX SSB Contest" last weekend. By the way, TX5C is via N7CQQ.

QSLS VIA LOTW: 1A4A, A61AJ, G6YB, HB0/PC5A, IT9PKO, S51TA, S57A, S59ABC, TX5C, US0ZZ, Z32XX and ZD8LII

QSLS RECEIVED VIA MAIL: 5N9NDP, 9M6/LA6VM, C31CT, CY0X, HS0ZED, TM5EL, TX5C, VP6DX, VU2PAI, XR7A and XR7W

QSLS RECEIVED VIA THE BUREAU: 5Z4/9A3A, EI6IZ, FY5KE, OE3GCU, RK23FWA, SP1PEA and SY8JZ

T6, AFGHANISTAN (Just a reminder). John, KE6GFF, informed OPDX that he will once again be operating as T6EE from Kabul durng the month of October. He will be on 20 meters SSB (14.2 MHZ +/- QRM as dictated by his Afghan license). His station will consist of a FT897d, YP3 yagi, Buddipole dipole and wire antennas, using a truck battery for power. QSL via his home callsign: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651.

T8, PALAU. Operators Lee/HL1IWD and Harry/WX8C will be active as T88YB and T88OO, respectively, from October 24-27th. Activity will be on 80-10 meters using CW, SSB and possibly some RTTY. The operation will include an entry in CQWW SSB contest as T88YB. QSL via their home callsigns, by the Bureau or direct.

T8, PALAU. Operators Yoshi/JK2VOC and Nose/JA2BNN will be active as T88FY and T88AC, respectively, between October 23-28th. Activity will include the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via their home callsigns.

TR50, GABON. Roland, F8EN, will be back again in Libreville from mid-December to mid-January. Look for him to use the special callsign TR50R until December 31st. After January 1st, he will then use the callsign TR8CR. QSL via F6AJA.

TY, BENIN. Just a few more days to work Serge, F6AML, (a member of the F6KOP team) as TY6A in Cotonou. He should be on the air until September 24th. Activity will be on 80-10 meters using CW and SSB only; sorry this time, no digital. Suggested frequencies
are as follows (+/- QRM):
CW - 3525, 7025, 10115, 14025, 18071, 21025, 24892 and 28025
SSB - 3785, 7057, 14235, 18140, 21275, 24944 and 28444 kHz
Serge will use a FT-857D w/amp (800w) into a HF6V and inverted V for 80m. QSL via his home callsign, by the bureau or direct with SAE + 2 USDs or 1 IRC.

VA2, CANADA. Operators VE2PGI, VE2CVI and VE2GTZ will be active as VA2ZM during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via VA2ZM direct.

VK9, WILLIS ISLAND (Update). Chris, DL1MGB/VK9DWX, reports on September 19th in News #7 (an Excerpt) - Young DXpeditioners on Willis:
"We have decided! It was a very difficult decision for us, we have got 22 applications, all of them avid contesters and DXers, unfortunately

some of them did not meet the age criteria, others with visa-problems had to withdraw. Two of them were outstanding in performance, dedication and commitment. These two rookies to join our expedition to Willis Isl. are:
* On the first part: W4WJF, William Joshua (Josh) Fischer, from North Carolina, USA, 21 years old
* On the second part: ZS6DXB, Rhynhardt (Rhy) Louw from JHB, Rep. of South Africa, 25 years old
We are very happy to announce this decision to the DXers community and hope that this will encourage further DXpeditions to take similar or even better approaches to promote and "elmer" young DXers and Contesters.
Preparations
****
All our preparations are entering the final stage. 1.4 tons of material are on its way and as our carrier told us, it is about to arrive in Australia with the "MS Ute Oltmann" in these days.
There will be a vanguard consisting of Joerg (DL8WPX), Gerd (DJ5IW) and Robert (SP5XVY) who will fly to Cairns by Friday 26th, followed by Dieter, DL8OH, who departs two days later. They will meet our man in Australia, Dale (VK4DMC), and together will take care of all necessary work, in particular, to meet our boat charter, get all material cleared and all additional purchases done. The idea is to fight Murphy as effective as possible and to prepare the departure of our vessel, the "MV Floreat", as actual as we can, before the crew steps in and the show will begin.
We will keep you informed!"
Check their Web site for more details in the next 2 weeks at:

I have heard some rumors that the former WB2OTK, the guy who used to call himself "PorkButt", is coming back now that Riley Hollingsworth is retired. Any truth to this? I remember listening to him jamming on 75 and 20m. And if he comes back, I wonder if there will be new PorkButts spawning. Of course that name is taken, but you all know what I mean. It will be interesting to see what the bands will be like now that there is no enforcement.

... and you marsha5874@gmail.com may be guilty of libel .... if the
allegations you made against Mr. Fickett are false.

Got several $millions for the legal fees (Mr. Fickett's that is) and
damages?

September 29, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, NG3K, NM3S, W3UR & The Daily DX, N4AA & QRZ DX, W4WV, K5LBU, W5GAI, K8YSE, K9WZB, N0VD, DX-IS News Site, Pete's-DX-Newsdesk, 4O7A, 5T0JL, DK8JB, DK7LX, DL5YWM, DL7MAE & The DX News Letter, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JA1ELY, JI6KVR & IOTA-JA News, LA7XK, OZ1LQH, RSGB IOTA Web Site, SP2FAP, TA0U and VA3RJ & ICPO for the following DX information.

*** SPECIAL NOTES FROM EDITOR (by Tedd/KB8NW): The bulletin was released early this week due to some family obligations on Saturday and your editor attending the Cleveland Hamfest on Sunday. I also wanted to accommodate the late CQWW DX RTTY Contest announcements and provide the readers with a consolidated listing of the CQWW DX RTTY Contest participants.
ADDED NOTE: My BARF80 Linux system is still down, so I continue to retrieve my E-mail and send the bulletin out via my ISP (hamnet.org) direct (until a new Linux system can be found or put together).

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 19th-September, through Friday, 26th-September there were 222 countries active. Activity will be on 160-6 meters using CW, SSB, RTTY and PSK31. QSL via DS3FGV, by the Bureau or direct.

EU-018. Jan, OY3JE, will be active from Torshavn on Streymoy Island in the Faroe Islands Group, as time permits, during the CQWW DX RTTY Contest (September 27-28th), as a Single-Op/Single-Band (40m)/High-Power entry. QSL direct (QRZ.com), LoTW or e-QSL.

EU-138. Operators Heiko/DL1RTL (SD7C), Ralf/DH7NO (SM/DH7NO) and Ric/ DL2VFR (SD7V) will be active from Sturko Island between September 28th and October 4th. They will operate CW and SSB with 500 watts and vertical antennas. QSL via their home callsigns, direct or by the DARC Bureau.

OC-241. Adhi, YB3MM, will be active as YB3MM/9 from Ferdy, YC9MKF, radio station in Kupang City, Timor Island, between December 4-7th. Activity will be holiday style operations, mostly on 20 meters. If conditions are "OK", he will try to be active from Semau Island (OC-241). QSL via IZ8CCW.

JW, SVALBARD. Operators Just/LA9DL, Erling/LA6VM and Halvard/LA7XK will be active from Longyearbyen on Svalbard during the SSB part of the "2008 Scandinavian Activity Contest" (SAC). They will be arriving in Longyearbyen just before noon Thursday, September 25th and will depart for home early Monday morning, September 29th. They will operate during the contest with the callsign JW5X. QSL is via LA5X, direct or via the LA bureau. Before and after the contest they will be active with their respective JW callsign (JW9DL, JW7XK and JW6VM). QSL for these contacts are via their home callsigns. Look for JW7XK to be mainly on BPSK31 and RTTY, while JW9DL and JW6VM will work SSB and CW.

KG4, GUATANAMO BAY (Update to OPDX.875). A second crew will be arriving on October 7th and will stay until October 21st. Bill, W4WV, will return as KG4WV and will work all HF bands on SSB. Ed, KN4KL, will operate as KG4KL and will work all HF bands and some 6 meters, on RTTY, SSTV, and SSB. QSL via operator's home callsign or by the bureau.

LX, LUXEMBOURG. Operators Wilhelm/DF8QB, Andre/LX1DA, Philippe/LX2A and possibly others will be active as LX7I during the CQWW DX RTTY Contest (September 27-28th) as a Multi-? entry. QSL via LX2A. Visit the LX2A Web page at: http://www.lx2a.com

NEW SUNSPOT (From Space Weather News -- dated for Sept. 22nd, 2008): For the first time in months, a significant sunspot is emerging on the sun. It is a fast-growing active region with two dark cores, each larger than

Earth. The magnetic polarity of the sunspot identifies it as a member of new Sunspot Cycle 24. Because the year 2008 has brought so many blank suns, some observers have wondered if we are ever going to climb out of the ongoing deep solar minimum. Today's new sunspot is an encouraging sign that the 11-year solar cycle is indeed progressing, albeit slowly."
Visit Space Weather News for sunspot photos and updates at:
http://spaceweather.com
Also, anothe interesting Web page with sunspot photos and data, and propagation data and news, visit: http://www.n7mal.com/WWV.htm

OH8, FINLAND. Antti/OH8GZN and a team of operators will be active as OH8F during the CQWW DX RTTY Contest from the OH8AA autumn ham camp in Oulu, as a Multi-Op/Single LP or HP entry.

OH0, ALAND ISLAND. Tomi, OH6EI, will once again be active as OH0Z. His activity will include the Scandinavian Activity SSB Contest (September 27-28th). He will be a Single-Op/All-Band/High-Power entry. QSL via W0MM.

P2, PAPUA-NEW GUINEA (Update -- Three IOTAs to be Activated!). The P29 DXpedition to two rare IOTAs and activating P2 on 160 has an opening for an operator. Hugh, K6HFA, has canceled because of some unfortunate circumstances. Hugh is graciously leaving his $3000 (AUD) in the boat charter fund. Who would like to replace Hugh? For $2067 (AUD) or $1730 (USD) plus your own air fare (~$3000 USD), you can be a member of the team. Anyone interested can contact the following individuals:
Derek, G3KHZ, at: G3KHZ@derekcox.plus.com
--or--
Skip, W5GAI, at: W5GAI@arrl.net
The P29 team is still looking for donations to help defray the cost of transporting the 160 meter amp, antennas, etc. to/from P2. If you want to contribute, they have set up a PayPal account on their Web site at: http://www.425dxn.org/dxped/p29_2008/
You can also send donations to G3KHZ or W5GAI via their www.QRZ.com addresses.

P4, ARUBA. Operators Garry/K9WZB and Sharon/K7WZB will be active as P40ZB between October 28th and November 6th. Activity will be on 40/20/15/10/6 meters using SSB, RTTY, CW and PSK31.

PACIFIC TOUR UPDATE. Ulrich/DL2AH continues to be active as ZK3AH from Tokelau until the end of September. Manfred/DJ7RJ (ZK3MW) is now on his way to the Marquesas (FO/M). The exact time of his arrival, as well as an exact QTH is not yet known but he will then be active until mid to end of October.

PJ2/PJ4, NETHERLANDS ANTILLES. Look for a group of operators to be active from Bonaire (IOTA SA-006) as PJ4E during the upcoming CQWW DX SSB Contest (October 25-26th). Operators Kyle/WA4PGM, Roy/WK4Y, John/K6AM, Gene/K5GS, Frank/K4EJ, Harvey/K0RAY and Kelly/N0VD will likely operate as a Multi-Multi entry but may change class depending on local circumstances. Before the contest WA4PGM, WK4Y, K4EJ and K0RAY will spend a few days on PJ2 (October

18-21st), then be active from PJ4 during October 21-28th. K6AM, K5GS and N0VD will be active on PJ4 from October 18-29th. Before and after the contest all operators will be signing PJ2/ and PJ4/callsign. N0VD is also in the process of building a rental QTH on PJ4 (www.villadesertpalm.com). QSL WA4PGM and PJ4E via direct only. QSL N0VD via W3HNK. QSL all others via operators instructions.

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, John/K4BAI Don/W4OC and Kirk/K4RO will be active as PJ4/homecall from K2NG/PJ4G rental QTH on Bonaire (IOTA SA-006) between November 26th and December 3rd (except KU8E - QRT December 2nd). Also look for them to be active as PJ4A during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Op entry. QSL all five callsigns via K4BAI. E-mail requests for bureau cards will be accepted.

QSL INFO AND NEWS.....
9K2HN QSLS. Hamad, 9K2HN, announced on Tuesday, September 23rd, that he just sent out via the Bureau more than 2000 QSL cards (mainly for European stations) and around 80 direct requests (around 10 days ago via airmail). This is for the period between June and August 2008. He hopes all of you will get your QSL cards in time.

M6 callsigns are now appearing on the bands from the UK. The Novice callsigns in the M3 range have been used up, so new Novices are being issued with M6 callsigns. UK Country variations apply, so M6 = England. MW6 = Wales, MS6 = Scotland, MI6 = Northern Ireland etc etc, in the same way as all other UK callsigns are allocated.

Pictures and the online logs of the following IOTA DXpeditions to Peru can be found on Gou's, JA1QXY, IOTA Web site.

JA0UH - Iwao Iijima, Tomitake 900, Nagano 381-0006, Japan
JA0UMV - Iohru Kataoka, 15-9 Sakae-cho, Kamo 959-1382, Japan

SILENT KEY. It was reported that Jens, OZ5MJ, became a "Silent Key" (SK) this past Sunday, September 21st, at the age of 77 years. Jens was a well-known DXer who was on the DXCC Honor Roll,he was also a very active DXer. Whenever there was a DXpedition, Jens could be found in the pile up. One of his biggest interests was IOTA hunting, and we are sure that many IOTA DXpeditioners will remember working him. He was on the IOTA honor roll listed with 982 islands. Thanks to him, IOTA EU-171 and EU-172 were added to the IOTA list back in year 2000. He was also very interested in RTTY and PSK31, and operated in quite a few RTTY contests over the years. He also enjoyed hunting for U.S. counties as well. OPDX and its readers would like to send out our deepest sympathy to the family and friends of OZ5MJ.

SPECIAL EVENT. The United States Coast Guard Auxiliary invites you to participate in the United States Coast Guard Auxiliary "Special Event Amateur Radio Day 2008", October 18th. This special event has been running for the past 10 years, and they now have up to 60 U.S. Coast Guard Aux. H.F. Stations operational for this year's event. The event commemorates the 69th anniversary of the U.S. Coast Guard Auxiliary and HF Stations from all across the U.S. and will be operational on amateur radio frequencies all day during this event. Stations will be operating from Coast Guard Bases, ships, lighthouses and H.F. facilities. More details and a list of all the stations (along with plan operating frequencies) are available on the event Web site at: http://a0530407.uscgaux.info/SED2008.html
A special commemorative QSL will be available.

SPECIAL EVENT. Sylwester, SP2FAP, MK QTC Editor & Publisher, reports: "To commemorate the 200th issue of the QTC - The Polish Radio Amateurs' Journal, three special-event stations will operate in October 2008:
HF200Q - October 1-10th
HF200T - October 11-20th
HF200C - October 21-31st
An award (electronic) is available for you if you work at least ONE special event station. Send log extract to: qtc@post.pl
QSL to: ARC SP4KDX, The Editorial Office of the QTC Magazine, Suchacz-Zamek, Wielmozy 5B, 82-340 Tolkmicko, Poland (also via the Bureau).

SV9, CRETE (EU-015). Claudio, HB9OAU, will be active as SV9/HB9OAU from here between September 28th and October 3rd. Activity will be holiday style on 40-10 meters. QSL via his home callsign.

TC470, TURKEY (Update - Special Event). Just a reminder that members of the Turkish group called TCSWAT (Special Wireless Activity Team) will activate the special station TC470PDZ between September 24-30th. Activity is to celebrate the 470th anniversary the Naval Victory during the Battle of Preveze. Look for the special event station on 40 and 20 meters. QSL via TA1HZ. Operators mentioned are: Urcun/TA0U, Leonardo/TA1FR, Tevfik/TA1HZ, Bekir/TA2RX, Erhan/TA2DJ, Mert/TA7ST/1 and Onur/TB2YME. During the next 3 special days (September 26-28th) there will be 2 different teams active from: Turkish Naval High School / Heybeliada - Princess Islands Karaburun / Light House
For more information: http://www.ta0u.com/detay.asp?id=3D4281

TF, ICELAND. Rene, DL2JRM, will be active as TF/DL2JRM/p from the main island (EU-021, WLOTA LH-2975), September 27-29th. Activity will be on 80-10 meters using CW and SSB. QSL via his home callsign, direct or by the bureau.

UZ4, UKRAINE. Operators Nick/UR4EN, Alex/UR7EU, Roman/UT5ERP and Igor/UV5EOZ will be active during the CQWW DX RTTY Contest (September 27-28th) as a Multi-Single entry. QSL via UR4EYN.

XU, CAMBODIA. Operators JA3AVO, JH3PBL, JA3ARJ and JA3UJR will be active as XU7AVO, XU7PBL, XU7ARJ XU7UJR, respectively, from Sihanoukville between November 6-11th.

ZC4, U.K. SOV. BASE AREAS ON CYPRUS. Steve, ZC4LI, will be active from Dasaki Achnas (AS-004, MIA MCI-002, WLOTA LH-0892) during the CQ WW DX RTTY Contest (September 27-28th), as a Single-Op/Single-Band (20m) entry. He will be on around at the start of the contest, but since the band does not usually open there until around 0300z, look for Steve to be on 160 meters (1840 kHz, plus or minus 10) for either CW or RTTY contacts from 0001z until 20 meters opens. QSL direct only, QRZ.com.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first official announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Hi everyone!

Anyone know of a nice club or hangout in the Toledo area that caters to cross dressing radio operators? I'm a guy from Toledo who enjoys showing a submissive man a good time in every way. I have so many interests that there probably is some broad common ground between myself and about anyone. I love to talk about BDSM issues and interests, and have been generally regarded as a funny guy to hang out with who has a good head on his shoulders. Send me a message for anything else you'd like to know!
I've attatched a link to my picture below, I consider myself a BBW trapped in a mans body and will be dominant to the right gentleman. (ham radio operators move to the front of the line)

Guten Tag Radio Aficionados!

Great opportunity to get out and have some fun with ham friends. The special table is reserved for those wearing their callsign hat or badge. Come and celebrate Yuri's 50 years in ham radio and check out this site for future Ham radio conventions the MountainView Resort in Glen Spey, NY.

As you may know, the Ardmore Mansion has been elegantly renovated this past year. Our motel units are currently being refurbished and the Black Sea Ballroom and Brew Pub are beaming with restored wood floors and new interiors. Our new pavilion is almost finished and will be ready for large outdoor events.

We are gearing up now for Oktoberfest, which will be held on Columbus Day weekend, October 11-12, bigger and better than ever. We will be featuring authentic German food and specialty Oktoberfest German beer, vendors, and games for adults and kids alike! The highlight of the evening is Jagermeister's own Fritz's Polka Band, performing live at the Saturday night dance. Also, for two nights only, Dark Forest, the area's premier Halloween events company, is presenting a Haunted House at neighboring Burn Brea Mansion. They will be celebrating the mansion's 100th anniversary by charging the same rates ($10 per person) they charged the last time the show was presented, 10 years ago! Transportation to and from Mountain View will be provided at no additional charge.

On Friday night, October 31, we are hosting a Halloween Masquerade Ball, with costume contests, dancing, and a frightfully fun time for all! Ages 21 and over, please. Then, on Saturday November 1, we present our Fall Festival & Market. Come and sample the best of the area, and enjoy the leaves changing colors while sipping on Mountain View's specialty cider.

Please check the web site for the latest news and programs at www.MVresort.com and check out or download the posters for more information. Spread the news, bring a friend and see the progress at MountainView. We are building our mailing lists and soon will have regular newsletters informing our patrons about the latest and upcoming events at the resort. Please pass on email or postal addresses so we can stay in touch.

See you at MaountainView!

Yuri and the crew
please email me if you are coming

6W, SENEGAL. Operators Ingolf/DL4JS, Rich/DK8YY, Jens-Uwe/DL8ALU, Sigi/DL8AKI and Frank/DL1WA will be active as 6W/DL4JS between October 18-28th. Activity is planned for all HF bands, possibly 6 meters depending on conditions, using CW, SSB and RTTY. They hope to catch as many callers as possible on lower bands. They will have 2 stations on the air with monobander beams for 20/15/10m, dipoles, verticals for 160/80m and K9AY antenna. QSL via DH7WW.

6Y, JAMAICA. Look for 6Y1V to be active again in this year's CQWW Contests. The station's schedule is as follows:
CQWW DX SSB Contest (Oct. 25-26th): Operators David/KY1V, Martin/G4XUM, David/G3NKC, Peter/G4MJS, Manu/LU9ESD and Francesco/IZ7KHR.
The team will be a Multi-2/High-Power entry.
CQWW DX CW Contest (Nov. 29-30th): Operators David/KY1V, Gary/W5ZL, Kelly/VE4XT and Kari/OH3RB. The team will be a Multi-?/High-Power entry.
David, KY1V, also announced this past week that they will once again sponsor one young ham operator (21 or under) to join their team and receive an all expense paid trip to operate in the 2008 CQWW SSB or CW contest with the 6Y1V team. You can reside in any country in the world and be considered for this opportunity provided you hold a valid amateur radio license in your country and have some contest experience. This is a gift to a young ham whom has a passion for Ham Radio and contesting. It is their way of giving something back to this great hobby that has given so much to them! Complete details are available at: http://www.6y1v.com/news.htm
All QSL requests for 6Y1V go via their QSL Manager OH3RB: KARI AHOKAS, MAJOITUSMESTARINKATU 11 F 93, 20360 TURKU, FINLAND.

The operation will be supported by several U.S. and Korean hams. QSL to WX8C by the bureau or direct.

IARU ENDORSED BOOKLET PROMOTING ETHICS. Bill Moore, NC1L, ARRL Awards Manager, reports on the DXCC Blog Web page: "A 67-page booklet, 'Ethics and Operating Procedures for the Radio Amateur' by John Devoldere, ON4UN, and Mark Demeuleneere, ON4WW, is available for free download from the ARRL Web site. The booklet is an 'Americanized' version of the booklet that the authors wrote for an international audience. An international version is also available. At its June 2008 meeting, the IARU Administrative Council endorsed and recommended the principles set out in the booklet as a means of encouraging all radio amateurs 'to operate to the highest levels of proficiency, with proper consideration for others using the amateur radio bands' and as a tool 'to teach newcomers and others correct operating behavior.' The booklet mainly addresses HF operating issues, but the principles are also applicable to VHF and higher bands. ARRL Chief Executive Officer and IARU Secretary David Sumner, K1ZZ, expressed appreciation for Devoldere's and Demeuleneere's efforts: 'The authors are well known, experienced HF operators who are concerned about on-the-air operating standards and who decided that 'It's better to light a candle than curse the darkness.' Anyone who reads their booklet will learn something, no matter how experienced they may be.'" The Web link for the booklet is: http://www.arrl.org/awards/dxcc/Eth-operating-ENarrl-SITE-1jul2008.pdf

NAQCC (Special Event Station N3A). Tom/WY3H (NAQCC President) and John/ K3WWP (NAQCC VP) would like to invite all operators to help the North American QRP CW Club (NAQCC) celebrate its Fourth Anniversary. How? By working their special event station N3A which will be active during the whole month of October. A handsome certificate and/or QSL card is available to everyone who works N3A and requests one or both. They also have 3 special certificates for the FISTS members who can make the most different band QSOs with their N3A stations during the month and in the FISTS and NAQCC sprints. N3A will be operated from all 10 U.S. call areas with the appropriate portable designator - N3A/1, N3A/2....N3A/0. All 10 callsigns will be active in the FISTS sprint on the 11th and their NAQCC sprint on the 14th (15th UTC). Full details including an operating schedule and how to request the certificate and QSL are on the "N3A Operation" page on the club Web site - search "NAQCC" in your favorite search engine, or follow this link to their Web site (www.arm-tek.net/~yoel/main_n3a.html). Join them in celebrating their Fourth Anniversary, share the fun and earn a few certificates and special QSLs! This is also a good opportunity to join NAQCC. Lifetime membership is free and you will receive your

membership number, membership certificate and starter kit FREE! No cost or obligation on your part.

OL7, CZECH REPUBLIC. Operators OK1DSZ, OK1IC, OK1NP, OK1WMV, OK1VWK and OK3RM will be active as OL7R during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via OK1WMV.

QSL INFO AND NEWS.....
7X5VRK QSL Manager STATUS (NOT). Steve, N3SL, reports "After a long wait, I have finally made contact with the Bou-Saada Radio Club, 7X5VRK. They DO NOT use a QSL Manager, and claim they never have. So, I'm not sure how Mac, W3HC, had cards for them. Be that as it may, please announce that I am not the 'new' manager for 7X5VRK. I will be returning all cards on hand to their senders, as well as any donations that were enclosed. I will update sites like QRZ, IK3QAR, etc. The route for 7X5VRK, per 7X5AV, Djamel, Club Manager, is: BOU-SAADA Radio Club, PO Box 300HB, Bou-Saada 28200, ALGERIA."

NEW QSL MANAGER. Petr, OK1DOT, informs OPDX that he is now the QSL Manager for Walter, 9G5SW. Petr is also the QSL Manager for: 3W22S, 3W3W, 9M2/G4VGO, 9V1GO, EP4SP, HK1AR, HK3KAV, NL7G, TG9AKH, WP3F, XV1X, XV9DT, YB1JZS, YB5AQB, YI9CC and ZS6CCY.

TO5FJ QSLING. Paul, F6EXV, states (edited):"Hello all, 9 months after the expedition to St. Barth, I am still receving cards almost daily. I would like to stop answering direct requests and will confirm every QSO in the log with a bureau card. I AM NOT CLOSING THE LOG, but would be grateful to those intending to request a card direct to do so without further delay. The log has been uploaded to LoTW, and can be checked on my webpage <www.f6exv.org>. I will QSL the left-over labels (I printed all the labels for all the contacts, and the left-overs are those for which a card request has not been received yet) via bureau by December. The bureau card requests received to date have already been answered (and also those with insufficient postage)."

UA4WHX QSLS. Several DX mailing lists report that the editor of "The Daily DX" (Bernie, W3UR) has indicated the following: "Many DXers have been asking about the status of the QSLs for UA4WHX, Vladimir. He was the operator of 3DA0VB, 4K0VB, 4L0B, 5H3VMB, 5R8VB, 5X1VB, 5Z4/UA4WHX, 7P8VB, 7Q7VB, 9J2VB, 9U0VB, 9X0VB, A25VB, C91VB, D20VB, D60VB, J20VB, OD5/UA4WHX, ST2VB, V51VV and Z2/UA4WHX. Over 310,000 QSOs were made and hand logged. The QSLs are beautiful photo cards and are also being hand written. They are definitely worth the wait. Vladimir tells 'The Daily DX' that about 50% of the direct QSL cards have been answered. He does not think the job will be completed by year's end. Do not resend at this time as it will only slow down everything. DXers who are waiting for their QSLs can ask about the status via E-mail to UA4WHX. His address is listed on QRZ.com."

DX Special Bulletin No. 878.1
BID: $OPDX.878.1

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network and K4UEE for the following DX information.

Press Release # 1----Desecheo KP5----2009

The Caribbean National Wildlife Refuge Complex has selected and announced a team of operators to activate Desecheo Island (KP5) sometime between January 15, 2009 and March 30, 2009. The Team will be co-led by Dr. Glenn Johnson, W0GJ and Bob Allphin, K4UEE.

Background: On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicant's had 45 days to prepare and submit their proposals.

CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation.

The proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W0GJ, and Bob Allphin, K4UEE.

Their plan involves a team of fifteen operators for a 14-day operation. USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and DXers worldwide will have a minimum of 30 days notice.

A website is being planned and will be announced in the near future.

VU4, ANDAMAN & NICOBAR ISLANDS
VU7, LAKSHADWEEP ISLANDS. OPDX received the following press releases from our friends at the NIAR in India.

Release #1

(Edited)

Dear Friends,
Greetings to the Ham world from India ! ! !

It gives me a great pleasure in informing you that VU4 and VU7 will be activated again this year as part of NIAR Silver Jubilee Celebrations in October 2008.

The necessary clearances have been obtained; the formal permission letter for VU4 and VU7 activity will be issued shortly. The callsigns will be VU4MY, VU4RG, VU7NRO & VU7SJ.

I would like to thank all the applicants who have supported us and joined hands to strengthen amateur radio activity in India. The VU4 and VU7 will be activated by teams of Foreign and Indian amateur radio operators. Names and other operational details will be given by the respective teams.

We profoundly thank the all the concerned government agencies like the Ministry of Defence, Home Affairs and External Affairs as well as the Ministry of Communications and Information Technology for their continuous support to amateur radio activity in the country.

It is the third time for three years in a row that the Government of India has extended its full support to foreign and Indian radio amateurs to operate their amateur radio stations from remote Islands of Andamans

and Lakshadweep. The simultaneous amateur radio activity from these two Islands is a path breaking achievement for NIAR during the year of Silver Jubilee.

We wish all hams to join us to support our vision and mission to strengthen amateur radio promotion in India.

Look forward to meet you on the band.

Thanking you.
With Regards,
S.Suri, VU2MY

A doll some are claiming utters pro-Islam and even satanic messages has outraged parents in West Virginia and Pennsylvania. Its microchips were programmed by free-lance contractor Roger Wiseman, from Glendale, WV, who now claims that he was not responsible for the voice tracks used by the final models of the talking doll.

People insist they can hear Fisher-Price's "Little Mommy Real Loving Baby Cuddle and Coo" mumbling "Islam is the light" and "Satan is king," according to KJRH.com and MyFOXKC.com.

"There's no markings on the box to indicate there's anything Islamic about this doll," said Gary Rofkahr of Wheeling, WV, who was at work when another man brought the toy in to show his colleagues.

Rofkahr said he found various versions of the doll at local Target and Wal-Mart stores, which have since pulled the toys from their shelves, reported KJRH.com.

Pennsylvania Targets have also reportedly stopped selling the doll, according to MyFOXKC.com.

Fisher-Price referred all calls to parent company Mattel, which didn't immediately respond to FOXNews.com's requests for comment.

A Target representative told KJRH.com the company has no plans to recall the doll nationwide.

It is Woger's fault.
Or DeLorean's fault.
Or Steve's fault.
Or George's fault.
Or SOMEONE'S fault!

It was surely nothing I said or did!

It's not spam. I have that doll and it does say the Islamic stuff. I
got it as a joke gift last night for my birthday.

Woger speaks fluent Farsi. That's how he impresses the shemales at
the Shipwreck Lounge.

BX5, TAIWAN. Jimmy, BX5AA, will be active during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Power entry. Jimmy states that BX5 is a rare prefix for Taiwan (CQ 24). QSL via BX5AA.

C5, THE GAMBIA. Just a reminder that Andre, ON7YK, will once again be active as C56YK this week between October 13th and November 9th. Activity will be on 80-10 meters, perhaps also 160m, using CW, SSB, RTTY and PSK31. He will only have 100 watts and will use a Spiderbeam for 20/17/15/12/10m and a dipole for 80/40/30 meters. This will be a holiday style operation. For more details and updates, visit the Web site at: http://www.on7yk.net

C5, THE GAMBIA. Also active this week from C5-land are members of the Spanish "DX4DX TEAM" who will possibly be signing as C56EA between October 14-24th. Operators mentioned are: Paco/EA4BT (Team Leader), Ramon/EA4NA, Emilio/EA7AAW, Julio/EA7JB, Salvador/EA7SB and Jose/EA7LS. Activity will be on the HF bands and 6 meters using CW, SSB and RTTY modes. For more details and updates, visit their Web page at: http://www.dx4dx.com

CE9, ANTARCTICA. Jose, CE1KF, announced that he will be with a team of operators from Valparaiso's CE2AA Radio Club to activate "Base Naval Arturo Prat" in the Antarctic next year in January 2009. They plan to work all bands on CW, RTTY and SSB. More information is forthcoming in the coming months.

CE0Y, EASTER ISLAND. Nakamishi, JJ2NYT, will be active as CE0Y/JJ2NYT between October 16-19th. Activity will be on 40/20/17/15 meters, and possibly 80m, using CW, SSB and RTTY. QSL via his home callsign.

CN98, MOROCCO (Special Callsign/Event). Andre, HB9HLM/CN2DX, will be using the special callsign CN89NY during his stay between December 21st and January 3rd (2009). He states that the special callsign was issued to celebrate the end of the year 2008 ("8"), the beginning of the year 2009 ("9") and the New Year ("NY"). QSL via EA7FTR. Andre will be active from a beach house along with CN8PA and CN2CV/HB9CVC. They will operate 2 stations at the same time using an IC-7000 and TS680 with a AL811hcxe PA into a windom antenna for 160-10 meters with an extension running east-to-west for 30 and 15m, and another G5RV (40-10m) running north-to-south. Some other CN operators will be involved with this callsign from

other locations, but details are not completely finalized and will be forthcoming. This special callsign will be active until January 31st (2009). For more details and updates, watch Andre's blog at: http://cn2dx.hb9eme.ch/cn2dx-blog/?p=115

CW5, URUGUAY. Jorge, CX6VM, will be active as CW5W during the CQWW DX SSB Contest (October 25-26th -- as a Single-Op/Single-Band [?]) and CQWW DX CW Contest (November 29-30th -- as a Multi-Single). QSL both operations via CX6VM.

DL, GERMANY. Rich, N0HJZ, will be active as DL/N0HJZ from the QTH of Tom, DL2OBO, between October 22-28th. He plans on putting a full time effort in the CQWW DX Phone Contest (October 25-26th) as well. Rich states, "I hope to work everyone that I've worked from my other stops on my world tour!" QSL direct to his home callsign or by the LoTW.

FO, FRENCH POLYNESIA. Hiroyuki, JI1JKW, will be active as FO/JI1JKW from Manihi Atoll (OC-131), French Polynesia, between October 12-16th. Activity will be on 40-6 meters, but mostly 20m, using CW and SSB. QSL via JI1JKW, direct or by the Bureau.

HC5 & HC8, ECUADOR AND GALAPAGOS ISLAND. Operators Nobuo/JA6GCE, Shinichi/JA6SOV and Naomi/JM6EBU (YL) will operate from Ecuador between October 24th and November 2nd. Hiro/HC5WW and the above three JAs will participate in the CQWW DX SSB Contest (October 25-26th) as a Multi-Op/Single-TX/High-Power entry. Their contest callsign will be HD5J. Outside of the contest they will operate as homecall/HC5 on 160-10 meters using CW, SSB and RTTY. After the contest they will travel to Galapagos Island, and they hope to operate from there as homecall/HC8 until November 1st. However, their operations will be limited because of sightseeing. QSL information is as follows:
HD5J via JA6GCE
JA6GCE/HC5, JA6SOV/HC5, JM6EBU/HC5 via their home callsigns:
JA6GCE Nobuo Matsuoka, 7-10-3 Toroku, Kumamoto, 862-0970 JAPAN

HQ2, HONDURAS. Operators Dan/HR2DMR, Pete/HR2PAC and Tony/HR2DX will be active as HQ2W during the CQWW DX SSB Contest (October 25-26th) as a Multi-2 entry. QSL via HR2DMR.

IOTA NEWS.....
AF-019. Tony, IK1QBT, will be active as IG9X from Lampedusa Island during the CQWW DX CW Contest (November 29-30th) as a Single-

Op/Single-Band (80m) entry. Look for him to be active before
the contest as IG9/homecall. QSL both callsigns via IK1QBT.

EU-124. An eleven man team will be on the air as GB4HI from Holy
Island, Wales, between October 24-31st. Activity will be on
all bands and modes, and they will try to activate some
lighthouses. Operators mentioned are: MW0DOL, MI0TMW, MM0DHQ,
G8LGC, 2E0NNH, M0RGB, SP3CW and possibly others.

EU-169. Last week we mentioned that a group of Italians would be active
from Albania as ZA0/homecall between October 23-29th. We learned
this past week that they plan to be active from Sazan Island.
Activity will be on all HF bands including 30/17/12 meters,
using CW, SSB, RTTY, PSK13 and meteor scatter. Operators are
Alfredo/IK7JWX, Nicola/I0SNY, Pino/I8YGZ, Leopoldo/I8LWL and
Oscar/IK2AQZ. QSL via their home callsigns. QSL Manager is
IK7JWX, but "only for DL stations". Other reference numbers
are ARLHS ALB-004 and WLOTA LH-0028.

J49, CRETE (Update). An Italian team will be active as J49I from here
between November 26th and December 1st. Look for activity before and
during the CQWW DX CW Contest (November 29-30th) on 160-10 meters, mainly
CW. Operators mentioned are: Franck/I0UZF, Andy/IK0EFR, Franck/IK0YUT,
Luigi/IK0YUT and Iari/IZ0FWD. QSL Manager is IK0EFR.

JD1, MINAMI TORISHIMA. The ARRL DX Bulletin reports that Masa, JA6GXK,
will once again be active as JD1BMM between October 16th and November
6th. He will be on a work assignment, so activity will be limited to
his spare time. Look for him on 160-6 meters. QSL via his home callsign.

K5, UNITED STATES (IOTA, USI and LH Op). Approximately 15 members of the
Magnolia DX Association, Inc., will activate East Ship Island, Mississippi,
during the period October 16-19th. The callsign K5S will be used during
the entire 4-day period, plus the callsign K5Z will be added during the
last 2 days as an entry in the W/VE US Islands QSO Party. East Ship Island
qualifies for IOTA NA-082, US Islands MS009, and Lighthouse USA-756.
Please visit the following official Web site to learn all about this
exciting event at: http://www.k5s-na082.com
They look forward to putting your callsign in the log on all available
bands/modes... 80-10 meters, CW, SSB, and RTTY!

KH2, GUAM (OC-026). Joel, KG6DX, will be active as KG6DX in the CQ World
Wide DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Power
entry. QSL via KG6DX, CBA or QRZ.com address. Also LoTW.

KH2, GUAM (OC-026). Operators JA1OZK, JA1CGC, JF1TAB, JH1FUD, JL1LOW,
JK1DRM and 7N1AZY will be active from November 8-12th. Activity will be
on all HF bands including 30/17/12m using CW, SSB and the Digital modes.
JA1OZK will be signing as K6Y (1x1 callsign). Other operators will
possibly be using their own callsigns (probably portable KH2). QSL via
operator's home callsign, by the bureau or direct to their callbook
addresses.

KP5, DESECHEO ISLAND (Update). A Web site still under construction is now available online at: http://www.kp5.us

LX, LUXEMBOURG. Philippe, LX2A, will be active as LX7I during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Power entry. QSL is OK via LX2A, by the Bureau, direct and LoTW (no EQSL). His Web page is: http://www.lx2a.com

NEW SUNSPOT REPORTED. Space Weather News (http://spaceweather.com) reports on October 11th: "A 'new-cycle' sunspot belonging to Solar Cycle 24 is emerging near the sun's northeastern limb. This is the third time in as many weeks that a new-cycle sunspot has interrupted the year's remarkable run of blank suns. The accelerating pace of new-cycle sunspot production is an encouraging sign that, while solar activity remains very low, the sunspot cycle is unfolding more or less normally. We are not stuck in a permanent solar minimum. Readers with solar telescopes should train them on the sun this weekend to observe sunspot genesis in action."

ON50, BELGIUM (Special Event). Look for members of Belgium's UBA Waasland section (WLD) to be active using special callsign ON50WAASLAND to celebrate their club's 50th anniversary through the end of the year. Activity this past week has been on 30/20/6 meters. Modes have been RTTY and CW. A QSO counts for 10 points towards the "WLD Award". Make two QSOs on two different bands or two different modes with ON50WAASLAND, and you can apply for the "WLD Award". Rules and information can be found on the following Web page at: http://www.wld.uba.be/
This beautiful multi-colored A4 format award contains all the armorial bearings off the different regional communities. QSL via ON6WL, by the UBA Bureau.

P3, CYPRUS. Operators Sandy/RW4WR, Dmitry/RX3DCX, Andrei/RA6LBS, Alex/RW3RN, Harry/RA3AUU, Alex/5B8AD and 5B4AIA will be active as P33W during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via RA3AUU. This is a DXpedition style operation from a portable QTH.

P4, ARUBA. John, KK9A, will be active as P40A during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via WD9DZV.

Paul, A35RK, reports to OPDX that he has mailed his September log to Bob, W7TSQ, and posted his QSOs to the LoTW on October 5th. He also mentions that Bob has already a "pile" of cards ready to go in the mail. Paul states, "My October log will be posted around the 21st. After that, there will not be any new log submissions until January 1st, including the KH8/KK6H operation in December."

An online log is now available for CN2IPA per Gab, HA3JB (SU8BHI). He states that he has a new Web site with a log search (thanks to

Sven, DL5AZA) at: http://ha3jb.p8.hu
If you have a question, please write to: ha3jb@t-email.hu

DU9/N0MM PIRATE. Mike, N0MM/4, wants to inform as many as possible of a PIRATE, using his callsign with the prefix DU9/N0MM. Mike states, "This illegal operator appears to be active at present, and has been operating using my callsign DU9/N0MM for approximately 3 years now! (based upon received QSL cards to date [Oct. 2008]). The QSOs seem to be all on CW(?), on the 80-40-20 and 17M bands! My permanent QTH is now and has been constantly for the past 5 (five) years, here in Florida/4 USA. I have never operated in or from DU9 land, so please for your own peace of mind (and mine), and to avoid disappointment - 'DO NOT QSO THIS OPERATOR!' And please do not send me your QSL cards and GREEN STAMPS!"

KL7DX QSL STATUS. QSL Manager Ron, AC7DX, reports that the KL7DX (NA-234) QSL cards have arrived from the printer and are being processed now. Cards will go out "first come" basis. Ron states, "I will try to get all direct cards received out ASAP. This is a colorfull folding card."

1852. Copper Country Radio Amateur Association--> Michigan Amateur Radio club impeaches their president KB9RQZ--> MINUTES OF THE AUGUST 5, 2008 MEETING

MINUTES OF THE AUGUST 5, 2008 MEETING
The meeting opened at 7:02 pm EDT with the Secretary (KD8CTL) readingthe minutes of the July 1, meeting. (Not reported during the July meeting) They included a report from the Property committee showing that the clubhouse is in good shape, and all systems were working. No other committee reports were available.
Since there was a health issue with the present Secretary, Gavrielah Hojnacki (KD8CTL)
George, W8FWG
offered his services to fill in the remainder of her term as "Acting Secretary." This offer was accepted by the existing Secretary, and approved by the President, with an amendment to serve up to the time of the next election in March of2009. This was agreed to by George, W8FWG. Self introductions followed, with the
following radio amateurs present at the meeting: KD8CTL, KB9RQZ, N8ZBJ, WA8JSF, W8ERB,
W9VLM, W8ILS, W4KAR, WB8ZYL, WA8QNF, K6IPC, W8DAO, KB8XI and W8FWG. Our President voiced concern of the ongoing uncertainly of the
operation of our 146.670 MHz repeater in Herman. George,8FWG rported for Chuck, WB8FCY,
that this property may have already been sold by the DNR, to a radio or TV broadcasting company but that we had no assurance that that had taken place. George offered to contact the DNR (a ham in the DNR, whom he knows) to get the latest information on
> that site, and to report back to the President of the club, ASAP.
> Treasurer's Report: By Paul, W9VLM, indicated we have received a request
> om the State of Michigan regarding our charter and status as a non-profit
> organization. This means a charge of $20
annually, and the Treasurer was instructed to pay it. At 7:36 pm Gavrielah had to leave suddenly (no reason given) and the roster of those present was turned
over to George, W8FWG. Glenn, WA8QNF asked this question of the President. "Mark, in the interest
of the CCRAA would you be willing to step down as President of the organization.?"
The answer given by Mark was "No!" In view of the "turbulence" that occurred, the Property Chairman's report (W8FWG's report) did not get read, but it is included here as follows: All utilities within the building are operational, and the weekly routines are
being kept up, the monthly check of the emergency engine was completed, an additional operating chart was made up and a new antenna tuning guide was

added. The lawn was not mowed, per the President's request, because of his allergy to newly mown grass. The
water leak at the roof has been corrected and one problem with a door switch remains and that should be taken care before the next meeting. Cataloging of the
small parts cabinet continues, and now that we have a new computer this should be completed by year's
end..
A motion made by Glenn, WA8QNF and seconded by Roy, WB8ZYL to "Remove Mark, KB9RQZ from the office of President of the CCRAA" was introduced, and
a discussion followed. When it came to a vote, there was one ABSTENTION, one NO vote, 11 YES votes, and the motion carried. George, W8FWG, being appointed Acting Secretary took ending notes. The next meeting of the CCRAA is scheduled to be held at the Osceola
Clubhouse on September ...

xposting right along from some one that says "I never xpost" - biggest BS
operator!

Also he/she has to post from many different sources and under many names,
i.e.:
"KB9RQZ - 1 to whatever"

and you call everybody else a fake - you don't appear to have a working
brain!

"When I told Abbie Hoffman that he was the first one who made me laugh
since Lenny Bruce died, Hoffman said, "Really? He was my god." The
combination of satirical irreverence and sense of justice that Bruce and
Hoffman shared was the real spirit behind the Yippies--a term I coined
to describe a phenomenon that already existed: an organic coalition of
stoned hippies and political activists who engaged in such actions as
throwing money on the floor of the New York Stock Exchange, then
explaining to reporters the meaning of that symbolism. Folksinger Phil
Ochs summed it up: "A demonstration should turn you on, not turn you

at best it's careless shorthand; at worst it's deliberate demonization.

"Immorality: The morality of those who are having a better time." -- H. L. Mencken

"Consider that language a moment. 'Purposefully and materially supported hostilities against the United States' is in the eye of the beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections, the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

"It does to a certain extant physically and theoretically it holds even into the quantum but there observational confirmation is limited or non existent. That's the problem and the major stumbling block to field unification. For Dr. Einstein held out that a physical based field theory should be sought out and not left to quantum uncertainty of how the universe primly base works. Man made coordinate systems are fine without knowing from where or what is the base essence of what the space as deduced field is composed of, but not totally satisfactory. Anomalies keep space cropping up and scientists have to keep adjusting for these unexpected events. It's like a blind man that has memorized his physical surroundings to a point he feels very comfortable until that one new or unexpected event pops up and he's lost and fumbling." -- nightbat, in one of his more lucid moments.

*** EDITOR'S SPECIAL NOTES (by Tedd, KB8NW): It is hard to believe that the CQ World-Wide DX SSB Contest is next weekend. From the list of announcements it looks like many stations are expected to participate. Look for the bulletin to come out early next weekend with late entries and a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/October, through Sunday, 19th/October there were 229 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FO/M, FP, FR, FS, FY, G, GD, GI, GJ, GM, GU, GW, H40, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J8, JA, JD/m, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OJ0, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PY, PY0F, PZ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T2, T33, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VK9W, VP2E, VP8, VP8/h, VP8/o, VP9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Gianpiero, I1UWF, will be actibe as 3A/I1UWF during the CQWW DX SSB Contest (October 25-26th). QSL via I1UWF.

4F, PHILIPPINES. Jose, 4F1AL, will be active during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (?) entry. QSL via 4F1AL.

3D2, FIJI. Akira, JA1NLX, will be active as 3D2YA from Mana Island (OC-121) in Mamanuca Group, between November 21-27th. Activity will be on 80/40/30/20/17/15/12/10 meters CW. QSL via his home callsign, by the Bureau or direct (w/SASE). Log will be uploaded to LoTW.

6V, SENEGAL (Update). Operators Ruediger/DK8YY, Ingolf/DL4JS, Jens-Uwe/ DL8ALU, Sigi/DL8AKI and Frank/DL1WA will be active as 6W/DL4JS and 6V7M (during this past weekend's Worked All Germany Contest [WAG] and CQWW DX SSB Contest [October 25-26th] as a Multi-Single entry) between October 18-27th. Outside of the contest, look for them to be on all HF bands using CW, SSB and RTTY. QSL via DH7WW.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, will once again be active from Africa and will also activate again both Senegal (as 6W2SC) and Guinea-Bissau (as J5UAP), between November 15th and March 31st (2009). His activity from both places will be mostly Digital with some SSB and CW upon request. Operations will be on 160-6 meters using a spiderbeam, verticals, dipoles, and 500w (in 6W) or 100w (in J5). QSL via HA3AUI, direct or by the HA Bureau.

6Y, JAMAICA. Francesco, IZ7KHR, will be active as one of the members of the 6Y1V super station team (see OPDX.878) during the CQWW DX SSB Contest (October 25-26th), from Hopewell, Jamaica (NA-097, WLOTA LH-0214). Outside of the contest (between October 20-28th) look for him to sign as 6Y7K. Activity will be on all bands and modes. QSL 6Y7K via IZ7KHR, direct or by the bureau. For more details, visit: http://www.iz7khr.it
Also, see info for 6Y7K on QRZ.com.

8Q, MALDIVES. Slavo, SP2JMB, will be active as 8Q7SC from November 26th and December 10th. Activity will be on 80-10 meters CW. He will also be in the CQWW DX CW Contest (November 29-30th). QSL via his home callsign, direct by the address on QRZ.com or LoTW.

9H, MALTA. Anne, OH2YL, will be active as 9H3YL from November 1-8th. Activity will be on the HF bands using CW and SSB. QSL via her home callsign.

9M6, EASTERN MALAYSIA. Operators Nob/JA1KSO, Hiroshi/JH1WXT and Ako/JR1WMO will be active as 9M6/homecall during their stay before and after the CQWW DX SSB Contest (October 25-26th) from the Langkah Syabas Beach Resort at Kinarut, Kota Kinabal, Sabah (OC-088, WLOTA LH-0119). During the contest they plan to sign 9M4SMO as a Multi-Single entry. QSL via JH1WXT.

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Osamu/JR8VSE and Sato/JH7QXJ. QSL via JH7QXJ. ADDED NOTE: They suggest to listen to 7075-7100 kHz.

ARCALA EXTREMES (New Contest Alliance From The Far North). Martti, OH2BH, reports: "The world's northernmost contest alliance is ready with a mission and team to be part of this year's CQWW SSB battle. Just this week they will be augmenting their already impressive firepower with a 100-meter (330 ft) massive rotating tower going up adorned with a full-size 3-L 160M beam and 5-L 80M beam which they claim to be the first of their kind. This marks the team's latest frantic effort to boost the signal from the worst propagation region in the world. You can visit them at: http://www.radioarkala.com/
While OH8X will be operated by Marko, OH4JFN, their sister stations CU2A (Azores Islands) and TC4X (Asian Turkey) will be operated by Toni, OH2UA, and Pertti, OH2PM, respectively, while OH0E (Aland Islands) will be manned by Ville, OH2MM, and CN2B (Morocco) by Martti, OH2BH.
Their strategies and categories still remain to some extent on the drawing boards.
A series of full-color QSL cards can be obtained as follows:

The team wishes the world's contesters every success in their efforts to contact Arcala Extremes."

C49, CYPRUS. Members of the Nicosia Radio Club will participate in the upcoming CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry and will be using the contest callsign C49C. QSL via 5B4KH.

CARIBBEAN TOUR. Operators Mek/SP7VC, Tadeusz/SP3IPB and Aga/SQ3WN (YL) will be sailing throughout the Caribbean between October 17th and November 15th. They will be sailing on a 40 foot yacht, and they plan on visiting some DXCC entities. This is a tourist trip, but they intend to be active on the HAM bands from various places. They will start at the British Virgin Island (as VP2V/homecall). There they plan to participate in the CQWW DX SSB Contest from VP2V-land on all bands. On October 27th, they will then start to travel beginning with Anguilla (VP2E), then Saba (PJ5), Saint Martin (FS), St.Marteen (PJ7), St. Eustatius (PJ6), Saint Barthelemy (FJ), St. Kitts & Nevis (V4), Antigua (V2), Montserrat (VP2M), Guadeloupe (FG), Dominica (J7) and Martinique (FM). However, they will not operate from VP2E or V4, but they plan to activate the other places on the HF bands if it's at all possible. The team will be using TS-50, IC-706 MKIIG, PA - MLA 1200 (700W), vertical R-7 (40-10m), inverted L (160-80m). QSL via their home callsigns.

CONTESTER'S TOOL (ZoneProp). Sylvan, VE5ZX, reports (edited): "Zone to Zone Propagation information will be available for the CQWW and other 2008-2009 contests from Radio Sport Canada at: http://www.radiosport.ca/zoneprop/
ZoneProp uses an widely accepted propagation engine to determine the band on which a contestant in one CQ DX zone is likely to be able to contact a contestant in another CQ DX zone taking into account the current geomagnetic activity.
ZoneProp produces a 40 zone by 40 zone matrix that is updated hourly at approximately 20 minutes past the hour. The intersection between a row and column gives the band on which a contestant in the zone represented by the

row is mostly likely able to contact an contestant in the zone represented by the column. The zone numbers in the left hand column are clickable. Once clicked the information for that zone is displayed in isolation above a map of CQ DX zones. The pages are refreshed every 10 minutes in order to capture hourly updates of the matrix."

CQ3, MADEIRA ISLANDS. Operators Carlos/CT3CD, Carlos/CT3CK, Jose/CT3FQ and Ricardo/CT3KN will be active as CQ3T during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via the LoTW or CT3KN.

EA8, CANARY ISLANDS (AF-004). Operators Jean/ON5JV and Georgette/ON6AK will be active as EA8/homecall from Tijoco Bajo, Tenerife Island (S-012 for the Spanish Islands Award, WLOTA LH-1276), between November 22nd and February 3rd (2009). Activity will be mainly on 20 and 40 meters during their evenings. QSL via their home callsigns, bureau is preferred.

EI, IRELAND. Olivier, ON4EI, will be active as EI/ON4EI during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via his home callsign. Activity will be from Co. Tipperary using a 10 element wire beam on 20m pointed towards EU and NA, triband wire beam, vertical dipole and Inverted Vee.

F, FRANCE (Satellite Op). Doug, KD8CAO, will be here on business and will try operating on some satellites between October 20-24th, time permitting. Look for him on AO-51 or SO-50. His callsign should be F/KD8CAO (or something like that). QSL via his home callsign.

FG, GUADELOUPE (NA-102). Members of the Guadeloupe Island Radio Club will activate their club station FG5KC during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. This is the only club station on the island. Operators mentioned are: FG5IM, FG5BC, FG1JD, FG1PP, FG1DD and FG5DN. QSL via FG5KC.

FM, MARTINIQUE (NA-107). Oliver, F6ARC, will be active as FM/homecall, October 19-23rd. Activity will be mainly on 160-30 meters CW. QSL via his home callsign.

GW, WALES. Members of the Strumble Head DX and Contest Group will be active using the club's callsign MC0SHL between October 22-28th. Activity will be on 80-10 meters. During the CQWW DX SSB Contest, they will be using the club's contest callsign MW9W and be a Multi/Multi entry. The team consists of Ant/MW0JZE, Rob/MW0RLJ, Tim/M0URX, Charles/M0OXO, Oli/MW3SDO, Villiam/OM0AAO, Chris/G1VDP and possibly one more guest operator over the contest weekend who has yet to confirm. QSL via M0URX. Also, visit the group's Web site and read about their activities at: http://www.mc0shl.com

HP, PANAMA. Elio, HP1BYS, will be active during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via EA5KB.

HS, THAILAND. Charles, HS0ZCW (K4VUD), would like to remind all contesters that the SSB segment of the 80m band in Thailand is between 3500-3535 kHz (CW as well). Split listening is "OK", but transmissions up the band are not. Same is for Thailand on 160m (low end only, both modes).

IOTA NEWS.....
AS-128. Operators Mike/RL3BM and Arkady "Ark"/UA4CC will be active from Phu Quoc Island, Vietnam, for a family vacation between November 5-13th. Their callsigns will be XV4BM and XV4CC. They plan to be on CW and SSB on 80-10 meters. Plans are to use an IC-7000 and K-2 transceivers running 100 watts only into vertical antennas. For 20 meters they will have a 2 element wire vertical Yagi. This will be not a "full scale" DXpedition, however, the two will do their best to be on the air as much as possible. QSL XV4BM via RL3BM and XV4CC via UA4CC.

EU-169. (UPDATE) Operators Alfredo/IK7JWX, Nicola/I0SNY, Pino/I8YGZ, Leopoldo/I8LWL and Oscar/IK2AQZ will be active from Sazan Island (MIA MA-001) as ZA0/homecall between October 23-29th. The group plans on being in the CQWW DX CW Contest. Please note, they now have a Web page at:
http://www.sazan2008.altervista.org
QSL via their home callsigns.

EU-170. Operators Mike/DL3VTA and Wolfgang/DL1DVP are to be active as 9A/homecall from Pag Island (ACIA IC-188, CIA-32, IOCA CI-082, WLOTA LH-1796) from October 20-27th. Activity will be on all HF bands using CW, SSB, RTTY and PSK. QSL via their home callsigns, direct or by the bureau.

IO9, ITALY. Members of the 095 DX Team will be active as IO9K from Sicily during the CQ World Wide SSB DX Contest (October 25-26th) as a Multi-Single entry. QSL via IW9HLM. Visit their Web page at:
http://www.095dxteam.org

IQ9, ITALY. Members of the Radio Gruppo Etna Team and possibly others will be active as IQ9BF from Sicily during the CQ World Wide SSB DX Contest (October 25-26th) as a Multi-Single entry. QSL via the bureau.

IY, ITALY (Marconi Special Event). Look for special event station IY1EY to be active between November 1-9th. Activity is to celebrate Gugliemo Marconi's experiments between the years 1919-1936 from his yacht called "Elettra". Expect operations on all bands using CW, SSB, RTTY and PSK31. For a special QSL card, QSL via IK1QBT.

JW, SVALBARD. Francois, F8DVD, will once again be active as JW/F8DVD from the Longyearbyen ARC located on Spitsbergen Island, 78 degree North, and about a thousand kilometers far from the geographic North Pole (EU-026, WAZ 40 and Grid Square JQ78TF), April 19-25th (2009). His activity will be on all HF bands both CW and SSB. This will be Francois's 6th time on the island. He will use the Longyearbyen Radio Club's equipment which consists of an ICOM 751 and a 500 watts PA, into a 5 elements yagi on a 30 meters high tower. QSL via his home callsign, through the French REF-Union Bureau or direct, w/SAE + 1 IRC (or 1 USD for EU, and 2 USDs for elsewhere) to: Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, France.

KP2, U.S. VIRGIN ISLANDS. Operators John/K3CT, Ed/K3VA and John/K3TEJ will be active as KP2/K3CT, KP2/K3VA and KP2/K3TEJ, respectively, between November 25th and December 3d. Activity will include the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry using the callsign KP2M. Outside of the contest activity will have an emphasis on 160m and 30/17/12 meter bands. QSL KP2M via AI4U. QSL their KP2/homecall to their home addresses.

KP5, DESECHO ISLAND (Update). The DXpedition team has been announced! Operators mentioned are: Ralph/K0IR, Glen/K0JGH, Scott/K0MD, Grant/K1KD, Brad/K4RT, Bob/K4UEE, Gary/K9SG, George/N4GRN, Mike/N6MZ, Mike/NA5U, Glenn/W0GJ, Jim/W0NB, Gordon/W0RUN, Gregg/W6IZT and Garry/W8OI.
The "Off-Island Team": Webmaster Chaz/W4GKF and Antenna Guru Paul/W8AEF.
For updates and bios on the operators, visit KP5 Web page at:
http://www.kp5.us

LP1, ARGENTINA. Operators Ramon/LU5HM, Javier/LU9HS, Juan/LU3HY, Carlos/LU2NI and Eduardo/LU1NDC will be active as LP1H from "La Bolsa Village", Cordoba Province, during the CQWW DX SSB Contest as a Multi-Single entry. QSL via EA5KB.

LU8, ARGENTINA. Members of the Radio Club de los Andes will be active as LU8YE during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Op or Multi-2 entry. Operators mentioned are: LU7YS, LU1DZ, LW2DX and LU7EE. The team will have to drive more than 1,800 km from Buenos Aires to San Martin de los Andes to participate with the local operators. QSL via EA7FTR.

LY4, LITHUANIA. Operators Roli/LY4A, Rimantas/LY4CW, Grazvydas/LY2TS and possibly others will be active as LY4A during the CQWW DX SSB Contest (October 25-26th) as a Multi-? entry. QSL via LY4A.

LZ9, BULGARIA. Wally, LZ2CJ, reports that the LZ9W Contest Team will be a Multi-Multi entry in the CQWW DX SSB Contest (October 25-26th). He also wants contests to "PLEASE NOTE": Bulgaria on SSB remains one of the few EU countries in which contesters are still not allowed to operate above 7.100 MHz on 40m. He states, "We observed a situation in the last SSB contests that now USA stations do not bother too much to listen below 7.100 having the possibility to work almost all Europe on simplex above 7.100. Our request to USA contesters is to listen below 7.100, too. In case you need LZ and zone 20 multiplier you will need to listen for us below 7.100."

NP2, U.S. VIRGIN ISLANDS. Operators George/NP2N, Charles/WA0ROI and Ed/K1ZE will be active as NP2N from Mountain Breeze, on St.Croix Island, during the CQWW DX SSB Contest (October 25-26th) as a Multi-Op/Single-TX entry. QSL direct to NP2N (USA address shown in the FCC data base or QRZ.com) or W0ANZ. QSL via the KP2 bureau is "OK" (although this is the slowest route). For more details see NP2N on QRZ.com.

OE, AUSTRIA. A team of Austrian operators will be active as OE2S during the CQ World Wide DX SSB Contest (October 25-26th) as Multi-Single entry. They plan to use a balloon antenna for 160m. Operators mentioned are: Eduard/OE1ETA, Dieter/OE2DYL, Gerald/OE2GEN, Carl/OE2MON and Wolfgang/OE2VEL. QSL via the LoTW or by OE2GEN.

OH0, ALAND ISLAND. Tomi, OH6EI, will once again be active as OH0Z. His activity will include the CQWW DX CW Contest (November 29-30th). He will be a Single-Op/All-Band/High-Power entry. QSL via W0MM.

OOOPPPSSS DEPARTMENT. In OPDX.879, under "CE9, ANTARCTICA", we stated Jose's callsign was CE1KF which is incorrect. It should be CE1KR.

PIRATE ALERT. A very upset Pasquale, IW0HEX, informs OPDX that his callsign is being pirated, especially often over DXpeditions on the air. Pasquale states, "I'm a serious operator and I don't call over DXpedition during spilt mode. In the cluster net my call is often pirated too."

PW2, BRAZIL. Operators from Mogi, Sao Paulo, will be active as PW2D during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via PY2VM. Operators mentioned are: Alan/PY2LSM, Andre/PY2MTV, Kal/PY2VM, Fabio/PY2BK, Felipe/PY1NB, Rick/PY2TO, Mamiro/PY2DM and Tom/PY2ZXU.

QSL INFO AND NEWS.....
An online log search is available for the 9L1X operation. This operation from Sherbro Island (AF-056) will be active until October 23rd. For the log go to: http://www.i2ysb.com/index.php?option=com_wrapper&Itemid=130

2037. shoveanovaupyourass day 3254 of watching a UP retard because his brain is still MIA as of course it must be since you can't act so wacked and stupid, and actually believe that the law requires you to report anybody you can think of for an alleged pander note that everyone knows you created and sent to yourself, OTOH nobody wants to sue because we would have to give our real names and we don't dare do that because the UP kook will lie and falsely report us too, but in the long run nothing will happen in return, as law enforcement is well informed that the UP fool is mentally unstable, that is ok because the kook's fame as a total flake is slowly spreading across the net and in his area, I guess he likes getting banned from web sites and being ejected from ham clubs, and likes to be seen as a total obtuse impotent buffoon, personally we do not care, but we do enjoy the laughs from the never ending rant, nevertheless it is clear however that the UP kook has no life, except to victimize his own wife by dragging her down socially in the process. Shalom!

J48, GREECE (IOTA Op). A Hungarian team will be active from Thassos Island (EU-174), between October 23rd and November 8th. Activity will be on the HF bands, and they will try to work the satellites too. Operators mentioned are: Peter/HA5OV (J48OV), Laci/HA6NL (J48NL), Zsolt/HA6PS (J48PS), Al/HA7JJS (J48JJ) and Laci/HA7PL (J48P). They will also take part in the CQ World Wide DX SSB Contest (October 25-26th) as Multi-Single and the HA-QRP Activity Week (November 1-8th) using the J48RT callsign. QSL via the HA QSL Bureau or direct to the operator's own address (via QRZ.com). QSL J48RT via HA6NL.

JA6, JAPAN (IOTA Op). Taka, JA7GAX, who did several IOTA operations in Oceania area between November 2006 and January 2007 (ex. 3D2CX, 5W0CX, KH8/JA7GAX, and A35TN), has now announced his next IOTA DXpedition schedules. This time it is in the JA6 district, so the only callsign to be used will be JA7GAX/6. Although this is "domestic Island Hopping", he is strongly eager to work DX. The first Island Hopping schedule is as follows:
October 29-30th Koshiki Island (AS-037)
November 1-8th Tukhuar Islands (AS-049)
November 10-11th Amami Oshima (AS-023)
November 11-13th Okinawa (AS-017)
November 15-20th Minamidaito Island (AS-047)

If weather conditions are not favorable, he will try to activate the IOTAs between November 22-28th in the following week.
For the 2nd Island Hopping (after the first Island Hopping), he wants to go to the following islands in this order: Yaku Islands (AS-032), Goto Islands (AS-040), Iki (AS-036) and Oki (AS-041). He will go back to Kyusyu (the main island) after his operation on Yaku Island. If his

energy withers on the way, the operation on Goto Island and others will become uncertain due to his condition. He may cancel his activity due to the situation of energy, physical strength, and other reasons. QSL via the JARL QSL Bureau or direct to the following address. Takayoshi NAGASHIMA, 3-8-18 Akasaka Aoba-ku, Sendai, 989-3211 JAPAN.

JW, SVALBARD. Peter, JW7QIA, will be active from Longyearbyen during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via LA7QIA. Also, look for Math, JW5NM, from Ny-Aalesund, to be in the contest as a Single-Op/Single-Band (40m) entry. QSL via LA5NM.

Activity will be on the HF bands using SSB, CW, RTTY and SSTV. QSL via their home callsigns, direct or by the Bureau.

NCDXF NOW QRV ON TWITTER. Tim Totten, N4GN, reports: "The Northern California DX Foundation, NCDXF, is now QRV on Twitter! Twitter users can follow NCDXF by going to http://twitter.com/NCDXF/ and clicking on the 'Follow' link. We intend to use Twitter to keep DXers informed about NCDXF activities and related news. If you're not really sure what Twitter is all about, just go to http://twitter.com/ to find out. Chances are pretty good that several of your ham buddies or other friends and family members are already active on Twitter. You might also want to look at some of the many free Twitter tools and related applications, such as Twhirl (http://www.twhirl.org/)."

OFFICERS FOR 2009 (NCDXA). At the October 2008 annual meeting, the members of the National Capitol DX Association (NCDXA) elected the following officers to serve in 2009:
Dick Mayott/W2YE (President) George Vincent/K3GV (Secretary)
John Kanode/N4MM (Vice President) Brian Bayus/N1KC (Treasurer)
Visit NCDXA's Web site at: http://www.qsl.net/ncdxa

PJ2, NETHERLANDS ANTILLES. Pekka, OH2YY, is now active as PJ2/OH2YY from Curacao until October 29th. He tells OPDX that he will be using a FT-840 and a couple of wire antennas. The Ohio/Penn DX PacketCluster
DX Special Bulletin No. 881.1

BID: $OPDX.881.1
October 25, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network and VK2HV for the following DX information.

The following VK9DWX press release was received from Paul, VK2HV:

News #12 - 25.10.2008

The Willis Islands Group, Mid Isl. Thursday, October, 25th

Due to heavier winds to be expected on Monday we have to take down the complete camp tomorrow on Sunday October 26th and transport all equipment to the Floreat. That means that we will stop radio operation latest on October 25th at about 22:00z. We want to have a controlled shutdown and a secure trip back to Australia mainland for all members and all of the equipment. Therefore we have to leave earlier as planned.

We will take part in the CQWW SSB Contest for the first 24 hours with three stations. The remaining stations will be still available for WARC operation.

We did the last onlinelog update for now. This includes all QSOs till 25.10.2008 00:00z (before the contest). We will put all QSOs to the online log when we are back home.

More information will be available after our return to Australia.

Vy 73s VK9DWX team

We would be delighted if DX editors would publish this information as widely as possible and DXers bring it to the attention of their clubs and fellow DXers.

shoveanovaupyourass day 3262 of watching a UP retard because his brain is still MIA as of course it must be since you can't act so wacked and stupid, and actual believe that the law enfocement requires you to report anybody you can think of for an alleged pander note that everyone knows you created and sent to yourself, OTOH nobody wants to sue because we would have to give our real names and we don't dare do that because the UP kook Mark will lie and falsely report us too, but in the long run nothing will happen in return as law enforcement is well informed that the UP fool is mentally unstable, that is ok because the kooks fame as a total flake is slowly spreading across the net and in his area, I guess he likes getting banned from web sites and being ejected from ham clubs and is seen as total obtuse impotent buffoon, personally we do not care, but we do enjoy the laughs from the never ending rant, nevertheless it is clear however that the UP kook has no life, except to victimize his own wife by dragging her down socially in the process. Shalom!

"When I told Abbie Hoffman that he was the first one who made me laugh
since Lenny Bruce died, Hoffman said, "Really? He was my god." The
combination of satirical irreverence and sense of justice that Bruce and
Hoffman shared was the real spirit behind the Yippies--a term I coined
to describe a phenomenon that already existed: an organic coalition of
stoned hippies and political activists who engaged in such actions as
throwing money on the floor of the New York Stock Exchange, then
explaining to reporters the meaning of that symbolism. Folksinger Phil
Ochs summed it up: "A demonstration should turn you on, not turn you
off." So when journalists link the Yippies with misleading bedfellows,
at best it's careless shorthand; at worst it's deliberate demonization.

A4, OMAN (Reminder). Members of the Lufthansa Amateur Radio Club (LARC) and the Norden District of the DARC (DOK I09), who are guests of the Royal Omani ARS (ROARS), are now operating under the following two callsigns until November 11th: A43DLH - from the ROARS HQ
A43DLH/P - from the Omani Scout camp
Activity will be around the clock on 160 meters and up on as many bands as possible. Modes will be: CW, SSB and the Digital modes (included SSTV). QSL Manager is Rudi, DK7PE.

A5100, BHUTAN. Just a reminder that the members of the Clipperton DX Club, Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX will be active from Thimphu using the special callsign A5100A between November 7-17th. Activity is to celebrate the 100th anniversary of the Kingdom of Bhutan. The team will met with Pradan, A51PN, in the southern part of Bhutan after this operation and plans to be active from three different regions within Bhutan signing /p. They will be using an IC-756Pro, IC-746, FT-857D, with two 1Kw amps, a Spiderbeam for 5 bands and a wire 11 element log periodic. QSL via F9DK.

C6, BAHAMAS. Harry, W6DXO, will be active as W6DXO/C6A from South Andros Island (NA 001) between March 1-7th. Activity will be holiday style operation with focus on 30/17/12 meter bands as propagation allows. A QSL Manager is to be determined.

CE0Y, EASTER ISLAND (SA-001). Merv, N6NO, will be operating as CE0Y/N6NO from here between November 7-16th. Activity will be mainly CW. Although amateur radio is not normally permitted on 30 meters in Chile, he has obtained special temporary authorization to use 30m for this operation. He will focus on that band but may also use 40-12 meters using 100 watts into a vertical dipole. QSL via his home callsign.

CY0X WRAP-UP REPORT. Read this interesting report/presentation on the CY0X DXpedition that took place between June 25th and July 7th. The report contains many details about the operatioon and great photos all in PDF format. The report can be found at:

DXCC NEWS (End of Year Reminder). Bill Moore, NC1L, ARRL DXCC Manager, reports: "This is a reminder that the end of the DXCC calendar year is rapidly approaching. In order to appear in the printed 'Annual and Honor Roll' listings your submission must be postmarked on or by Wednesday, December 31, 2008. The DXCC Annual List is scheduled for publication in the 2008 DXCC Yearbook. In order for your callsign to appear your total for an active award must increase by, at least, one credit. You do not have to reach the next endorsement level. Active awards are indicated by an asterisk(*). Award categories with 100 or more that do not have an asterisk will not appear. If you made a submission in 2008 and would

like to have an award appear in the list that is not yet activated, you can contact DXCC to activate the award and receive the certificate. The fee to activate an award, including postage is $13.75 (USA) and $16.50 (non-USA). You will not be charged a submission fee for this action. The DXCC Honor Roll list is scheduled for publication in August 2009 QST. For the 2008 calendar year the minimum requirement to appear in the Honor Roll list is 329 current entities. The Top of the Honor Roll total is 338 for this period. Remember, deleted entities do not count towards the Honor Roll. Direct comments or questions to dxcc@arrl.org ....73 es DX!"

November 10th. QSL via DK2WV.

AS-128. (Update) Reports indicate that Arkady "Ark", UA4CC, had to cancel his trip to Phu Quoc Island, Vietnam. However, Mike, RL3BM, is still going between November 5-13th. He is expected to be active as XV4BM. Activity planned will be CW and SSB on 80-10 meters. QSL XV4BM via RL3BM.

EU-059. Col, MM0NDX, will be active as MM0NDX/P from St. Kilda, Scotland, between July 24-27th (2009). This will be a family holiday-style operation from the campsite in Village Bay. St. Kilda is one of only two-dozen global locations to be awarded "World Heritage Status" for both natural and cultural significance. Col will participate in the 2009 RSGB IOTA Contest (July 25-26th). More info and a possible Web site is forthcoming.

EU-169. The Italian operation to Sazan Island last week (now QRT) netted some 15,228 QSOs. The log is now available at: http://www.sazan2008.altervista.org

NA-018. Nigel, G3TXF, will be active as OX/G3TXF from Kangerlussuaq, Greenland, between November 6-10th. Activity will be CW, and he hopes to be in the WAE RTTY Contest (November 8-9th).

NA-132
NA-133. Operators George/AA7JV, Tomi/HA7RY, Pedro/HK3JJH and Fero/HA8MT will be active as 5K0T (not 5J0T as first announced earlier in the week -- this is to avoid possible conflict with a previous operation.) from Bajo Nuevo (IOTA NA-132) and Roncador Bank (IOTA NA-133) between November 19th and December 2nd. This four person DXpedition will focus their operation on the low band, especially 160 meters. AA7JV and HA7RY were behind last year's VK9WWI Willis Islets operation. The group will operate two stations on 160-6 meters. Look for 5K0T to also participate in the CQWW DX CW Contest (November 29-30th) from Zone 8. There will also be an operation with the callsign HK0/HK3JJH. Both islands were once listed on the DXCC list, but were deleted. Plans are to operate from Roncador Bank between November 18-21st, and Bajo Nuevo between November 23rd and December 2nd. Both reefs are part of San Andres region (HK0). QSL 5K0T via HA7RY. For HK0/HK3JJH QSOs, QSL via HK3JJH. For more information, visit their Web page at: http://www.5K0T.com
ADDED NOTES: Bajo Nuevo is a small reef belonging to Colombia (HK0) and is located 170 miles south of Jamaica in the central Caribbean. The reef contains a number of small barren sand cays, one which carries a navigation light. For more details see: http://en.wikipedia.org/wiki/Bajo_Nuevo_Bank
Roncador Bank is located 150 miles south-west of Bajo Nuevo. For more details see:
http://www.oceandots.com/atlantic/san-andres/roncador.htm

IR9, ITALY. Angelo, IW9HLM, (QSL Manager for the 095DXTEAM) will be active as IR9X from Sicily during the CQWW DX CW Contest (November 29-30th). QSL via LoTW.

J3, GRENADA. Operator Hans/DL7CM and Siegfried/DM2AYO will be active as J3/homecall between November 6-25th. Activity will be on 160-6 meters, CW, SSB, RTTY and PSK. They plan to have two stations on the air with 750 watts, yagis and GP. QSL via their home callsign. Watch for more details at: http://www.qsl.net/dl7cm

J6, ST. LUCIA (NA-108). John, W5JON, will be active as J6/W5JON from Marigot Bay between March 1-11th (2009). Activity will be on 160-6 meters SSB using dipoles and 6m yagi. Also, look for activity in the ARRL DX SSB Contest (March 7-8th, 2009). QSL via W5JON.

KG4, GUATANAMO BAY (Operators Needed!). Bill, KN4N, is looking for operators for a GITMO operation to take place next spring or sooner. He can take one or maybe two operators with him (space is limited). There are some conditions:
1. MUST be active duty or retired military, will stay at Navy Lodge, fly space "A" from NAS Jax.
2. Must have General class or higher license.
3. Prefer non-smoker to share quarters.
4. MAC flights depart NAS Jacksonville each Saturday, so you must furnish your own transportation to Jacksonville, FL.
5. You must be in good health.
6. Cost will be low on the post since the team can use the dining facility (PX).
Bill is just feeling things out now. At present, the club station is there but no HAMS. The team will have to wait until at least one ham is stationed there. Anyone who knows of a ham on a PCS to GITMO, please let him know. He will have to sponsor the team. If interested, contact Bill at 423-638-9833 or 423-552-0036 (Verizon) or via his E-mail address: kn4n@comcast.net

KH2, GUAM (OC-026). Joel, KG6DX, will be active as KG6DX in the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All-Band/High-Power/ Assisted entry. QSL via KG6DX, CBA or QRZ.com address. Also LoTW.

KP2, U.S. VIRGIN ISLANDS. Operators Ann/KP2YL and Brian/KP2HC will be back to visit their island home of St. Croix, from November 2-11th. They will spend 3 days visiting their friend John, NP2B, before relocating to friend Brad's, K9BZ, home, "Radio Reef". Listen for them on CW and SSB from both locations. As always they will give special attention to openings on the 30/17/12m bands and 6m. QSL direct only via their California address which is listed in all the major callsign databases. Visit Ann and Brian's Web page at: http://home.comcast.net/~kp2hc

KP5, DESECHO ISLAND (Update). The DXpedition team is delighted to announce that QSL processing for the Desecheo 2009 DXpedition will be handled by Bob, N2OO, and the members of the South Jersey DX Association. This is a very experienced group and the DXpedition is proud to have them on their team. Details on how to QSL will be provided later. For updates visit

the KP5 Web page at: http://www.kp5.us

Should be really fun listening to the morbidly obese, knuckle-dragging sloopeheads in 4 and 5 land all evening in 4 and 5 Land!! Yes you can be sure these racist rednecks all up and down 75 Meters should be squealing like stuck pigs when they realize we now have a BLACK MAN as our President and Commander in Chief. Yes sir ree Bob! Only on 75 Meters at night - home of KKK ham radio where it's still sounds like 1947 in rural Mississippi. Oh and BE SURE to tune into the Militialoon and Alex Jones Kook-Konspiracy Net on 3.860 LSB at 8:00 PM Eastern time as this freq should be a real hot-spot of bellyaching and pissing and moaning fun listening up thru the wee hours of the AM.

lol...you'll be in denial until you see President Obama taking the
Inaugural oath. Your guy Mcain has already lost and it will be made
"official" only after the networks get their prime time viewer numbers
in the bag. Get used to it and then get over it.

interesting assumtion OTOH watch the real result the one that count
and and obama is not doing so well campared to his poll numbers

Obama may well win indeed he is the man to bet on but you never know
the elctorial college has a an interesting way of affecting the end
result

2071. CW QSO procedural question...

Hello all,

At the end of a CW QSO I have had other hams send me the goodbye "dit-dit" after they send me their "CUL" and "73" and "SK" goodbyes, but before I have had a chance to send them my own goodbyes. In other words, before they turn it back to me for my closing remarks, they send "dit dit" after their own closing remarks. Does this mean that:
1. I should just send back a "dit", and not send them my own goodbyes?
2. Send them my goodbyes, and then the "dit"?
3. Something else entirely?

Thanks, from a new ham!

As a matter of fact, SK signals the end of the contact and no further transmission is required. K signifies anyone may drop in to the conversation, and KN means only the station in contact is invited to respond. Often a contact is cut short because of things going on around the station, family needs, etc. and it isn't polite to hold someone from family interruptions. Other things that can cut a QSO short is discussing how long you have been a ham, or how old you are. These things are inherently divisive, and part of the magic of CW was that it was a great equalizer in conversation. Young people who went out and got a General or above and went right to 75 meter phone were doomed to be discouraged by the many cantankerous old men with health issues.

As for the other procedures: 73, CUL and "dit-dit" are really not "procedure" and are not required. "dit-dit" was the "two bit" response to the "dit-dididit-dit" AKA "shave and a haircut". It was all the rage at the end of a contact on the Novice bands as I recall in the 70's, but even then was considered bad form anywhere else. It is a little silly but seems harmless for a quick farewell. In fact it can be mistaken for the proceedural prosign asking if the frequency is in use. CUL means "See you later", an informal invitation to call again and 73 is for best wishes. These are informalities not required but we feel that some polite farewell is socially necessary, but to drag a conversation out for teary good-byes can be worse etiquette. Play it by ear. During contesting, DXing and message handling, much of the informalities are unwelcome.

Also be aware that the other operator may not have developed their operating skills yet either. It is best to have the basic minimums such as the Call and RST done, then get a feel if the other guy is a Rag chewer or just looking for a log entry. A rag chew should be a conversation not a coded exchange.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON ISLAND (AF-015). Rachid, 3B8FQ, reports that his trip to activate St. Brandon Island has been delayed due to the unavailability of boat transportation. It had been planned for late October. The next boat scheduled to leave for St. Brandon is November 15th. Rachid and the meteorological station maintenance team are hoping to be aboard. If

everything works out as planned, Rachid will be active as 3B7FQ much longer than during his short stay on Agalega Island as 3B6FQ this past April. As was the case this past spring, Rachid will be on a work assignment and will be active on CW and SSB as time is available. More info as it becomes available.

4X, ISRAEL. Franz, DL3PS, who is on a business trip, plans to be active as 4X/DL3PS. He will be in Israel between November 10th and December 5th. Activity will be limited to his spare time, but look for him on 80-10 meters using CW, SSB and the Digital modes. QSL direct or by the bureau to HB9EHQ.

5T, MAURITANIA. A group of JA operators, who are part of an aid program, are once again active as 5T5JA from Nouakchott until mid-November. Activity so far has been on 20 meters SSB, but they plan to be on 40-10 meters using CW and SSB. QSL via JA1BAB.

6TH IDXC ANNOUNCEMENT. The 6th International DX Convention organized by the Strange Radio Team (SRT) which will be held April 18-19th, 2009. The City will be Paestum near Salerno (fantastic Archeological Area) and the airport is Napoli Capodichino. More details will be forthcoming in January 2009. See last year's event at:
http://www.strangeradioteam.com/idxc/5th-idxc-2008.asp

6V, SENEGAL. Carsten, DL1EFD, will be active as 6V7N between November 23rd and December 5th. Activity will be mainly CW on all bands. He will also be in the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via his home callsign.

8Q, MALDIVES. Nobby, G0VJG, will be active as 8Q7CQ between June 1-15th (2009). This will be a limited operation because Nobby will be on his honeymoon (and he thanks his wife for putting up with him and the QRM). Activity will be from Kuredu Island (AS-013) mainly HF SSB but some 6 meters. QSL via Owen, G4DFI.

A5100, BHUTAN (Update). Members of the Clipperton DX Club (Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX) are now active from Thimphu using the special callsign A5100A until November 17th. Activity is to celebrate the 100th anniversary of the Kingdom of Bhutan. Operations will be on 80-10 meters (with three stations) using CW, SSB and the Digital modes (RTTY and PSK31). There is a possibility of 160 meters. By the time you read this, the team should have two stations on the air. Over the past weekend the team was on 80/40/30/20 meters. Modes have been CW, SSB and some RTTY. The team is expected to met with Pradan, A51PN, in the southern part of Bhutan after this operation, and they plan to be active from three different regions within Bhutan signing /p. QSL via F9DK. A new Web page has been set up for this operation at:
http://www.tuduri.net/f5lmj/A5/a5100a/a5-08-en.htm

C6, BAHAMAS. Operators Tom/N6BT and Fred/KE7X will be active as C6ARR and C6AKX, respectively, between November 23rd and December 1st. Activity will be on 160-20 meters. Both operators will also be in the CQWW DX CW

Contest (November 29-30th). Tom will be a Single-Op/Single-Band (160m)/ Low-Power entry. Fred will be a Single-Op/Single-Band (20m)/Low-Power entry. QSL both operations via WA4WTG.

C9, MOZAMBIQUE. Igor, UY5LW, will be acive as C91LW from Maputo between November 13th and December 2nd. Activity will be on 160-10 meters with 800 watts using CW, SSB and the Digital modes. He will also be in the CQWW DX CW Contest (November 29-30th) (possibly as C8WW -- if issued) as a Single-Op/Single-Band (40m) entry. QSL via his home callsign. For more details, updates, logs and photos, please visit:
http://www.dxer.com.ua/c91lw

CG9, CANADA (Special Event). All radio amateurs in Canada are welcome to use the following special event prefixes CG, CF, CH and CI between January 1st through February 28th (2009). Activity is to commemorates Galileo's first use of an optical telescope and the subsequent discoveries he made in his lifetime. Look for radio amateurs in Canada to use the following prefixes: VA stations will use the prefix CF
VE stations will use the prefix CG
VO stations will use the prefix CH
VY stations will use the prefix CI
ADDED NOTE: Paul, VE9NC, will be activating the special event prefix callsign CG9NC between January 1st through February 28th (2009). He will be active mainly on 20 meters on the Digital modes throughout this period. QSL via VE9NC.

CK9, CANADA (Special Event). All radio amateurs in Canada are welcome to use the following special event prefixes CK, CJ, CY and CZ, between now (started October 1st) through November 30th. Activity is to commemorates the founding of the Crown Colony of British Columbia in 1858. Look for radio amateurs in Canada to use the following prefixes:
VA stations will use the prefix CJ

Activity will be on 160-10 meters using CW and SSB. QSL direct to JA8BMK.

POSSIBLE NEW ONES COMING (SOON). It was reported on the SEDXC Mailing Reflector by Mike, K4PI: "Netherlands Antilles to net new DXCC Entities for 2008 -- Over the past year much discussion has been made about the possibility of new DXCC entities happening once the break-up/disbanding of the Netherlands Antilles takes effect on December 15th, 2008. This past week, the President of European DX Foundation (EUDXF), Hans, PB2T, who visited ARRL HQ in July and had a discussion about the DXCC status of Netherlands Antilles, feels that after December 15th, 2008, it looks like four new entities will be added to the DXCC list in the future (Curacao, Sint Maarten, Saba, Sint Eustatius and Bonaire)."

PSK QSO PARTY. Members of the European PSK Club invite all radio amateurs to participate in the 3rd EPC PSK63 QSO Party between 0000-2400z, Sunday, November 16th. For details on the rules, please visit their Web page at: http://eu.srars.org/index.php?option=com_content&task=view&id=66&Itemid=141

The following was received from Martti, OH2BH:

DX SUMMIT ALERT

The Old OH2AQ DX Summit Goes Offline November 19, 2008 at 1000 UTC

The new DX Summit website at http://www.dxsummit.fi/ debuted on May 23, 2008. The site has been redeveloped from the ground up and uses the latest technology available. The new DX Summit has been ramping up steadily and today the number of hits is approaching 1 million a day. In addition to providing the same functionality as the old DX Summit, the new platform offers the necessary flexibility to easily add new features which are currently on the drawing board.

The old DX Summit homepage at http://oh2aq.kolumbus.com/ redirects users to the new DX Summit website. However, all the old DX Summit data pages are still online but the trend for daily hits has decreased, as we expected. The number still remains high but the time has come to shut down the old DX Summit machine which may cause your software to stop working.

To try and maintain compatibility with older software which may no longer be supported, the new DX Summit includes a series of DX spot webpages which are 100% HTML compatible with the same pages on the old DX Summit. Simply changing the URLs in your software according to the information below should keep it working with the new DX Summit. If your software does not allow you to edit the URLs, please contact the author of your software and ask them to change the URLs according to the information below.

Software authors who wish to implement data exchange with the new DX Summit should visit http://www.dxsummit.fi/technical.aspx for information on data formats and URLs. If your software does not work with the new DX Summit, we encourage you to forward this information to the author of the software you are using.

We hope all software relying on the DX Summit can be successfully updated to work with the new DX Summit. We look forward to providing you with this valuable DX resource for many years to come!

73,

OH8X Team

CQ COMMUNICATIONS ACQUIRES WORLDRADIO MAGAZINE

(Hicksville, NY and Sacramento, CA, November 12, 2008) -- CQ Communications, Inc. has acquired "WorldRadio" magazine, CQ Publisher Dick Ross, K2MGA and "WorldRadio" Publisher Armond Noble, N6WR, announced jointly today. CQ, based in Hicksville, New York, currently publishes "CQ Amateur Radio, CQ VHF" and "Popular Communications" magazines.
"WorldRadio", based in Sacramento, California, has been published monthly since July, 1971, with a primary focus on the human side of ham radio. "CQ", a general-interest ham radio magazine best known for its support of DXing and contesting, has been in print since January, 1945.
Armond Noble, N6WR, Publisher of "WorldRadio", said that at the age of 74 the time had come for him to retire. "I wanted to be sure that 'WorldRadio' found a good home, and that our readers would continue to be served by an independent voice in amateur radio," Noble said.
"CQ" Publisher Dick Ross, K2MGA, said, "'WorldRadio' has filled an important niche in our hobby for nearly four decades. We

welcome "WorldRadio's" readers to the CQ family, and we look forward to
meeting their needs for many years to come."
Current plans call for "WorldRadio" to continue to be
published online as part of the CQ family of magazines, with Editor
Nancy Kott, WZ8C, continuing in that position. "WorldRadio" subscribers
will also have their subscriptions transferred to "CQ" magazine. Readers
will be notified of details as plans are finalized.

In 1958, when I had an "N" in my call, "dit-di-ditdit" was a Novice CQ call.
The reply should be a "dit-dit" - to which the dit-di-ditdit station would
send "QRZ?" and the calls would then be exchanged. It used to drive the old
timers nuts. HI HI

The ones that go to hamfests and custom embroider a name/logo onto a hat.

There being no hamfests in the DC region for many months, and me having
never asked their names/locations..... I thought this might be a place
to ask.

Haw! Like slapping the key to see if something tumbles out of the radio.
There was this crazy guy where he would make a mistake sending and get
carried away with a string of about 15 or 20 dits, then forget what he was
talking about and start playing popular tunes as if it were a one key piano!
He had actually bought the ham radio to use for CB, but the next door
neighbor kid (that I had Elmer'd) turned him on to code practice and Elmer'd
him to get his Novice, but then he would be back on CB giving code practice
to an Irate audience.

I'm all for encouraging the mentally handicapped, but maybe they should just
practice on toy radios first.

I finally resolved to NOT Elmer anyone else into ham radio until after we at
least went shooting in the hills first. That way if he turns out to be a
moron and shoots me or himself out of stupidity, at least I wouldn't have
done any damage. When I finally did take the kid out to the hills, sure
enough - he nearly killed us both by emptying a clip into a steel plate only
3 feet away!

JB - Do you remember "old yellow"? In my early days, his CQs went: "CQ CQ CQ, no kids, no lids, no K's or WA's CQ CQ." (and he wasn't kidding) What I get a kick out of are the know-it-all "old timers" now who jump on me if I ask them to repeat their "handle." A couple of times I have been lectured about how "handle" is a CB term, and I am on amateur radio now. Then I lecture them on how, when I started out, 11-meters was one of my ham bands and back them - before CB - we normally referred to someone's name as "handle." The CBers got the term from us. The only difference between a ham's "handle" and a CBers "handle" is that the ham's handle is usually the ham's real first name. I understand that for serious traffic nets and coordinating parades and such, some standardization & regimentation is needed, but the neuveau-old-timers need to stop taking the hobby so darn seriously. If it is a Russian station, send the letters "DSW" - it's sort of like CUL.

Just thought I'd ask.

Maybe Dang knows.

Whatever became of the bastard baby that Jesse Jackson fathered a few years ago?

Remember that? That was about the same time that the "Rev" Jackson was Father Professor and moral supporter for Bill Clinton.

Putting Jackson and Clinton in the same pod was poetic justice, a union that the mainstream Press conveniently ignored.

I can see Jesse leading Clinton in prayer. Then they went for a romp in the whore house that Clinton turned the White House into.

3B7, ST. BRANDON ISLAND (Update). Rachid, 3B8FQ/3B6FQ, says unforeseen difficulties have arisen with his working trip to St. Brandon (AF-015) that was expected to take place later this month. The trip has officially been delayed until sometime in 2009. Information will be announced as

soon as a new date has been scheduled. The callsign will be 3B7FQ. Meanwhile, Rachid is very active from Mauritius on 40-10 meters with an emphasis on the 30/17/12 meter bands. CW is Rachid's currently preferred mode. QSL via K5XK.

3DA, SWAZILAND (A "Flex-Pedition"). Remember to look for Dave, ZS6AVM, to be active as 3DA0VM between November 19-23rd. Activity will be on 40-10 meters. He will be using a Flex-5000A Software Defined Radio (Flex Radio Systems) and will be operating from Hawane Resort in Swaziland. Arrangements were made by African DX Safaris. Antennas and Tower were supplied by African DX Safaris.

5B, CYPRUS. Jack, RW3QC, will be active as 5B4AII during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/High-Power entry. QSL via RW3RN.

5R, MADAGASCAR. Remember to look for Eric, F6ICX, to be active as 5R8IC from Ile Sainte Marie (AF-090) this week between November 18th and December 14th. Activity will be CW on 30-10 meters. QSL via F6ICX.

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX CW Contest (November 29-30th) as Single-Op/All-Band/High-Power entry. QSL via NN1N.

9M2, WEST MALAYSIA. Rich, PA0RRS, will be active as 9M2MRS from Penang (AS-015) between November 17th and February 6th (2009). QSL via his home callsign.

9M6, EAST MALAYSIA. Bob, MD0CCE/N2BB, will be active as 9M6/N2BB from Sabah (OC-088) between November 25th and December 1st. His activity will include the CQWW DX CW Contest (November 29-30th), and he plans to focus on 160m before the contest, if local noise conditions allow. QSL via MD0CCE.

9M0, SPRATLY ISLANDS (Postponed). A team of six operators were expected to activate Pulau Layang Layang, Spratly Islands (IOTA AS-051), some time in March 2009 (1-14th was mentioned earlier). However, according to their Web page (dated November 14th): "Due to a combination of personal and logistical reasons unfortunately it has been necessary to postpone the proposed March 2009 Spratly Island DXpedition. It is hoped that the DXpedition will go ahead at a later date. Donations will be returned to those sponsors who kindly made contributions to the proposed DXpedition." Please visit their site at: http://www.spratly2009.com

A5100, BHUTAN (Update). Members of the Clipperton DX Club (Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX) should be finishing up their A5100A operation from Thimphu by the time you read this. As this was being prepared on Sunday, reports from the group state that at the end of their 9th day they have 5033 QSOs in log. Remember to QSL via F9DK. Their Web page for this operation is at:

AU2, INDIA (Special Event). Be looking for several Indian stations to
sign with the AU2 prefix between now and December 8th to commemorate/
celebrate the 150th anniversary of the birth of Sir Jagadeesh Chandra
Bose who they consider as the father of radio communications. See the
following Web page at: http://www.qsl.net/vu2msy/JCBOSE.htm
ADDED NOTE: Look for Surabhi, VU2DSI, to be active as AU2JCB on all
bands. QSL via e-QSL or direct using the info on QRZ.com: Dattatry
Deogaonkar, 'Surabhi', Meherabad, Ahmednagar 414006, INDIA.

C4, CYPRUS. Operators 5B4AIA, Alex/5B8AD, Andrei/RA9CKQ, Vlad/UA6LV and
Oleg/UA9CDV will be active as C4N during the CQWW DX CW Contest (November
29-30th) as a Multi-Single entry. QSL via W3HNK. Visit the contest
station's Web page at: http://www.c-4-n.com

C6, BAHAMAS. Brian, ND3F, will be active as C6AQQ during the CQWW DX CW
Contest (November 29-30th) possibly as a Single-Op/Single-Band (40m)/Low-
Power or Single-Op/All-Band/Low-Power entry. "Activity this year", Brian
states, "Will be different venue -- on New Providence Island (NA-001,
Nassau) at a house on the eastern road, near the water, but much lower
than the place(s) we've been before." Brian will arrive on the morning
of Thanksgiving (November 27th) and will return December 3rd. He informs
OPDX, "I will take antennas for 160/80/40/20/15/10, but this time will
probably operate 40m single band for the contest. Plan is to have a sloper
with passive directors for NW (US/JA) and NE (EU, etc), a dipole at 35 ft.,
and verticals with just a few radials on the other bands. It is possible
that I will be able to access 'Blackbeard's Lookout Tower' that is about
500 ft. away; if so I will hang a long wire and use that on all bands!
(Last year had better antennas at about 80 ft. on the top floor of a hotel;
they worked well!). Radio is a K3, may try to take a 250w amp (the legal
limit in C6A) if I can meet the new travel weight and size limits..." He
will be active outside of the contest. QSL via ND3F, direct preferred or
LoTW, but he runs about 1 year behind on bureau requests (he is currently
about 800 behind, and gets about 1000 cards a year for C6AQQ or more).

CW7, URUGUAY. Tom, K6CT, will be active as CW7T from La Paloma, Rocha,
during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/
High-Power entry. QSL via K5WW.

DXCC NEWS. Bill Moore, NC1L, ARRL Awards Branch Manager, reports that
the following operations are approved for DXCC credit:
A52AM - Bhutan; Operation from March 20th through September 26th, 2007
If you had a QSO rejected for credit within this date period
send an E-mail to dxcc@arrl.org to be placed on the list to
receive an update.
VU4MY - Andaman & Nicobar Islands; Operation from October 24th through
November 3rd, 2008
VU7NRO - Lakshadweep Islands; Operation from October 24th through
November 3rd, 2008

E5, NORTH COOK ISLANDS. Aki, JA1KAJ, will be active as E51QQQ from Manihiki Atoll (OC-014) between November 18th and December 9th. Activity will be on 80-10 meters using CW and SSB. QSL via his home callsign, direct or by the Bureau.

E7, BOSNIA-HERZEGOVINA (Special Event). Members of the Radio Club Trebinje (E73DPR) will be active as E760DPR until December 31st. Activity is to celebrate the 60th anniversary of their club. Most of their activity has been on 80/40/20 meters CW and PSK31. QSL via E73DPR. There is a log search at: http://www.hamradiors.org/index.php?option=com_searchlog&Itemid=78 The club's Web page is: http://www.radioklub.org

ER, MOLDOVA. Serge, UT5UDX, will be active as ER0WW during the CQ World Wide DX CW Contest (November 29-30th) as Single-Op/All-Band/High-Power entry. QSL via UT3UA.

FK, NEW CALEDONIA (IOTA Op). Jean-Pierre, F5AHO, will be active as FK/F5AHO from November 23rd to December 13th. He will stay on Grande Terre (OC-032) between November 23rd and December 5th, Lifou Island (OC-033) between December 7-8th, and Pins Island (OC-032) between December 10-12th. His activity will be on SSB on 40/20/17 meters. Watch the IOTA frequencies. QSL via F5AHO, direct or by the bureau.

FT5W, CROZET ISLAND (Update). Florentin, F4DYW, will be leaving Reunion Island on December 3rd, on the boat "Marion Dufresne". He is expected to arrive on Crozet Island around December 8th. He hopes to be on the air around December 10th or 15th using the callsign FT5WO. He will have a FT757GX, FD4 antenna and dipole. Florentin will be active on 40-10 meters SSB (and possibly 80m). He will stay there until end of November 2009, and will return back home in early 2010. QSL via F4DYW, direct or by the bureau after he returns back home. Look for updates on: http://f4dyw.free.fr/index.php?langue=fr&contenu=ft5wo.html

GB90, ENGLAND (Special Event). Look for Viv, G4PLY, to be active as GB90WWI until the end of December. Activity is to celebrate the 90th anniversary of the end of World War I. He will be operating from his home QTH on all HF bands mainly SSB and CW with occasional PSK. QSL cards are fine via the bureau.

IOTA NEWS.....
AF-019. Operators Tony/IK1QBT and Emilio/IZ1GAR will be active from Lampedusa Island (African Italy) between November 25th and December 1st. They will participate in the CQWW DX CW Contest (November 29-30th):
Tony as IG9X; as a Single-Op/Single-Band (80m)
Emilio as IG9W; Single-Op/Single-Band (40m)
They will concentrate on the lower bands prior to contest, as IG9/IK1QBT and IG9/IZIGAR. QSK via their home callsigns.

AS-015. Rich, PA0RRS, will once again be active as 9M2MRS from Penang Island (WLOTA LH-2743) between November 17th and February 6th (2009). QSL via his home callsign.

AS-159. Ozer, TA2RC, will be active as YM0T from Kefken Island during the CQWW DX CW Contest (November 29-30th) as a Single-Op/ Single-Band (160m) entry. QSL via TA2RC.

SA-027. Operators Lucio/PP5AVM, Carlos/PP5AX, Joaquim/PP5JY, Lira/ PP5LL, Mauricio/PP5WB and Mario/PP5MQ will be active from Paz Island, December 6-13th. They expect to use the callsign ZV5Z and/or ZV5V. Activity will be on 80/40/30/20/17/15/12/10 meters using CW and SSB. Their technical support comes from: Ezequiel/PP5HQ and Alfredo/PP5KDT. Mainland support: Osny/PP5AIM and Mauro/PP5ZZ. QSL via PP5CIT (direct with SAE + 1 IRC or 1 GS). For more details, visit: http://www.pazis.blogspot.com/

IPY ACTIVITY. Francois, F8DVD, announces that he will be active once again using the special callsign TM4IPY to celebrate the 4th International Polar Year (IPY). His activity will be between December 29th and January 11th (2009). Activity will be on 30-10 meters using CW, SSB and the Digital modes. A special QSL card (with a picture of the Concordia Antarctic Base) will be available by the French Bureau or direct to: Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, FRANCE (with 1 new IRC or 1 USD for Europe, 2 USDs outside Europe). TM4IPY has a reference numbers WAP-84.

J49, CRETE (Update). An Italian team will join a Greek team and be active as J49I from here between November 26th and December 1st. Look for activity before and during the CQWW DX CW Contest (November 29-30th) on 160-10 meters, mainly CW. Operators mentioned are: George/SV1RP, Bill/SV1BJW, Giannis/SV2FPU, Franck/I0UZF, Andy/IK0EFR, Franck/I0UZF, Luigi/IK0YUT and Iari/IZ0FWD. QSL Manager is IK0EFR. They now have a Web page at: http://www.j49i.com

KP5, DESECHO ISLAND (Update). Toshi Kusano, JA1ELY, has been named the Asian Pilot station for the 2009 KP5 DXpedition.

OA, PERU (Change In Plans In Activating Rare IOTA). Operators Rene/DL2JRM, Daniel/DL5YWM and Jorge/OA4BHY, who were expected to activate a very rare and difficult IOTA in the La Libertad Department Group (SA-075) called Guanape Islands between November 15-17th, had to change their plans. Daniel/DL5YWM informs OPDX that "due too some circumstances" the team had to change their destination to Isla Guanape Sur to Isla Corcovado, which also counts for SA-075. However, there is no lighthouse on Isla Corcovado. The team is still asking for soundfiles (mp3 or wav) and videos (YouTube) of their operation. Please send them to: dl5ywm@darc.de

P4, ARUBA. Marty, W2CG, will be active as P40CG between January 3-17th. His activity will include the ARRL RTTY Roundup (January 3-4th). Outside of the contest his operating time will be limited to early mornings and late evenings on 80-10 meters. QSL via his home callsign, LoTW or Bureau.

PACIFIC TOUR CONTINUES. Toshi, JA8BMK, is now QRT from Tarawa, Western Kiribati, as T30XX. By the time you read this, he should be active as T31DX from Canton Island, depending on his boat transportation. He will be there for 7-10 days. Activity will be on 160-10 meters using CW and

SSB. QSL direct to JA8BMK.

POSSIBLE NEW ONES COMING (Postponed!). It would seem that the new DXCC entities from the Netherlands Antilles are on hold for now. Guido van den Berg, PA0GMM, 1st Vice-President of the "Vereniging voor Experimenteel Radio Onderzoek Nederland" (VERON), informs OPDX that no new ones will take place on December 15th, 2008. He states, "Status of Netherlands Antilles will not be changed before 2010 (even 2010 is not guaranteed)."

RL3, EUROPEAN RUSSIA. Operators RL3FT, RN3QO, RU3RQ, RU4PL, RX3DCX, RV3BA, UA3ASZ and UA4LU will be active as RL3A during the CQWW DX CW Contest as a Multi-Single entry. QSL via W3HNK.

RT9, ASIATIC RUSSIA. Operators RX9WR, RU9WX, RA9WR, RW9WW, RV9WA, RV9WHN and RX9TL will be active as RT9W during the CQWW DX CW Contest as a Multi-Single entry. QSL via RZ9WWH.

S2, BANGLADESH (IOTA Op Delayed!). David, EB7DX, informs OPDX that the St. Martin's Island (AS-127), Bangladesh, in early December has been delayed. David states, "Due to not getting a special callsign in time from the authority, we are moving the date to end of December. A new date will be published very soon and new callsign too. Thanks for your understanding." Visit their Web page at: http://s2iota.eb7dx.com

SX5, DODECANESE. Efstathios, SV5DKL, will be active as SX5R from Rhodes Island (EU-001) during the CQWW DX CW Contest (November 29-30th) as a

Single-Op/Single-Band (15m)/High-Power entry. QSL only direct via info on QRZ.com. LoTW will be updated in just a week's time after the contest.

T8, PALAU (Update). Operators Tibi/HA7TM and his friend Pista/HA5AO, will operate from the Island of Koror (OC-009), in the Republic of Palau for 12 days between November 21st and December 3rd. HA7TM will sign T88CJ and HA5AO will be T88CI. Activity will be on all HF bands (160-6m) mostly on CW, and they will focus on Europe. Tibi/HA7TM, will be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via their home callsigns, direct or by the HA QSL Bureau. For more details, visit the following Web pages at:

TN, REPUBLIC OF CONGO. By the time you read this Karl, K4YT, should or will be active as TN4Y from Brazzaville. He told OPDX on Sunday, "I finally got my lost suitcases from Ethiopian airlines with the radio gear. I will be going in tomorrow to the PTT and hope they will issue me my license. The operating period will be short but I will try my best, work permitting." He will be there until November 21st. Remember, this is a work trip and not a DXpedition, so look for him in the early mornings and then after 1800z. He has taken his IC-706/keyer/tuner/G5RV antenna along.

UN4, KAZAKHSTAN. Nick, UN4L, will be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (80m)/High-Power entry. QSL via operator's instructions.

V3, BELIZE. Operators Terry/W6WTG and his XYL Sharon/N2OWL will be active as V31UR from Caye Caulker (NA-073 and Grid EK57) between July 21-29th. Terry plans to be active during the 2009 RSGB IOTA Contest (July 25-26th). Activity during the contest will be on 40-10 meters SSB. Before and after the contest Terry says he will be on 6 meters and possibly RTTY. QSL via W6UR.

VK9L, LORD HOWE ISLAND (YL Needed). Bill Horner, VK4FW, member of Oceania Amateur Radio DX Group Inc. (ODXG), reports that one more YL is needed to participate in the VK9LA DXpedition. Currently there are 2 YL hams going and 3 non transmitting YLs going. They need a third licensed YL op, and if any of you know of one please let him know at:
vk4fw@westnet.com.au
For updates, details on the DXpedition and how to donate to this operation, please visit the ODXG and VK9LA Web pages at:
http://www.odxg.org
http://www.odxg.org/vk9la.htm

VP9, BERMUDA. Seppo, OH1VR, will once again be active as OH1VR/VP9 between November 25th and December 2nd. He plans to be active in the CQ World Wide CW Contest (November 29-30th) as VP9I and as a Single-Op/ Single-Band (20m)/Low-Power entry. QSL OH1VR/VP9 via his home callsign. QSL VP9I via the CBA (not via OH1VR).

VU2, INDIA. Pai, VU2PAI, in Mangalore, will be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. Activity will be on 160-10 meters. QSL via VU2PAI direct (QRZ.com address).

XU, CAMBODIA (Also XV and XW). Tom, KC0W (ZD7X), who has been working here, expects to be active as XU7XXX in a few contests in the next several months. Look for him to be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Low-Power entry, the ARRL 160-Meter Contest (December 5-6th), the CQ 160-Meter CW Contest (January 23-25th [2009]) and the ARRL DX CW Contest (February 21-22nd [2009]) as a Single-Op/Low-Power entry. By the way, his 160m antenna will be a dipole/vertical placed on the beach 5 meters from salt water. In an excerpt from an E-mail sent to OPDX, Tom informs OPDX of the following: "Anyway, I relocated from St.Helena Island to Cambodia less than 2 months ago. I was ZD7X on St.Helena..... After 45,000+ QSOs as ZD7X.....I also plan on operating from Laos & Vietnam when my long term (6-8 month DXpedition from Cambodia is over). I visited Laos & Vietnam a few weeks ago scouting good DX locations. I found some real nice ones with great take off angles over the ocean, at least in Vietnam because Laos is land locked.
I have found a GREAT place here in Cambodia on the beach to string up a dipole over 100% salt water. I kick myself everyday for not bringing along a vertical for 160. Even one of those MFJ 80/160 verticals would work OK placed right over the salt water. I have spent the last month+ looking for tubing for constructing a 80/160 vertical. No such items exist here in Cambodia!!! Where is Texas Towers when you need them, hihi!!!
As long as propagation exists between us, I believe we should be able to work something out on 160.....I ONLY work CW.
Out of the 45,000+ QSOs I made as ZD7X over my 11 month DXpedition to St. Helena, I made about 240 160 meter QSOs. ON4UN (who I did work on 160) would have died if he saw my ZD7X 160 antenna. It was a 160 meter dipole with the highest point (the feed point) at 8' above the ground. The ends of the antenna sloped down to less than 3' off the ground. My rented home was about 1 mile from the ocean, so the direct effects of the salt water could not have been that great on the antenna.
I feel that my new 160 antenna with with both legs placed right over the ocean will help my signal pretty well.....Time will tell. As on St. Helena, it all boils down to propagation on 160. As you know, 160 is a VERY weird band according to openings.
You are correct not seeing my TENATIVE call of XU7XXX on the DX Clusters yet. It should be issued in the next 7-10 days or so according to the radio licensing guy I met with. My call must first be approved by the Cambodian Minister of Communications.....
Best from Cambodia, Tom - ZD7X, TO0O,KC0W (XU7XXX?)"
ADDED NOTES: QSL via KC0W, DIRECT ONLY. However, he mentions that QSLing may take up to 8 months or longer. He also states, "After operating from Cambodia for 3-4 months I plan on activating Laos and Vietnam for an extended DXpedition of up to 3 months in each country."

XV4, VIETNAM (Update/IOTA Op). Hans-Peter, HB9BXE, will be active as XV4BX from Phu Quoc Island (AS-128) between November 22nd and December 30th. Activity will be on 160-10 meters, mainly CW, using 100 watts only into a two element vertical and windom antennas. He will also be an entry

in the CQWW DX CW Contest (November 29-30th). QSL via EB7DX.

ZD8, ASCENSION ISLAND. Look for six members of the Cambridge University Wireless Society to activate Ascension Island (AF-003) using the callsign ZD8UW between December 31st and January 9th (2009). Operators mentioned are: Hugo/M0HSW, Tom/M0TJH, Simon/G4EAG, Michael/G7VJR, Gordon/G3USR and Martin/G3ZAY. Activity will be on all HF bands using CW and SSB. Logs will be uploaded to LoTW shortly after the DXpedition. QSL via G7VJR.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first official announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

ZY7, BRAZIL (Special Event). Look for ZY7EAM to be activated to celebrate "Brazilian Sailor's Day" between December 4-7th. Activity will be on 160-10 meters using CW and SSB. QSL via PY7GK, by the Bureau.

Hi, Andy...

A@> who jump on me if I ask them to repeat their "handle." A couple of
A@> times I have been lectured about how "handle" is a CB term, and I am on
A@> amateur radio now. Then I lecture them on how, when I started out,

I thought a handle was on a teapot...or what people use in emails or on
a BBS (hi hi).

I did a little CB work years ago (little is the operative word)...but I've
done more in amateur radio since I was first licensed in 1991, than I ever
did with CB.

I got into the hobby under the "No Code Technician" license in 1991, mainly
to help with Skywarn Severe Weather operations in central Arkansas (where we've

had our share of tornadoes and winter storms (more freezing rain than snow). I
missed 2 on the Novice written, and 6 (the max allowed) on the Technician
written. It took 7 weeks to get my ticket in the mail!!

My main involvement has been with running traffic and traders nets...first on
RF, then expanding to Echolink, and then CQ100. In fact, the folks on The Six
Meter Millenium Net (www.theneton6.net)...who do a net on 6 meters and Echolink
at 9pm Eastern Time Wednesday...gave me the idea for an Echolink Nets page in
March, 2006...and I recently added CQ100 Nets to it. There was a nice article
about The 6 Meter Millenium Net in the August, 2008 issue of QST.

After the FCC dropped the Morse Code requirement in February, 2007...and
almost 3 months after my XYL died of a heart attack, I decided on a lark to
sign up with HamTestOnline.Com to try and upgrade...although I wasn't all that
optimistic...as I was never that good with electronic theory.

Amazingly, 2 weeks after I signed up, I passed my General written!! Ecstatic,

I knew I had to go for "the big deal of the day behind Door Element 4" (hi
hi).
Thirteen days later...I passed my Amateur Extra written...barely...but, a win
by
1 is as good as a win by 10...just ask any coach (hi hi). That was the best $50
I ever spent on amateur radio!!

I then applied for, and got accredited with ARRL/VEC, and have been helping
with VE test sessions ever since...at local and regional hamfests, and around
the central Arkansas area...and that has been the most rewarding thing for me
in the hobby.

Unfortunately, hamfests and VE Test Sessions (let alone VEs) seem to be few
and far between in Arkansas. There may be only a half dozen "regularly

cheduled
hamfests" in Arkansas each year...and there is talk that Arkansas' biggest
ity,
Little Rock, may longer do a hamfest...folks don't want to get involved, or
hey
can't find an affordable place to hold one.

Also, where I live (H.U.D. subsidized housing for the disabled), doesn't
llow
outside antennas. So, the only "Extra Class Work" I do is with VE Testing...all
of the rest of it is what Technicians can do...nets on 2 meters and the VoIP
modes of Echolink and CQ100...but, I also do a local ham radio clubs website.
So, while I don't even have an HF station, at least I'm "radioactive" in some
way.

73,

Daryl, N5VLZ

... I CQ. Therefore, I HAM.

Hello Daryl -

Sounds like you are in there enjoying ham radio just like it was intended - having fun, leaning something, and also providing useful public service. After 11-meters went to the CBers, I got a CB license - KAZO9434. Didn't make many contacts as KAZO9434, but with the handle of King Zulu, lots of folks came back. Once Lady Bird Johnson went on the air publicly - without a license - the licensing of CBers was dead. However, when commuting long distance to contract jobs, I found CB a much bigger help on the road than my mobile 2-meter ham radio. Got caught one night in a blinding snow storm and with the help of CB radio and a kindly trucker, I was able to follow his tail lights for 75 miles on a road where I could not see the road or the edge of the road in my little Fiero. I still like to pound the brass (actually, wag the paddle), but can understand why CW is no longer required. I am slowly trying to catch-up on the new digital modes, but pretty much just an "appliance operator" these days. For those with antenna restrictions, Echolink is great. I like Echolink because I can work through the repeater in Greenville, NC - 300+ miles east of me. Greenville is where I started out as KN4YKZ. I passed the extra in Seattle back before "incentive licensing"; just barely got by on the code part of the test. (see "Last Exam on page 3 -> http://72.14.203.104/search?q=cache:IZ0EYQLP16MJ:www.wc8voa.org/download.php%3Fop%3Dgetit%26lid%3D6+%22Andrew+H+Kilpatrick%22&hl=en&gl=us&ct=clnk&cd=3) . Too bad about the antenna restrictions, Daryl. We have a good ham club in this area. Many of the retiree hams have similar restrictions, but operate contests from the club station and - of course - during field day. I am fortunate enough to be on a mountain with no restrictions and no close neighbors. Also, we have underground power and cable up here, which pretty much takes care of interference problems. Have fun and keep up the good work there in Arkansas, Daryl. 73, Andy K4YKZ

"Handle" has been ok to use on phone AM?SSB. I remember hearing it back in the 1930's on 160m.
Not kosher on CW. We used "RU" at one time to ask for a name on CW (= who are you) VE7AFN.

2008 LOW-BAND SUCCESS STORY FROM MARKET REEF
OJ0B & OJ0J 2005-2008 LOG SEARCH ONLINE

In case of any uncertainties about your low-band QSOs, here you have a much anticipated log search machine and a short recap.

http://df3cb.com/logsearch/oj0/

QSLing for the 2008 operation is happening as we speak. Additionally, all 2005 QSLs were sent to the bureau network some six months ago. All logs are open for QSLing.

We like to thank Bernd, DF3CB for setting up this log search for us. Our QSLing is done using his QSL management software.

FROM THE OFFICES OF ARCALA EXTREMES

ARCALA EXTREMES LAUNCHING CQWW CW TEAM

Snow and ice are present in the Far North at the home of OH8X, and preparations are underway to boost the signals globally, largely depending on a regular friend - Aurora Borealis. Pasi, OH2IW will be at the controls and running OH8X single-operator, all-band. Keep an eye on this station and observe its Northern sound. For more, see www.radioarcala.com.

The sister station CU2X will again be operated by Toni, OH2UA, following his smashing of the European SSB record by a wide margin. He is now determined to do the same on CW. This is from the new QTH, and you can read more at www.cu2a.com.

The second sister station TC4X in Asian Turkey will be activated by Martti, OH2BH, Pertti, OH2PM and Tefvik, TA1HZ. They are there to take the first steps for setting up a permanent station with more firepower while bringing a breath of old times to the game.

Adding to the lineup its X-rated signals will be the team's associated Eastern Aland Island super station signing OH0X, again mono-band, with Pekka, OH2TA at the helm.

Radio Arcala's propagation department, Ilkka, OH1WZ of Palos Verdes Sundancers fame will be in charge of the OH2BH station, mono-band, with his deep-space telescope to see whether the particles streaming down with the solar wind will pass Radio Arcala or hit it straight on the face.

And finally, representing the Arcala senior citizens department, Ville, OH2MM will be operating mono-band as CN2M as the guest of Jim, CN2R. This will be from Casablanca, Morocco.

Their ultimate categories are subject to a final decision when looking at the world on the starting grid minutes before the start of the race.

I hold an Italian Ham License (call iw2nsa) and shall be visiting
Chicago, Il., between Dec. 11 and Dec. 18.
A couple of questions.
1) where can I find the Fcc rules that authorize me to transmit
in the USA as long as I have with me my Italian (Cept) license?
2) in Chicago area, which are the most used frequencies? Which
repeaters are easily reachable with a handheld from downtown
Chicago?
3) should I ask the Hotel I am in an authorization (or permit) to
transmit from my room, or so?
Any other tip/suggestion will be welcome.
Thanks

You do not need permission to transmit from your hotel room.

You might start here:

http://www.arrl.org/FandES/field/regulations/io/

For repeaters, there are several; you might start with:

http://www.artscipub.com/repeaters/
http://www.ilra.net/DirByFreq.html

About the only sort of places in the US you would need authorization
for would be vessels and government facilities like military
installations.

The security people MAY get nerveous about you using a radio at an
airport, but there is no regulation to prohibit it.

I check into some of the Echolink and CQ100 Nets...the folks at the 6 Meter Millenium Net (www.theneton6.net) gave me the idea for a page of Echolink Nets almost 2 years ago (www.wx1der.com/elk.htm) -- I recently added CQ100 Nets. As lousy as HF has been lately (little sunspots and poor propagation), CQ100 still lets you talk to hams around the world. That Echolink Nets page also has a list of differences between Echolink and CQ100.

If the local club had a club station, I'd be working with it. But, life has gotten so darn busy, that folks are having to work 2 and 3 jobs to support themselves and their families...and have little time or money for their hobbies. Being a widower and fully disabled, with numerous health issues, I find it good to keep busy at the QTH...with more than one hobby, so I don't get burned out. That's is another reason many folks have left the hobby...they turned it into an obsession.

FOR IMMEDIATE RELEASE: November 18, 2008

CQ Magazine Calls on FCC to Resume Amateur Enforcement

(Hicksville, NY November 18, 2008) -- "CQ" magazine is calling on FCC Enforcement Bureau Chief Kris Monteith to move swiftly to name a successor to Riley Hollingsworth, K4ZDH, as Special Counsel for Amateur Radio, and to bring FCC enforcement back to the ham bands.

Writing in his "Zero Bias" editorial in the December 2008 issue, "CQ" Editor Rich Moseson, W2VU, noted that the Commission not only has failed to name a successor to Hollingsworth, but that not a single amateur enforcement action has been taken since his retirement this past July. At that time, the editorial noted, the amateur radio community was assured that the Commission's dedication to enhanced enforcement in the Amateur Service remains strong. However, the FCC's total inaction since July suggests otherwise.

"This is deeply disturbing and of grave concern," wrote Moseson, adding, "It would be a tragedy, and a travesty, if the FCC were to go back on

its promise to be there for us and allowed amateur enforcement to once again drop off the radar."

The need for continuing amateur enforcement was reinforced after the issue was went to press when "CQ" was informed of an outburst of racist diatribes on 20 meters, including the transmission of recordings of a Hitler rally and Nazi marching songs. "This type of behavior was all too common before 'Sheriff' Riley came to town a decade ago," noted Moseson, "and it quickly disappeared once it became obvious that someone in authority was paying attention. But now, only a matter of months since Riley handed in his badge, it has become obvious to these hams that they are once again free to do whatever they please without fear of any consequences."

"The FCC must get back into the amateur enforcement business, and it must do so quickly," says Moseson, "before the situation once again gets out of control. Enforcement Bureau Chief Monteith must act promptly to name a successor to Riley Hollingsworth and assure amateurs that they have not once again been abandoned by the Commission."

FOR IMMEDIATE RELEASE TODAY, NOVEMBER, 19, 2008, 10.00UTC

NEW DX SUMMIT TOOK OVER THE MOTHER OF ALL DX SUMMITS TODAY!

The Group at OH8X is honored to continue the services initiated by members of the OH2AQ Radio Club more than ten years ago. The original OH2AQ DX Summit was closed today at noon local time.

http://www.dxsummit.fi/

In the words of Wayne, N7NG, the President of Yasme Foundation, we capture the essence of this original innovation;

Yasme Foundation and the whole world of Amateur Radio congratulate Jukka Salomaa, OH2BUA, and Antti Kantola, OH5TB, for conceiving, operating and maintaining the DX Summit, the first widely-used Web-based spotting network portal. They created a tool that fundamentally changed the nature of HF operating, a true advancement of the radio art.

The New DX Summit is operated by Radio Arcala, OH8X, located in the Far North at the Arctic Circle, within the Aurora Belt, with a mission to encourage today's youth to make possible the impossible in the course of their own innovations through radio communication experience and related exciting theories.

Arcala Extremes is headquartered in Finland while operating in a European context. The message is global, and the experience is for us to share. Read about the Arcala mission and let your imagination fly to do your share among the young people and secure the continuation of this great passion that has enriched our lives and made the communication among people more effective and enjoyable. The New DX Summit and its future applications are targeted to be part of this vision.

Running the New DX Summit is supported by Yasme Foundation Inc.

>From the SK7BQ Award Group:

Due to the poorest condx on the HF bands in 54 years during 2008
the clubs involved in the Roskilde 1658 Award have unanimously decided
to prolong the award activities throughout 2009, until December 31, 2009.
Hopefully this decision will make it possible for all amateurs and SWLs
interested in the award to qualify for it.

Amateurs in our neighbouring countries should observe that we are also
active on 2m and 70cm when condx are good. A lot of DX on 2m have been
worked all over Europe with the award callsigns.

At the time of writing it is unclear whether the Danish wild card station
callsign OZ1658ROS can be prolonged during 2009. If not, another callsign
will be used. The Danish wild card callsign will be announced on the award
homepage <http://www.sk7bq.com/roskilde> as soon as our friends in OZ9EDR
in Roskilde get a decision from the telecom authorities. The Danish wild
card station will be QRV during 2009 with some callsign in any case.

The rules are now updated on the award homepage with new dates and the
online logs are up to date. The rules are available in English, Swedish,
Finnish, German and Dutch language. The entire award web site is available
in both English and Swedish.

Please note that the special rules for the award on February 26, 2008
also applies for February 26, 2009, the day of the Treaty of Roskilde.
Only two Swedish callsigns or one Swedish callsign and the Danish wild
card station need to be worked or logged during that day. All callsigns
involved in the award will be active during some part of February 26,
2009.

It is possible to see what callsigns you have worked on which bands and
what callsigns you miss in a matrix presented by the log search function.
The log search even tells you if you have qualified for the award or not.
Please note that the online logs are updated once a month so it might
take some time until your QSO shows up in the log. The last date in the
log for each callsign is mentioned on the log search page.

There is also an activity calendar on the award web site. Please note
that there might be activity that is not mentioned in the activity
calendar. However, all major activities are announced in the calendar.

There are links to DX cluster spots for all award callsigns on the
activity calendar page. Check the DX cluster for sporadic activities!

All awards are numbered in the order of incoming approved applications.
Licensed amateurs and SWLs share the same number series.

We do not QSL unless you have sent us a QSL direct or via the bureau.
Please observe the QSL information for each callsign under "QSL
information" on the award homepage.

All outgoing QSLs are handled by SK7BQ. They will be printed and sent
out direct or via the bureau during the spring 2009.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4L, GEORGIA. Operators Gia/4L4WW, Mike/4L4CR, Vaho/4L8A, Jim/UU1AZ, Andy/UU4JMG and Andi/UU0JM will be active as 4L0A during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via EA7FTR. The team will try to be active on the low bands before the contest.

7P, LESOTHO. Looks like a DXpedition by the 4M5DX Group and the African DX Safari will take place in July 2009. Callsign will be 7P8YV. QSL via IT9DAA. A Web page is currently under construction. Look for details to be forthcoming. Watch QRZ.com under 7P8YV.

8Q, MALDIVES. Operators Mike/UN7GC and UN7GU will be active as 8Q7GC and 8Q7GU, respectively, from South Ari Atoll 9AS-014) between November 30th and December 7th. QSL via their home callsigns. A Web site and more details are forthcoming at: http://www.8q7gc.com/

8Q, MALDIVES. Operators Willy/RN4WA, Vladimir/UN9LW and Igor/UA9CDC will be active as 8Q7DV during the CQWW DX CW Contest (November 29-30th) as a Multi/? entry. Igor states that this is a small scale DXpedition this time, and the beach/ocean is going to be main priorities outside the contest, so do not expect much activity. They will be there until December 6th. Activity will be mainly CW and SSB after the contest but are capable of PSK and RTTY as well. They will try to put up their 160/80m antenna, but there is no guarantee. With a bit of luck they should be on all bands in the contest. QSL via UA9CLB.

8Q, MALDIVES. Viktoras, LY1A, will be active as 8Q7RW from Chaaya Reef Ellaidhoo between November 28th and December 4th. Activity will be holiday style, mainly on the low bands during the CQWW DX CW Contest (November 29-30th). QSL via LY1A.

9M6, EAST MALAYSIA (IOTA Op). Saty, JE1JKL, will be active as 9M6NA from Labuan Island (OC-133) at Mohammed 9M6MO's QTH during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (80m) entry. Look for possible activity the date before the contest. QSL via JE1JKL. E-mail requests for Bureau return are welcome at: 9m6na@jsfc.org Visit his 9M6NA Web page at: http://jsfc.org/je1jkl/9m6na.html

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Kazunori/JK3GAD, Masaki/JO1DFG and Nozomu/JE8KKX. QSL via JH7QXJ.

AH6, HAWAII. Members of the new formed "Coconut Wireless Contest Club" will be active as AH6XX in the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry. Operators mentioned are John/K1ER, Dennis/K2SX, Rich/K2WR, Leslie/W2LK, Tetsuo/AH7C and Kan/JA1BK (KH6BK). QSL via K2WR.

B4, CHINA. Operators Dale/BA4TB and Rene/DL2JRM will be active as B4TB during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via BT4TB.

CE9/KC4/VP8, ANTARCTICA. Adam, KC4/K2ARB - CE9/K2ARB - VP8DKF, has informed OPDX that he will be active from the ALE Base Camp at Patriot Hills and the surrounding areas between December 18th and January 30th (2009). Activity will be on CW, SSB and PSK31 when workload permits. QSL via his home callsign. Read an article by Adam about his operation in the upcoming January 2009 issue of QST or follow his blog at: http://www.k2arb.blogspot.com

CO, CUBA. Luis, CO6LP, will be active during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via CO6LP, "DIRECT PERFERRED".

CS95/CT9, MADEIRA ISLANDS (Update). Andy, DJ7IK, informs OPDX that he has joined the German team of operators from the Rhein Ruhr DX Association (RRDXA) Contest Team as the 10th member to be active as CT9L during the CQWW DX CW Contest (November 29-30th) as a Multi-? entry. QSL via DJ6QT. Outside the contest, operators will sign using the special callsign CS95A. Their operation will take place between November 25th and December 4th. The other operators mentioned are: DJ7JC, DF1AL, DK3QZ, DL1XW, DL2OBF, DL3HAH, D3LQQ, DL5XX and PA0R.

DP1/DP0L, ANTARCTICA (AN-016). Operators Torsten/DL1TOG and Felix/DL5XL will be working at the German Antarctic station "Neumayer II" and are expected to be active as DP0GVN during their spare time. QSL via DL5EBE. Also, look for Felix/DL5XL during February in 2009 to activate the new station base "Neumayer III" (replacement of the old scientific base - see the Web page: http://tinyurl.com/69m5sd). Felix plans to operate with his old callsign DP1POL from the new station until early 2010. QSL via DL1ZBO. This station will have a new WAP reference number WAP DEU-08 once activated.

DXTELNET (New Version Available). Fabrizio, IK4VYX, informs OPDX that a new version of DXTelnet32 (5.5) is ready for download at:
http://golist.net/dldxt.cfm
This new version provides full support to the new DXSummit through DXPlorer32. DXTelnet, a great TelNet program for DXers, has been around since 1996. Fabrizio states a new feature has been added for IOTA fans. He has added a new shortcut to the RSGB Web site IOTA search engine; just press Ctrl+F12 then type the ID of any IOTA island (example: eu001) and you'll get plenty of info about it directly from their site. For more info you can contact Fabrizio at: dxtelnet@gmail.com

H4, SOLOMON ISLANDS. Mike/KM9D and his girlfriend, Jan/KF4TUG, have anchored the "Don Henry" off the shores of Ke Asai Island in the Ontong Java Atoll (OC-192) group. Mike as H44MY has been very active on 160/20/17/15/12/10 meters CW, while Jan as H44TO has been active on 40/20/17/12/10 meters SSB. Remember to QSL via OM2SA. You can track the "Don Henry" at:
http://www.findu.com/cgi-bin/track.cgi?call=KM9D

HB0, LIECHTENSTEIN. Operators Chris/DK9TN and Matt/DK4YJ will once again be active as HB0/homecall between November 27-30th. Their activity will include entries in the CQWW DX CW Contest (November 29-30th). Look for HB0/DK4YJ to be active as a Single-Op/Single-Band (40m) entry and HB0/DK9TN as a Single-Op/Single-Band (80m) entry. QSL via their home callsign. Visit their DXpedition Web site at: http://www.dk9tn.de/2008-hb0-cqww-cw

IOTA NEWS.....
AS-199. Sara, VU3RSB, informs OPDX that he and Frank/DL4KQ, Kumar/VU2BGS and Bapuji/VU3KET will be activating Nachugunta Island (a new IOTA), India, in the Andhra Pradesh South State Group between December 4-7th. The team will use the callsign AT2RS. Activity

will be on 80-10 meters (no 30m). Modes were not mentioned.
They plan to have at least 2 stations, possibly 3, on the air.
Two QSL Managers have been named:
W3HNK - For North/South America (direct or by the bureau)
DL4KQ - For the rest of the world (direct or by the bureau)
The group is looking for support for activating this new IOTA
and possibly some other India islands in the future.

NA-133. The 5K0T team is now active from Serrana Bank until December
1st. They did not operate from Roncador Bank "due to lack of
a suitable location." However, they plan to relocate to Bajo
Nuevo (NA-132) on December 2nd and operate from there until
December 6th. Both reefs are part of San Andres region (HK0).
QSL 5K0T via HA7RY. For HK0/HK3JJH QSOs, QSL via HK3JJH. For
more information and updates, visit their Web page at:
http://www.5K0T.com
ADDED NOTE: Some photos of the operation by HA7RY can be
viewed by clicking the photos tab on the above Web page.

OC-133. Operators Steve/9M6DXX and John/9M6XRO will be active as
homecall/p from Labuan Island between November 24-28th. Their
activity will be mainly SSB and CW hopefully on all bands
160-10 meters using 400 watts. John states, "A few other ops
are going from the SEANET group, so there may be other calls
in use as well. We are taking 2 rigs, but as we have no bandpass
filters, we will only be able to run two stations if we can get
enough separation between the antennas." QSL via M0URX.

SA-066. (Update) Members of the 4M5DX Group will be active as YW1TI
from Toas Island during the last weekend in November. Activity
will be on 160-6 meters using CW, SSB and RTTY. Team members
are: Alex/YV5SSB (team leader, SSB), Manuel/YY4MP (SSB),
Rafael/YY4RN (CW/SSB), Franco/YV1FM (CW/Digi), Rainer/YV5EU
(CW), Olli/OH0XX (CW), Jesus/YV5MSG (SSB), Jose/YV5TX (Web/
Logistci) and Andreina/YY4AND (SSB). This operation is good
towards the Venezuela Islands Award. For more details, visit
their Web site at: http://yw1ti.4m5dx.info

J8, ST. VINCENT. Dave, G3TBK, will once again be active from here and
will sign J88DR during the CQ World Wide DX CW Contest (November 29-30th)
as a Single-Op/All-Band entry. Activity outside of the contest will be
on all HF bands, especially 30/17/12 meters, but mostly on CW. QSL via
G3TBK, direct or by the RSGB Bureau.

KN0, UNITED STATES (FISTS Op). FISTS member Chris, KC8ZGW, will activate
the special callsign KN0WCW between November 23-29th, from Ohio. QSL via
info on QRZ.com.

KP5, DESECHEO ISLAND (Press Release #2, November 23rd - DXpedition Dates
Announced). "The U.S. Fish & Wildlife Service has notified the team that
February 12-26, 2009, will be the dates allocated for the radio operation.
These dates are coordinated with other USFWS research activities scheduled

on other parts of Desecheo Island as well as scheduling USFWS security personnel for the camp.
Fifteen operators will be allowed on the island at any given time. A total of 6-8 stations will be operational, including 160-6 meters.

A reconnaissance trip to Desecheo is scheduled for Friday, December 19th. Three team members, USFWS personnel and an UXO (unexploded ordnance) expert will sweep and clear the assigned area of UXO and other hazards. There will be no radio operations.

The 15-man team will assemble in Puerto Rico on February 8, 2009, for mandatory UXO training. The next three days will include team operations training, and last minute preparation and staging of the several tons of equipment for transport. On February 12th, landing will commence and two stations will be immediately activated. Likewise, stations will continue to operate until the final moments before departure on February 26th.

Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week.

The team has been diligently planning antennas and propagation paths to take advantage of every possible band opening to Asia, where Desecheo is #2 on the Most Wanted List and to Europe, where it is #3 on the Most Wanted List.

Contributions are being solicited. To assist us and for the latest news, please go to the team's website: http://www.kp5.us

Director Chuck Ternes N6OJ
Director Glenn Vinson W6OTC
Director Steve Merchant K6AW
Director Ken Anderson K6TA
Director Tim Totten N4GN
Director Glenn Johnson W0GJ

After 35 years of dedicated service, Rusty Epps, W6OAT, chose to retire from the board.
Information pertaining to the Northern California DX Foundation is available at: http://www.ncdxf.org

NEW HA-IPARC AWARD AVAILABLE. Gab, HA3JB, informs OPDX that a new "HA-IPARC (Hungarian-International Police Association) Award" is available by only making 3 different QSOs with the callsigns listed on the HA-IPARC Web site. For details on the award, visit: http://www.ha3jb.com/award.html
Also, a new online log search is available at: http://www.ha3jb.com/onlinelog
ADDED NOTE: Gab states that the CN2IPA QSL will be out soon. Those who send for a QSL, please write your E-mail address on your card, and he will advise you by E-mail when your QSL arrives.

OD, LEBANON. Salvo, IV3YIM, is now active as OD5/IVV3YIM until April 20th (2009). Activity is expected to be 80-10 meters using SSB with a possibility of some CW, RTTY, PSK and operations on 160/30/17/12/6 meters. QSL via IV3YIM, by the Bureau or direct to: Salvo Vitale, P.O. BOX 52, Gorizia, ITALY ZIP 34170.

OX, GREENLAND. Operators Ian/G3WVG and Nigel/G3TXF plan to operate as OX5AA during the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry from the club station in Kangerlussuaq (Sondre Stromfjord) on the westcoast of Greenland. QSL via G3TXF. See the station at: http://www.g3txf.com/dxtrip/OX5AA/OX5AA.html

PG6, THE NETHERLANDS (Special Event). Operators Peter/PA8A, Fred/PA8F and Rob/PA3GVI will once again activate the big array, formerly used to broadcast "Radio Netherlands", with the special callsign PG6G between 1200z, November 27th and 1200z, November 28th. The array antenna is a curtain antenna with 8 stacked dipoles between two 400 feet towers. Radiation angle is about 7 degrees and a gain of approximate 22 dB!! Their activity will be on CW and SSB, mainly on 40 meters. QSL via PA3GVI.
See a video from their last visit at: http://uk.youtube.com/watch?v=3vE1zk60v3E

POSSIBLE PIRATE. Ken, G4RWD (ex-ZF1WD), reports that the a "ZF1WD has been spotted on the DXCluster recently with QSL information stated as 'via G4RWD', which is incorrect. Whilst I have operated several times in the past as ZF1WD, I have not been there since 2002, neither did I keep the license up to date due to the cost involved. I can only assume that the callsign ZF1WD has either been re-issued by the Cayman licensing authorities, or that this is a pirate operation. I can't find any reference to this current ZF1WD operation, so I assume the latter."

QSL INFO AND NEWS.....
QSL Routes. Johannes, DK8JB, reports that an interesting link to visit for QSL routes that date back to 1987 is: http://f6gcp.free.fr/Base/

DO YOU HAVE THE CORRECT ROUTE? George, K6GT, Northern California Contest Club's (NCCC) QSL Manager/Station Trustee for the club's callsign K6ZM, informs OPDX that he has been receiving several QSL requests for cards for 8P9AG. The original holder of K6ZM, Phil Frazier, passed away in

1991, and he had used the 8P9AG callsign on a trip to 8P-land in the '80's. Clearly, since his key has been silent since 1991, he has not had any 8P operations since then. Apparently, Andy, DL9USA, was reissued the callsign and was active at the end of 2007. QSLs for that operation should go to DL9USA at: Andreas Glaeser, PF 100 246, 03122 Spremberg, Germany.

DID YOU WORK KP4AO on November 23rd? Special event station KP4AO was activated by the A.R.C. Arecibo Observatory. Activity was to celebrate 45 years of operations at the Arecibo Observatory Radio Telescope. For every QSL received, a certificate will be issued. It would be desired for a #10 BUSINESS SIZE SASE to be included with your QSL.

SPECIAL EVENT (Update). As announced in special bulletin OPDX.884.2, the "Roskilde 1658 Award" has unanimously decided to prolong the award activities throughout 2009, until December 31, 2009. It has now been announced that the Danish wild card special event station OZ1658ROS will also continue to be active on the air. For updates about all of the special event stations and details/rules about this Swedish/Danish award, visit: http://www.sk7bq.com/roskilde

T4, CUBA. Operators Orelvis/CO6LC, Yanco/CM6RCR, Yordany/CM6YAC, Carlos/CO6CAC, Luis/CO6LP and possibly others will be active as T46G during the ARRL DX SSB Contest (March 7-8th) as a Multi-Single entry. QSL via CO6LC, direct only.

TA, TURKEY. Members of the Telsiz ve Radyo Amatorleri Cemiyeti (TRAC) from Mustafakemalpasa Subesi will active as TA3KZ during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. Operators mentioned are Gosho/LZ1ZF, Ilian/LZ3GA, Nadir/TA3CN and Huseyin/TA3CE. QSL via TA3KZ.

VK9L, LORD HOWE ISLAND (More Ops Needed). Bill Horner, VK4FW, member of Oceania Amateur Radio DX Group Inc. (ODXG), reports, "We are looking for more operators (couples or singles) for the VK9LA DXpedition after securing

extra accomodations at a second boarding lodge. As the island is almost full, we need to act now to get this finalized. The ODXG and VK9LA Web pages have details of the operation. As the plane is already full on the arrival and departure dates, it will be necessary to arrive a day early and leave a day later. I will change my flight to arrive a day earlier to allow me to start unpacking and setting up. Urgently, E-mail me if this suits any of you." If any of you are interested, let him know at: vk4fw@westnet.com.au
For updates, details on the DXpedition and how to donate to this operation, please visit the ODXG and VK9LA Web pages at:
http://www.odxg.org
http://www.odxg.org/vk9la.htm

VP2E, ANGUILLA. Takahashi, NY6X/JN1RVS will be active again from the Caribbean as VP2ETN from Shoal Bay, Anguilla, until November 29th. He was spotted this past week on 40/30/17 meters. Look for him on CW, PSK31 and RTTY. QSL via JN1NDY.

VU2, INDIA. Prasad, VU2PTT, will be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via the LoTW or direct using the info on QRZ.com.

XW, LAOS. Bruce, XW1B, will be active in the CQ 160-Meter CW Contest (January 23-25th) as a Single-Op entry and the ARRL DX CW Contest (February 21-22nd) as a Single-Op/Single-Band (possibly 40m - if his new yagi is up by then) entry. QSL via E21EIC.

YE1, INDONESIA. Members of the Bekasi DX Contest Club (YE1ZAT) will be active during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. Operators mentioned are Joz/YD1JZ, Danu/YD1GCL, Terry/YC1KAF, Yon/YB1CCF, Arif/YE1AA and Heri/YB1KAR. QSL via YE1ZAT, by the Bureau, e-QSL or direct via info on QRZ.com.

YW0, AVES ISLAND. The 4M5DX Group has announced that another DXpedition to Aves Island as YW0A will take place sometime between February and March of 2009. More details will be forthcoming.

ZM4, NEW ZEALAND. Operators Ken/ZL4NR, Mike/ZL4OL and Chris/ZL1CT will be active as ZM4A during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via ZL4AA.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first official announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V, TUNISIA. SWL Ashraf, 3V4-002, will be active as 3V8SS from the "Radio Club Station of Tunisian Scouts" in Sousse, and in his first ever CW contest (CQWW DX CW Contest) as a Single-Op entry. QSL via the Bureau. Also, read about Ashraf on his Web page at: http://ashraf3v4002.wordpress.com

5X, UGANDA. Robert, S53R, will be active as 5X1AB (from Arik/5X1AB's QTH) during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/ High-Power entry. QSL via K6EID. Activity will be mainly 40/20/15/10 meters. See Arik's Web page at: http://www.ek6do.com

5C, MOROCCO. Members of the URE Cartagena team will be active from the club station CN8MC in Rabat as 5C5T during the CQWW DX CW Contest (November 29-30th) as a Multi-Single/Low-Power entry. QSL via EA5YU, by the Spainsh Bureau or direct. Operators mentioned are: Juan/EA5BLJ, Jose/EA5CP and Jose/EA5YU.

7X, ALGERIA. Frantisek, OK1DF, will be active as 7X0RY from Alger during the CQWW DX CW Contest (Novemmber 29-30th) as a Single-Op/Single-Band (40m) /High-Power entry. QSL direct to OK1DF: Zuzana Rybarova, P.O.Box 109, 11121 Praha 1, Czech Republic.

8Q, MALDIVES. Andy, G7COD, will be operational for the fifth time from the Island of Embudu in the Kaafu Atoll (AS-013) using the callsign 8Q7AK between January 11-27th (2009). Activity will be CW and SSB on 40-10 meters including 30/17/12 meters. He plans to be operational every day from approximately 0730-0830z, 0900-1030z, 1300-1500z and 1730-1800z. Suggested frequencies are:
CW - 7003, 10103, 14003, 18073, 21003 and 24893 kHz (+/- for QRM)
SSB - 7063, 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz)
For comprehensive details on QSL information etc, please check 8Q7AK on QRZ.COM. IMPORTANT NOTE FROM ANDY: "I am completely up to date with the return of QSLs for those received direct and/or eQSLs from previous activations. If you have not received yours, please send your QSL again. If you have not received a return QSL for cards sent via the bureau, this is because of the slow process rate. I will return cards via the bureau as soon as possible, as and when I receive them from the bureau. All QSLs should be sent via the bureau or direct to G7COD. Also, please note that 8Q7AK is approved for DXCC credits."

A3, TONGA. Dave "Kawe", W6ZL, had a brief operation as A35KL between 2200z, November 24th and 1800z, November 25th, from FOA Island (OC-169) in the Ha'apai Island Group, thanks to Paul, A35RK, who loaned him a Kenwood TS-570D. His antenna was a full wave horizontal loop on 20m, about 3m above the sand. Kawe states that he made 56 contacts (where 48 were on CW) with all continents except Africa. He is expected to leave for New Zealand (did not mention if he will operate from there) on December 6th, but plans to return again and possibly operate from the same place around 0000z, December 17th until 1800z, December 19th. QSL via W6ZL, SASE or new style IRC, or via the LOTW (may not be able to post log until after his return to U.S. around Christmas time).

A5100, BHUTAN (Update/QRT). Members of the Clipperton DX Club, active as A5100A, went QRT at 2130z on Monday, November 24th, making some 5805 QSOs.

AN8, CANARY ISLANDS. Luis, EA8AY, will use the special callsign AN8R during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Assisted/High-Power entry. QSL via EA8AY. Visit his Web page with a Web cam on it at: http://www.ea8ay.com/an8r

CQ News (CQ RTTY Contest Director Named). Richard Moseson, W2VU, Editor CQ Amateur Radio, sent out the following press release: Ed Muns, W0YK, Named CQ RTTY Contest Director (Hicksville, NY November 24, 2008) -- Ed Muns, W0YK, of Los Gatos, California, has been named Director of 'CQ' magazine's radioteletype (RTTY) contests, 'CQ' Editor Rich Moseson, W2VU, announced today. 'CQ' sponsors the world's two most popular annual RTTY competitions, the CQ World Wide RTTY WPX Contest each February and the CQ World Wide RTTY DX Contest every September.
Muns succeeds Glenn Vinson, W6OTC, who has been CQ's RTTY Contest Director since 2000, and who guided the events to their current levels of popularity. The number of logs submitted for the RTTY DX contest has tripled in the past eight years despite declining sunspots throughout the period. "I am glad to have had this opportunity to help promote RTTY contesting," says Vinson, adding that Muns has already been working closely with other members of the CQ RTTY Contest Committee, software authors and other CQ contest directors to assure a smooth transition. "I feel very confident that these contests will continue to gain strength year over year."
Ed Muns was first licensed in 1962, and has been contesting since the 1970s. He has been active in RTTY contesting since 2004 and very quickly set two world records in operations from Aruba. He has also been the NA RTTY Sprint contest manager since 2005. Professionally, Ed is retired from a career as an engineering executive for Hewlett-Packard, and currently owns and operates a Pinot Noir vineyard in California that he started ten years ago.
Both Glenn and Ed point out that Glenn's original plan had been to transfer responsibility for the CQ RTTY contests to his co-director for the past several years, Paolo Cortese, I2UIY. However, Paolo unexpectedly became a Silent Key in October 2008. Ed stepped in to fill the void that was created by Paolo's passing.
"We thank Glenn for his many years of service to our RTTY contests, and his great success in building up their popularity," noted 'CQ' Editor Moseson, "and we welcome Ed to the CQ 'family' with thanks for his willingness to step up to the plate on short notice and take on this responsibility."

C9, MOZAMBIQUE (Update). Igor, UY5LW, continues to be active as C91LW from Maputo until December 2nd. Activity will be on 160-10 meters with 800 watts using CW, SSB and the Digital modes. He will also be in the CQWW DX CW Contest (November 29-30th) using the callsign C98LW from Inhaca Island (AF-066) as a Single-Op/Single-Band (40m) entry. QSL via his home callsign. For more details, updates, logs and photos, please visit: http://www.dxer.com.ua/c91lw

CK2, CANADA. Operators Nelida/LW8EXF, Claudio/VE2DWA, Gary/VE2GK, Rich/ VE3KI and Davis/VO1AU will be active as CK2DWA during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via VE2DWA.

DV1, PHILIPPINES. Alex, DV1UBY, will be active during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (15m) entry. QSL via DV1UBY direct.

E4/OM2DX VIDEO ON YOUTUBE. Steve, OM3JW, reports that a short video clip of the Slovak DXpedition to Palestine (between December 14-22nd, 2007) as E4/OM2DX can be viewed at: http://de.youtube.com/watch?v=6HDNMUvgkBo

E7, BOSNIA-HERZEGOVINA.....
Tomislav, 9A2AJ, will be active as E77CFG from the "Gradski Radio Klub 'Nikola Tesla' Brcko" during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band(160m)/Low-Power entry. QSL via LoTW, Bureau, direct or e-QSL.

Emir, OE1EMS, will be active as E7DX during the CQWW DX CW Contest (November 29-30th) as a Single-Op/ALL-Band/High-Power entry. QSL via E77E.

Operators Edo/E73CW, Daniel/E73M, Boris/E73Y and Edin/E74A will be active as E73M during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via K2PF.

EA6, BALEARIC ISLAND. Julio, EA3AIR, will be active as EA6IB from Ibiza Island during the CQWW DX CW Contest (November 29-30th) as a Single-Op/ Single-Band (40m) entry. QSL via EA5BM, by the Bureau, LoTW or direct to: P.O. BOX: 309 CP 12540 VILA-REAL (CS) SPAIN.

EA8, CANARY ISLANDS. Mauri, OH2BYS, will be active as EA8CMX during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (80m) entry. He is testing a 3 element wire beam. QSL via OH2BYS.

EP, IRAN. Moshen, EP3SMH, has been operating on 20 meters RTTY around 1400z. He has been calling for North America on a regualar basis. It is suggested to LISTEN because Moshen likes to operate simplex.

FR/G, GLORIOSO ISLAND. Over the past few weeks many have been asking, "Where is the Glorioso DXpedition?" All we can say is there is nothing being reported on their Web page. However, the editor of "QRZ DX" reported this week, "Over the past weekend I (Carl, N4AA) got the following word from the Team, 'The DXpedition is still on, but is delayed until 2009 due to difficulty of scheduling transportation.'"

FT5Y, ANTARCTICA (Update). Nicolas, F4EGX, continues to be active as FT5YI from the French scientific station "Dumont D' Urville" during his free time until mid-December. Jean-Michel, F6AJA, reports that he received an E-mail from Nicolas, and he stated he will try to be on the air between 2300z and 0200z for North America. Watch around 14267 kHz. Also, watch for activity Saturday night from 1500-1700z around 14272 kHz. QSL via F4EGX. Take a look at some of the interesting photos he is putting on his Web page at: http://f4egx.homelinux.net

HC5, ECUADOR. Hiro, JA6WFM, will be active as HC5WW during the CQWW DX CW Contest (November 29-30th), as a Single-Op/Low-Power entry. QSL via JA6VU, direct or LoTW.

HR2, HONDURAS. Gus, LU1DY, will be active as HR2/LT0E during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via HQ2LAS.

HS, THAILAND. Operators Cy/HS0GBI and Winit/HS1CKC will be active during the CQWW DX CW Contest (November 29-30th). Look for them to be on the following bands:
HS1CKC - Single-Op/Single-Band (160m/window 1800-1825 kHz); QSL via HS1CKC by the Bureau.
HS0GBI - Single-Op/Single-Band (80m/window 3500-3540 kHz); QSL via HS0GBI by the Bureau.

IOTA NEWS.....
EU-189. In a update by Col, MM0NDX, in regards to Isle of Rockall, he states, "Never been a better chance of this rare one being activated. There is potential that more than one trip to Rockall will occur next year, but still to be finalized. Will provide more info when known." In a press release by Island Man/Andy Strangeway, he states, "I appreciate it would appear that there has been little news in the last few weeks, but I can assure everyone that things have certainly been moving. I expect before Christmas that news of transportation to Rockall being secured will be announced. Working in tandem with my friend Col, MM0NDX, I am acutely aware of the interest shown in EU-189. With this in mind I would like to invite radio hams, be they individuals or clubs, to contact me with their proposals to be part of this exciting expedition. I require the following information to be included in the proposal.
* The maximum and minimum number of berths that would be required.
* A CV of previous radio activations of those that would be involved.
* Any information of additional skills that would strengthen the depth of the expedition, for example any crewing of yacht/boat, tender experience or climbing ability.
The countries who have so far shown the greatest interest in the expedition are Belguim, France, Japan, Norway, UK and USA. I would especially like to hear from Japanese radio hams as not one operator from Japan has ever contacted Rockall. EU-189 is the most wanted IOTA in Japan.
Once the transport has been secured, the team for the expedition will be selected and dates announced. A website can be built especially for the radio hams and a QSL manager is already secured should you require these extras. For all proposals in the first instance, please contact Andy at info@island-man.co.uk within the next seven days." To keep updated on the Island Man's Rockall Expedition 2009, visit the following Web site to see the latest news at: http://islandmanrockallexpedition2009.com/

* The Documentary Archive Radio Communication provides, on its Web site <http://www.dokufunk.org>, a special coverage of the forthcoming KP5 Desecheo DXpedition: A first exclusive interview with Co-Team Leader Glenn Johnson, W0GJ, and extensive background information on this and all prveious KP5 expeditions. Further interviews before, during, and after the February 2009 Dxpedition are scheduled.

OD5, LEBANON. Jean-Marc, ON4JM, is once again in the southern part of Lebanon near the city of Tibnin and is signing OD5/ON4JM until mid-December. As part of the Belgian Army, he is there to assist the United Nations Forces. Jean-Marc's activity will be limited to his spare time. He plans to be active on the HF bands using CW and SSB. QSL via the ON Bureau; for direct QSLs via his home address. For more details, visit his Web page at: http://www.on4jm.net/pages/bluerings_s5pag.html

OH0, ALAND ISLAND. Simo, OH2LRE, will be active as OH0/OH2LRE during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via his home callsign OH2LRE.

PIRATE ALERT. Several sources are stating that C31FF is a pirate, so don't send your QSLs and save your green stamps.

QSL INFO AND NEWS.....
8Q7GU & 8Q7GC QSL INFO. QSL by the Bureau or direct. For the Bureau, QSL to: UN-QSL Bureau, c/o Mr. Sergey Borissov (UN1II), P.O.Box 113, 03000 Aktobe, Kazakhstan. The Kazakhstani QSL Bureau is a reliable service, but it may take up to 4 months to see your cards. If QSLing direct, it is recommended to include 1 IRC (and not green stamps). In case if you cannot get a hold of IRCs then please include 2 USDs (unfortunately 1 USD is not sufficient). IRCs are easily exchanged with the postal stamps and ensure air mail reply. Direct address are:
8Q7GU - Mr. Andrey Kvochkov, P.O. Box 179, 050000 Almaty, Kazakhstan
8Q7GC - Mr. Mikhail Chirkov, P.O. Box 15, 050009 Almaty, Kazakhstan

9A0IARU QSL INFO. Emir, 9A6AA, reports that during IARU R1 Conference in Cavtat (close to Dubrovnik, Croatia, November 15-21st), operators (guest) made over 4200 QSOs using the special callsign 9A0IARU. QSLs are ready, but save your money and don't send your card. Everyone who is in the log will get his card via bureau! PLEASE NOTE: The Croatian Postal system has issued a postage stamp commemorating that event: http://www.posta.hr/UserDocsimages/marke/0702.jpg

VK9DWX QSL/LOTW STATUS. According to the VK8DWX Web page, the team states, "We already received over 1800 direct QSLs and over 3500 online requests through the OQRS. The design for our QSL card is in progress. We expect to get the QSL cards from the printer before X-mas. The first direct cards should be sent at the turn of the year. We again want to encourage you to use our Online QSL Request System if you have not already done it. It's a lot less work for us and you will get your QSL card much faster. If you have already donated but not entered your data in the online form, you may do it now to get your QSL directly to your address. -- LOTW -- As soon as we get the certificate to upload QSO data to the LOTW database, we will do the first upload for our sponsors. If you need your DXCC credit for Willis Island before December 31st, 2008, we encourage you to support VK9DWX and make a little donation which we should receive before December 30th to do the upload in time. We will upload all the remaining QSO data to LOTW in spring 2009." ADDED NOTE ABOUT DONATIONS. The VK9DWX team reports, "We want to say a big thank you to all sponsors so far! You really made it happen! If you still do not find your donation on our website don't hesitate to contact us."

NEW QSL MANAGER. Buzz, NI5DX, is now the QSL Manager for Donovan, ZS2DL. Buzz already has the logs and will be able to answer any requests for cards as soon as a supply of blank cards (already on their way) arrives from Donovan.

SILENT KEY. It is with great sadness to report that ARRL President Emeritus George S. Wilson III, W4OYI, of Owensboro, Kentucky, became a "Silent Key" at his home on November 25th. He was 76. The announcement of W4OYI's passing was reported in this week's "ARRL Letter". Wilson served as the ARRL's 11th President from January 1992-July 1995. He resigned from the position after a stroke in 1995. Read the complete press release about W4OYI in "ARRL Letter" Vol. 27, No. 47, November 26th.

SILENT KEY (News from CQ: "Hashafisti Scratchi" a Silent Key). Richard Moseson, W2VU, Editor of CQ Amateur Radio, reports: (Hicksville, NY, November 25, 2008) -- The man who wrote "Scratchi" for 'CQ' magazine is a Silent Key. George H. Floyd, Jr., WA4DGA (ex-W2RYT), of Lynchburg, Virginia, entertained thousands of his fellow hams for more than two decades -- between 1947 and 1971 -- writing as a politically-incorrect (by today's standards) Japanese-American ham with fractured English and contorted spelling. He wrote from "Feenix, Ariz.," began each column with "Deer Hon. Ed.," and regularly skewered the pomposity and poor operating practices he encountered on the air. He passed away November 22 at the age of 91.
In real life, George Floyd was an engineer and executive with General Electric, working in Schenectady and Syracuse, New York, before moving to Lynchburg, Virginia in the late 1950s. GE alumni will also remember George -- pseudonymously as well -- as "Lighthouse Larry" in GE employee publications.
Scratchi first appeared in 'CQ' in June, 1947. The column became a regular feature between 1948 and 1960, then returned from 1966 to 1971. For many 'CQ' readers in that time period, Scratchi was the first item they read when the magazine arrived each month. 'CQ' Publisher Dick Ross, K2MGA, writing in the magazine's 50th anniversary issue in January, 1995, said: "For many years the name Hashafisti Scratchi has been almost synonymous with confusion and consternation in amateur radio. It seems, too, that whenever the unusual or impossible is happening, Scratchi is there helping it happen." Upon receiving news of George's passing, Ross noted, "As saddened as I am to learn of George's death, the mere mention of his name brings a smile to my face, knowing how his good humor and wonderfully creative imagination entertained so many of us for so many years."

Floyd was pre-deceased by his wife, Miriam; and is survived by two daughters, two granddaughters and six great-grandchildren. The family asks that those interested in making donations in Floyd's memory contribute to the Nature Conservancy, the Sierra Club, the American Society for the Prevention of Cruelty to Animals or the Humane Society of the United States.
'CQ' readers are invited to submit reminiscences of Scratchi for a tribute in an upcoming issue of the magazine. A special e-mail address has been set up at <scratchi@cq-amateur-radio.com>.

T30 & T31, WESTERN AND CENTRAL KIRIBATI (Update). Haru, JA1XGI/W8XGI, who was active as T32XG during late May and early June, will now be active as T30/T32XG from Western Kiribati starting November 28th for about one week. He will then move to Central Kiribati and operate as T31/T32XG for about two weeks. Activity will be mainly CW and on the low bands, but there will also be some SSB and digital modes on 40/30/20/17/15 meters. QSL via JA1XGI, direct or by the Bureau.

TARA RTTY MELEE CONTEST. Bill, NY2U, wants to remind everyone that the Troy Amateur Radio Association's (TARA) RTTY Melee will be held between 0000-2400z, December 6th. He states, "This is an excellent chance for all of you to test your station out for the ever popular ARRL Roundup in January." For more details/information on this event, please visit: http://www.n2ty.org/seasons/tara_melee_rules.html

TF, ICELAND. Siggi, TF3CW, will be active in the CQWW DX CW Contest (November 29-30th) as Single-Op/Single-Band (40m) entry. QSL via LX1NO.

TL0, CENTRAL AFRICA. Christian (ex-TZ9A and 5U5U) is in France at the moment and is expected to head back to Africa around January 15th. He will be here and has requested the TL0A callsign.

TR50, GABON (Update). Roland, F8EN, will be back again in Libreville between December 15th to January 26th. Look for him to use the special callsign TR50R until December 31st. After January 1st, he will then use the callsign TR8CR. Activity will be on 40/30/20 meters mostly on CW. QSL via F6AJA.

TU, COTE D'LVOIRE. Phil's, F4EGS, next assignment is in Abidjan. He will depart on Christmas day and stay in Abidjan until the end of February 2009. His callsign will be TU8/F4EGS. Activity will be on all HF bands using CW, SSB and RTTY. He plans to be on 160/80 meters on all modes, but his focus on the other bands will be CW and RTTY. QSL via F4EGS, direct or by the bureau.

V7, MARSHALL ISLANDS. Neil, WD8CRT, will once again be active as V73NS from the Island of Roi-Namur (Grid RJ39), Kwajalein Atoll (OC-028), starting around January 5th. He is expected to remain there for at least two years. Activity will be mostly CW on 160-6 meters. QSL by the Bureau or direct to: Neil Schwanitz, Box 8341, APO, AP 96557, USA. Visit his Web site at: http://www.qsl.net/v73ns

VP5, TURKS AND CAICOS ISLANDS. David, WJ2O, will once again be active from Jodi's, VP5JM, "Hamlet" on Providenciales Island (NA-002) as VP5DF during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band entry. QSL via his home callsign.

YM, TURKEY (Update). Operators Nick/LZ1NK, Con/DF4SA, Zoli/HA1AG, Ilian/LZ1CNN, Valy/LZ1WX, Krasimir/LZ2UW, Savko/LZ1UK, Thom/OZ1AA and Mustafa/TA2TX will be active from Asian Turkey (Zone 20) as YM3A during the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry. QSL via LZ1NK. They request "PLEASE" do not send QSL cards for YM3A to the Turkish QSL Bureau! The Bulgarian QSL bureau is available. They plan to have 3 stations on the air using fullsize Spiderbeam Yagis on each of the 40/20/15/10 meter bands and fibreglass verticals on the 160/80 meter bands.

ZC4, UK SOV. BASE AREAS ON CYPRUS. Andy, G3AB, will be active as ZC4VJ during the CQWW DX CW Contest (November 29-30th) as a Single-Op (possibly as Single-Band 20m) entry. QSL ZC4VJ via the QRZ.com address.

ZM2, NEW ZEALND. Operators Lee/ZL2AL, Stan/ZL2ST, Gary/ZL2IFB and Phil/ZL2RVW will be active as ZM2M from Napier, New Zealand (OC-036, also counts for WLOTA LH-0069) for the CQWW DX CW Contest (November 29-30th), as a Multi-Single/High-Power entry. QSL via ZL2AL, direct or by the bureau.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first official announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Eilen 27.04-08 haastatteli YLE Egybtin hallitusvirkamiest�.H�n kertoi h�mm�styneen�, ettei maailmassa ole koskaan n�hty niin massiivista monikymmenmiljoonaista kansanliikett� maansa historiassa , kun nyt liikkeelle l�hteneet "leip�kapinoinnit maassaan.!" Suorastaan musertavan hiljaa on tiedotusv�lineemme olleet siit�, ett� t�llaista on tapahtunut ja n�in laajasti jo pitk��n. Egybtin t�rkein ruoka kun ei ole puhuttu riisi vaan nimenomaan maailman yleisin ruoka leip�, eli USA:n VEHN�! Samalla viitattiin, ett� Afriikkaa runnoo jo massivoituva yleinen ruokapula kautta linjan.

Samalla tutkailtiin tilannetta my�s esim V�li-Ameriikan osalta, jossa useamman maan johtajien toimesta on pidetty hiljaisuudessa n�lk�palaveereja jo pitk��n. Eli tosiaan kyse ei n�iss� n�l�nh�t�tilanteissa ole mist��n pelk�st� riisist�. Vaan nyt loppuvat ydinaavikoitumisen jaloissa niin vehn�t, lihat,maidot, juustot, riisit kuin mitk� tahansa maailman hiipuvat rehuma�ssit t�ss� ja nyt! Ydinaavikoitumisen jaloista poistui niinik�� tosiaan kalat, ja jopa hunajat. Ja ennenkaikkea my�s mehil�isp�lytteisest� ruuan tuotannostamme k�yt�nn�ss� kerralla kaikki!

Niin hurjaksi homma n�ytt�� menev�n jo t�st� tulevasta superkuivasta kes�st�, ett� t�ytyy my�t�ill� Egybtin valtiovirannomaisia. "Niin paha ruokatilanne, ettei vastaavaa olla ikin� n�hty!".. ..Jaa t�m�n kes�n sato? No sanotaan, ett� siihen verrrattuna sent��n viime vuona tuli mehil�isp�lyteruuat ja meriss� oli kaloja. Nyt on edess� tosiaan maailmanhistoriallinen hetki kun TVO:n ydinkampamaneettikasvatus vei kalat ja jopa Japanin ja USA:n ydinlauhdemeret puskee jo enemm�n meduusoja, kuin paikoin vett�. Ja t�m� mehil�iskato.. .hui kauheaa. TODELLA alkaa maalaisille l�ytym��n k�ytt�� ja ruoantuotantomy�t��!! Eli vaikkei t�st� tule selvi�m��n ydinala, sen paremmin kuin siihen loppuunsa asti sitoutuneet kansat. niin jotain hyv��. Tilaa tulee kohta hurjasti ja olen veikannut, ett� CCCP mallin mukaan vuoteen 2018 menness� alkaa ydinala olemaan sellaisessa kansanmassojen paineistuksissa, ett� vet�� vertoja tuleviin ruokar�hin�ihin. Jahka tosiaan ydinalan syyllisyys alkaa laajasti hahmottumaan tulevissa "punaisen sateitten" aikakausissamme.

Mik� ihmen punaiset sateet? No s�teilyionisaatio synnytt�� globaalin s��rintamamuutoksen vesist�mekaniikkoihin joka on kovin tuttua s�teilyionisaatioilmi�iden ry�st�ytyess� nykytyyli� mennakoivasti oikein reippaasti. Min� en miss��n tapauksessa ole mik��n "ennustelija" vaan kylm�n viile� aasianosaava fyysikko! Mm. t�m�n punaisen sateen perusfysiikkaan voi osaava tutustua mm. Hiroshiman ja Nagasagin vapaammassa historiikissa, vaikka IAEA/syyllinen USA toki kaiken kiist�� yh�.

hi

i was looking to buy some 'good' 6146b (specifically) tubes.

wondering which brands/dates are 'ok' by ok i mean really known
great.

I've heard that GE brands after immediately after 93 were supposed
to be ok when the chinese took over , not certain

I don't know anything about the other brands such as
Taylor/RCA/Penta etc

Most any company selling new tubes today will of course tell me
they 'test' ok but what i am looking for is personal experience
to see perhaps which NOS or new tubes might be best

Just don't want to end up with a bunch of known poor or problematic
tubes and hoping that someone with experience might share a little
history w/me

thank you

National Weather Service, 8400 Remount Road, North Little Rock, Arkansas

Contact: John RobinsonFOR IMMEDIATE RELEASE
501-834-9102 ext. 223December 3, 2008

AMATEUR RADIO OPERATORS TO TAKE PART IN SKYWARN (TM) RECOGNITION DAY

On Saturday, December 6th (Universal Coordinated Time), the National Weather Service (NWS) will sponsor SKYWARN (TM) Recognition Day in cooperation with the American Radio Relay League. The special event recognizes the vital public service contribution that amateur radio operators, commonly known as HAMs, make during NWS severe weather warning operations. The HAM radio operators are volunteers who give their time and use of their equipment as a public service.

This will be the 10th year of the special event. Nationwide, more than 100 NWS forecast offices will take part.

In Arkansas, the HAM radio operators will operate at the National Weather Service in North Little Rock from 6 PM Friday, December 5th, until 6 PM, Saturday, December 6th. A special call sign, W5A, has been assigned to the HAMs at North Little Rock for the special event. During the event, the HAMs will attempt to contact as many other NWS offices and amateur radio stations as possible.

During SKYWARN (TM) Recognition Day in 2007, the HAMs were able to contact 58 other NWS offices, and more than 500 stations altogether. These included contacts in Barbados, Canada, Cuba, Portugal, and Venezuela. Contact was also made with one person who was driving on the Alaska Highway.

In actual severe weather emergencies, HAMs operate a base station at the NWS office in North Little Rock. They gather reports of severe weather from around the state and pass along NWS watches and warnings. In addition, hundreds of HAMs in Arkansas are certified storm spotters.

During the Super Tuesday Outbreak on February 5th of this year, a HAM radio operator was the first person to provide information on the tornado that had struck Mountain View. Electricity and telephone service to Mountain View had been knocked out by the tornado, severely limiting normal means of communication.

When widespread communications outages occur, HAMs set up emergency communications networks. If a large earthquake were to occur along the New Madrid Fault, which runs from Illinois to eastern Arkansas, many normal communications circuits would be likely to fail. If such a

situation occurred, the HAMs would be able to link NWS offices via radio. During the record-breaking hurricane season in 2005, HAMs provided such services to NWS offices adjacent to the Gulf Coast.

###

Additional information on SKYWARN (TM) Recognition Day can be found on the Internet at http://hamradio.noaa.gov

***

Note: Echolink will be under the callsign, N5VLZ, operating from 7am to 5pm Central Time Saturday, if a connection can be made from an laptop computer aircard to a proxy server, there at the NWS.

I've always been partial to the pre 1984 RCAs but generally, whenever anyone has specified a retube for their working ham rig, it makes no difference. RCA, GE and Sylvania all work well and should never need replacing for the life of the radio unless abuse is involved. A great many used tubes are out there that either were spares never needed, replaced whether needed or not, or abused and replaced and held onto "just in case". The caveat about "tested" is how were they tested. Tube testers do help in culling bad tubes but can't test for output power or neutralization at 28 MHz, which is the only valid test (in-circuit) in my book. The 6146(a/b/w) is a communications tube, not a TV tube.

I have a couple of 12BY7 if you need a driver tube. (for some 6146 radios) Tested in TS-830s for like new drive.

<<thanks to both of you i'll check out the links

at first i thought , correctly it might be hard to find some tubes,
now i see even if i find them i don't really have a way to 'see' if
they are from known good lineage and testing them is almost
impossible

but if i dig enough i may get luckey

thanks again its fun to learn about tubes

Well,

I don't know what rig you are trying to find tubes for... I think that
the 6146b's are not that hard to find. I understand that the 6146b
can be easily changed for the 12V fillimant tube variants in most rigs
that use a pair of 6883b tubes by wiring the heaters in parallel. Of
course this only works if the filimant voltage supply is 12V and the
6146b's are wired in series. The 12V tubes are usually a "dime a
dozen" as they where used in a lot of other gear. If one was trying to
save a few bucks, that might be an option for you.

I got a set of NOS matched 6146b's and two 12BY7's for about $70, but
I think you can get them for less. I've not priced 6883B's myself.

New ones can be had from RF parts:
http://www.rfparts.com/6146w.html

Note the 6146W was developed as a 6146 hardened for mobile service. The Sylvanias are the best deal and are 6146B with hardened filaments. I have used them in place of 6146B with no difference in performance.

I don't know why anyone would make 6146 or A any more.

I bought a set of 811A from Richardson Electronics a few years ago. Decent price and quality. No problems.

<<hi

I don't right very well sorry, but my post was specific i was
looking for info on 6146b (not w) and not any of the other tubes
mentioned here not that i don't appreciate , it just confuses .

As an aside, someone mentioned the w was a mobile version? I've
always been told it was a military varient?

also many have said the w is same as the b version, but i was
also understanding that the w produces a bit less power so while
i am not tryting to push power it's enough of a difference where i
wouldn't say they are 'the same'. i'd say an electrical ok
substitute perhaps

as far as rig goes i got lost on the part about changing
voltages not sure what thats all about but it dosn't pertain to
me. but in general does it matter what rig the tube goes into?
it's a rig that needs 6146b tubes i don't mean that scarcastically

when i said they were hard to find, i didn't mean any ol' 6146
tube yea those are plenty

what i was specifically looking for was some really good ones, here opinions differ but 'good ones' are to me so far hard to find

example

some say the ge tube are great, some say only right after 93 i dn't think i'd want a pre 93 ge tube given all i heard about them most wouldnt know about that a simple tube tester wouldn't show it either

the pourpose of this post was to try to find some first hand information on the tubes that might be available today ie the different brands and which were the best and which were the ones to to stay away from my own personal experience has certainly shown that tubes are different from year to yr and brands

so it was that info /history on the tubes that i was reall looking for

my goal was to find 3 hopfully matched 6146b tubes that were 'the best' i can find i want to stay clear of poorly made, or average made tubes

i do appreciate all the comments was hoping that maybe a few more people might share some tube info

The W means quick heating filaments. This requires much stronger filaments.
This is required for some mobile installations that leave the filament off
until you key the transmitter to save power. Mobile service also requires
more sturdy elements because of physical shock.
JAN means Joint Army Navy and refers to the their stocking system. NEW
Sylvania JAN 6146W is a 6146B with all of the above but named 6146W to earn
the JAN 6146W nomenclature. Early 6146W were 6146. Same goes for the
JAN-GE 6146W/6146B

http://thetubestore.com/nos-6146a.html

6146B/8298A supercedes and directly replaces 6146, 6146A and 6146B and
8298A tubes.

This part is a little odd because they are usually available in pairs, because a lot of radios were made for 2-6146A in class AB1 or 2 because they were really clean and easily drive a full legal limit amp. Neutralization is the biggest problem because there may be variations in the interelectrode capacitance, and because different rigs have different ways to neutralize, some radios have a problem and some don't. You may need to swap some around to get it right. You didn't say what your problem was. Is this a Swann? In a well designed rig, properly adjusted and operated rig, the 6146s seem to last forever.

You do realize that this is a quote not from John Adams, but from the
character J. Adams in the play "1776". It was written by a playwright.

FYI

He states, "Each year from January 1st to December 31st, CQ Magazine sponsors a challenge to work as many countries and zones as possible in the calendar year. This year's edition ends

soon, but there is still time to fill in some missing countries and zones." For complete rules and submission information, please see the following Web site at: http://www.dxmarathon.com

5K0, SAN ANDRES. Operators Cal/WF5W, Mike/K5UO (both members of the Texas DX Society), and Rob/HK3CW will be going to San Andres Island as a Multi/Single entry for the CQWW 160m CW Contest (January 24-25th). The callsign will be 5K0CW. After the contest they should be on other CW bands during the daylight hours. They will also try to be active on RTTY. The trio is expected to be there a week before returning to Bogota. This is the second TDXS related trip to this island; this time focusing on 160 meters. The 160 meter antennas are a modified BC-Special and a K9AY for receiving.

6W, SENEGAL. William, F1TZG, wil be active as 6W/F1TZG between December 12-14th. Activity will be on ALL bands and 6 meters SSB only. He will use a TS870 and TS2000 (/w only 100w) into a beam for 20/15/10/6 meters and a vertical for the other bands. QSL only via his home callsign or the info on QRZ.com.

6W, SENEGAL. Tom, DL2RMC, will be active as 6W/DL2RMC or possibly a 6V callsign between January 16-29th. His activity will be holiday style but will include the CQ WW 160m CW Contest (January 24-25th). QSL via DL1RTL.

A6, UNITED ARAB EMIRATES. Philippe, F5LTB/9Q1TB, who announced back in August that after 5 years he is leaving the Democratic Republic of Congo (DRC), is expected to move to the United Arab Emirates (A6) in late January. He has already applied for an A6 licence. He states that he will depart from DRC on December 20th (he was expected to leave in September), and go to Paris on the 21st. Philippe will be in France until January 18th and then he will fly to Dubai. Meanwhile, his activity from DRC will be limited (home station is being fully dismantled; activity from his office will be during his mornings between 0630-0700z on 14114 kHz and afternoons between 1530-1600z on 21188 kHz). Last QSO will be on December 19th. He hopes to obtain an A6 callsign in a reasonable amount of time. His QSL Manager will continue to be SM5DJZ.

DXCC NEWS. Bill Moore, NC1L, ARRL Awards Branch Manager, reports that the following operations are approved for DXCC credit:
VK9DWX - Willis Island; 2008 Operation
VU4RG - Andaman & Nicobar Island; 2008 Operation

E4, PALESTINE. It was announced this past week that an Italian team of 6 operators were granted a license during the period of January 1-11th (2009). The team will use the callsign E44M and will be active on 160-2 meters using CW, SSB, RTTY and all the digital modes with a maximum power of 1KW. They will have 3 stations on the air active with beams, verticals and wire antennas. They state, "Even if early January is not a a good period for VHF, they will monitor 6 and 2 meters and try any contact." The team includes the following 6 members: Simone/IZ0BTV, Bello/IZ0EGM, Giorgio/IZ4AKS, Cortesi/IZ4DPV, Pasquale/IZ8IYX and Vini/

IK2CIO. Operations will be focused on RTTY and the other digital modes, as well as the low bands and 30/17/12 meters. They plan to pay special attention to stations outside Europe when the propagation will allow it. Pilot stations will be announced later. More news will be available in the next few weeks. A Web page is now active at: http://www.dxcoffee.com/e44m/

E5, SOUTH COOK ISLANDS. Aki, JA1KAJ, who is currently active from Manihiki Atoll (OC-014), will move over to Rarotonga Island (OC-013), South Cook Islands, between December 11-17th. He will continue to sign E51QQQ. Activity will be on 80-10 meters using CW and SSB. QSL via his home callsign, direct or by the Bureau.

ET3, ETHIOPIA. Operator Abel, active from the E.A.R.S. club station, ET3AA, has been showing up on 15 meters SSB as early as 0900z and as late as 1230z. QSL via Box 60258, Addis Ababa, Ethiopia.

FG, GUADELOUPE (Special Activity). Look for members of the Radio Club Guadeloupe (FG5KC) to be active as FG5KC/p during a demonstration for their youth at a science festival on a University Campus, December 12-13th. Activity will be on the HF/VHF bands and Digital modes.

FOLLOW THE NEW SUNSPOT CYCLE. Those who are interested in following the propagation, sunspots and the new sunspot cycle may want to look at the following Web page provide by Kevin, VE3NE: http://www.solarcycle24.com/ There is plenty of reading, charts and pictures to keep you busy.

FREE MAPS!! Tim, EI8IC, has a great collection of the most comprehensive prefix maps on the Web; now available for free to download (ed. Yes, for FREE!). There are 34 new maps available separately or in a combined zipped archive. EI8IC also has a unique IOTA Bearing List which has been updated with all the latest IOTA island numbers. You can create your own list of beam headings and distance in miles or kilometers to ALL of the IOTA island groups. He also has maps for CQ Zones, ITU Zones, ITU Regions, Grid Squares, ARRL Sections and much more. Visit the following Web page at: http://www.mapability.com/ei8ic/index.html

H4 & H40, SOLOMON ISLANDS AND TEMOTU PROVINCE. Bernhard, DL2GAC, informs OPDX that he will depart from Markdorf, Germany, on January 8th and arrive in Honiara, capital of the Solomon Islands, on Saturday, January 10th. He is expected to stay until April 28th. Bernhard will be active as H44MS on SSB only but will focus on the 80 and 40 meter bands. He states, "I do collect U.S. counties. Additionally, I look for missing slots for my 5B-WAS, 5B-ITU-Zones, 5B-WAZ and new IOTAs." QSL via his home callsign, by the Bureau or direct after his return home. ADDED NOTES: Bernhard states that Sigi/DK9FN (CW op) and Hermann/DL2NUD (an EME op) will join him at the end of February. Together they plan to do a 2-3 week operation to Temotu (H40). A flight to Lata, capital city of Temotu, is planned for March 2nd. Sigi/DK9FN will go back home on March 16th, and Hermann/DL2NUD will stay until April 9th.

HB8/HE8, SWITZERLAND. The Union Schweizerischer Kurzwellen-Amateure (l'USKA), the Swiss National Ham Society, has granted all Swiss hams to use the prefixes HE8 and HB8 during the whole year of 2009 to celebrate the l'USKA 80th anniversary. Stations will sign HE8 instead of HB9, and HB8 instead of HB3. These prefixes are valid only from the Swiss territory. No foreign operators/activities are allowed (no callsign/HE8 or HE8 is possible).

IOTA NEWS.....

as KH8/KK6H from Larry's, AH8LG, QTH on Tutuila Island (OC-045, USI
AS-007S). You may only have a day or two to work him before he leaves
the morning of the 9th, for Apia, Samoa. On the morning of the 10th,
Paul will depart for Tonga and should be home in Ha'apai on the 12th.
QSNs show that Paul has been on 20 meters SSB and 17 meters CW between
1800-2100z. QSL via W7TSQ or LoTW.

KOSOVO NEWS (Press Release by Martti, OH2BH).....
THE REPUBLIC OF KOSOVO ENTERS A NEW PHASE AS OF DECEMBER 9, 2008
"EULEX will switch on and UNMIK will switch off", as EULEX's head put it
today! <http://www.eulex-kosovo.eu/> http://www.eulex-kosovo.eu
It was just a few days ago in the United Nations Security Council
where the UN Secretary-General's fresh report on Kosovo highlighted the
considerable progress made in Kosovo since its independence in February
of this year. All Council members supported the decision by the Secretary-
General to adapt the UN's role to this new, positive reality by accelerat-
ing the downsizing of the UN Mission in Kosovo (UNMIK) and the transfer
of rule of law authorities to the European Union's mission, EULEX as of
December 9, 2008.
There is no doubt in anyone's mind that the Republic of Kosovo, as it
is called in UN terms, is there to stay as it is recognized by fifty-three
UN member states today. Even those European countries not recognizing
Kosovo because of their own minorities, voted unanimously to let the EULEX
take over the next phase of the new country's development work. This is
also another historical event where, for the first time, the European
Union is working together and with the United States on a peace settlement
issue.
This same day also signifies a wonderful occasion to the 2008 Nobel
Peace Prize Laureate, Martti Ahtisaari, who acted as the UN Special
Envoy for Kosovo and whose "peace roadmap" is now in implementation.
Mr. Ahtisaari has served as mediator in many complex negotiations in
which there is no standard outcome. Kosovo's road to independence marks
a unique case in which the only winners are the people of Kosovo. We all
salute Mr. Ahtisaari for his mission under complicated circumstances and
congratulate him on winning the Nobel Peace Prize which he will receive
on this same day. Amateur Radio operators are grateful to Mr. Ahtisaari
for his support of Amateur Radio Mission Goodwill Kosovo currently under
implementation in Kosovo.
A special postage stamp is issued in Finland on December 10th in Mr.
Ahtisaari's honor, and the next 1000 direct QSL envelopes released by
OH2BH/OH2BN/OH2TA/OH2UA for YU8/OH2R, CN2B, CU2X, FJ/OH2AM, OH0X, OH8X,

OJ0B, TC4X will bear that stamp." Visit the following Web page to see the stamp:

OH9, FINLAND (Special Event - This one for the kids!). Once again OH9SCL will be active from Santa Claus Land (SCL) in the Arctic Circle, during the month of December. Activity will be on 160-10 meters using CW, SSB and the Digital modes. There has been plenty of activity over the past week on 40/20/30 meters, some SSB, RTTY and PSK31. QSL via OH9UV: PL 50, 96101 Rovaniemi, Finland. A special "Santa Claus Land" award is available. For more information about the award, please visit the SCL Web page at:
http://kotisivu.dnainternet.net/rakarttu/OMAT_KOTISIVUT/OH9SCL_2007/OH9SCL_2007.html

OOOOPPPSSS!! (CORRECTION) There was a typo in last week's OPDX.886 under "KH8, AMERICAN SAMOA." We stated that Larry's, AH8LG, callsign was KH8LG which was incorrect.

OP0, ANTARCTICA. Paul, ON3PC, who got his license only a short time ago, is expected to be active as OP0LE from the new Belgian Antarctic station "Princess Elisabeth" (http://www.antarcticstation.org) situated on Dronning Maud Land. Activities can be expected between mid-December and mid-February of 2009.

QRZ.COM TO CHANGE. Fred, AA7BQ, QRZ Founder, announced that QRZ.COM will be changing their database/Web site. He states, "Today we're pleased to make an initial announcement about a new version of our online callsign database that will soon replace our existing pages. Internally, we've been calling it QRZ 2.0, however, it will soon be known simply as QRZ as it becomes the system default. The new database includes a fresh new layout plus a number of new features and information details that were not previously available. In addition, the new callsign pages are customizable by the user to include colors, fonts, and multiple pictures. We've also included the GridFinder as a mainstream part of our data. Additionally, we have made vast improvements in our geo coordinate database, and we now include regional mapping information for nearly every callsign, both USA and DX! Once we've had sufficient time to test the new system we will eventually replace all of the callsign pages with the new format." To see an example of their new pages for AA7BQ, go to:
http://www.qrz.com/db/AA7BQ
To see your callsign page under the new format, just use the URL/code:
http://www.qrz.com/db/your_callsign
PLEASE NOTE: You must have Javascript enabled on your browser to take full advangage of what these new pages have to offer. Fred also mentions, "If you'd like to take a sneak peek at the new editing features as well, you must join our Beta Tester's Group (it's free) by clicking <http://forums.qrz.com/profile.php?do=editusergroups> (you must be logged in). Your request will be approved ASAP. Your comments and constructive criticism are welcome. Please don't write to tell us that 'you prefer the old version', or that you 'don't like the changes' because, frankly, we're determined to move forward. This is the first major rewrite of the QRZ

database in several years and a lot of new technology has come of age since the current system made its debut. This project started more than a year ago and parts of it have already been running in the background for some time. Now, however, we're finally ready to start showing off the new look and get some feedback from the users. We appreciate your feedback! Please don't be bashful! We think you're going to like it!"

QSL INFO AND NEWS.....
6Y/G3NKC QSLS. Dave, G3NKC, reports that those who have requested a direct QSL for any of his QSOs in October, the cards have arrived from the printers this past week and should have been posted this past weekend. Anyone else who needs a card may apply direct (with IRC or 2 USDs) or via the Bureau. The logs are on LoTW.

QSL CO0V via EA1EAU. The special callsign was used during the past weekend on the Digital modes by operators Jesus/CO2IZ, Lilliam/CO2XV, Gustavo/CO2NO and Eligio/CM2ELY. For more details, see QRZ.com.

QSL V31WA via UT5GR. Dim, UT5UGR, was active from Belize for one week which included CQ WW DX CW Contest.

PIRATE ALERT. Phil, G3SWH, reports, "There has been a pirate station using the callsign VP2V/G6AY on CW over the last few weeks, and both Jim, G3RTE, and I have received QSL requests from numerous stations. VP2V/G6AY was the special call of our February 2006 DX-pedition and has not been activated since. Neither do we have any current plans to re-activate the call. All QSL requests received to date have been returned with an explanatory note."

SAZAN ISLAND (ZA0/) QSLS. Alfredo, IK7JWX (ZA0/IK7JWX), reports that all QSLs received via direct will be responsed to before December 18th. He invites all to visit their Web site and sign the guest book at: http://www.sazan2008.altervista.org

QSLS RECEIVED VIA MAIL: 3D2YA, 3V8BB, 4L0A, 8R1K, 9L1X, A25/DL7DF, CE0Y/JJ2NYT, CE0Z/DL2AH, CN2DX, CT3FQ, DH1TW, DR1A, EK6TA, ER5GB, ET3JA, EW1AR, EW2AA, FK8GX, FO/JJ2NYT, H7/NP3D, HD5J, JA6GCE/HC5, JA6GCE/HC8, JA6SOV/HC5, JA6SOV/HC8, JX/G7VJR, JX/SQ4MP, OX3KQ, OX3XR, T88ZF, TG9NX, UN5J, V73ZF, VO2A, VP2EFB, YJ0AQY, YN2/EW1AR, ZC4VJ and ZL7/DL2AH

QSLS RECEIVED VIA THE BUREAU: 4J7WMF, 5Z1A, 6K2AVL, AM5R, EH6R, AN0EB, BG7MVZ, CU8F, CU8T, DLORUG/P, DK150HZ, DR0R, HB9SPACE, LA1S/LH, LZ08KM, PF07XMAS, T93J, T94GB, T96C, T90HQ and T960ARA

S2, BANGLADESH. Good news from S2-land. Belayet, S21RB, General Secretary Bangladesh Amateur Radio League (BARL), reports that the Bangladesh Tele-communication Regulatory Commission (BTRC) has started giving/conducting amateur radio license tests again after a long laps of 4 years. Tests were given as recently as November 27th, using a Computer Based Testing (CBT) System. Tests consists of a total of 35 multiple-choice type questions

with a minimum of 18 correct answers were needed to pass the test. The duration of test was one hour. The good news is that a total of 84 candidates took the exam and among them 62 candidates have successfully passed. This was all possible thanks to three executive committee members of the BARL who had very productive meetings with the BTRC. Committee members mentioned were Belayet Robin/S21RB, Dr. Zahid Shipon/S21VA and Saiful Huda/S21SH. For more details and pictures, please visit the following Web page at: http://www.barl.org

T2, TUVALU (OC-015). Operators Bill/N7OU and Bob/W7YAQ will be active between February 17th and March 2nd. Their callsigns still have to be confirmed. Activity will be on 160-10 meters, mainly CW, with some SSB and RTTY. They plan to be an entry in the ARRL DX CW Contest (February 21-22nd). QSL via their home callsigns, direct or by the Bureau.

TC12, TURKEY (Special Event). Special event station TC12AKUT is now active (since December 1st) through December 16th. This is the first activity by the AKUT DXpedition Team to celebrate the 12th anniversary of the "AKUT Search & Rescue Association". Team members are: Urcun/TA0U (Leader), Can/TA1CN, Onder/TA2CL, Eren/TA2FP, Kaya/TA2JG, Serkan/TA2JN and some other voluntary HAMs and friends. Operations will take place from Kartepe (2908m ASL) from the Camp/Technical Resp.: Serhat AKBEL. The QSL Manager is TA0U: P.O. Box 17, 34734 Sahra-i Cedid, Istanbul, Republic of Turkey. For more information about the event, please view the following Web pages:
http://www.ta0u.com/detay.asp?id=4289
http://www.qrz.com/TC12AKUT

VI2, AUSTRALIA (Special Event). The Australian Communications and Media Authority (ACMA) has issued a special callsign VI2BV90 to the Waverley Amateur Radio Society, the oldest continually licensed Amateur Radio Club in Australia. Waverley ARS was formed on January 27, 1919, and was issued the licence N249 on August 18, 1920. This became 2BV, then VK2BV, a callsign it still uses. The special callsign will be in use to celebrate Waverley's 90th anniversary. Look for their club station to be on the air from 0000z, January 24th, until 2400z, February 1st (2009). The operating schedule is currently being discussed, and once it is finalized, it will be updated on the club's Web site at: http://www.vk2bv.org

VP5, TURKS AND CAICOS ISLANDS. Operators John/KX7YT and Rob/N1KEZ will be active from VP5JM's Hamlet on Providenciales Island (NA-002) as VP5/homecall between February 12-15th. Activity will include an entry in the CQWW RTTY Contest (February 14-15th). QSL via their home callsigns.

VP8, FALKLAND ISLANDS (Also CE). Ghis, ON5NT, informs OPDX, "No more travels anymore for work .. I am retired now. So time now to start travelling WITH the XYL. In January 2009 we will be travelling to South America." He states that he will be active as VP8DLQ from the Falkland Islands between January 31st and February 7th (2009). Ghis also adds that this is not a DXpedition, just a holiday trip, so most activity will be in the local evening hours. He will be island hopping in the Falklands. Due to weight limitations on small aircrafts for the internal flights, he will only be hand-carrying his small IC-706MKIIG (100w). QSL

via ON5NT (detailed info at QRZ.com/on5nt). ADDED NOTES: Ghis states, "Since I am now retired I am cleaning up a huge backlog of bureau cards for past operations.... I will be QRV from Chile also, but awaiting my callsign. As soon as I get it I will let you know the details."

XU, CAMBODIA (Also GM!). John, 9M6XRO, will once again be active as XU7XRO from December 10-18th. His QTH will be Sihanouk Ville (Kompong Som). Activity will be on 160-10 meters using CW, SSB and RTTY. QSL only via Tim, M0URX, by the Bureau, direct or E-mail requests to M0URX for Bureau cards. Full QSL info is available at: http://www.m0urx.com
ADDED NOTE: John states he will be in Scotland over the Christmas and New Year's holiday season. He hopes to be active as GM3OOK from Irvine.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first official announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

hi

don't really have any experience with linears, was reading about the alpha8100

it says it dosn't use /have a ALC

so, not really the expert on alc but from what i recently learned it seems like a important feature , almost a 'must have'

yet the 8100 and a few other modern amps don't have it

question , so what do they use instead?

thanks

ALC contributes nothing if the exciter is properly set up. ALC does
contribute an indication for doing that. There is some debate if ALC
is a good substitute for Good amateur practice, since the conditions
that result in an ALC voltage may not be optimal. The alpha also
uses other biasing and control tricks in their design.

There are many pitfalls to deal with in a full legal amp. House
wiring, antennas, RFI, high RF voltages, things burning out. You
might prefer to learn on 500-800 PEP output until you get all
the bugs worked out of the rest of the station, as you will surely
find them. A full power amp is only barely more noticeable than
a medium power amp, where a medium power amp can take you
well out of the noise with a good signal. If the band is dead, all
you will be doing is making more heat.

I do use a medium power amp roughly 20% of the time on 40 and
80 meters, but find it not much better on 20-10 because signals
are generally good barefoot when the band is open and worthless
at any power when the band is dead. There is a temptation to use
lots of power on 20 in pileups, but I really prefer to have a leisurely
contact with a station before the pileup starts. The most noticeable
stations at those frequencies are the ones using stacked monobanders
on 100' towers. Ten meters seems to need no help at all when the
band is open, with spectacular signals with as little as 20 watts.

Drive it with a rig that can't overdrive it or/and monitor the output with an oscilloscope and adjust the drive (or microphone gain) such that you don't overdrive the amplifier. Several station monitor scopes have been produced that have everything you need built-in.

I run an Ameritron AL-80B amp and I don't use the ALC at all...
Heck, it's not even connected.
I just keep my radios output down to about 60 or so watts and
I get about 600-700 watts out of the amp which is plenty.

Thanks very much for taking the time to help out

I guess from what little i read i it would have you belive the alc line was a great feature aka safteynet like feature, sounded like a great automated"" feature to kick in on the oops situations

surprized to see folks say it isn't I don't know enough to argue, but the other post that said a well done set up shouldn't need it, didn't seem to sound logical, if my gear is set up and designed right no equipment should need a fuse but i am glad it's there

My rig will fold back power if the swr is too high automatically i see this as in theory a great feature, but yeah i could argue if my antenna was set up right thats the best and technically it shouldn't be needed i dunno different schools of thoughts

Regarding high power legal limits those are some good tips, i hadn't really decided any particular power level or brand yet but assumed that if i did get a high power one i could always set it for low power ? at least the solid state ones seem to be able to do that easily i must admit i did get confused on the tub amps some seem to say they can be tuned properly for low power some say doing that results in great misc, inefficiencies and bad emmissions i dunno

when you say things burning out are you talking about the linear components or other? after my linear is just an antenna and it's rated for full power i operate in to propwer swr i use lmr400 or larger so i hope that it wouldn't burn up i do have a deadicated 220/30amp breaker sitting there should i get a linear

that being said i was toying w/the idea of an alpha really cause i saw them as well built thou they are rather pricy or a SPE expert but also$$

at the other extreem

was also looking at the TokyoHP smaller units seemed pretty nice as you said lower power i am sure would be fine i do like to change bands alot so was leaning more towards a automatic linear

Just wanted to say thanks again for your help and info and letting me 'bounce' those ideas

hi

so in theory, since your not using alc, even thou you set your
rig for 60w how do you know your not peaking over either

a) now n then
b) or if something whent wrong

which i though was the point of the alc again could be wrong

I realize that using alc isn't a requirement but i dunno
to a guy first learning about just seemed like a nice safty net
like feature

Things burning up like traps, baluns, tuners. Since 40 and 80 will see the most use, SWR can cause problems as above and also in the tank circuits when RF voltages and currents spike. You will also be touching up the tuning as you move up and down the bands. You can download the alpha and ameritron (MFJ) manuals in pdf and they make good reading about different tubes and the care and feeding of them and various designs. The AMPS yahoo group is very informative too. There is a little hype because any designer loves his

child, but the information is factual and to be considered because each design has it merits and drawbacks. The greatest drawback we are seeing is what tubes are still available or will be available 10 years from now and how much.

ALC is useful but a bit overrated. It depends a lot on the amplifier design. The alpha 8100 doesn't need it because it is designed so you won't need it. The Ameritrons are a little Spartan and the tuning is a little critical, but they do the job as well as any. I am now running a 30L-1 Collins. It has ALC and I use it because it gives me a good indication of level as I talk. I kind of like the 811a grounded grid amps because I can still get tubes for $20 ea. and they don't have to be matched and I can take it into the field and plug it into 110v. It can only handle CW/SSB though. I love the smell of military grade equipment from the 60's and earlier. It is the smell of victory.

If you are going to break out a lot of money on an amp, Auto tune is a neat feature. Especially because improper tune up and the power on surge are the biggest enemies of tubes. Deal with those issues and you probably won't ever have to replace a tube. A friend has an auto-tune alpha and it is slick, quiet, cool and well built like a Mercedes. It can do full legal limit, dead key down RTTY until the exciter melts down.

First, I apologize for posting a message to the group knowing absolutely nothing about amateur radio!

In the past couple of years, my brother in law has purchased a radio and really enjoys it. He takes it when he travels (to my house, the mountains, the beach . . .). He'll stay outside for hour after hour working with it.

BIL has decided that he wants to learn Morse Code. He knows it's not used much anymore, but it's something he really wants to learn.

Question - is there any gear associated with Morse Code that the family could purchase him as a Christmas gift?

Thanks for your patience!

Nina

<< i'll poke around the amps group didn't think there was one,
really just wanted to say thank you very much for the time to
help out

i do know the smell of older govt gear having worked alot for the
govt believe it or not some of it is still is in operation at certain
places, officially and of course for civilian ham use some of
the older stuff really holds it's own.

based on what some of suggested ie lower power amp, i was kinda
looking at a tokyohp 600w unit it'l auto tune but still pricy
i like your idea of using the 811a's as i am just starting out on
my linear studies i am still a bit up in the air but you helped
me certainly narrow it down alot too

thanks again, and wish you and the family a great holiday

as an aside i think it's funny/ashame that there was only 1
or 2 people posting on the topic when i first became a ham the
spirt was a bit larger

This is free http://www.xertech.net/Projects/CPwin.html and in my
opion is best.

Check Google for "Morse code" there are many tapes and CD's that
teach.

2008 WINNERS 5TH SRE. The 2008 winners of 5th Strange Radio Event were announced this past week. They are:
IK8WSQ - 1st European (SSB)
WK3N - 1st Station Outside Europe (CW/SSB)
IU8SRE (Operator IK8WEJ) - 1st S.R.T. Special Callsign (SSB)
IU3SRT (Operator IZ3DBA) - 1st S.R.T. Special Callsign (CW)
I1 GE 0844 - 1st SWL

Award plaques will be presented during the 6th International DX Convention in Paestum, Italy. Congrats to the winners!

2009 CQ DX MARATHON. The fourth running of the CQ DX Marathon begins at 0000 UTC on January 1, 2009, and runs through 2359 UTC on December 31, 2009. The goal, as always, is to work as many countries and CQ zones as possible at least once during the calendar year. The only change from the 2008 rules is that the prohibition on assistance, such as lists and passes, for the Unlimited Class is deleted (the limitation remains in effect for the Formula Class). Once again they will use a downloadable Microsoft Excel template which may be filled in and e-mailed to a special address as your log entry. For complete details, please visit the following Web page at: http://cq-amateur-radio.com/DX%20Marathon%20Rules%20Dec08.pdf

2009 MEXICO RTTY INTERNATIONAL CONTEST. The Federacion Mexicana de Radioexperimentadores (FMRE) would like to invite everyone to participate in the 2009 Mexico RTTY International Contest, February 7-8th, 2009. Please take note that the new contest manager for this event is Dani, XE3RR, <xe3rr@prodigy.net.mx> and logs should be sent to him as the rules now indicate. Details/Rules of the contest are available at: http://www.fmre.org.mx/concursos/2009/rtty/rules-rtty-2009-eng.pdf

3 STEVE'S TO BE ACTIVE AGAIN! Yes, it is that time again. The 3 Steve's (Steve/KF2TI, Steve/N2IFA, Steve/KB2ENF and Kurt/W2MW [aka Steve]), along with "those two laughing young men", Andrew/N2IFB and Eric/K2EMZ, will be guest operating at the ARRL station, W1AW, Tuesday, December 30th, from 1700-2045z. This is their 16th annual WAS (Worked All Steve's) DXpedition to Newington, and they will be operating on the following bands:
30m CW - Kurt/W2MW [aka Steve]
40/20/15m SSB - Steve/KF2TI, Steve/N2IFA and Steve/KB2ENF
17/10m (possibly 80m) - Andrew/N2IFB and Eric-K2EMZ will also be operating as "Steves"
They hope conditions will improve and will try to listen for outside the U.S.; packet spots will be posted. If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed as they will have copies of the log and send out a certificate to all those who qualify. QSL cards to them are not necessary for the WAS. If you want a W1AW QSL card, please send to them direct or via the bureau. The logs will be posted (hopefully) after January 1st on their Web site at:
http://the3stevesarc.org
PLEASE NOTE: This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steves Amateur Radio Association (TSARC) - WK3SS (all rights reserved) and they are responsible for the printing and sending of the "Worked All Steve's" certificate (suitable for framing). They would like to thank the ARRL for allowing them to play with their great toys and putting up with them each year. They hope to work you.

14th CCF/OHDXF CONTEST/DX MEETING. The 14th International Contest/DX Meeting will take place on January 16-18th (2009). Join their traditional round-trip cruise on the Baltic Sea crossing 3 DXCC countries: From

Helsinki (OH) via Aland Islands (OH0) to Stockholm (SM), and back to Helsinki. On their preliminary agenda:
* New DXCC Countries by Dutch Caribbean 2009 - Hans, PB2T, President of IARU R1 and President of EUDXF
* Azores, CU2X & CU2CE and CU2DX (Winning Formula) - Martti, OH2BH and Toni, OH2UA
* Arcala Extremes extreme antenna - 3 element Yagi for 160m; Juha, OH8NC
* SAC Contest forum - change or not to change; Jouko, OH1RX, Panel and discussions
* CW and SSB pileup contests
* ......etc
For the latest updates of agenda, please check: http://www.ohdxf.fi

Kari, OH2XX, "It's time to act! Our special prices for the 'coolest' Contest & DX meeting in 2009 are still valid for one more week! Please book your trip Now!" Information packages are available at: http://www.ohdxf.fi/ohdxf/content.php?content.17

A3, TONGA. Paul, A35RK/KK6H, is back home in Ha'apai as of December 12th, as he says "to a rousing welcome of thunder, lightning, and torrential rain, which is forecsat to continue for awhile. I'll be QRV as soon as the bad weather breaks and I can get my antennas back up." Paul reports that as KH8/KK6H he made "about 600 QSOs from American Samoa, on both CW and SSB, on 80, 30, 20, 17 and 15 meters, including a few Europeans on 20M long path. Conditions were generally lousy." The log has been sent to W7TSQ and posted on LoTW. QSL via W7TSQ or LoTW.

A3, TONGA. Just a reminder that Dave "Kawe", W6ZL, will return as A35KL from FOA Island (OC-169) in the Ha'apai Island Group, for a brief period possibly around 0000z, December 17th until 1800z, December 19th. QSL via W6ZL, SASE or new style IRC, or via the LOTW (may not be able to post log until after his return to U.S. around Christmas time).

ASIAN TRIP. Frank, I2DMI, announces on QRZ.com that he will be visiting Thimphu, Bhutan, between December 22-31st and Nepal between December 31st and January 5th. He states that he has received his callsign for Bhutan and will be signing A52RY but will only be active during his spare time. Activity will only be RTTY. He thinks his operating periods will likely be in the ranges of 0100-0300z and 1200-1900z. Suggested target frequencies will be 3582, 7040, 10142, 14082, 18102, 21082, 24922 and 28082 kHz, listening up 2 or spread 2-10 kHz depending on the pileup. He will concentrate his activity on the opened bands. His activity from Nepal will be the same. However, he will get his callsign after his arrival (possibly 9N7RY or 9N7DMI which one available). QSOs will be put on LoTW and e-QSL the second week of January. Bureau cards will go out the fourth week of March. You can QSL direct to I2DMI: P.O. Box 55 - 22063 CANTU, Italy. Include a self addressed envelope (SAE) and sufficient return postage. Please QSL only to his P.O. Box # 55 - 22063 Cantu (not his home address).

CHU TO QSY JANUARY 1ST. The CQ Newsroom reports: "Canadian time/frequency standard station CHU -- a fixture for decades on 7335 kHz -- will change

frequency to 7850 kHz at 0000 UTC on January 1, 2009. The move comes as a result of the International Telecommunication Union's decision in 2007 to expand the 40-meter ham band in Europe and Africa (Region I) to 7000-7200 kHz. It was previously 7000-7100 kHz, with -- as every 40-meter DXer knows -- international broadcasting allocated from 7100-7300 kHz. As part of the 40-meter expansion, the international broadcast band was shifted to 7200-7350 kHz. As broadcasters began relocating, CHU on 7335 began experiencing significant interference. Thus, officials at Canada's National Research Council which operates CHU, decided to move the time/frequency standard station's transmissions to 7850 kHz as of the beginning of 2009. The complete NRC announcement (English version) is online at:
http://inms-ienm.nrc-cnrc.gc.ca/common_files/stories/chu/communique_e.pdf

E44M DXPEDITION NEWS. The E44M team will use "Hamradioweb" as forum to share information about the DXpedition in Palestine directly with the community of the DXers. During the operations, feel free to put your questions or suggestions there. The Web link is:
http://www.hamradioweb.org/forums/showthread.php?t=3335
The forum will soon become the only one meeting place for open discussion of various topics about the DXpedition that the operators will check day by day.

FH, MAYOTTE. Operators Phil/G3SWH and Richard/G3RWL (Dick on CW) will be active from here between February 26th and March 5th (2009). Mayotte counts as AF-027 for IOTA purposes. The 2003 "Most Wanted" survey by the 425 DX News shows Mayotte ranks 121 for DXCC purposes. Both operators will use the single callsign of FH/G3SWH. Their activity will be mainly on CW on all bands 80-10 meters. Subject to QRN and site conditions, there may be some 160 meters CW activity. Richard may also operate some RTTY and/or PSK31. Propagation permitting, they plan to have two stations on the air for as many hours every day as is possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), or via Phil's Web site for a bureau reply or by the bureau. For updates and more information, please visit the following Web page at: http://www.g3swh.org.uk/mayotte.html

FT5Y, ANTARCTICA (Update). Hopefully you were lucky to work Nicolas, F4EGX, as FT5YI from the French scientific station "Dumont D' Urville" this past weekend. He is expected to go QRT this week on December 19th. According to Jean-Michel, F6AJA, Nicolas doesn't know if he will spend Christmas at the station or on the boat "Astrolabe". He will be back in France around the New Year. Take a look at some of the interesting photos he is putting on his Web page at: http://f4egx.homelinux.net
LAST MINUTE UPDATE: Nicolas's last operation will be December 16th, during his afternoon around 14267 kHz.

FW, WALLIS & FUTUNA ISLANDS. Eli, HA9RE, and a team of operators will be active from Wallis Island as FW0RE. The group is expected to arrive on the island January 26th. Eli states, "Provided all our baggage arrives

in due time then we can begin the operation on January 28-29th." They are expected to be there for about a month. Activity will be on 160-10 meters, including 30/17/12 meters, using CW, SSB and RTTY. Two stations will be on the air. Antennas to be used are: a 24m vertical on 160/80/40m, Spiderbeam for 20/17/15/10m, HB9CV for 20-15m and a 7-band Butternut. Eli and his team are now looking for sponsorship. To help, contact Eli via E-mail at: ha9re@freemail.hu
A Web site dedicated to the FW operation will be set up on HA9RE's own Web pages after the expedition has taken place.

HAM IN NEED! Mike, RX1AL, informs OPDX that Vladimir "Vlad", 4K9W, a DXer in Baku, Azerbaijan, is in a very difficult situation. Vlad, who is an invalid for over 30 years, has been bed ridden and constantly dependant on respite care. Vlad's mother recently passed away and Vlad is now alone without other relatives. At present, his friends and acquaintances from the neighborhood support him. However, it is necessary to find constant home care for him. If this is not possible from his own means, then the State will be compelled to move Vlad into a home for severely disabled persons in order to guarantee him minimum care to survive. This would mean that Vlad would no longer enjoy different facets of his life: Amateur radio (almost QRV daily and along with CW and SSB also on PSK and RTTY for over a year now), communicating with friends for many years on Amateur radio airwaves, participating in contesting, and also on the internet. If you would like to know more and would like to help him, please visit the Web page at: http://4k9w.oe4vie.com/4k9w_english.html

HB, SWITZERLAND (6m News). The Swiss authorities will allocate the 50 MHz band to amateur radio on a secondary basis on January 1, 2009. All Swiss and foreign CEPT class licensees may transmit with 100 watts PEP on 50-52 MHz without any antenna restrictions. Primary users may not be disturbed which includes the Ticino since there are still some TV stations active on the VHF band I in Northern Italy.

HE8, SWITZERLAND (Special Event/AAW). Walter, HB9BHY, has announced that he will participate in the 6th Antarctic Activity Week (AAW, February 16-22nd [2009]). He will use the callsign HE8ICE (reference number WAP-81). QSL via HB9BHY. PLEASE NOTE: The HE8 prefix is special and was issued to celebrate the 80th anniversary of USKA (see OPDX.887), so HE8ICE will be used for the 2009 AAW instead of the old previous callsign HB9ICE. Also, a full list of callsigns already booked for the 6th AAW is available at the WAP Web site at: http://www.waponline.it/Default.aspx?tabid=113

HF0, SOUTH SHETLAND ISLANDS. Janusz, SP9YI, has been very active using the new callsign HF0APAS from the Polish Henryk Arctowski Station on King George Island (AN-010, WLOTA LH-0312). Watch around 14195 kHz between 2130-0200z. QSL via SP9YI.

IOTA NEWS.....
EU-066. Operators Andrey/UA9XC, Leonid/UA9XF, Ilya/UA9XLC and Nikolai/UA9XTL will be active as RI1OTA from Solovetskiy Island between December 15-19th. QSL via UA9XC.

NA-057. Paolo, IK2QPR, will be active as HR9/IK2QPR from Roatan Island between January 4-12th. QSL via IK2QPR.

NA-086. Ed, CO7PH and possibily other operators will be active as T47C from Cayo Coco, December 16-21st. Activity will be mainly CW with some SSB on 160-10 meters. QSL via W3HNK.

SA-030. A large group of "Radio Grupo Sur" members will be on the air from Flores Island (ARLHS URU-001, TWLHD WLH CX-001, WLOTA LH-0528, Admiralty G 0690, WW Loc. GF25AB), Uruguay, using the CV5A callsign between January 22-26th. The team will use monoband beam antennas for all bands. They will work all modes and there will be a dedicated RTTY/PSK31 station. QSL via CX2ABC. Visit the club's Web page at: http://www.radiogruposur.com

KP2, U.S. VIRGIN ISLANDS (NA-106). Masumi, JA3AVO, will be active as KP2/JA3AVO between January 17-22nd (2009). Activity will be holiday style. QSL via his home callsign.

IRC REMINDER! Vasilij, RW6HS, wants to remind everyone that some IRCs are dated and will expire on December 31st, 2008.

LOG RECOVERY HELP NEEDED! Al, VE1AL, reports: "Due to my own stupidity, I have lost the DXbase log I keep from October 11, 2008, through December 1, 2008. While I don't necessarily want to have QSLs, I would like to try to rebuild the log information. If it is possible, would those stations who worked me through that period please send me the log information including your call, the date and time of the QSO and the band on which we worked. I know it will be impossible to rebuild the log but any and all pertinent information would be appreciated. I would also appreciate it if the DX bulletin editors could pick up this request and publish it in an upcoming issue. Many thanks to all who might reply to VE1AL@rac.ca "

QSLS VIA LOTW: HT2N

QSLS RECEIVED VIA MAIL: 9L1X, BT1OH, BT1OJ, CE0Y/JJ2NYT, CN2IPA, ER4DX, F6DWQ/MM, GJ3YHU, H7/AJ9C, HC5WW/HC8, JY4NE, LU4DXU/MM, P29NI, PY0FF, PZ5Z, RA2FF, SU8BHI, TO5DX, V26B, VO2A, VP2ETN, VP6DX, VY2ZM, XU7ABN, YJ0AQY, YJ0AVE, ZK1EHH and ZP6/N3BNA

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SILENT KEY. Alexander, RA4HT, informs OPDX that Joseph Raihstein, RD4HF (ex-4K6GF, UD6GF, UD6DLJ, 4K500GF, 4K70GF and 4KA6GF) became a Silent

Key (SK) on December 7th. In recent years he was seriously ill, but every day if he was not in the hospital, his voice could be heard on the bands. Until recently, RD4HF participated in a round table of Russian Emergency Network (RAS). All his life was associated with amateur radio. Most of his life of Joseph - "Semen-Semenych" as he was affectionately called by his Baku friends, lived in Azerbaijan, where he became known as radiosportsmenom, deserved coach of Azerbaijan, a judge of the All-Union category, Honorary Radio USSR. OPDX and its readers would like to send out our deepest sympathy to the family and friends of RD4HF.

T32, EAST KIRIBATI. Toshi, JA8BMK, has gone QRT as T31DX from Central Kiribati last week and is now headed back to Christmas Island. He should be there around by the end of the week. Look for him to be active as T32YY again for possibly 7 days. QSL direct to JA8BMK.

T8, PALAU. Operators Mike/JA6EGL, Yas/JA6UBY, Yu/JE6DND and Hiro/JA6KYU will be active as T88SM, T88CP, T88HK and T88HS, respectively, from Koror Island (OC-009), January 16-18th. Activity will be 80-10 meters CW/SSB. QSL via their home callsigns (direct only).

FEDERAL COMMUNICATIONS COMMISSION

Enforcement Bureau

Spectrum Enforcement Division

1270 Fairfield Road

Gettysburg, Pennsylvania 17325-7245

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

January 29, 2008

Todd E. Daugherty

800 W Main Cross

Taylorville, IL 62568

SUBJECT: Amateur Radio license N9OGL; WARNING NOTICE; Case #EB-07-SE-371

Dear Mr. Daugherty:

Information before the Commission indicates that you have been operating an unlicensed radio station on, among other frequencies, 6.950 and 13.556 MHz. The information indicates that the signal strengths of these transmissions exceed the power limit of Part 15 of the Commission's rules for unlicensed transmitters. Your response to the Enforcement Bureau received on November 6, 2007 was insufficient and contradictory, and indicates a misunderstanding of the Part 15 power limits for unlicensed stations. For example, you stated that your power levels were in compliance with Part 15 of the Commission's rules, yet in statements made in 2006 and 2007 describing your shortwave station "Omega One" you stated that you were operating at 5 watts, then 10 watts and later 50 and 100 watts.

Such unlicensed operation would be a violation of Section 301 of the Communications Act of 1934, as amended, 18 U.S.C. S: 301, and would subject you to a monetary forfeiture (fine) or imprisonment, or both. Forfeitures normally range from $7,500 to $10,000. Furthermore, such operation would reflect adversely on your qualifications to retain an Amateur license.

Sincerely,

W. Riley Hollingsworth

Special Counsel

If the driving radio has ALC or some other power leveling circuitry and meets FCC spec. then you can have a reasonable assumption that the power you set to will be limited to that level. There are grave exceptions though. IC 706s could spike on key down in CW mode because the radio would momentarily make full power before autoleveling could exert control and probably resulted in some punched grids.

Just about any cheap Oscilloscope can be used to show linearity by sampling some RF and using direct coupling to the deflection plates.

The problem is the FCC Shit for Brains Riley Hollingsworth based that information on information he got off the internet, not based on actually information like a field strength test,which under law they are suppose to do....GOOD LUCK IN THE FUCKING CONTEST LOSER!!

What's really funny is the first letter he sent me, where he claimed the field strength for 13.556 MHz was 30 microvolt per meter at a distance of 30 meters, which in fact it's actually 15,848 microvolts per meter at a distance of 30 meters. It clearly shows that Riley didn't know what the FUCK she was talking about!

2208. Palmdale California To Pass Anti Ham Radio Law

Palmdale, "Kalifornia" is attempting to outlaw amateur radio. The city of Palmdale has now passed a draft zoning law that proposes an enforcement unit that could seize amateur radio equipment and restrict antenna height to one inch above a fixed structure's roof.

It also applies to mobile and portable operation using an HT. They can even arrest you and take your HT just for walking down the street and talking on it.

I am not kidding. Here is a link to the actual proposed ordinance where you can read it for yourself.
http://www.cityofpalmdale.org/city_h...spl120479c.pdf

QRZ.com are leading the hams in a campaign to stop this law from taking effect. You can read all about it here:

There is also are some videos on YouTube from N9FAA about it.

Sure they can; all they need to do is pass an ordinance.

Whether or not someone has the resources to file a court challenge
and fight it is a separate issue.

technically no they can't, Congress passed a law in 1983 giving the
FCC full authority of RF energy also in the 1980's the FCC passed
PRB-1 which exempts amateurs to some degree, for example any ordinance
that bans all antenna violates PRB-1. Any ordinance created must use
the lease restrictive means to serve the government interest.

And you all didn't believe me that SOME cities and counties are doing
this.

I didn't even know about the Palmdale California one until reading
this message. So chalk up ANOTHER city making such a rule.

"must use the least restrictive means"

then what about all the previous statements in thse newsgroups that
legally the local authorities are allowed to be more restrictive than
the federal
radio rules, but not legally allowed to be less restrictive than the
federal rules???????

It seems to be if thety're allowed to be MORE restrictive than the
federal rules, then the ban on ham radio in that city by that city is
completely
legal, if the law passed.

Not true, many cities believe they can, but if you were to fight it in
federal court, they would lose. Cities, States and Federal according
to the courts must use the "lease restrictive mean necessary to
substances governmental interest". There has been many court cases
including Supreme Court cases and which the courts has ruled that is
how it's suppose to be. That's where the FCC got that term in PRB-1.

Actually Federal laws also have to abide by the "lease restrictive
mean" as well, although a lot of government agencies don't

Technically, yes they can.

A city can pass an ordinance making it illegal to wear a white shirt
and it is law until challenged in court.

And, for what it is worth, California adoptd AB 1228 in 2003 which
basically makes PRB-1 part of state law.

Neither AB 1228 nor PRB-1 mean anything until a locality passes and enforces an ordinace contrary to state and federal statute AND an individual is "harmed" by the ordinance AND the individual challenges the ordinance in court.

I also got the 404 error. His other link to qrz worked and I got this working link of Palmdale's website mentioning ham antennas dated December 2008.

This link is currently working:

And to add insult to injury, you'll have to spend your money to get your antenna installed, spend your money to fight the city's illegal rules, and then you'll have to pay your taxes.. which the city will use to FIGHT YOU and your antenna installation.

The Government(at all levels) passes all kind of laws that probably aren't legal or constitutional. They're supposed to at least try to pay attention to existing rules, laws, and the Constitution but frequently they don't. And then we the people have to spend our time and resources fighting the people we elect to these offices.

The real problem is no one pays attention to these things. Even if you manage to go to court, get these rules thrown out, the people who wrote them will not be penalized in any palpable way.

I had a HAM friend in a town near Sacramento who had to fight city hall on an antenna tower he'd set up. He had it up for almost 10 years before the city noticed.. and then tried to pull some permit nonsense to get him to take it down. Luckily he found a city clerk with half a brian, explained to them that the FCC handles these matters, and they left him alone.

No, my messages were not spam. If you don't like my new crimefighting attitude, you can blame Steam and Valve.

Ever since I got ripped off by Steam and Valve, I am on a crusade to verbally fight all crime and ccorruption that I see or experience by verbally exposing their crime, corrruption, and illegal activities by posting on the internet.

I'm not taking t anymore. Too many people don't stand up for the real laws of this country anymore, which is most likely why things just keep getting
worse and worse.

Next up on the list:

The illegal activites of Palmdale, California.

IF they are indeed illegal activities.

Which several people said they are.

But are they really?

hmmm.....

I'll have to take another look at their rules and regulations.

However, whether legal or illegal, they sure are making it hard to impossible for hams to put up antennas of any sort

Imagine if you didn't stand up for the real laws of the country and just sat back saying nothing and posting nothing and letting Palmdale illegally
do whatever they want to.

you soon wouldn't be able to use your ham radio at all. Then no using your cb at all. Then no using your frs at all. But it wouldn't stop there.

Next or eventually comes regulating the color of the cell phone you can have. The color of the cordless phone you can have if they don't outlaw those first.
The color of your house. Etcetera.

And impossible to follow laws since they purposely contradict theirselves.

The posts about Palmdale on qrz were back from 2006 and I think 2002 or so also. the current one is current, December 2008, and even the 2002.2006 one wasn't the first time Palmdale tried banning ham antennas.

They also tried it around 1992 or 1994. I saw the posts dated around then.

It seems obvious that Palmdale is NOT going to give up trying to ban ham radio antennas or ham radio alltogether.

And did they or didn't they just ban mobile ham radios and handgelds also.

From reading their rules, I believe their intentions were to ban handhelds, but if so, they goofed as it seems to me their rules permit handhelds and handheld antennas.

However, if permitted like it seems to be, their intentions might have been to allow them instead of ban them.

But that doesn't seem to mesh with the rest of the rules.

It looks to me like they are trying to ban mobile ham radio operation.

What about those of us from out of town and out of state who just happen to be driving through Palmdale on vacation or for some other reason and have big honking huge ham antennas on our car since they're not illegal where we live?

I think It said something about them having to meet the vehicle code about ham antennas.

However, I have never ever seen any vehicle code mentioning ham antennas.

Of course, being California, theirs' might.

If their vehicle code doesn't mention ham antennas, what are the chances of Palmdale using that to say since the vehicle code doesn't mention ham
antennas at all, then the ham antennas don't meet the requirements of being how the vehicle code says they must be, and are therefore illegal.

You have to remember, California is screwy. And Palmdale even more so, from what I've read posted by other people.

They said Palmdale is and was already a bad trashy looking ghetto dump.

And that a bunch of ham radio towers would actually improve the look of the place.

I've never been there myself, so I can't say for sure if that's true or not.

.

At least not without a big huge fight on their hands.

The latter is what happened to me and everyone else in the trailer park once the new landlord/owner of the trailer park took over.

okay. If I was a ham living in Palmdale, California right now, I would do this kooky thing.

The proposed law says antennas are not allowed to be one inch over the roof line at all.

And unless I'm mistaken, I think it says antennas on portable ht's are exempt from the antenna laws.

So I wonder how Palmdale would like itt if I sat on top of my roof with a portable ham HT in my hand, talking on it, in which case the antenna on it
would be MORE than one inch above the roof line of the house.

Hey, they did say portable ham HT's are exempt from the law, unless I misread something.

When you're not allowed any antenna towers over one inch above the roof line, what better way to get better reception than to talk on your HT while
sitting on top of your roof?

hmmm... another idea. I guess there is a better way. Nope. I thought of using an extension cord to set your base/mobile rig on top of the roof using a
mag mount antenna on a pizza pan, while talking on it, but base/mobile rigs aren't exempt from Palmdale's laws and would count as an illegal antenna over one inch above the roof line.

Back to the talking on a portable HT while you're sitting on top of the roof of your house.

I wonder how Palmdale would like those aesthetics.

Of course they'll probably still try to get you for having an antenna over one inch above the roof line.

But you can then show them their ordinance that says HT's are exempt.

However, a ham winning against them in court when they revoked his permit for an antenna two years after they gave him one.. is what prompted them to try to pass this latest proposed ordinance to eliminate all ham radio they can.

At least that's what several people have said.

Agreed. However, Palmdale is shooting itself in the "foot."

For those not aware, Palmdale is adjacent to the San Andreas Fault. I can easily envision any and all amateur operators in the area REFUSING to take part in any emergency communication, whether practice or real, with regard to any disaster in the area. Palmdale obviously does not value the operators as a resource.

Note that Palmdale also went after TV and satellite antennas. Again, there are laws separate from PRB-1 and its state equivalent that exist at both the federal and state levels of government that clearly PERMIT these antennas. Practically EVERYTHING cited in the proposed statute is pre-empted at a higher government level. Is the City really that clueless?

However, notice that they also exempted their own selves from the very
rules that they are trying to impose on ham radio operators.

Also, they claim it's to eliminate interference to other electronics
by ham radio.

However, as ham radio operators and some cbers know, lowering the
height of the antennas INCREASES interference.

Why didn't someone tell Palmdale that? Or did they?

If they were told that, and really wanted to decrease unterference to
electonics by ham radio, they would INCREASE the height linit.

Which they aren't.

If they were told that, and still DECREASING the height limt like
they're trying to do, then it's obvious it's not about them wanting to
decrease interference but is about them wanting to eliminate ham radio
alltogether.

Palmdale: The ordinance must also provide a
reasonable accommodation of licensed amateur radio operators and allow
the rights of
the public to have access to programming received through residential
television
receive-only antennas.

Me: So Palmdale admits that they must provide reasonable accomadation
to licensed radio amateurs.

Palmdale: Further, the regulations were to ensure that residential
television and amateur radio
antennas are designed, installed and located in a way that avoids
hazards to public
health and safety;

Me: So they lowered the antenna height limits which INCREASES both
interference and rf safety hazards to the public instead of decreasing
them like
they falsely claim to be doing.

Palmdale: minimizes adverse aesthetic effects; and is compatible with
the
surrounding neighborhood by preventing adverse visual, health, safety,
and other
impacts on the surrounding properties and/or the community while at
the same time
reasonably accommodating amateur radio service communications.

Me: Then why did they INCREASE the health and safety hazards with this
proposed ordinance if they want to decrease them?

And translation of Palmdale's meaning of "minimizes adversse aesthitic
effects": "We don't want to see anyham antennas any where at all
because
we don't like the look of them."

Palmdale: ANALYSIS

The new ordinance permits the following types of antennas to be
installed without prior
approval of the Planning Department of the City of Palmdale. However,
they may still
be required to obtain a building permit from the Building and Safety
Department. These
antennas include: a) antennas that are installed, placed or maintained

and used under
the roof, or extend no more than one inch above the roof, or are
behind and below an
approved architectural feature and do not protrude above the highest
point of the
building and are not visible from a public right-of-way or other
private property, including
upper floors of adjacent buildings; b) antennas that are handheld or
mounted on
vehicles consistent with the vehicle code; and c) antenna
installations intended for use
by the City of Palmdale or another governmental agency.

Me: "Under the roof where they can't seen by anyone outside, no more
than one inch above the roof so people outside won't see them, or
behind and below an approved arcgitectural feature so that they can't
be seen by anyone outside, only the architecural feaaturee which must
also be approvedm and even these antennas might "still require" a
"permit from the building department"

Did they just outlaw both mobile and ht operation with the above
rules if the proposal passes as law?

It sure seems like it.

Translation of Palmdale's statements: We don't want to see any ham
radio antennas anywhere because we don't like the loks of them and we
don't like
ham radio at all."

Palmdale: It also allows a single vertical antenna mounted directly on
the ground or on a roof that
is located in a non-residential zone or in a residential zone where
the lot on which the
antenna is located and all lots within a 1,000 foot radius are at
least one acre in size.
The antenna is to extend no more than six feet above the main
structure and must be
located behind and attached to the main structure on the lot if ground-
mounted, and on
the back quarter of the roof if roof-mounted. The antenna is to be
colored to minimize
its reflectivity and blend with its surroundings as much as possible.
Antennas Approved by Minor Modification or Conditional Use Permit
(CUP)
The ordinance then specifies the types of antennas to be permitted by
either the Minor
Modification or Conditional Use Permit process. The antennas permitted
under the
Minor Modification approval process are essentially the same as those
antennas noted
above with the exception that the lot size requirement of one-acre has

been deleted
thereby requiring a Minor Modification approval on all lots less than one acre in area. It
also provides that the height shall extend no more than six feet above the main
structure in a residential district no more than fifteen feet above the main structure in a
non-residential district.
The Minor Modification process also requires that notification be provided to adjacent
property owners and any homeowner’s association at the cost of the applicant.

MeL: So Palmdale is sating that if you want to put up an antenna, you must notify ALL of the aadjacent property owners. Of course their definition of adjacent is probably "everyone who can see it" instead of just "next door neghbors".

And at your own expense.

You know they'll want you to prove in writing that you notified them if some case or court case comes up.

Palmdale: notice will state that any appeal to the Minor Modification must be filed with the City
within thirty days of the date the notice was mailed. An applicant or any interested
person may file an appeal to the Planning Commission, of the Planning Director’s
decision to issue or deny a Minor Modification, which appeal will automatically stay the
director’s decision and/or rescind any Minor Modification issued and cause the
application to be processed as an application for a Conditional Use Permit. An appeal
must be filed within 30 days after the date of the notice. The Minor Modification will
then become effective thirty days from the date the notice was mailed if no appeal is
received within that time. If an appeal is received within such time, the Minor
Modification is to be rescinded and the applicant required to file an application for a
Conditional Use Permit to obtain permission to install or construct the antenna. If the
installation of any antenna is not prohibited pursuant to Section D, or permitted pursuant
to Section E or Subsection F.1, the antenna shall require a Conditional Use Permit
approved by the Planning Commission in order to be established.
Amateur Radio Antenna

The Minor Modification or Conditional Use Permit applications for amateur radio
antennas require the submittal of additional information related to the ham radio
Memo to the Planning Commission
Zoning Ordinance Amendment (ZOA) 08-04
December 4, 2008
Page 4
operation. The additional information will include information about the radio operator,
specific information on the proposed antenna and site location, any structural details,
any mitigation measures proposed to minimize any adverse effects such as painting or
screening of the antenna or antenna structure, and a statement of the reasons why an
antenna as permitted under Subsection E will unreasonably interfere with the operator's
ability to receive or transmit signals.

Other information will include a list of equipment,
proposed maximum transmission power wattage to be used, and a discussion of other
available methods to accomplish amateur radio communication without exceeding the
development standards which do not require Planning approval.

Me: When did Palmdale get the authority to regulate how much maximun transmission power wattage you can use???????????????

I thoght only the FCC has the authority to regulate that.

So now Palmdale is falsely claiming they have more authority over radio transmissions than the FCC does.

Palmdale: The City may alsor retain the services of a consultant to assist in the evaluation of an antenna proposal with
the cost of such services to be paid for by the applicant.

Me: So Palmdale says you yoursel (hams)f HAVE TO PAY for the sercices of a consultant that the city itself hires and retains to assist in the evaluation of an antenna proposal

Palmdale: In addition to the standard findings required for approval of a Minor Modification or a
Conditional Use Permit, the ordinance as proposed requires that additional findings be
made prior to approving a Minor Modification or Conditional Use Permit for an antenna
or antenna support structure:
a) That the applicant has demonstrated that strict compliance with the development

standards specified in Subsection E would unreasonably interfere with the
applicant's ability to receive or transmit signals, or that strict compliance with said
development standards is not, under the circumstances of the particular case,
necessary to achieve the goals and objectives of this Section.
b) That the antennas, including antenna support structures and accessory
equipment shall be located, sized and designed so as to minimize the amount of
the antenna that is visible from surrounding properties, public streets and all
public rights-of-way, recognizing that complete screening may not be possible

Me: translation of Palmdale's statements; We don't want any ham radio antennas visible at all.

the above is another of Palmdale's proposed laws that outlaw both mobile ham radio use and portable ht use.
.
Palmdale: c) That in the case of amateur (ham) radio antennas, the use permit would
accommodate reasonably the amateur's desire for communication, while at the
same time requiring the minimum practicable regulation to accomplish the City's
legitimate purpose of protecting the public health, safety, welfare, aesthetics and
compatibility with the neighborhood.
d) There is adequate space on the property for the antenna and antenna support
structure without conflicting with buildings on the property or usable yard areas
required by other sections of the Zoning Ordinance.
Memo to the Planning Commission
Zoning Ordinance Amendment (ZOA) 08-04
December 4, 2008
Page 5
e) The antenna would not despoil the primary view of a neighbor

me: translation of Palmdale's statement: No outside ham antennas at all since a neighbor can see them.

They just once again made another rule/law, if it passes, that outlaws both mobile and ht operation. Your antenna must NOT be in the prinary view of
any neighbor.

Which a mobile will be at some point while driving through the neighborhood, or entering or leaving your home. The same for a HT.

Palmdale: f) There are trees or a nearby landform that would serve as a backdrop to mask the
silhouette of the antenna.
g) There are trees or other features in the neighborhood that represent existing tall
features as part of the neighborhood character.

me: translation of Palmdale's statements: We don't want to see any ham antennas at al.

Palmdale: In granting the permit, the Planning Commission or Planning Director as the approving
authority may impose conditions reasonably necessary to accomplish the purposes of
this Section, provided those conditions do not unreasonably interfere with the ability of
the applicant to receive or transmit signals.
Minimum Requirements
The proposed amendment also provides the following minimum requirements; however,
the approving authority may impose greater restrictions as necessary to protect the
public health, safety, welfare, aesthetics and compatibility with the neighborhood.
These criteria specify a variety of minimum requirements related to height, screening,
operation, insurance, modification to existing antennas, annual inspections, and nonconforming
antennas.
1. Height. The antenna shall not exceed the minimum height determined by the
approving authority to be reasonably necessary to achieve transmission and
reception.

me: Which doing so INCREASES the public's exposure to rf hazards instead of decreasing them.

And what does Palmdale consider "reasonably necessary to achieve transmission and reception"? recieving other hams from one mile away? What if you wanted to or needed to talk to people further away?

Palmdale: The applicant shall provide information and fund any expert evaluation
of the specific site being requested as required by the approval authority to
documentthe minimum height required to the satisfaction of the approving
authority.
2. Screening. Ham radio antennas shall be screened to the extent practicable with
vegetation, trellises or other means acceptable to the approving authority even

though the screening may somewhat diminish the effectiveness but
provided that
it does not significantly impair the operation of the antenna.

Me: Yeah, that will sure help the signal from my 70 centimeter ham
transmitter to get out. /sarcasm

Palmdale: 3. Insurance. The antenna owner shall provide proof of
liability insurance in the
event that the antenna falls and damages persons or property. Such
insurance
shall be maintained as long as the antenna is in place.
Memo to the Planning Commission
Zoning Ordinance Amendment (ZOA) 08-04
December 4, 2008
Page 6

me: So in Palmdale, if you have a ham antenna, you MUST pay for ham
radio antenna liability insurance as long as you have the antenna up.

Which of course will probably be at least a monthly fee.

And you know youll need it from them claiming you're the one
responsible for someone's sickness for caused by your unsafe RF
causing it..By having your antenna to high where it causes more RF
dangers to the public.

When we all know the real reason the person got RF sickness is because
Palmdale required lower antenna height limits which increased the RF
dangers
to other people instead of raiding the antenna height limits to which
decreases the RF dangers to other people. ;)

Palmdale: 4. Modifications. Any Conditional Use Permit for a ham radio
antenna shall include
a condition that the permittee shall report any changes to equipment
or antenna
structure from that authorized by the Conditional Use Permit and shall
if
necessary, obtain a modification to the Conditional Use Permit.
5. Inspection. Any use permit for a ham radio antenna shall include a
condition that
it shall be inspected annually to certify its safety and to verify
that liability
insurance is in effect and also that the ham radio equipment may be
inspected
without prior notice upon the receipt by the City of a complaint that
the radio
operation is causing interference with neighbors electronic devices
due to the
use of higher wattage than allowed by the FCC.

MeL Isn't this a matter for the FCC? When did Palmdale get the right to do ham radio and wattage inspections?

And to certify whether your ham radio is safe or not?

They probably don't even know all of the technical requirements the FCC requires.

And if there really is interference to the neighbors' devices, aren't those part 15 devices which by federal fcc law are REQUIRED to accept all interference they recieve.

So what is Palmdale doing investigating ham radio operators' radios in those cases?

When no federal or fcc laws are being broken by those ham radios.

Although there's plenty of federal and fcc laws being beiken by Palmdale in those cases, along with Palmdale breaking state law.

Palmdale: The City shall provide this
inspection service at applicant’s cost. Permittees shall pay an annual inspection
fee adopted by Resolution of the City Council in an amount sufficient to
reimburse the City for an inspector qualified to inspect amateur radio equipment.
6. Antennas and supporting structures shall be a neutral, non-glossy, non-reflective
color (i.e., earth-tones, black, gray) and be located in the most inconspicuous
location possible to receive and transmit signals. An antenna which uses or is
composed of perforated metals, radar mesh or wire screen, thereby reducing the
antenna's visual mass, is encouraged.
7. Approval by the City shall not be deemed as approval by a homeowners'
association pursuant to any covenants, conditions, and restrictions (CC & R’s).
8. Any equipment on the base of an antenna or antenna support structure shall be
screened subject to the approval of the approving authority.
9. Anti-climb devices shall be installed at the base of the antenna tower if required
by the approving authority.

Me: Then how will we be able to climb up there to make modifications to the antennas if required by the FCC???? ;)

okay. I know that's usualy to protect kids and other people from climbing it.

Palmdale: Building Permit.
When required by the Palmdale Building Code, a building permit shall be obtained for
the installation of any exterior antenna. The Building Official shall determine that the
antenna is in compliance with all applicable sections of the Palmdale Building Code and
any local regulations prior to issuance of the building permit.
Time Limit. Any antenna permit granted pursuant to the provisions of this Section shall
be developed and utilized within a period not to exceed twelve (12) months from and
Memo to the Planning Commission
Zoning Ordinance Amendment (ZOA) 08-04
December 4, 2008
Page 7
after the date of the granting of such permit, and, if not so developed and utilized, such
permit automatically shall become null and void at the expiration of such twelve (12)
month period.
Abandonment. The owner of a permitted facility shall submit written verification
annually that the facility is operative. Any antenna structure and related equipment
regulated by this Section that is inoperative or unused for a period of six (6) consecutive
months shall be deemed abandoned and declared a public nuisance. Removal of the
abandoned structure shall follow the procedures set forth in Chapter 8.10, Public
Nuisances and Abatement Procedures, of the Palmdale Municipal Code

Me: Definitely an attack on all ham radio operators and all ham radio operation. What if you're sick for more than six months at one time ? Then you're in violation of the law. After all, we all know how all the ham operators constantly talk about their health problems and doctors' operations over the air. ;)

.Palmdale: Antennas and antenna support structures legally installed, i.e. with all required
approvals and permits, prior to the effective date of this section shall be deemed to be
legally nonconforming. All antennas legally installed prior to the effective date of the
ordinance codified in this section which do not conform to the foregoing development
standards shall be discontinued and removed from their site, or brought into compliance
with said development standards within three (3) years from the effective date of the
ordinance codified in this section. Those installed without required

approvals and
permits shall remain illegal and shall be removed immediately.
General Plan Consistency
This Zoning Ordinance Amendment is consistent with the goals,
objectives and policies
of the City’s General Plan. General Plan Objective S2.6 provides that
the City should
“Minimize exposure of residents to other man-made hazards, to the
extent feasible.”
Further, General Plan Policy S2.6.2 provides that “To the extent
permitted by law, work
cooperatively with the applicable agencies and homeowners to eliminate/
modify sources
which interfere or disrupt emergency communications including, but not
limited to,
improperly installed or operated Ham and citizen band radios.”

Me: When did HOMEOWNERS ASSOCIATIONS get the authority to decide if ham radio and cb radios are improperly installed or improperly operated.

I THOUGHT that only the FCC has the authority to do that regarding ham radio.

Palmdale is a reasom why the FCC should have NEVER ever turned over CB regulation to the local governments like they did.

Palmdale gave HOMEOWNERS ASSOCIATIONS the authority to regulate and determine whether you are operating your CB radio legally or not and whether you are operating your cb radio safely or not.

And it all seems to be legal as far as CB is concerned, since the FCC gave local cities like Palmdale the authority to regulate and enforce CB radio and Palmdale allows the homeowners associations to regulate and enforce CB under Palmdale's authority to do so.

Palmdale: The proposed Zoning Ordinance Amendment establishes
standards which
accommodate amateur radio service communications but which regulate
the size,
location, height and screening of antennas which is necessary for the
preservation of
the health, safety and welfare of the community. Further, the
amendment as proposed
provides a more stringent regulation of antennas as is necessary in
residential areas
compared to nonresidential areas in order to preserve neighborhood
compatibility and
the open vistas and appearance of the community.
Memo to the Planning Commission
Zoning Ordinance Amendment (ZOA) 08-04
December 4, 2008

Page 8
In addition, the proposed amendment, to the extent permitted by Federal law, sets forth
certain standards for the operation of the amateur radio antenna to limit unreasonable
interference with electrical equipment in the surrounding neighborhood which is
incompatible with that neighborhood.

Me: So according to Palmdale, now even if your whole neighborhood is completely okay with your ham antenna and a surrounding neighborhood that is NOT part of your neighborhood doesn'tlike you having it, you're in violaion of the law.

Palmdale: The proposed standards require the submittal of information to demonstrate the need for increased antenna height and the operators
ability to communicate in a reasonable manner without the increased height.
Further, Zoning Ordinance Amendment 08-04 is consistent with the General Plan Policy
S4.1.1 which states, “Adopt appropriate codes to assure minimum standards to
safeguard health, safety and public welfare by regulating the use and occupancy,
location and maintenance of structures within the City” because the proposed changes
to Section 95.03 of the Zoning Ordinance sets forth standards to ensure that antennas
are located on parcels of adequate size and with adequate setbacks from adjacent
uses. Standards are also proposed to ensure adequate structural integrity of antenna
structures to protect public health and safety.
ENVIRONMENTAL REVIEW
An environmental initial study was prepared in accordance with the California
Environmental Quality Act (CEQA), which determined that proposed Zoning Ordinance
Amendment 08-04 to amend Section 95.03, Vertical Antennas of the Zoning Ordinance
will not have a significant impact on the environment.
CONCLUSION
The proposed Zoning Ordinance Amendment provides regulations to ensure that
residential television and amateur radio antennas are designed, installed and located in
a way that avoids hazards to public health and safety, minimizes adverse aesthetic
effects, and is compatible with the surrounding neighborhood by preventing adverse

visual, health, safety, and other impacts on the surrounding
properties and/or the
community while at the same time reasonably accommodating amateur
radio service
communications.

Very disturbing is Palmdale's law (if the proposed ordinance passes or did it already pass?) which gives Homewowner Associations the authority to determine if you are operating your ham radio (or CB) within RF safety limits or not. And if you're operating your ham radio (or CB) legally or not. And how much power wattage you can use.

Are those people even going to know what the legal FCC rules are abvout RF safety exposure limits???

And if so, are they even going to follow them if they decide they theirsselves don't like the look of any antennas and so there should be none???

If they trylyknew theFCC rules and were truly concerned about RF safety exposure to the public, they would be complaining that you must make your antenna higher, no lower.

If they claim to be concerned about rf safety exposure limits to other people and tell you have to lower your antenna to comply with rf laws to reduce rf exposure to other people, then you know that they're NOT going by the real true FCC rules about RF exposure.

And know that they're NOT qualified to make such deccisions.

I guess I stand corrected then. They are trying to outlaw ham HTs

However, notice that they also exempted their own selves from the very rules that they are trying to impose on ham radio operators.

Also, they claim it's to eliminate interference to other electronics by ham radio
---

They obviously don't understand 47 C.F.R. 15 ("Part 15") which basically says that unlicensed devices must accept interference from licensed services. They've got it backwards.

From my reading of Palmdale's rules/laws, I get that even if you don't have any outside antennas at all and are only operating indoors, either Palmdale or Homeowners Associations can come into your house and deermine whether you're operating your ham radio or cb within rf safety limits or not, and whether you're operating your ham radio or cb legally or not.

They definitely either don't understand the federal FCC laws, or do understand them and are purposely ignoring them.

Don't mean shit any way, everything is going digital..and again ONLY
the FCC has jurisdiction over RF and interference from RF

I just heard something said on the show that's on tbv here now and thought that's exactly what Palmdale needs.

"Whip them with the car antenna".

Okay, the exact quote was

I don't remember if I ever heard Todd's station or not. I don't think
I ever did since I wasn't listening to the shortwave very much at that
time.

However, I have seen the latters from the FCC to them, and there is
absolutely no mention of the "field strength" power that Todd was
using in it.

There is mention of the amount of watts Todd used in it.

However, the FCC has previously told us they go by field strength, not
watts.

The letters from the FCC clearly show that the FCC has no idea at all
what the field strength power readings of Todd's station was at the
time.

Other people will say, well quit reading Todd's site and look on the
FCC's site instead.

Well, for your information, I did see those FCC letters I'm talking
about on the FCC's own website.

I've never seen them on Toddd's site even if he has them up.

Because I was reading the FCC's own website instead.

They clearly have no idea what the field strength of Todd's station
was at the time, and therefore shouldn't have sent him a NAL unless
they knew for sure that he was over the legal field strength limits
for a part 15.

Ever since getting rippedoff by Steam and Valve videogames, I'm

That's ok it was very weak any way, the vast majority of people that
did hear it, heard it in the noise level.

That's correct, Riley based the letter sent to me, on information he
had received from ham radio operators who wanted me off the amateur
bands, it is these same amateur radio operators before that who
complained and had me kicked off all my ISP. The FCC measures Part 15
in field strength, not the wattage, unlike ham operators who thinks
it's the wattage.

No they didn't here's Riley's first letter http://www.mediafire.com/?qmlre1fwcjm
read what Riley said what the field strength is suppose to be and get
a copy of Part 15.225 and tell me if Riley know what the hell he was
talking about

§ 15.225 Operation within the band 13.110–14.010 MHz.

(a) The field strength of any emissions within the band 13.553–13.567
MHz
shall not exceed 15,848 microvolts/meter at 30 meters.

(b) Within the bands 13.410–13.553 MHz and 13.567–13.710 MHz, the
field strength
of any emissions shall not exceed 334microvolts/meter at 30 meters.

(c) Within the bands 13.110–13.410 MHz and 13.710–14.010 MHz the field strength
of any emissions shall not exceed 106microvolts/meter at 30 meters.

(d) The field strength of any emissions appearing outside of the 13.110–
14.010 MHz band shall not exceed the general radiated emission limits in
§ 15.209.

(e) The frequency tolerance of the carrier signal shall be maintained within ±0.01% of the operating frequency over a temperature variation of
¥20 degrees to +50 degrees C at normal supply voltage, and for a variation in
the primary supply voltage from 85% to 115% of the rated supply voltage at
a temperature of 20 degrees C. For battery operated equipment, the equipment
tests shall be performed using a new battery.

The problem is they were publish in the United States and The server
they are on is in the United States...thus the server and the
publisher, who published the material in the united states must
conform to US Laws. Now if I go over there (Australia, which I
wouldn't because it's a second rate country) and have the material on
me or publish the material on my blog while I was over there, which
again I wouldn't go to a second rate country like Australia anyway.
The I'm under their law. Something that was already published on a
site in one country can be prosecuted some five, ten years later in
another country..AGAIN I WANT TO POINT OUT THAT IS NOT WHAT THIS
THREAD IS ABOUT...YOU HAVE JACKASSES HIJACKING THREADS....I SUGGEST
YOU MAROON READ THE THREAD AGAIN!!

Wrong! You apparently didn't do your homework well enough. In 2001,
Elcomsoft's servers were located only in Russia (Czech Republic). Only
later did Elcomsoft contract with servers in North America (Chicago) to
host its North American web site.

Technically, Dmitry was not arrested for selling his software; he was
arrested for *writing* the software (in Russia) for Elcomsoft. Thus, he
was arrested for something that he did legally in his own country.

> wouldn't because it's a second rate country) and have the material on

Australia is hardly a "second rate" country. Only an ignoramus would
make such an uninformed claim, but then you are, aren't you?

The subject of this thread has remained unchanged in my posts; thus it has not been hijacked. Look to your pal Smarmy Marky if you want to find that kind of behavior.

On the subject of your FOIA request, did you ever stop to consider that you might be calling attention to yourself all over again? If the bureaucracy happened to let any planned followup to your warning letters fall into the cracks, you have now assured that they will pull your file and reexamine everything.

There's a reason for that old saying to "let sleeping dogs lie," but you chose instead to walk over to the dog and kick it.

I see you are desperately dredging up old threads again with your lies and unfounded accusations. You are such a fool, Law enforcement apparently won't act on your false allegations, because as we all know you make up stories without any credible evidence whatsoever. You went on your little witch hunt attacking other hams which was a complete faliure on your part, but not a failure on thier's as you were impeached as President of the Copper Country Radio Amateur Association. You have been banned from several boards, and are ridiculed daily on others.

The only reason anyone pays any attention to you is just to see what stupid act you will do next. Get a life Mark Morgan KB9RQZ.

The FCC has until January 6, 2009 to give any and all information on Todd E Daugherty, Omega One Radio, and complaints. If the FCC doesn't comply I will have no choice then go to the US District Court with a lawsuit against the FCC for not complying with the Freedom of Information Act. It would be in the FCC interest to give the information, I know there is a few people in congress watching the FCC and their activities and by not surrendering the information proves two things 1. The FCC did not have any REAL INFORMATION about Me or Omega One Radio and therefore the warning letter was nothing more then a farce by a employee of the FCC who had a grudge against me, and 2. it proves that the FCC supports this harassment by these individuals who feel it's their duty to call my employer in hopes to get me fired.

2009 CQ WPX CONTEST (Rule Changes). Randy Thompson, K5ZD, Director of the CQ WPX Contest, announced that the rules for the 2009 CQ WPX Contest are now available. See: http://www.cqwpx.com/rules.htm
There are changes throughout the rules, so participants are encouraged to read the complete rules carefully. Many of the changes were to align with similar rules in the CQ WW Contest or to clarify administrative details. There is no change to the scoring. Most of the changes are administrative and should have little impact on the competitive and fun aspects of the contest. They look forward to more sunspots and another record year of participation in the 2009 WPX contests. Look for CQ WPX 2008 Contest results in the January (SSB) and March (CW) issues of CQ Magazine.

4A, MEXICO (Special Event). Members of the DXXE (Mexican Contest and DX group) will celebrate their 4th anniversary by using the special callsign 4A1DXXE between December 25th and January 6th (2009). Activity will be on 160-6 meters using CW, SSB and RTTY. QSL via N7RO and the LoTW. QSOs with this station are good for the DXXE Award. For more information, visit the DXXE Web page at: http://www.dxxe.org

5H, TANZANIA (IOTA Op). Sigi/DL7DF and his XYL Sabine will be on holiday in Zanzibar (AF-032), February 3-13th. Look for Sigi to sign 5H1DF and be active on 160-10 meters using CW, SSB, RTTY and SSTV as often as possible. His equipment consists of a transceiver, a linear TY900, a 18m Lowband Vertical, a Vertical R7, as well as a laptop computer. QSL via DL7DF, by the German QSL Bureau (DARC) or direct to: Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany. For updates and more details, visit: http://www.dl7df.com/5h/index.html

7P, LESOTHO. Danny, ZS6AW, is expected to be active as 7P8AA this week between December 24-27th. His main activity will be on 20 meters SSB. QSL via his home callsign.

9M2, WEST MALAYSIA. Dani, EA4ATI, informed OPDX that he is working now in Malaysia. He has been issued the callsign 9M2TI and will be operating from Kuala Lumpur city. Using a vertical antenna with 400 watts, look for Dani to be active on 40/20/15/10 meters using CW and SSB. He also mentions that he will participate in the main international contests (like the CQ WPX) from a different location with a better station (yagi antennas and also dipole for 80m). Dani will stay in Malaysia for at least one year. QSL via his home callsign.

ASIAN TRIP (Update). By the time you read this Frank, I2DMI, should be active from Thimphu, Bhutan, as A52RY between December 22-31st. Frank informed OPDX on Friday that he will be using his own vertical antenna because the yagi at the HAM CENTRE has been broken by wind. He also mentioned that he still does not know his callsign for Nepal, but he will get a 9N7 (RY? or DMI?) callsign after his arrival in Kathmandu. Please remember he will only be active during his spare time as A52RY. Activity will only be RTTY. He thinks his operating periods will likely be in the ranges of 0100-0300z and 1200-1900z. Suggested target frequencies

will be 3582, 7040, 10142, 14082, 18102, 21082, 24922 and 28082 kHz, listening up 2 or spread 2-10 kHz depending on the pileup. He will concentrate his activity on the opened bands. QSOs will be put on LoTW and e-QSL the second week of January. Bureau cards will go out the fourth week of March. You can QSL direct to I2DMI: P.O. Box 55 - 22063 CANTU, Italy. Include a self addressed envelope (SAE) and sufficient return postage. Please QSL only to his P.O. Box # 55 - 22063 Cantu (not his home address).

BLACK SEA CUP INTERNATIONAL. The members of the Ukrainian Black Sea Contest Club (BSCC) invite all amateurs to participate in the 2009 Black Sea Cup International which is held during the first full weekend of February beginning 12:00 UTC Saturday and ending 00:00 UTC Sunday (February 7-8th). The object is to contact as many other amateurs, BSCC members, amateurs of Black Sea countries, especially IARU member society HQ stations around the world as possible using the 160/80/40/20/15/10 meter bands using CW and SSB. For complete details, visit the BSCC Web page at: http://www.bscc.ucoz.ru

CTU 2009 DAYTON REGISTRATION. Tim, K3LR, CTU Chairman, reports, "I am pleased to announce that 'early bird' registration for Dayton ConTest University ("CTU") 2009 is now OPEN. The CTU staff is working hard to prepare an interesting and informative curriculum for 2009. CTU will be held in Dayton, Ohio, on Thursday, May 14th, 2009 (classes last all day). This is the day before the big 3 day Dayton event! CTU 2009 will feature some of the best Radio Contest operators and station builders (CTU Professors). They will present state of the art contesting topics that will increase your knowledge and fun. Thanks to our flagship Sponsor - Icom America for their continued support of CTU 2009 and our contesting radio sport. Also thanks to CQ Magazine, DX Engineering, Comtek Systems, Dave, W9ZRX and SuperBertha for helping make CTU a success. For CTU 2009 details and registration, 2008 CTU wrap up and more information, go to:
http://www.contestuniversity.com
Please make sure that you click on the registration page and indicate if you are a returning CTU graduate or this is your first time attending Dayton CTU. Based upon the tremendous attendance at Dayton CTU 2008, I expect CTU 2009 student registration slots will fill up fast. Space is limited. Contest University traveled to the United Kingdom in October 2008. It was a huge hit!
http://www.southgatearc.org/news/august2008/contest_university.htm
Look for additional Europe Contest University dates coming soon. Hope to see you at Dayton CTU 2009! Thanks to Scott, KA9FOX and QTH.com for his hosting of the Contest University Web site! Merry Christmas and 73!"

ELECTED OFFICICERS FOR 2009. At its annual meeting held on Thursday, December 11th, the Carolina DX Association elected the following officers to serve for 2009:
President: Ted Goldthorpe, W4VHF
Vice President: Paul Ponak, AD4IE
Secretary-Treasurer: Cliff Wagoner, W3ZL
Newsletter Editor: John Scott, K8YC

Contest Manager: Dick Williams, W3OA
Cluster Managers: Joe Simpkins, K4MD

Webmaster: Wayne Setzer, WB4BXW

FO, FRENCH POLYNESIA. Pascal, F8AAL, is now active as FO/F8AAL from Moorea Island (OC-046) until December 31st. Activity will be holiday style on 40/30/20 meters using SSB and RTTY. He was heard this past week mainly on 40 meters with some 20 meters RTTY. QSL via his home callsign, by the Bureau or direct.

FT5W, CROZET ISLAND (Update). No QSNs reported yet for Florentin, F4DYW, as FT5WO. He was expected to be on the air around December 10th or 15th. Florentin will be active on 40-10 meters SSB (and possibly 80m). He will stay there until end of November 2009, and will return back home in early 2010. QSL via F4DYW, direct or by the bureau after he returns back home. Look for updates on:
http://f4dyw.free.fr/index.php?langue=fr&contenu=ft5wo.html
ADDED NOTE: While you are waiting for Florentin to hit the airwaves, take a look at these great pictures of the Alfred Faure station and Possession Island (Crozet archipelago) at:
http://www.french-polar-team.fr/FT5W_Alfred_Faure_Station_Crozet_Islands.php

FW, WALLIS & FUTUNA ISLANDS (Update). Eli, HA9RE, and a team of operators will be active from Wallis Island as FW5RE (not FW0RE as first reported). Eli informs OPDX that they will be leaving Budapest on January 23rd, and travel via London and Los Angeles were they will arrive on Fiji early in the morning on January 26th. The group is expected to arrive on Wallis Island during the afternoon also on the January 26th. Eli states, "Provided all our baggage arrives in due time then we can begin the operation on January 28-29th." They are expected to be there for about a month. Activity will be on 160-10 meters, including 30/17/12 meters, using CW, SSB and RTTY. Two stations will be on the air. Antennas to be used are: a 24m vertical on 160/80/40m, Spiderbeam for 20/17/15/10m, HB9CV for 20-15m and a 8-band Butternut. QSL Manager will be HA8IB. Eli and his team are now looking for sponsorship. To help, contact Eli via E-mail at:
ha9re@freemail.hu
A Web site dedicated to the FW operation will be set up on HA9RE's own Web pages after the expedition has taken place.

HI, DOMINICAN REPUBLIC. Tino, HI3CCP, will be active during the CQWW WPX RTTY Contest (February 14-15th) from Lomas del Toro in Santiago (the Lomadeltoro Contest Team's HI3CCP station): http://www.lomadeltoro.com
QSL via ON4IQ.

HQ9, HONDURAS. Ray, WQ7R, will be active as HQ9R during the CQ 160-Meter CW Contest (Janaury 23-24th) as Single-Op/High-Power entry. QSL via K5WW.

IOTA NEWS.....
EU-092. Jim, MM0BQI, will be active as MM0Q from Tanera Mor, Scotland, during the RSGB IOTA Contest (July 25-26th, 2009). QSL via the LoTW. QSL are also OK via MM0BQI, by the Bureau or direct.

JD1, MINAMI TORISHIMA. Masa, JA6GXK, will once again be active as JD1BMM starting around December 23rd through January 6th. His activity will be on the low bands. QSL via his home callsign.

KH2, GUAM (OC-026). Yoshi, JE2EHP, will be active as K1HP/KH2 from here between January 16-19th (2009). Activity will be on all HF bands and 6m, using CW, SSB and RTTY. QSL is via Bureau to his home callsign JE2EHP.

KP2, U.S. VIRGIN ISLANDS. Operators Kunio/JA1CJA (KP2/AE6XY), Takeo/JA3BZO (KP2/AE6YQ) and Masumi/JA3AVO (KP2/W3AVO) will be active from Brad's (K9BZ) rental shack (RADIO REEF) between Janaury 17-22nd. The trio will arrive on St.Croix, January 16th, but spend 22 days at Radio Reef before returning to St.Croix on the 23rd for departure. Activity will be on 160-6 meters using CW, SSB and the Digital modes.

LIGHTHOUSE ACTIVITIES.....
* Members of the "Old Barney Aamateur Radio Club (OBARC) will be active as N2OB/150 (or N2OB/LH) starting at 0000z, on December 27th, through 2359z, January 4th (2009). Operations will be on all bands and modes available. Activity is to celebrate the relighting and the 150th anni-versary of the "Barnegat Lighthouse" (nicknamed "Old Barney"). Yes, "Old Barney" will officially be relit on January 1, 2009, which is the 150th anniversary of its original lighting on January 1st, 1859. The lighthouse was officially shut down in 1944 and became a state park in 1957. Since that time only a 250 watt light was lit for aesthetics only. On January 1st, a new light with a new fresnel lens will be lit and "Old Barney" will once again be an official (private) navigational aid. For more info on the relighting, visit the following Web page at:
http://www.southjersey.com/articles/?articleid=19695
N2OB/150 stations will be operating from various locations around "Ocean County". Some operations from the lighthouse property may be possible, and the callsign N2OB/LH will be used which will count for working the lighthouse and IOTA NA-111. A nice color photo QSL is being planned showing the relighting of the lighthouse. QSL via N2OB (SASE requested) or by the Bureau is "OK". Visit the OBARC Web page at:
http://www.obarc.org

* Members of the Turkish group called TCSWAT (Special Wireless Activity Team) will activate a series of lighthouses during the following five months from the historical lighthouses around Istanbul. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organizing the "Istanbul Lighthouses On The Air" activities which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053) and Fenerbahce (TUR 021) Lighthouses during the last two weekends of December 2008. The dates, locations and callsigns are as the following:
December 20-21st - Karaburun Lighthouse (TUR 036) as TC1KLH
27-28th - Karaburun Lighthouse (TUR 036) as TC1KLH
January 17-18th - Sile Lighthouse (TUR 046) as TC2SLH
January 24-25th - Anadolu Lighthouse (TUR 014) as TC2ALH
February 21-22nd - Ahirkapi Burnu Lighthouse (TUR 056) as TC1ALH
March 21-22nd - Rumeli/Turkeli Lighthouse (TUR 053) as TC1RLH

April 4-5th - Fenerbahce Lighthouse (TUR 021) as TC2FLH
Stations contacting four or more of the lighthouses will receive an "Istanbul Lighthouses On The Air Award". Details will be announced later on the following Web sites at: http://tcswat.tripod.com http://ta0u.com
More lighthouses will be activated in the future by TCSWAT. The TCSWAT team members include: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE.

* Operators Ron/WB3AAL, Jim/KA3UNQ and Stan/N2US will be active as homecall/p during the ARLHS Lighthouse Christmas Lights QSO Party (between December 20th and January 4th) from the lighthouse (ARLHS USA-857) in Turkey Point, Maryland. Activity will be on all bands and modes. QSL via the station's home callsign with a SASE or by the Bureau. N2US uses the LoTW. For details on the Lighthouse Christmas Lights QSO Party (LCL), see: http://arlhs.com/LCL-2008-guidelines.html

OA4, PERU. Fred, DL1NL, is currently active from Lima as OA4/DL1NL. His activity is CW only. QSNs show that he has been on 40 and 20 meters. Look for him to stay here until the end of the month. QSL via his home callsign, direct (QRZ.com) or by the bureau.

PJ4, NETHERLANDS ANTILLES. Larry, WO0Z (Whiskey Oscar Zero Zulu) will be active as PJ4/WO0Z from Bonaire (IOTA SA-006) between December 26th and January 4th. He intends to concentrate on 17 and 30 meters in this holiday style DXpedition using all modes. QSL via WO0Z (Whiskey Oscar Zero Zulu). PLEASE NOTE: Larry reuests to PLEASE leave the phonetics in the above announcement as it spares W0OZ (Whiskey Zero Oscar Zulu) many QSLs!

QSL INFO AND NEWS.....
5X1AB PIRATE ALERT. Phil, K6EID, who is the QSL Manager for Arik, 5X1AB, states that Arik was active on October 9th, 2008, until 1740z when he then QRTed. Someone apparently used his callsign working many USA boys after that until 2100 or 2200z. Phil states, "I've received loads of cards and had to return them as NIL. Arik confirmed that he did not make these QSOs. Anyone working a station signing 5X1AB after 1740z on October 9th, 2008, you worked a pirate, save your postage."

NA-132/NA-133 QSL REQUEST. Pedro, HK3JJH, informs OPDX that he is receiving lot of QSL cards for the recent expedition (NA-132/NA-133) from the USA with only a 42 cent stamp only on the envelope. These cards will not be answerd directly because his post office box in Miami is a mail drop-off (to make it easier/safer for him to retrieve the cards). The QSLs will be mailed to Colombia and then sent back to the U.S. for mailing; the expenses are over one USD for each envelope.

Rony, PS7AB, informs OPDX that he is now the new Manager of the "Islanders Expeditionaries Association" (AEI), the Awards and Certificates of the "DIB" (Brazilian Islands Award), "DFB" (Brazilian Lighthouses Award), and "DFH" (Brazilian Historical Fortifications), in substitution to the old manger, Pedro Sirzanink, PP5SZ. The "Islanders Expeditionaries Association" (AEI) is a civilian society that was

founded on October, 27, 1993, in Florianopolis City, by Pedro Sirzanink, PP5SZ. For more information about "AEI", please read the following link: http://www.aei.radioamador.org.br

QSLs for TC12AKUT, which was active between Decemeber 1-15th, 2008, to celebrate the 12th anniversary of AKUT Search & Rescue Association <www.akut.org.tr> by the AKUT DXpedition Team from Kartepe and Karaburun, will be out before the end of January 2009. More than 15k QSOs were made during this period. Check out the following links for pictures at:
http://www.ta0u.com/galeri.asp
http://www.ta0u.com/galeri2.asp?id=3D6
The QSL Manager is TA0U: P.O. Box 17 34734 Sahra-i Cedid, Istanbul, Republic of Turkey.

QSLS RECEIVED VIA THE BUREAU: 3A/F4CQA, 3DA0CW, 4Z5PG, 6K2AVL, 7Z1HL, 8R1PW, C91CW, C93DY, CE0Z/DL2AH, DO1KGA, EA7TV/P, EC7ABV, EL2DX, EU1PA, F4ELJ/P, F6HQP/P, FJ/G3TXF, J6/DL7AFS, JW/F8DVD, LY80A, LZ130LO, LZ1JZ, MD0LON, OH0X, OH3OJ/P, OH9SCL, OY9R, PJ7/DG5JX, R50KP, RZ3DH, SU8BHI, SX7W, TI9KK, TX5C, UA6YW, UE1OKI, UR4Z, V5/DJ8VC, VP6PR, YI9CW, YO2LXW, YO8RIJ, YV5AJ, YV5EAH and ZL7/SP9PT

S7, SEYCHELLES. Jan, DL7JAN, will be active as S79JF from Praslin Island (AF-024) between Februrary 22nd and March 6th (2009). Activity will be on 40-10 meters using CW, SSB, RTTY and possibly PSK31. QSL via DL7JAN, direct or by the Bureau.

V5, NAMIBIA (Satellites, VHF, UHF and EME). Operators Hal/ZS6WB, Pine/ZS6OB, Dick/ZS6BUG, Sarel/ZS6AC, Dave/N7BHC and Dan/HB9CRQ will be active from the moonrise on January 7th to moonset on January 16th (2009). Their QTH will be in Luderitz, Namibia (Grid Locator JG73NI). Activity will be mainly on 50, 144, 432 and 1296 MHz EME. At the same time, they will be active for transatlantic Tropo on 144 and 432 and on the satellites (AO-7, FO-29 and AO-51). For more details and updates, watch the following Web page at: http://hb9q.ch/joomla/index.php

VI2, AUSTRALIA (Att. PFX Hunters - Special Event Update). For those amateurs keen on collecting unusual callsigns, the Waverley Amateur Radio Society, a radio club in suburban Sydney, Australia, and claiming to be the oldest continuously licensed radio club in Australia, will be activating the special event callsign VI2BV90 between January 24th and February 1st (2009). Activity is to celebrate the 90th anniversary of the club. Operation will be SSB mode, on or near 3590, 7090, 14190, 21190 and 28490 kHz, as well as IRLP node 6250 and Echolink node 305559. Times of operation will depend on operator availability. Up-to-date

information may be found on the Club's Web site at: http://www.vk2bv.org

VQ9(8), CHAGOS ISLANDS. Jim, ND9M, informed OPDX on Friday that he has just arrived back on Diego Garcia for another four month tour (He is an electronics officer onboard the M/V Sgt William R Button). His VQ9JC license was renewed without difficulty, and as a plus, Jim has requested and was issued a two week license to operate as VQ98JC between December 18-31st. He was heard this past weekend on the air using this special callsign on 30/20/17/15 meters CW. He also mentions that his QSLs for his VQ98JC operation will not be printed until after his return to the states in April 2009. Jim states, "My operating times are typically during my local evening from 1200-1630z on Sunday through Thursday and 1200-1730z on Friday and Saturday. (Local time is GMT +6 all year.) There will be occasional overnight operating (usually on weekends). This will allow me to remain QRV until 0100z when I must return to my ship for the day's business. I'll be QRV on all bands and modes plus satellite (AO-51, SO-50, etc.). As usual, QSL via the home callsign, ND9M."

ZF2, CAYMAN ISLANDS. Operators Gary/W2VQ and his son Paul/WQ2N will be active as ZF2VQ and ZF2NN, respectively, between December 28th and January 3rd. Activity will be on 160-6 meters using CW, SSB and RTTY. They will focus on Europe and Asia using only 100 watts into beams, verticals amd dipole antennas. QSL ZF2NN via WQ2N and ZF2VQ via W2VQ.

Hi,
Ive been out of the ham radio loop for a bit and need some guidance. I have an Icom IC-725 xcvr and want to know what kind of cable and where to get a good deal on it, to connect my Vista computer to my rig. Ive seen some CV-I(?) cables, but dont really know what I need. I have the DXLab suite and would like to use that program as my control program (If there are any better interfaces out there, Id be open to hearing about them). Ive seen some cables for about $14 to $35 that look like they only have a small phone connector on one end and a usb connector on the other, and come with a driver on cd. Is this something that would work for me? Or do I need to look for something else? Any help is appreciated. TIA.
Brian

You can claim that if you like, but most people in Illinois know that
the FIOA is our state Fags of Illinois Association. I had assumed that
you were counting down to a chapter meeting in the Taylorville area.

Your "thread jacking" is an effort to steal threads you didn't start
and is a form of harassment. I, OTOH, reset the topics to their
original content in order to thwart you. Over time, I have been quite
successful, and I am slowly beating your thefts back. You have
currently failed to hijack a total of 32 restored threads.

We good guys always win in the end, because God is always on our side.

2336. A/B switch for ACC port on FT-817

I was wondering if anyone knew of a source for an A/B switch for the ACC port in the back of the FT-817. I need it because I have both an LDG Z100 auto-tuner plus a CAT cable for computer control. Both items to me are indispensible, but reaching back and manually swapping cables every time I want to switch devices is a pain in the backside.

I'm sure SOMEONE out there knows where I could get such a device. Right now I can't even find the switch, cables and connectors to BUILD one myself, plus the fact that my eyesight is bad enough that working on something that small is a bit difficult to do.

FREE: Streaming Internet Radio toolbar - what is it?
This is a free browser add-on to help you get the most from your PC when connected to the web. The unique Streaming, Internet Radio Toolbar brings you a much better, enhanced, internet experience - it's FREE, with no spyware or viruses, does not open pop-ups or hijack your searches, and no personal information is required.

The Streaming Internet Radio toolbar, as the name suggests, is a toolbar with a radio built in - it has access to thousands of online radio stations. If a radio station isn't within the online database, you can add your own favourite stations, allowing them to be available to the thousands of users that use the toolbar on a daily basis.

The built in radio may be the main feature of the toolbar, but there are other tools and gadgets that are just as useful - in fact the name of our toolbar does it a injustice! Here are the main features of our toolbar:

- Web search - search multiple sites from your browser.
- Social bookmarking/networking tools - share your favourite websites.
- Email checker - receive alerts when you have mail.
- Popup blocker and cache cleaner - cover your tracks!
- Dizzler jukebox - listen to music, watch pop videos and more.
- Entertainment - watch web TV, view virals, local news and sport.
- Google earth - Discover the earth.
- Customisable home page - choose how your home page should look!
- Weather - customisable forecasts for your area.
- News - keep up to date with world affairs.
- Games - hours of fun with online gaming.
- And more - there are too many features to list here!

The Streaming Internet Radio toolbar has been downloaded by thousands of users worldwide and is featured on some of the biggest download sites on the web - our toolbar has also been featured in many top selling, worldwide computer magazines - including the UK's #1 selling magazine: ComputerActive (issue 254).

TRUSTe certified
Our toolbar has undergone rigorous, independant, testing by TRUSTe, and has been proven to be free from spyware/malware. For mor information, please read our toolbar Privacy Policy. TRUSTe helps millions of consumers identify trustworthy online organizations through its Web Privacy Seal, Email Privacy Seal and Trusted Download

Programs. TRUSTe ensures online privacy and protects confidential user information on more than 2,400 Web sites and many of the most highly trafficked, including Yahoo, AOL, Microsoft, Disney, eBay, Intuit, Pepsi and Apple. Independent research shows that when a TRUSTe web seal is present, visitors and customers are more likely to share personal information, register at higher rates and spend more money. To learn more about internet privacy visit http://www.truste.org.

DOWNLOAD THE STREAMING INTERNET RADIO TOOLBAR
Why not give the Streaming Internet Radio toolbar go? You have nothing to lose, and lots to gain. Our toolbar is available for both Internet Explorer and Firefox browsers. Download and installation is quick and straightforward. If you don't like our toolbar, just uninstall it. As per TRUSTe requirements, our toolbar will not leave anything on your PC following removal.

There is no such thing as God, god is fucking dead. As for the "Good
Guys" anyone who supports the firing of someone from their job is NOT
a good guy but a fucking SCUMBAG. ANYONE who supports the malicious
interference of someone is NOT a good guy but a fucking SCUMBAG.
ANYONE who FUCKS someone out of their life, liberty and pursuit of
happiness is a FUCKING SCUMBAG...

But it's okay to put cartoon images of adults raping babies on a blog, isn't it Todd? Other people think that ANYONE who does that is also a F-ING SCUMBAG...

As to your religion of atheism, that's another topic. Jew, Catholic, or athiest, they all are religions which claim they can prove something (God exists; God doesn't exist - flip sides of the same coin). I don't think you know the first thing about such concepts, but because you need to justify your otherwise unacceptable sexual tastes, you choose athiesm as your way out and your way to express your hate of others who disapprove of you.

Mark, otoh, takes an ancient religion, mixes it with paganistic notions, and comes up with a home-brew "religion" that is just as self serving and ignorant as your own athiesm.

Bah.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4A, MEXICO (Update/Special Event). Members of the DXXE (Mexican Contest and DX group) are now active celebrating their 4th anniversary by using the special callsign 4A1DXXE until January 6th. Activity will be on 160-6 meters using CW, SSB and RTTY. They were also heard on the AO51 satellite this past weekend. QSL via N7RO and the LoTW. QSOs with this station are good for the DXXE Award. For more information, visit the DXXE Web page at: http://www.dxxe.org

4M, VENEZUELA. Operators from the 4M5DX Group (Franco/YV1FM, Jose/YV5TX, Alex/YV5SSB and Jesus/YV5MSG) will be active as 4M5DX during the CQWW WPX RTTY Contest (February 14-15th) as a Multi-Single/High-Power entry. QSL via IT9DAA.

A35, TONGA (6m History). Paul, A35RK, has been active on 6 meters this past week and has made some 6 meter history. He made a PSK31 QSO (at 0127z) and RTTY QSO (at 0129z) on 6 meters with Colin, VK4CC, on December 26th. This is the first time it has ever been done between VK and A3!

ASIAN TRIP (Update). You have only a few more dates to work Frank, I2DMI, as A52RY from Thimphu, because he will go QRT on December 31st. Frank has been active on 80/40/30/20/17 meters mainly RTTY. His next stop will be Kathmandu, Nepal. He still does not know his callsign for Nepal, but he will get a 9N7 (RY? or DMI?) after his arrival. QSOs will be put on LoTW and e-QSL the second week of January. Bureau cards will go out the fourth week of March. You can QSL direct to I2DMI: P.O. Box 55, 22063 CANTU, Italy. Include a self addressed envelope (SAE) and sufficient return postage. Please QSL only to his P.O. Box # 55 - 22063 Cantu (not his home address).

CO8, CUBA. Eduardo, CO8LY, states that if somebody needs a confirmed QSL from Cuba, he is active on 160 meters or PKS31, RTTY, CW and SSB on any bands. You can make a sked with him via E-mail at: co8ly@frcscu.ciges.inf.cu

CU8, AZORES (Lighthouse Op). Operators Antonio/CU8AS, Ruedi/HB9CQL and Hermann HB9CRV (CT3FN) will be active as CU8W from the Albarnaz Lighthouse (DFP FAZ-02, ARLHS AZO-016, TWLHD WLH CU-008) on Flores Island (EU-089, DIP AZ-008, WLOTA LH-0947) between January 19-23rd. Activity will be mainly on the lower bands using CW and RTTY. QSL via CT1GFK. Bureau requests are OK via E-mail to: cu8at@sapo.pt

CV5, URUGUAY (Update/IOTA Op). Operators Lupo/CX2ABC, Julian/CX5BE, Pedro/CX5BW, Nelson/CX6ACY, Jorge/CX6DAP, Gustavo/CX7AT and Daniel/CX9AU will be active as CV5A from Isla de Flores (SA-030), January 22-26th. Activity will be on 160-2 meters using CW, SSB, RTTY and PSK31. They will also be in the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Op entry. QSL via CX2ABC.

E4, PALESTINE (Update/Reminder). Just a reminder that an Italian group is expected to be active as E44M this week between January 1-11th. Activity

will be on 160-2 meters using CW, SSB, RTTY and all the digital modes with a maximum power of 1KW. They will have 3 stations on the air active with beams, verticals and wire antennas. They state, "Even if early January is not a a good period for VHF, they will monitor 6 and 2 meters and try any contact." The updated team list includes the following 6 members: Salvador/C31CT, Simone/IZ0BTV, Bello/IZ0EGM, Giorgio/IZ4AKS, Pasquale/IZ8IYX, Vini/IK2CIO and Leszek/SP3DOI. Operations will be focused on RTTY and the other digital modes as well as the low bands and 30/17/12 meters. They plan to pay special attention to stations outside Europe when the propagation will allow it A Web page is now active at: http://www.dxcoffee.com/e44m

E51, SOUTH COOK ISLANDS (6m/2m EME). Operators Lance/W7GJ and Bob/ZL1RS will be in Rarotonga (from grid BG08dr) at the end of March (possibly between March 26th and April 4th) to activate E51 on EME on 6 meters (Lance) and 2 meters (Bob). Lance's callsign will be E51SIX and the 6m operation will take place on 50.190 MHz. Details of Bob's callsign and activity were not provided. Lance wanted to announce this DXpedition as far in advance as possible in order to provide adequate time for people to gear up for it. More station details will be announced as it gets closer to the operation. For more details, visit the following Web page at: http://www.bigskyspaces.com/w7gj/E51SIX.htm

FT5W, CROZET ISLAND (Update). Not much news to report here. Reports indicate that Florentin, F4DYW/FT5WO, has been very busy, but he has set up a temporary station because he is going to change his room soon. He would like to use the base HF station with an amp connected to a rombic antenna, but he is waiting for official permission. Some French stations have reported that Florentin was on Saturday, but very weak on 14127 kHz around 1720z. Remember, he will stay there until the end of November 2009, and will return back home in early 2010. QSL via F4DYW, direct or by the bureau after he returns back home. Look for updates on: http://f4dyw.free.fr/index.php?langue=fr&contenu=ft5wo.html
LAST MINUTE UPDATE: Just before going to print, Mehdi, F5PFP, announced that he received an E-mail from Florentin stating to look for him around +/- 1700z, on 14120 kHz (for French speaking stations) or +/- 14262 kHz (for other stations) as a regular operating time and usual frequencies.

HK, COLOMBIA. Cody, KC2LSD, will be active as HK3/KC2LSD between January 9-15th. Activity will be mostly at 2300z on 40/30/20 meters, with some daytime operations as well. Cody, states, "I'll usually get spotted on the cluster but this time I will post myself on the
< http://www.obriensweb.com/sked/ >.
If anybody wants to set up a sked, E-mail me at kc2lsd@yahoo.com "

HS, THAILAND. Kurt, HS0ZBS, from Phanom Sarakham, East Thailand, is active daily until January 10th, using the OLIVIA Mode. He starts at 1100z, on 14106.5 or 14107.5 kHz, calling CQ for 10 minutes.

IOTA NEWS.....
EU-096. You still have a few more days to work Jouni/OH4KZM and Jukka/OH4MFA as OH4JT/1 from Kustavi Island. They are expected to

go QRT on December 30th. Activity will be on 160-10 meters, mainly CW. QSL via OH4MFA, direct or by the Bureau. For more information: http://personal.inet.fi/surf/oh4mfa/oh4jt-1.htm

NA-069. Peter, VE3IKV, will be active as W4/VA3RA from Sanibel Island (USI FL-021S, WLOTA LH-2044, Lee County, Florida), December 29th through January 3rd (2009). Activity will primarily be CW on 40 and 20 meters. QSL via his home callsign, direct or by the Bureau.

JD1, OGASAWARA ISLANDS. Just a reminder that operators Hiroyuki/JG7PSJ and Makoto/JI5RPT will be active as JD1BMH and JD1BLY, respectively, from Chichijima Island (AS-031) between December 28th and January 2nd. Activity will be on 160-6 meters, with an emphasis on the low bands, using CW, SSB and the Digital modes. Also on the satellites too. QSL via their home callsigns. Visit the operator's Web pages at:
http://www.ji5rpt.com/jd1

KP5, DESECHEO ISLAND DXPEDITION (Update). Team 2009 Desecheo has been updated on their Web page. The On-Island Team now includes: Ralph Fedor/K0IR, Glen Kesselring/K0JGH, Grant Kesselring/K1KD, Brad Farrell/K4RT, Bob Allphin/K4UEE, Tim Pearson/K5AC, Dick Hanson/K5AND, Gary Stouder/K9SG, George Nicholson/N4GRN, Bill Barr/N4NX, Mike Mraz/N6MZ, Mike Thomas/NA5U, Felipe Hernandez/NP4Z, Neil King/VA7DX, Steve Wright/VE7CT, Glenn Johnson/W0GJ, Jim Livengood/W0NB, Gordon Hardman/W0RUN, John Crovelli/W2GD, Gregg Marco/W6IZT, Garry Ritchie/W8OI and Jerry Rosalius/WB9Z. The Off-Island Team now includes: Asia Pilot Station Toshi Kusano/JA1ELY, Antennas Jim Streible/K4DLI, Propagation Dude Carl Luetzelschwab/K9LA (check out Carl's Propagation section on the Web page), QSL Manager Bob Schenck/N2OO, Webmaster Chaz Cone/W4GKF, Antenna Paul Playford/W8AEF and KP4 Liaison Eladio Acevedo-Velez/WP3MW. Remember, for updates visit the KP5 Web page at: http://www.kp5.us
Desecheo Team members are "Getting Fit". Check out there "Desecheo 2009 Fitness Program" Web page at: http://www.fitfortrips.com/desecheo.aspx

MD4, ISLE OF MAN. Operators David/G3NKC, Martin/G4XUM and Bob/MD0CCE will be active as MD4K during the CQ 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via G3NKC. QSL goes to G3NKC. If direct, please remember that 1 USD is not sufficient for return postage outside of EU.

NETHERLANDS ANTILLES CONTINUED. Hans Timmerman, PB2T, President of the European DX Foundation (EUDXF), announced on the EUDXF Web page Tuesday, December 16th (edited): "According to Dutch Prime Minister Balkenende, important agreements to secure the future of the people on the Netherlands Antilles were made. During (another) Round Table Conference held on 15th December 2008 an agreement was signed on the future of the Netherlands Antilles. In 2009 more work has to be done on the execution of the agreements made. Depending on progress a date, will be set for the implementation of the new structure. There is hope that all will be finalized in 2010. In 2005 it was agreed that Curacao (PJ2) and Sint Maarten (PJ7) will

become autonomous countries within the Kingdom of the Netherlands and that the islands Bonaire (PJ4), Sint Eustatius (PJ5) and Saba (PJ6) will become Dutch municipalities. DXCC wise, these changes could result in deletion of two entities (PJ2 and PJ7) and four new entities: Curacao (with status aparte), Sint Maarten (with status aparte), Bonaire, Sint Eustatius and Saba."

NOW WAIT A SECOND! Those who like to be on time will have to wait a second for on New Year's Eve before ringing in the New Year on Wednesday. Read all about it at:
http://news.yahoo.com/s/space/20081226/sc_space/2009toarrivenotasecondtoosoon

OK, CZECH REPUBLIC (WAS Help Needed). Martin, OK1WCF, informs OPDX that he is trying to get his WAS award via LoTW, but still needs the following LoTW stations from these states: HAWAII, MONTANA, NORTH DAKOTA and UTAH. So, if you are in any of these states, please contact Martin via E-mail for a sked at <wcf@centrum.cz>. He states that he is active on 40-10 meters using SSB, RTTY and other DIGI modes.

PJ2, NETHERLANDS ANTILLES. Jan, PA4JJ, will be active as PJ2/PA4JJ from Curacao (SA-006, WLOTA LH-0942) between April 1-11th. This will be a holiday style operation. Jan informs OPDX that he will try to be active on as many bands as he can, except 160m. He will be on all modes but mostly digital. His equipment is a FT-897 and a a ZS6BKW antenna (which he states can be tuned on 6m, and he will be using WSJT (JT6M) on 6m). QSL direct to his home callsign.

QSL INFO AND NEWS.....
NOT THE QSL MANAGER. Joe, W3HNK, states that he is NOT the QSL Manager for CO6LC or any of his operations. He does not even know him.

QSLS VIA LOTW: 4A1DXXE, 5Z1A, 5Z4DZ, 9A1CAL, B3C, H7/IV3IYH, HI3A, KD7P/NH2, NP2KW, R1FJT, TG9/IV3IYH, UN1L, V26K and VP2EDL

QSLS RECEIVED VIA THE BUREAU: OJ1ABOA

RTTY WELCOME DAY (January 1st - All Day Long!). Phil, N8PS, states: "Now is your chance to meet and greet other RTTY operators from all over the world.
-- No hours, No rules, No score, No pressure, No quota, No log needed. --
- Any band*, Any contact, Any time, Any power, Any equipment, Any antenna.-
(*) = Authorized amateur radio sub-bands, of course.
Get that antique set-up running or fire-up that brand new rig. Use any modem or computer or combination thereof. Meet and greet others without time limits. Have a short exchange or a rag-chew - whatever suits you. Participation is voluntary. No log necessary. No awards - just satisfaction. Help others find joy in RTTY by operating for the first time, or the thousandth time.

Get your set-up running smoothly and help others to reverse inversion.
Just get on the air to say 'howdy' -or- 'hello' -or-'WELCOME TO RTTY'
PLEASE HELP SPREAD THE NEWS. TELL YOUR FRIENDS AND NEIGHBORS.
'I'LL SEE YOU ON THE AIR FOR:'
RTTY WELCOME DAY - 01 JANUARY 2009 - ALL DAY LONG
73 - de Phil - N8PS, RTTY Welcome Day Cheerleader"

S2, BANGLADESH (Update/IOTA Op Delayed Again!). David, EB7DX, informs OPDX that the St. Martin's Island (AS-127), Bangladesh operation that was delayed in early December and was expected to be active at the end of December, will be delayed again "due to some unavoidable circumstance". The St. Martin's Island, Teknaf, Bangladesh, operation will now take place between January 16-22nd. The callsign will be S21DX. The six main operators will be: S21RC (Fazlay Rabby), S21AM (Manjurul Haque), S21DM (DM Hemayet), S21S (Sohel Awrangzeb), S21RO (Rasedul Islam) and S21SA (Sayra Shahlin, YL). QSL Manager will be EB7DX (www.eb7dx.com). For more details and updates, visit their Web page at: http://s2iota.eb7dx.com

S2, BANGLADESH. Yoon, 6K2AVL, in HL-land, informs OPDX that some members of the Korea DX Club will be active from Dhaka in the People's Republic of Bangladesh between March 7-12th. Operators mentioned are: Kim/6K5YPW, Kang/DS2AGH, Lee/DS2BGV, Kim/ HL3QP, Choi/HL5FUA and Yoon/6K2AVL. Yoon states that they hope to get their callsign next month from the Bangladesh Telecommunication Regulatory Commission. They plan to operate on 160-10 meters, CW, SSB and the digital modes, using three amplifiers, verticals and beams. Suggested frequencies are:
CW - 1822/1824, 3515, 7015, 10115, 14015, 18075, 21015, 24895 and 28015
SSB - 3795, 7095, 14195, 18130, 21295, 24950 and 28460
Digi - 14082, 21082 and 28100 kHz
Their main purpose for the Bangladesh DXpediton is to provide enough chances to have a QSO with Bangladesh for all DXers who need it. They hope it will be a good chance for Asia and Europe stations to work them on all bands. Also, they will do their best to work both North and South American stations within workable band conditions. QSLs are via HL5FUA. For more details, updates and their logs, please visit the following Web page at: http://dxpedition.co.kr

SPECIAL CANADIAN PREFIXES. Look for Canadian amateurs to use the following special prefixes between January 1st and February 28th to celebrate the 400th anniversary of Galileo using of optical instruments to inspect the universe. Also, please note that this year is the International Year of Astronomy (IYA). Some Canadian amateurs will exchange their prefixes as follows:
VE changes to CG VO changes to CH |For example: VE7DAO -> CG7DAO
VA changes to CF VY changes to CI | VA3DAO -> CF3DAO

The following are announced operations using the special prefix callsigns for the IYA:
CG3OIJ - Operator Darin, VE3OIJ; on 80m-70cm (WW Loc. FN25EJ). QSL via VE3OIJ, by the Bureau, eQSL or direct to: P. Darin Cowan, 674 Southmore Dr. W, Ottawa, ON K1V 7A1, Canada.), or

CG9NC - Paul, VE9NC, from Hampton, New Brunswick; mainly on 20 meters on the Digital modes. QSL via VE9NC.

SV5, DODECANESE. Members of the Greek DXpedition DX PLUS Team are expected to activate the rocky Levitha Islet (EU-001, GIOTA DKS-050, MIA MGD-019, WLOTA LH-0846) in the South Aegean Sea for about 10 days between June 8-14th. They plan to use the special callsign SX5LA. QSL via SV1GRM. More details will be forthcoming as they get closer to the activation date. To see a picture of the islet, go to: http://www.qrz.com/db/SX5LA

T8, PALAU (OC-009). Several sources are reporting that Hide, JM1LJS, will be active as T80W between December 28th and January 5th. Activity will be on 80-6 meters using CW and SSB during his spare time. QSL via his home callsign. Visit his Web page to see pages of the T80 Rental Shack at: http://radio-dream.com/t80w

TT8, CHAD. Sylvain, F6CIS, active as TT8SK, is expected to be on the air possibly for 6 months to 3 years. He is only active during his spare time. QSNs show activity has been between 1830-1930z on 40 or 20 meters SSB. QSL via F5OZF.

VP2M, MONTSERRAT. Operators Mike/W1USN, Scott/W1SSR and Bob/AA1M will be operating from Montserrat between February 25th and March 7th. They plan to operate CW, SSB and PSK31. Their callsigns have not been assigned as of this date. They are looking to get VP2MPR (W1USN) and VP2MPL (AA1M), if not, VP2M/homecall. QSL via their CBA.

VP8, FALKLAND ISLANDS (Update/YL Op!). Just a reminder that an international group of YLs will activate the Falkland Islands (SA-002) between January 17-31st. Each operator will be signing with the callsign "VP8YL*", where the third letter of the suffix will be assigned to each YL operator at beginning of the operation. YL operators mentioned at present include: Janet/VP8AIB, Chantal/PA3GQG, Unni/LA6RHA, Jeanie/WA6UVF, Mio/JR3MVF, Liz/M0ACL, Victoria/SV2KBS, Nicky/M5YLO and Ruth/IT9ESZ. The activity will be mainly on SSB, on all bands, but only 20 hours every day. QSL via operator's home callsign. Look for more information to become available at: http://www.radioclubs.net/aa_vp8yl_/

I never claimed to be an atheist, I just hate jackass who put religion
into everything. Religion isn't as great as you all think...after all
the vast majority of problems in the world from the past to the
present is caused by religion.

I've study the ancient religions from Sumeria to Shinto to everything
in between, even the whacked out religions...there is no law that
states you can't start your own religion or take parts from different
religions and make it your own.

Check out the poll at http://nimbusters.org/forum/poll/index.php?dispid=101
for details. Needless to say, Woger Wiseman is dejected at losing his
long standing status as yearly CoTY, but the times are changing.

Question: Should the acronym be "CoTY" or "CSoTY?" We need to know
the correct form before engraving Marky's award plaque.

Yea, all you have to do is act just like you do here in the news group -
get an endless loop tape that said "N9OGL is a LID and SPAMMER!; N9OGL
is a LID and SPAMMER!; N9OGL is a LID and SPAMMER!" just like all your
lawsuit posts here in the group.

Who Ville sticks again! ;)
